Saturday, November 26

- 8am Bull Pen Alley Show
10am Commercial Cattle Show
4pm RBC Beef Supreme Challenge

BOHRSON MARKETING SERVICES LTD. | SALES MANAGEMENT | WWW.BOHRSON.COM

*S*imply said, we are coming loaded for bear within the 50th Anniversary Sale! This 50 for Fifty edition of the highly respected Agribition Simmental Sale is among one of the most exciting sales assembled during Agribition for some time ... of any breed. The breed-leaders within the Simmental breed stepped up and are offering the heart of their herd and we feel every base is covered in this outstanding line-up of excellent live cattle and sought after frozen genetics.

From fullblood to red to black, we have as deep of an offering as one could imagine. Every year we have loyal breeders that annually consign to this sale and they are once again bringing their best in 2017. That is complimented with exciting genetic opportunities from highly respected breeders that have been very influential in the success of the Simmental breed throughout the past 50 years.

It is humbling for our sales management team to organize a sale of this magnitude and we would like to thank the SSA for working with us and every consignor for stepping up and bringing their very best to this years event. We anticipate majority of breeders will be in attendance for the 50th Anniversary but if you are unable to attend, feel free to contact any of us at BMS to represent your needs in a professional manner. See you at the 50th!

Scott Bohrson, Bohrson Marketing Services Ltd.

SASKATCHEWAN SIMMENTAL ASSOCIATION | PRESIDENT | WWW.SASKSIMMENTAL.COM

*T*he Saskatchewan Simmental Board of directors would like to welcome you to the 2017 50th Anniversary edition of the Agribition Simmental Sale. The “50 for Fifty” event promises to be the must attend sale of the fall sale season.

The consignors to this sale have made animals available from the very top end of their respective programs and we thank them for their dedication to this event. We encourage you to join us not only for the sale on Wednesday evening, but also for all of the 50th anniversary festivities.

Ryan Lundberg, Saskatchewan Simmental Association President

Welcome to the

Greetings and Welcome to Canadian Western Agribition 2017! Canadian Simmental cattle were first part of Canadian Western Agribition in the early 1970's and at the 1991 sale the \$10,000,000 mark of Simmental cattle selling through the Agribition Simmental Sale was achieved. That was a phenomenal achievement and proof that from the very beginning that Canadian Simmental breeders and Agribition have partnered to promote and market some of the very best Simmental genetics to every region of Canada and around the World.

The Agribition Simmental sale has become synonymous with quality and this year Canadian Simmental breeders have again dug deep into their herds in order to continue that tradition of excellence as they come together at Agribition to celebrate 50 years of Simmental in Canada.

On behalf of Canadian Western Agribition we would like to thank Simmental breeders from across Canada for their continued support of Agribition, and we look forward to many more years of working together to further promote and expand the Simmental breed.

On behalf of the Board of Directors, its staff, and hundreds of volunteers; welcome to Canadian Western Agribition and best of luck with your sale!

Bruce Holmquist, Canadian Western Agribition President

On behalf of the Canadian Simmental Association, welcome to Canadian Western Agribition and the prestigious 50 for Fifty Simmental Sale. This sale is one of the highlights of our 50th Anniversary celebrations at Agribition and we invite you to be a part of the excitement of this milestone in Simmental history. The excitement surrounding Simmental events at Agribition over the years has been electric and the 2017 event will go down in history as one of our breed's most memorable moments.

Plan to attend the banquet on Tuesday evening at the Double Tree Hotel, the National Simmental Show on Wednesday and this exiting 50 for Fifty event Wednesday evening. It will be a once in a lifetime opportunity to celebrate all the accomplishments of the Simmental breed in Canada over the past 50 years.

Lee McMillen, Canadian Simmental Association President

Lot 1 - Offering choice of any 2016 born - bred heifer from Westway Farms Ltd.

Westway Farms is very proud to be a part of the Simmental Breed and we are very excited to offer something special for the 50th Anniversary Sale at Agribition. It is the very first time we have ever offered a lot for sale at Agribition and what a perfect opportunity that it be for the 50 for Fifty Anniversary Sale. What we are offering is a pick of the 2016 born - Bred Heifers! No females will be held back for the selection opportunity as the entire group will be available. The buyer will have over 100 bred heifers to chose from and these females come from the heart of our herd and each year we admire how our first time calvers perform. We breed our cattle for females to be productive, sound in structure with exceptional udders.

A large group of these heifers were AI'd to some exciting sires like: W/C Loaded Up, WINC Live Ammo, WLB Bounty Hunter, JF Signature, TNT 90 Proof and WS Prime Beef. There is also a group naturally bred to our calving ease Reload son WFL Roadhouse 25C and MAF Red Walker 8D. A majority of these females will start calving mid January.

We feel this is a very unique opportunity as this is the first time we have ever offered something like this. We always like to bring our best to town but this time the buyer will have job of picking their choice at the farm. We will give the buyer until December 17th to make their selection.

We are happy to be celebrating 50 years of Simmental in Canada with this sale offering!

Lot 2 - Offering choice of any 2017 born - open heifer from McMillen Ranch Ltd.

McMillen Ranching Ltd. has dug deep in order to offer the heart of their herd in this exciting lot for the 50th Anniversary Sale. The MRL program is world-renowned and have successfully marketed genetics throughout North America as well to Europe and Australia. With great excitement, MRL is offering the pick of their 2017 born - open heifers in this prestigious event.

The sires represented in the 2017 calf crop are very exciting to say the least. The \$100,000 Missile is proving to be one of the most consistent breeding bulls to date and we feel the females and bulls he has raised will leave a lasting impression. Riddler, Pretty Reckless and El Tigre compliment the black section with many options from their sired groups. Capone, Predestined & Red Whiskey lead the red section with extreme quality with a strong group.

The MRL females are the backbone of our operation and whether it is a natural calf or one from our ET program, we have confidence they will be a strong producing females for years to come for the successful buyer. A large selection of ET heifer calves are available from our leading donors and they carry the most current and prosperous genetics in the Simmental breed.

50 years is a true milestone for the Simmental breed and we are excited to the next 50 here at MRL with the next generation becoming more and more involved!

FERME GAGNON INC *Pick of Herd Flush*

With great excitement we offer the pick of herd flush from any female at Ferme Gagnon born in 2012 or older. For the 50th Anniversary event, we wanted to offer something that represented our entire program and we feel by offering the backbone of our herd, it will showcase the strong cow families represented in it. These cows are the heart of our program and have a big time resume behind each one of them. All of our past high sellers stem back to these cornerstone donors and we feel it represents many of the best cow families in the Fleckvieh industry. We will guide you to pick the right female for your program and we will open our semen tank without additional charges if you want to use one of our bulls. We look forward to work with you. We guarantee a minimum of 6 embryos and split them over 10 with Gagnon getting the odd numbers. Embryos can be exportable. Flush to be done before March 2018.

Flush on DOUBLE BAR D 229Z // Full Fleckvieh // Flush to be done Feb-March 2018

229Z was acquired as a \$15,000 high seller from the highly respected Double Bar D program and after raising her first calf that commanded \$13,000, she quickly entered our donor arsenal. Her largest accomplishment to date may be the impressive daughter across the page that sells in Lot 5 from Sunny Valley as a feature bred female to sell this fall in Canada. We feel 229Z is a potent breeding piece that always comes through no matter how she is bred. For this flush, purchaser can supply their own semen at their cost or we will open up our semen inventory and you can use any of the following - Blueprint (would make full sib to Lot 5), Raptor, Dirty Harry, Subaru, Dakota, Spitfire 20X, Jahari, Rival, Warlord, Stimulation, Harrach, and much more.

SVS *Lolita* 633D // Polled Full Fleckvieh // 1168699 // TLAS 633D // 20/Jan/2016 // bw-89 // ww-

SVS Lolita 633D is a unique, polled, 100% Fleckvieh female that we are proud to offer in this 50th Anniversary event. She is well balanced, smooth made and is setting up what looks to be a perfect udder. 633D is a big volumed female with an excellent pedigree. Blueprint has certainly made his mark in the industry as a reliable calving ease bull and the ability to produce top end, marketable cattle. 633D's dam, 229Z, was purchased as a high seller at Double Bar D and has been a solid donor for us and Canadian Donors. We feel that SVS Lolita 633D has a lot to offer to the Simmental industry.

NGDB *Dalila* 645D // Horned Fullblood // 1180723 // NGDB 645D // 31/Jan/2016 // bw-90 // ww-750

When approached about consigning to the 50 for 50 Anniversary Sale we jumped at the opportunity and finally decided to part with one right off the top of our bred heifer pen. 645D comes to you carrying an early AI service with no exposure to the great BluePrint who has done a lot of good for us in just a short time. We are extremely pleased with the calves our Night Train sire has left us, the bulls are a sale feature and his females are shaping up to be the front end pasture type. Her Dam is a good milking, big ribbed cow we acquired when we bought half the fullbloods from Kopp Farms. Look to 645D to add udder quality, foot structure, depth of body and overall eye appeal to every calf she raises. She is extremely attractive through her front end and has a dark red complexion with perfect markings. This is a female we are extremely proud to offer and one that is very hard to part with.

X-T BLACK *Debutante* 10D Homo Black // Homo Polled // 1179970 // LW 10D // 2/Apr/2016 // bw-85 // ww-675

A real opportunity here to buy one of only a handful of Ignition heifers in Canada, and to top that off she is bred to the one of the hottest sires on the market today, MRL Missile 138C, who we co own with Robb Farms and Bouchard Livestock. Debutante is out of a tremendous cow family that always raises the good ones. We own the dam TSN 12A and her full sister TSN 53B who go back to a Fortune 500 cow that really cranked out the good ones when mated to Predator. The Missile calves are absolutely full of style, mass and muscle, just the perfect type for what the Simmental industry is striving to produce today. Over 45 years of breeding Simmental cattle we don't believe our program has ever produced so many top end individuals and such a consistent sire group as Missile has at X-T. We are extremely excited to see what Debutante looks like this time next year with her Missile calf at her side. Normally a female of this potential would never be leaving our program but for the 50th anniversary sale we felt we had to dig deep and only sell our best!

32D is backed by a pedigree loaded with maternal power. She is sired by LFE Strong Arm 815Z, who was also the sire of the 2016 Agribition high seller. Her dam - IPU 305Z, is a very easy keeping, moderate framed & super uddered female. 305Z's bull calf will also be in our string this fall. At first glance, you can't help but admire 32D for her overall balance, rib shape, exceptional quarter, length of spine and tremendous depth of body. She was Reserve Grand Champion Simmental for Sadie at the Young Ranchman's Show early this fall. We believe this female could work in any program.

ERIXON *Lady* 82E // Homo Polled & Homo Black // 1198926 // BOBE 82E // 19/Jan/2017 // bw-92 // ww-732

When you get the opportunity to analyze this heifer you will appreciate her capacity, softness, and easy doing look. She is out of our walking herdsire MRL Pretty Reckless who has done wonders for our program! Reckless has more than exceeded our expectations, he is stout, docile, and packed full of muscle. His first calf crop was an exciting one with many top end high sellers. The dam of 82E raised an awesome Combustible sired black white face bred heifer that sold in the 2016 prestigious Friday Night Lights sale to MI Simmentals. The top and bottom side of this pedigree are tried and proven! Homo Polled & Homo Black

SVS Blk Nikki 730E has been a favorite from a very young age. Starting out at just 74 lbs, she has developed into a thick made, wide topped, heavy muscled female. 506C just might be our favorite Captain Morgan female (and we do have a lot of them)! She did an excellent job on her first calf and is one we expect big things from moving forward. We were lucky enough to get one of a few semen shares in IPU Red Deputy 25C, the \$77,500 high seller. He calved very well for us and his calves are the right kind. 730E has a stacked pedigree full of maternal greats. She is going to make an awesome cow!

MCINTOSH *Addictive* 51E // Polled // 1207152 // SBMC 51E // 27/Jan/2017 // bw-100 // ww-780

These flush mate sisters come to you from the most prominent black cow family at McIntosh Livestock. They have had many family members sell in this very sale in years past. Two years ago their sister Addictive 5C was named Reserve Champion Senior Heifer Calf and sold later that evening as the high selling heifer calf to Twisted Sisters and Hall's Cattle Company. From there she continued to have a very successful show career for them through her yearling year. The dam to these Addictive sisters is a product of arguably the most successful flush we have ever done in terms of saleability of the resulting calves. The Sweet Meat/Pocahontas cross turned out to be dynamite and we just wish we could have had more of these awesome females to add to our herd.

We expect these Addictive sisters to follow in the footsteps of their older sister, as this Wallbanger/16X cross produces cattle with pure power and elegance. These heifers are both very well balanced front to back and walk out gracefully with a sound stride. They have been very similar to each other since birth in terms of their growth pattern and soundness of structure. If you prefer a red or black hide will be the biggest thing separating these females come sale day.

MADER *Roxy Roller* 39E Homo Black // Polled // 1215573 // MDR 39E // 11/Jan/2017 // bw-84 // ww-755

"Roxy" as the kids call her, has been a sweetheart from day one! Our daughter, Stella, successfully showed this female throughout the summer months where the two of them were slapped Champion All Breeds Pee Wee female at Summer Synergy. The temperament on this female is second to none, and she is and always be a big part of building the confidence of showing cattle and being apart of the family business to our kids, and to us! With that said, the good ones is what it takes for these top sales, and a new calf can replace our void for next year with the kids, and a female with Roxy's quality can help showcase what we have to offer, and be a great addition to her new owners herd. She has that real sweet front end, extremely stout through her hip and rib shape, tracks well, has a nice udder coming down, and combines a lot of mass and power throughout. Many of our calves showing and selling this year will be sired by LFE Heavy Hitter. A bull that has already made and will continue to make a huge impact on our breeding program. From throwing a big foot, a huge hip, and that easy doing body type, he demands our attention through both the female and bull pen. Remington MS MRL 200U has been quite a female for us. She has now had 2 daughters sell in the inaugural Friday Night Lights Sale, and 4 top bulls sell through the bull sale including one that headed down to North Dakota. She is Homo Black.

MADER *Flirt* 3E Homo Black // Homo Polled // 1205666 // MDR 3E // 2/Jan/2017 // bw-80 // ww-815

Here is the first daughter to sell from our new leading donor cow, RF Certainly Flirtin 525C. Her stacked pedigree including some greats such as The Riddler, Captain Morgan, and the famous 202Z female from the Rancier's, make this package one of the most exciting pedigrees we can offer! The dam of this female along with her 5 full flush mates caused quite the stir a few years back at Friday Night Lights, where they demanded prices from \$18,000- \$45,000. Not an easy feat, and a true testament to the quality of females and their genetic make-up. Mader Flirt 3E is powerfully constructed, she is long spined, angular in her muscle mass, carries herself on very athletic feet and legs, has a great udder attachment, and will be competitive in a showing, but mostly profitable as a cow. We have been extremely happy with the Riddler progeny that have been born here. They seem to have an early growth curve, are soft middled, and sound structured cattle. She is Homo Black and Homo Polled.

Urika is a very good broody female with quite a unique pedigree - her sire is the good Soda Pop bull Barry Labatte owns. A Poker Face son by the amazing and popular Cream Soda Cow. On the dam's side, she traces twice to Shear Force and also to one of the best bulls we ever raised CMS Trademark! Her dam is a female we bought from Barkley @ SIBL at the Red & Black sale a couple years ago. She has raised a couple stand out heifers for us, including Urika. We believe 734E will be a great breeding female - she may not be the flashy show heifer, but if pedigree and substance are at all important - then Urika will be high on your list!

IPU *Temptress Clair* 105C Homo Polled // // exportable to USA & AUS and stored at Bow Valley

IPU Temptress Clair 105C was our pick out of the impressive offering last fall at the Simsational sale, and she very easily became the basis for a new black donor program for us and we are excited to offer embryos out of her and two impressive sires. There isn't much more we can add here about JF Milestone 999W that hasn't been said. But we think that this mating with Temptress Clair will make for some really interesting calves that should have plenty of style and performance to come to the top of any pen. CMS Empire 531C was our high selling Horizon son two years ago who sold to Jean-Francois Leblond in Quebec, and out of our ever popular Crosby daughter, CMS Heirloom. His first crop of calves is incredibly impressive, with tons of muscle and capacity but with the added polish to make them standouts. The calves from these embryos will be some of the first black Empire's and we can't wait to see how they perform! Take your pick, either way you will end up with calves that are sure to impress! **Guaranteeing two - 90 day pregnancies if implanted by an accredited technician.**

Lot 20A) 5 Embryos of KWA Ms Rock 22Z x IPU Red Western 49X

KWA *Ms Rock* 22Z Homo Polled // // exportable to USA & AUS and stored at Bow Valley

To mark the 50th Anniversary of the Agribition Simmental sale we dug deep into our embryo inventory to consign a proven and reliable genetic package. The same combination that created our highest selling female to date; KWA Ms Western 24B, selling to Casey Claffey in 2015. For years, we have utilized Red Western for his dependable calving ease and ability to sire sound, functional cattle. His daughters are continuing his legacy by consistently producing near the top of our herd. The dam of this exciting embryo package KWA Ms Red Rock 22Z, has established herself as a can't miss in our donor program. She routinely flushes exceptionally and this year she has top end offspring in both the bull and heifer pens. A full sibling is on offer from Millington Ranch and look no further for the proof that this pedigree works. The resulting offspring will be Homo polled by parentage. **Guaranteeing two - 90 day pregnancies if implanted by an accredited technician.**

If you're looking for a powerful bull making cow then check out Outlaw Ms. Erotic 705E. She has big time power written all over her, with her huge middle, deep wide hip, big top and very easy doing, she was a pasture favorite by many that toured this summer. Just a really great haired, nice footed, heifer that will raise some big time herd bulls. Her dam is a big bodied thick made solid black cow that milks very strong. A cow that is backed by a solid pedigree with Red label Powerline and Red Deck. 705E is sired by RF throttled a bull we used and showcased the last two years and left us with some great calves and had one heck of a show career. Being named champion bull 4 times and top 5 at Alberta Supreme. We have throttled females milking in our herd this year and they are very moderate thick with great udders. I think 705E has a lot to offer any herd with her very maternally stacked pedigree and her over all power and depth. Be sure to stop by stall and Outlaw MS Erotic out for yourself she won't disappoint.

MRK LUCY 7E is a late January born female that is a hard one to part with. 7E is a long spined, large volumed, smooth fronted female off of the impressive LFE THE RIDDLER 323B, who needs no introduction to the Simmental industry. Her dam, a Harvie Wallbanger female, is one of our foundation females and top end donor cows, LRX MS BLACK 91A, or better known around the ranch as Lucy. LRX 91A was purchased from Robb Farms in 2014 out of Checkers. LRX 91A had quite the start on the show road in 2015, being crowned champion Simmental female at Manitoba Youth Beef Round Up, Manitoba Ag Ex, and later her bull calf at side, MRK PRIORITY 3C, went on to be crowned reserve junior champion bull calf at Agribition. Priority was later sold out of the stall to Labatte Simmentals and Oberle Bros. With these powerful genetics, MRK LUCY 7E is sure to make a positive impact on your breeding program.

TCCOVNDY *Nirvana* 701E Polled // 1214178 // TCCO 701E // 7/Feb/2017 // bw-82

On behalf of the Tableland-Vandy Partnership we welcome you to the 2017 Agribition Simmental Sale held during Canadian Simmentals 50th Anniversary year. We are proud to consign TCCOVNDY Nirvana 1E. Two years ago we selected Early Sunset Queen 8C as a heifer calf out of the Fall Fusion sale in Lloydminster. As a heifer she really struck us on how attractive she was in her makeup and backed with a pedigree that was sure to make an impact in our program. Whether it's her perfect udder, overall mass, or structural soundness, I think it's safe to say that Queen 8C has met and exceeded all expectations we had for her as she matured into a cow. It was really a no-brainer when we bred Queen to Predator 922W. The resulting calf, Nirvana 1E, was everything we had hoped for and more. Nirvana most definitely has been a pasture favourite this year. Not often do you find a heifer calf that is so powerfully constructed, yet elegant in her design, when you tandem her flawless phenotype with a perfect blaze face she will catch your attention faster than the Liberal government is passing through their small business tax. We feel that this bold-ribbed heifer calf will make a positive impact on any program she touches ---CONSISTENCY and QUALITY run deep in her blood.

TCCO *Koko* 27E Polled // 1214177 // TCCO 727E // 03/Mar/17 // bw-83

Tableland Cattle is honored to be participating in the 50th Anniversary Sale. In 1972, Tableland purchased their first Simmental females. For the past 45 years Simmentals have been a dominating influence in the Brokenshire pastures. Although, a generation has receded out of the backdrop, the second and third generations are energized for the future of the Simmental breed. TCCO Koko 727E is all about stacking generations of good cows to produce predictable progeny. A quick peek into her pedigree contains the test of times. 680s, SAC Mr MT, Joker, Destiny, Dream on, Top Gun, even the old Chief Red Bear and 438W. For females, stacking Wheatland 902J and LRX Cheyenne just makes sense. Although Koko will be one of the younger heifers in the sale don't let her age deter you. By the time she is a cow, her age and size at today's sale won't matter. Phenotypically her look, balance, structure, overall soundness united with her stacked flexible pedigree will be producing results. Colten successfully showed her mother as a bred heifer and she has gone on to be a top-notch female with a picture-perfect udder. Koko's sire R Plus Big league had big shoes to fill to replace Predator. We fell in love with Big League's mother as a bred heifer when she was Junior Champion Female for Muirhead's. Even today at 10 years of age she is easily picked out while driving by the R Plus pastures.... a son off her was a no brainer. The familiarity of 680's and the added bonus of LRX Cheyenne on his top side was intriguing. Combining pedigree with the physical appearance of the Big League we were excited to own him and get calves off him. They were all low birth weight, vigorous calves that exploded after birth. Big League is in the top 15% for CE and BW, top 3% for REA and in the top 25% API with a 110.25. This heifer is a sample of what he has left us.

OVHF *Miss Candace* 54E Homo Polled // 1196072 // JILL 54E // 17/Jan/2017 // bw-79 // ww-710

Miss Candace 54E is an impressive female that combines attractiveness, shape and thickness in a well balanced package. Take a look at her udder development, specifically her teat placement; she is likely to follow in her dam's footsteps with one of the most beautiful udders in our herd. We have been thrilled with our investment in the Candace cow family, Miss Candace 5Z was a worthwhile purchase as the high selling female in the Majestic Dispersal. On the sire side, Farmfair 2016 Supreme Champion Bull, Harvie Red Summit has proven to be our top and most consistent sire group over the last two years. This heifer calf has a very promising future, weather you want a show yearling next year or a top replacement female the year after that.

MFR *Dreaming Dixie* 6E Homo Polled // 1213613 // MFR 6E // 24/Jan/2017 // bw-85

We are very excited to be involved with the 50th Anniversary Simmental Sale. We looked long and hard at our program and felt we wanted to offer the first MFR Dreamboat 3B daughter for sale in North America. We have not been this excited about a sire group since RLA Redstream 152S. Dreaming Dixie 6E is an elegant female who displays a tremendous amount of volume and style. We truly appreciate the muscle and natural shape Dreamboat passes on to his daughters. Dixie comes to you in an exciting phenotypical package but genetically is where she excels from others. She is dark red, homozygous polled and completely outcross. The combination of the AEDJ Fire bull and MFR Dreamboat 3B put together predictable genetics completely different from mainstream Simmental genetics offered anywhere in North America today. The sky is the limit for this unique and beautiful female.

TCC BLACK *Temptation* 37E Polled // 1206591 // TCC 37E // 1/Mar/2017 // bw-95

Timm Cattle Co. is a relative new comer to the Agribition Simmental sale however our family has been part of the Simmental business for over 40 years. We are very excited about our first sale offering, Black Temptation, who is an extremely long bodied, solid black heifer with an outcross pedigree for many herds. Her dam is a powerful female and was one of the top picks at the Stoughton Farms dispersal. 37E will make a great junior show prospect or front pasture female!

Due to the year, weaning was late so we apologize for the rushed pictures this year. But please keep checkin back for updated pictures and videos on our website www.hannahsimmentals.com and our Facebook page. This powerful black princess is the result of BEE Ignite 71C who we purchased from the Beechion Bros. and the pictured dam WHS Chantilly Lace 86C On her dams side she goes back to some of the following: Mr.Hoc Broker who made an impact on the breed in 2012 when he won grand champion at the NAILE and the American Royal and also took the 2013 Champion title in Denver, his progeny has went on to be some of the higher selling animals in the ring. RF Flirtin For Certain has produced some amazing show and sale stopping animals who have left a foot print and continue too on the Simmental industry today. Sires side: FBF1 Combustible who's has the pedigree to back his unmistakable style going back to SVF Steel Force S701 and Lazy H Burn Baby Burn. One of the first Combustible sons shown was in 2013 and he took the supreme champion bull title at the world beef expo. The first Combustible daughter sold for \$60,000. We are offering this female for sale because we truly believe she will be able to live up to her family's great reputation and will be a asset to anyones heard. Please feel free to stop in anytime for viewing of this female.

YR *Dirty Little Secret* 722E Polled // 1214119 // BGF 722E // 13/Jan/2017 // bw-90

It is an honour and a privilege to have a top brood cow prospect selected to consign to the 50th Anniversary of Simmental Sale. As a breeder for close to 35 years I have seen the breed evolve into a "Front and Centre; All In" breed. Dirty Little Secret I feel as a breeder, will help keep the path strong. She is the top of my black replacements and she is a real hard one to sell. The cow family is bolting their way into the top of our black herd. Secret's sire Milhouse is a moderate framed power house (pictured while breeding his 2nd herd of the season). His daughters are producing those top end weighted and quality bulls that are highly sought after. I feel that Dirty Little Secret will follow in her siblings footsteps. Proven pedigree top to bottom and has the eye appeal and broodiness to be that front pasture matron. Staying one step ahead of the newer generation of breeders is always the challenge, here's the Dirty Little Secret!!

KUNTZ Climax 12C Full Fleckvieh // 1152754 // KNTZ 12C // 26/Jan/2015 // bw-104 // ww-850

Climax 12C is a meticulously bred specimen whom hails from one of the most consistent flushes in recent history. Climax created quite a stir at the "Kuntz Bull Sale" where he demanded the attention of everyone. When the gavel sounded Climax had garnished an impressive \$47,000.00. He combines the rich mahogany hair coat and locomotion of a fine-tuned athlete, he carries a tremendous amount of depth, and is as wide as they come. Climax has the genetic potential we all envision. His tremendously uddered dam, Kuntz Miss Moses 03X, is one of the most consistent producers of herd sires stomping the ground. She is fully loaded with powerful genetics; such as the highly sought after MFL Zaila 8Z, Knight 155S, C&B Western, Rogant just to name a few! Sired by the industry leading South Seven Mr Adonis 96Z compounds the genetics [Bonnie Lass, Dorothy Jane, Solway Adonis, Houston 005H and Arni 8M] to truly make a difference in your next calf crop. Climax is a force to be reckoned with!

WESTGOLD Standout 42Z Fullblood // Horned // 775543 // KHG 42Z // 7/Jan/2012 // bw-106 // ww-926

Tested Non-diluter. We at Red Willow Ranch Ltd., are excited to offer semen on our walking herdsire, Westgold Standout 42Z, for the 50th anniversary celebration of Simmental cattle within Canada. Standout 42Z was the high selling fullblood bull in 2012, commanding \$47,500. He has absolutely done a tremendous job for us here, consistently siring progeny that rise to the top every year. He sires high performance, deep-ribbed progeny with thick hair coats, awesome colour pattern, dark pigmentation, and tremendous length of body. His offspring are very sound structured, with correct feet and legs. Standout has produced many sons who are working in some of the top purebred and commercial programs in Canada. To date, his sons have averaged an impressive \$11,500, and his daughters are starting to show us just how productive and valuable they're going to be. In 2016, many of our highest weaning bulls and females were out of Standout daughters. His daughters are tidy-uddered, hard working females with great dispositions. At our 2017 bull sale, our \$49,000 high selling bull was mothered by a Standout female. We feel that is quite an accomplishment for a first calf heifer. Standout 42Z is a bull who has proven himself as one of the greats. There have only been limited amounts of semen sold. Don't miss out on this great opportunity to add proven, consistent, and very exclusive genetics to your program.

SPRINGCREEK *Liner 56U* Homo Polled & Hetero Black

Springcreek Liner 56U is one of the most sought after bulls within the breed and has been held exclusive and off the open market until this special event within the 50th Anniversary. For many years, we have been approached to sell semen on this exciting bull and we feel it is the opportune time to market him now as he has proved to be one of the best breeding bulls in existence. His daughters are amongst the best in the breed and are in high demand as their potent production value is impressive with beautiful udders and sound structures. As popular as his daughters are, his sons are highly sought after as well as they continue to be in high demand by the most astute purebred and commercial cattleman. We are excited to offer up the 56U genetics and share in the potent breeding opportunity that he offers.

CROSSROAD *Wanted* 14W Full Fleckvieh // non-exportable and stored on farm at Shell Lake, SK

We all have cows that produce the best every year, and this is one of ours. She is a full fleck Hemisphere daughter that is heavily pigmented and at the age of nine has an excellent udder just like her dam and grandam. Her first calf was a Radium son purchased by Hairy Hill Cattle Co. for \$18,000 and at the 2013 Source sale they also purchased a daughter sired by Great Guns Regio. We have an excellent Spartacus daughter working in the herd and a good looking Subaru son that will be in our 12th Annual Bull & female sale Wednesday February 21st at the farm. 14W has good fertility always calving in January and produced 22 #1 embryo's on her first flush. Her Blueprint daughter, Crossroad Disco 69D pictured in the pasture a few days ago, has been a family favourite since birth. She has all the thickness, colour and style you could ever want, making Blueprint the obvious choice of sire to flush to. We have also been admiring Blueprint sons and daughters at shows and sales and when the opportunity came to purchase the walking rights this spring we certainly did not hesitate. We are confident he will leave us with a foundation to build powerful females for the future. A rare opportunity to purchase proven Crossroad genetics at this prestigious event. **Guaranteeing two - 90 day pregnancies if implanted by an accredited technician.**

FGAF BARBS *Paint* 315S Full Fleckvieh /// non-exportable embryos stored on farm in Markdale, ON

A match made in heaven. Bentley is one of the most underused bulls now residing in North Carolina. He is a calving ease bull with tremendous length superb legs and great feet. Even with all that spring of rib he is still very smooth and eye appealing. The Barbarella cow originally from Ferme Gagnon has done a super job for us, specially in the embryo department with most of them going overseas. She has perfect pigmentation and great hair coat. The smooth shoulders blend into a big heart and phenomenal amount of rib with a nice square hip. 315S has the perfect cow shape on a moderate frame. These Embryos are as rare as they come. With only one full sib to the cow and no full brother to the bull you might want to get your hands on this rarity. **Guaranteeing two - 90 day pregnancies if implanted by an accredited technician.**

KUNTZ Miss Moses 03X Full Fleckvieh // exportable to USA & AUS and stored at Bova Tech

Kuntz Miss Moses 03X is the backbone to our Fleckvieh herd. She is structurally sound and possesses exceptional udder quality, a trait she not only transfers to her daughters, but to her grand daughters as well. She is a model of consistency. To date, she has raised 5 sons, all of which are working in purebred herds. Now, her daughters appear to be continuing with that same high level of productivity. Her most notable son is Kuntz Climax 12C, purchased by Pine Creek Simmentals for \$47,000. You will find her other sons at S/M Fleckvieh, KSL Simmentals, Sky West Simmentals, and Sunny Valley Simmentals and her first maternal grand son is at Maxwell Simmentals. Her only daughter that we sold was purchased by Mark Land and Cattle. Blueprint created quite a stir when his first sons and daughters walked through the sale ring last fall and spring, while Dealer's first offspring were a very impressive group in their own right. We are offering choice of either package of 5 embryos. **Guaranteeing two - 90 day pregnancies if implanted by an accredited technician.**

We have decided for the 50 for 50 sale to offer something truly unique to our program. Anchor D Sapphire 111S has become our number one donor cow, who is backed by the incredible "Herlinde" cow family. To date she has produced 23 calves which include 5 females retained in our herd, 3 - 2017 calves and 15 offspring which have sold. Those 15 have averaged \$10,415, including 5 bulls that have went into purebred breeders herd. This is a female that not only produces the goods, but her offspring are doing the same. FGAF French Attack, is a bull we have proudly introduced into our breeding program. His first calf crop is on the ground and are super impressive. We have sold a very limited amount of semen on him. He too has an incredible pedigree, and the resulting embryos will have as much potential of any genetics we have ever produced. These are the very first embryos from this mating, and we have not sold any embryos from "Sapphire" so this is truly something special. **Guaranteeing one - 90 day pregnancy.**

The first time we have ever offer any embryos from the legendary Pepsi cow. Pepsi was one of the first Simmental we ever purchased and what a great cow to build a program around. Her first son really put her on the map "Wallbanger" a true breed changing bull. When you look at the Simmental breed and study pedigrees most of the most exciting sires out there have Pepsi 61U in their pedigree, Captain Morgan, God Father, Captain Scream, Red Summit, Anchorman, Dealer, Captain Black, High Roller and the list goes on. We crossed Pepsi with Westcott the record selling bull from Westway Farms a bull that comes from the great Licious cow family. This will be the first and last time we will ever offer embryos from Pepsi so take advantage of this rare opportunity. **Guaranteeing one - 90 day pregnancies if implanted by an accredited technician.**

Lot 47) 5 Embryos of BGS/BM Captain Scream x IPU Ms Pocahontas 2Y

IPU 52N Ms Pocahontas 2Y Homo Polled // exportable to USA & AUS and stored at Bow Valley

IPU 52N Ms Pocahontas 2Y was the first overall pick of the entire cow herd when Meadow Acres acquired a package of cows from us a few years back and we choose back and forth. She has not disappointed and is one of the most impressive breeding females we have ever had the pleasure of breeding. Sired by the maternal giant himself, Liner 56U and out of quite possibly our most famous cow within Pocahontas 52N, we feel her genetic lineage is stacked with greatness. Her son, Dillinger was a \$32,000 high seller and is now being used heavily in our heifer pen. The embryo mating to Captain Scream combines 2 of the great breeding pieces in the industry today and we feel has world's of opportunity. **Guaranteeing two - 90 day pregnancies if implanted by an accredited technician.**

Lot 48) 3 Embryos of Springcreek Blue Chip 9D x Springcreek Lisa 904Z

SPRINGCREEK Lisa 904Z Homo Polled // non-exportable and stored at Optimum Genetics

904Z is a beautiful, well balanced cow, as is her dam that sold to Ryan Downey. Her 2016 bred heifer is right at the top of my keeper pen of breds. 'Blue Chip' was our high selling bull last spring, going to Beechinor Bros. and Canadian Sires. He will be a master building block in the Simmental industry for years to come as he combines 'Springcreek Liner 56U' and one of my all-time best cows. Here is an opportunity to have some of the first calves by the blaze faced 'Blue Chip'. **Guaranteeing one - 90 day pregnancy if implanted by an accredited technician.**

Preg Recip carrying - CMS Soda Pop 425B x Captain Scream

Here is an opportunity to acquire the freshest and most exciting genetics at Black Gold. We are offering a bred recipient carrying a Captain Scream x Soda Pop heifer calf. The Soda cow family is one that made quite a stir in 2014, where 425B stood beside her five full sisters at the Friday Night Lights Sale and averaged approximately \$15,000. 425B has had a competitive show career and has turned out to be an exceptional cow. She produced 18 embryos/ flush in two IVF flushes last spring. We are very excited to calf our first Captain Scream calf crop in 2018. Captain Scream has also had a successful show career. He was crowned the President's Classic All Breeds Champion at the 2016 Agribition and Reserve Champion of the Northlands Farmfair Legends of the Fall. Both Scream and Soda have punched an early ticket into the RBC Beef Challenge this fall, as they were both selected Supreme Champion at the Prince Albert Exhibition. Come see them this fall and you will understand why we are so excited about this mating.

NJC/TJF JOY

Preg Recip carrying - AJE/JF ANT Joys Elegance x LLSF Uprising

Outcross genetics to the Canadian database with Uprising semen unable to come to Canada and the great Joy on the bottom side. When asked what the best donor female we have in our arsenal, Joys Elegance always rises to the top of the list. Phenotypically, she is as impressive as any with a beautiful udder, great feet and sound structure in a very attractive package. After being named the NWSS Junior Grand Champion Female, she has gone on to be a very productive donor to build a program around. The sire of the resulting calf, Uprising is highly sought after in the USA siring many champions with extra soundness and overall attractiveness. This embryo was put in by Transova into a 4-year-old ranchy commercial female at Troy Baloun's in South Dakota and brought up this fall, she is now located at BMS in Olds, AB.
