CUSTOMER SERVICE PROGRAM

Terms: Our terms are 50 percent due sale day and a post-dated cheque for the balance dated May 31, 2019.

Volume Discount: Purchase three or more bulls and receive a 3 percent discount, five or more bulls receive a 5 percent discount.

Delivery: Bulls will be delivered as soon as possible following the sale. They may be returned to the farm until delivery can be made or you pick up your purchase. Commercial females must be picked up from SLS.

Wintering: We are willing to winter all sale bulls free of charge until April 1. After that date all buyers will be contacted and arrangements will be made for delivery or pick-up. All bulls sent back to the farm MUST be insured for full mortality.

Insurance: Larry Toner Agencies will be available for your insurance needs on sale day. Remember all bulls going back to the farm must be insured for full mortality.

Common Sense Breeding Guarantee: All bulls will be semen tested

and vet inspected. We fully guarantee all bulls sold 100 percent. In the event of a problem, we guarantee to provide you with a quality bull to get your cows bred. We understand that when your livelihood depends on your cow herd's production you need service and not hassles.

Sight Unseen Purchase Program: Call us with your needs and we will recommend suitable bulls. We know our bulls better than anyone and can help you source the best bulls for your program. We have professional and knowledgeable cattlemen that can provide you with a second opinion as well. All orders are handled in strict confidence!

Online Bidding: The entire offering will be videoed the end of February and will be available on our website and www.dvauction.com. Online bidding will be available sale day and we encourage bidders to log in prior to sale day to get registered. You may also leave a proxy bid.

Videos of all bulls and online bidding at DVAuction.com

After over 50 years in the commercial cattle industry, 20 years in the purebred Angus business, and preparing for our 16th annual bull sale it seems true that the more things change the more things stay the same.

We are all constantly facing new challenges in terms of weather, regulations, consumer demands and political B.S. For us the constant force that pulls us through it all is the strength of family working together, and the Angus cow. Our cow herd has paid its way and built our operation into what it is today. We are not a fancy outfit, but we take pride in everything we do, and are continuing to build for future generations.

We would not be here today if not for the support of our customers. Your support and trust in our program is appreciated more than you will ever know. Our hope is that the time and effort we spend in sourcing genetics simplifies your buying decisions. Even with more selection tools available to us, we feel that by continuing to focus on the basics of structure, fertility, maternal quality, and performance, we will develop a balanced and profitable herd. Sometimes keeping things simple is best. If you have any questions about which bulls are best suited for your needs feel free to visit with us.

Our bull offering consists of a strong selection of two-year old bulls that were born in the youngest 50% of their calf crop. These bulls have not been offered for sale before and are culled rigorously. The yearling offering has something for everyone, including proven genetics, and some new pedigrees for our repeat customers. The Black Angus offering continues to grow and you can expect to see more black bulls going into the future.

Our heifer offering will be slightly smaller this year in numbers, but the depth of quality is as strong as ever. Being faced with a tight feed supply we decided to market our F1 heifers last fall, but we will have our straight Red Angus heifers on offer at the sale.

In order to continue to offer the highest level of service to our customers we will be videoing the entire offering at the end of February. Videos will be available on our website as well as www.dvauction.com, which will also offer online bidding on sale day. If you are unable to attend sale day feel free to contact ourselves, any of our capable sale staff, or register to bid online. Feel free as well to come to the farm before the sale to view the offering and their mothers.

Frances & Harvey Wheeler

Rhett, Rhea, Tate, Michael and Ty Wheeler

WHAT DO THE NUMBERS MEAN?

Calving Ease Rating System:

★ **Power Plus:** Bulls marked with this symbol have more punch and will have larger calves at birth and more performance at weaning time. They are recommended for cows only.

★★ **Curve Bender:** Bulls marked with this symbol have more moderate birth weights while maintaining performance. They can be used on cows with no problems or large, well developed heifers preferably of British breeds. A few assisted births may be expected out of heifers.

★★★ **Sleep Easy:** As the name implies, a Sleep Easy sire is a calving ease bull that lets you sleep easy knowing you should have very little calving difficulty. These are the bulls we recommend to use on heifers.

Notes About EPDs:

BW EPD: The birth weight EPD is a figure expressed in pounds and is a predictor of an individual's contribution to its progeny's weight at birth.

WW EPD: The weaning weight EPD is expressed in pounds as the average weight of his progeny compared to an average bull of the breed for weaning weight.

YW EPD: The yearling weight EPD is expressed in pounds as the average weight of his progeny compared to an average bull of the breed for yearling weight. It is the best indicator of overall growth.

Milk EPD: The Milk EPD is a predictor of a sire's genetic merit for milk as expressed in his daughters, or in other words, that part of weaning weight attributed to a mother's milk genes.

TM EPD: The TM EPD is a combination of an animal's Milk EPD added to 50% of its Weaning Weight EPD. It is an indicator of the growth potential of progeny based on performance and milking ability. The TM EPD is a better indicator of a cow's production potential than just Milk.

CE EPD: The Calving Ease EPD is a percentage of probability that a bull's calves will be born without any assistance. Therefore, animals with a higher positive number will have greater probability of having no calving problems.

MCE EPD: The Maternal Calving Ease EPD is a percentage of probability that a bull's daughter's calves will be born without any assistance. Therefore, daughters of an animal with a higher positive number will have a greater probability of having no calving problems.

Please note that the EPDs listed in this sale catalogue are the product of the new Canadian AngusONE Genetic Evaluation. These EPDs are calculated by Angus Genetics Inc in partnership with the American Angus Association. Therefore, EPDs for Canadian Red Angus, Canadian Black Angus, and American Black Angus animals are directly comparable to each other. This is a completely new base for Canadian Red Angus however, therefore, please be advised that the EPDs are not comparable to last year's EPDs for Red Angus. These EPDs are on a completely different scale, so please familiarize your selves with the new Breed Average and with the new threshold number for traits of importance to you. The new AngusONE breed averages are shown below to help you adjust to the new base. Percentile rank graphs for each animal are easy to use and available at www.cdnangus.ca. The right EPD for you will depend on your cow herd, your management, and your breeding goals. For more information on using EPDs please contact your Association, the Canadian Angus Association, at 1-888-571-3580, and for more information about the genetics offered in this catalogue and what might best suit your breeding needs please contact the seller.

Donation Heifer

Celebrating 40 years
2019  **Autism Services**
of Saskatoon

Selling by Dutch Auction

Every \$10 bid enters your name into a draw to win the heifer.

After attending the Touch of Class sale in December, Ty was inspired by the outpouring of support for the Tetzlaff and Legarden families and their generosity to raise funds for Multiple Sclerosis. Ty wanted to raise funds and awareness about Autism which he was diagnosed with in 2015.

Ty is donating his own heifer TYW 129F, Red Wheel Christy 129F. She is sired by our new highly maternal herd sire Red SSS Hard Eight 800D and her dam, Red Kenray Christy 7D was purchased as the high selling heifer calf in the 2016 Pride of the Praires sale from Kenray Red Angus.

Autism Services is a Saskatoon-based, charitable organization dedicated to providing advocacy, support, education, recreational, and social and residential programs and services to individuals with autism spectrum disorder and their families.

Autism Spectrum Disorder (ASD), is a complex lifelong neurodevelopmental disorder that typically appears within the first three years of life. It is considered to be a spectrum disorder meaning the primary symptoms can be expressed in varying degrees of severity. Individuals with autism will have difficulties with verbal and non-verbal social communication, social interactions, and can display a range of rigid or stereotyped, repetitive behaviors, often with insistence on a specific routine that they will show resistance to changing. Sensitivity to sensory stimuli is also often observed.

The Livestock Industry's Leading Online Marketplace!

Reference SIREs

RED BAR-E-L *Anthem*

Anthem was purchased as a proven herd bull to inject some of the Atlantic City influence back into our herd. Anthem is a balanced performance sire with extra bone, a big square hip and a deep rib. His dam is an exceptional female, and the Anthem daughters in production have proven him to be a strong maternal sire. We feel Anthem is one of the best all around breeding bulls in the Red Angus breed today.

PERFORMANCE BW 88 | 205D 753 | 365D 1275
EPDS BW 2.8 | WW 36 | YW 62 | MILK 21 | CE -1.0 | MCE 9.0

RED *Wheel N Deal*

Wheel N Deal has been a popular sire for us and now that his daughters have matured, we decided we wanted to go back and use him more to put more daughters back into the herd. His most noted daughter would be the high selling Red Wheel Annie Oakley 8B, that represents the moderate, easy fleshing, good footed and dark coloured cows Wheel N Deal can produce.

PERFORMANCE BW 94 | 205D 876 | 365D 1417
EPDS BW 2.3 | WW 57 | YW 77 | MILK 16 | CE -2.0 | MCE 0.0

RED SSS *Ambush*

After viewing Ambush and his dam in the highly maternal SSS program we purchased an exclusive semen package to infuse him into our program. Although Ambush progeny are not readily available everywhere, he has become well known as a female producer. When mated to some of our higher performing cows he has produced some powerful sons that offer a different pedigree to our loyal customers.

PERFORMANCE BW 87 | 205D 624 | 365D 1050
EPDS BW 2.8 | WW 34 | YW 55 | MILK 14 | CE 0.89 | MCE 12.0

Reference SIREs

RED SSS *Hard Eight*

Hard Eight was purchased to serve in our heifer pen and he has proven to be a true calving ease sire. We felt this dark red, good footed Max son would be popular with our customers looking for highly maternal, calving ease genetics. What sealed the deal for us was his dam and sisters in the SSS herd. Hard Eight is also a maternal brother to Red SSS Contender who is a popular herd sire at SSS.

EPDS BW -2.0 | WW 21 | YW 36 | MILK 16 | CE 8.0 | MCE 10.0

RED SIX MILE *Game Face*

Game Face is one of the most recognised bulls in the breed and turned many heads after topping the Six Mile Ranch bull sale for \$65,000. We purchased some semen and bred some of our best females which has produced some of the sale features. Game Face is a rare combination of calving ease and explosive growth. His sons and daughters are soft made and easy fleshing.

PERFORMANCE BW 78 | 205D 910 | 365D 1402
EPDS BW 0.7 | WW 33 | YW 51 | MILK 11 | CE 4.0 | MCE 4.0

RED U-2 *Unanimous*

We searched long and hard to find Unanimous. He was built right from the ground up with a big foot, heavy bone, extra length and endless shape through his rib and hip. His dam is also from the Anexa cow family which is the best at U-2. We were very impressed with the Recon sire group for their hoof quality and spread from birth to yearling. Unanimous was lost at an early age so his sons are limited but are feature bulls.

EPDS BW 3.9 | WW 49 | YW 71 | MILK 24 | CE -6.0 | MCE -1.0

Reference SIREs

RED BAR-E-L AB *Magic Mike*

Magic Mike offers exceptional maternal strength. After seeing his dam Meg 85N and maternal sisters we knew we had to incorporate his genetics. His sire Indeed is one of the legendary maternal sires in the breed. Fertility, udder quality and longevity are traits where he excels. Every daughter made the replacement pen, and his daughters have perfect udders with very small teats. We feel so strongly about the maternal merit of Magic Mike that we purchased a half interest in his full sister Red Bar-E-L AB Meg 169Z.

OWNED WITH ALLISON FARMS RED ANGUS

PERFORMANCE BW 94 | 205D 742 | 365D 1313 EPDS BW 3.9 | WW 47 | YW 69 | MILK 26 | CE -13 | MCE -3.0

RED TER-RON *Monopoly*

We added Monopoly to our AI program to add some outcross calving ease genetics. Monopoly is a son of Ter-Ron Park Place who is a son of the famous HF Tiger 5T. We wanted to add the short gestation genetics of Tiger into our red cattle. Monopoly's first calves all arrived early and without any assistance. In addition to calving ease, Monopoly also has an exceptional hair coat, and is deep sided. His sons have been features in past sales and this year they are headliners as well. We have purchased Monopoly from Semex and will have a larger number of his sons available in the future.

RED WHEEL *Casanova*

PERF **BW 92** | **205D 811** | **365D 1222** EPDS **BW 4.9** | **WW 67** | **YW 93** | **MILK 20** | **CE -7.0** | **MCE 2.0**

Casanova is one of the most unique Red Angus bulls you will find and has captured the attention of everyone that has seen him. He has a massive hip and wide top, and packs a lot of muscle on a moderate frame. His dam Dawn 17Y has entered our donor pen and is a moderate framed, big topped, low maintenance cow that has great udder quality. Casanova stamped his calves consistently with his muscle shape and power. His sons and daughters are equally impressive and will have a big impact on our program.

Creed captures the attention of all that witness his exceptional length, bone and muscle. He is a powerful bull that offers an outcross pedigree to most breeding programs. He was produced from our Jestress cow family which is known for being huge ribbed, good footed females which offer above average udder and teat quality. Few bulls offer the power that Creed possesses without sacrificing maternal strength.

RED WHEEL *Creed*

PERF **BW 87** | **205D 772** | **365D N/A** EPDS **BW 2.2** | **WW 52** | **YW 79** | **MILK 23** | **CE 4.0** | **MCE 7.0**

Reference SIREs

BROOKING *Bank Note*

Bank Note has proven his breeding ability with high sellers and champions produced wherever he has been used. After seeing his first calf crop here we are certain we want to incorporate more of his genetics into our program. His calves were moderate at birth and exploded until weaning being some of the heaviest calves. They are stamped with his depth of body and easy fleshing ability while maintaining an attractive look. Like all our sires he was raised by a tremendous dam and strong cow family.

PERFORMANCE BW 86 | 205D 921 | 365D 1548
EPDS BW 2.7 | WW 71 | YW 119 | MILK 15 | CE 5.0 | MCE 8.0

LFE BA *Lewis 3008B*

Lewis was found after a lengthy search to find an unique, outcross calving ease sire. After our relentless pursuit we secured an exclusive semen package on this potentially breed changing sire. He was used mainly on heifers and he calved very well. The best part was that at weaning time his male and female progeny from first calvers stood up with the top end calves raised by our mature cows. We really like his sons, but we love his daughters. They are an impressive group of very attractive, long spined females that we can all ready see will have amazing udders.

PERFORMANCE BW 64 | 205D 700 | 365D N/A
EPDS BW -1.1 | WW 51 | YW 88 | MILK 24 | CE 9.0 | MCE 4.0

SAV *Sensation*

Sensation is one of the most heavily used Angus bulls in North America. He sold for \$650,000 in the 2016 SAV sale and is a son of SAV Blackcap May 4136 who is the number one income producing cow in SAV history. The Sensation calves are moderate at birth and seem to have calving ease potential.

MAC & HELEN ROSS

commercial *Heifers*

The open replacement heifers have become a feature in the sale. Being limited by the size of our land base makes these heifers now available. These heifers offer a rare opportunity to purchase foundation seedstock females that have been developed from a purebred Angus cow herd.

We are offering a group of straight-bred Red Angus females. This is a great opportunity to access replacement heifers that could provide the foundation for an F1 program. Most of the group are sired by our herd sires Monopoly and Hard Eight.

We just can't keep them all! They will be presented in working condition and have been developed side-by-side with our own replacements, receiving no additional feed. They will continue to grow and develop for their new owners.

We will be offering approximately 15 heifers. They will be sorted and split into smaller groups of 3-5 head at sale time based on weight, breeding and type. We will have a supplement sheet available at the sale with more information.

Heifers must be picked up from Saskatoon Livestock Sales after the sale.

All heifers have been poured with Ivomec and received two doses of Ultrabac 7 and Zoetis Bovi-Shield Gold One Shot.

Red Wheel Bar-E-L Patriot 60F
Summer 2018

We are proud that Annie Oakley carries our prefix, and that her sire and dam were bred, born and raised here. Thank you to Bar-E-L Angus for being great partners on this outstanding pair!
