**14th Annual Bull & Female Sale**

**Wednesday, February 26, 2020 at 1:00 p.m. CST**  
**Crossroad Farms Sale Barn, Shell Lake, SK**

# WELCOME from Crossroad Farms

We warmly extend an invitation for you to attend our 14th annual bull & female sale. Thank you to all the bidders, buyers and repeat customers from our past sales for your continued support. Whether you live local or have traveled a long distance, we truly appreciate you taking time to attend and look forward to assisting you with your future bull needs. Feel free to stop by the farm anytime, we are always available. Tell us about your program and we will try to help you make a choice that will work best for you.

As breeders our work starts many years before your bull is born, layering genetics to make strong females that will produce bulls that will make a difference in our customer's paycheck. Whether you are looking for Reds, Blacks or Fullbloods, our sale offering is strong with a good selection from calving ease to performance. Several transplant sons from extremely strong cow families will be featured. Sons from trusted sires that were so popular at last year's sale are back and sons from several new walking herdsires will also make their debut. Several AI sires were also utilized so that we can offer you as many options as possible to move your programs forward. Choosing a herd bull is one of the most important choices a cattleman has to make. A good bull will pay for himself when you sell his first set of calves. A poor bull will cost you for years, especially if you keep your replacements. It really pays to buy the best genetics you can.

Competent help is the key to a well- run operation and we would like to say a sincere Thank you to our full time employee Dave Caswell and the special part time seasonal people that work side by side with us until the job is done. Also our family, friends and neighbors, Claude & Ian Wasden and crew, all good people we can count on, your efforts are truly appreciated.

If there is a bull you are interested in but are unable to attend the sale, call Gerald or Jody and we can assist you in bidding or contact anyone of the capable sales staff to bid on your behalf. Live Auctions is also in attendance for online viewing and bidding.

We look forward to seeing you on Wednesday February 26th. Come early and enjoy a home cooked meal and some Crossroad hospitality.

**Insurance:** Steen Agencies will be in attendance (306) 887-2020; Cell: (306) 961-5525 Each animal becomes the risk of the purchaser as soon as they are sold. **ALL BULLS STAYING AT CROSSROAD FARMS UNTIL DELIVERY MUST BE INSURED.**

**Catalogue Design:** Cattlepics.com, Patricia Shewchuk (780)603-3066

**Health:** Crossroad bulls are developed on a TMR ration consisting of cereal silage, chopped hay, super oats and a custom formulated bull supplement. This ration will optimize longevity and ensure proper development from mass and structure to testicle development. All bulls will be vet checked, scrotal measured & semen tested. Bulls are treated with Cylence, Ivermectin, Fermicon7, Pyramid4/Presponse, Maxiguard pinkeye protection & double vaccinated with Fusogard. Sale day weights will be posted.

**"Sight Unseen" Purchase Program:** If you are unable to attend the sale but are interested in our bulls give Gerald or Jody a call, they would be pleased to serve you personally. They will go over the bulls with you and recommend which ones would best suit your program. Bulls are guaranteed to meet your approval when delivered.

**Crossroad Farms 100% Guarantee:** All bulls are guaranteed to be satisfactory breeders in accordance with the Canadian Simmental Assoc.guidelines. Should a problem occur barring physical injury or mismanagement, a bull of equal value will be provided or a credit will be issued towards the purchase of another bull. We always have back-up bulls for our customers and we guarantee you will have a bull to service your cows.

**Delivery:** Free delivery in Alberta, Saskatchewan and Manitoba to central points, we will try our very best to deliver them right to your yard. Cost shared arrangements can be made to other destinations. Delivery date is at the seller's convenience.

**Welcome U.S. Buyers:** Exchange rate will be announced on sale day. Crossroads will do the necessary testing for export on bulls at cost and deliver to the nearest border crossing.

**Semen Reserve:** Crossroad Farms reserves the right to collect semen for in herd use only on any bull in our sale. Semen would be collected at Crossroads expense and buyers convenience.

To register and follow the auction in real time on the internet, log on to Website: <http://www.liveauctions.tv>

For More Information, call Jessy Milne-Smith: (613) 229-1073

If you wish to follow the sale on the computer and bid by telephone, please call Gerald or Jody or one of the consultants listed above.

## CROSSROAD AMERICAN XPRESS 213G

PRS1275621 | CRF 213G | FEB 18 2019 | POLLED 7/8

Sire: LCDR AMERICAN RED 99E

Dam: IPU MS. CODE RED 249A

EPD	CE	BW	WW	YW	MILK	MCE	MWWT
	8.8	2.7	67.9	105.8	34.5	7.1	68.5

**BW: 96 lbs. 205 Day adj. Wt: 826 lbs. 365 Day adj. Wt: 1471 lbs.**

**CDI ABUNDANCE 391C**  
**Sire: LCDR AMERICAN RED 99E**  
**HSF RED FORTUNES SIS 33**  
**IPU CODE RED 53Y**  
**Dam: IPU MS. CODE RED 249A**  
**SBSF MS WARRIOR 53U**

Every great bull is mothered by a superior cow and having IPU Code Red as your mother speaks for itself. Her accomplishments are impressive, not just for one year or one sire but every year and multiple sires. Her eight sons that have sold at our bull sale averaged \$18,968. She produces twenty to thirty # 1 embryo's every flush and we have many of her fertile daughters in the herd, building what may be one of our best cow families ever. Several lots in the catalogue contain her bloodline and you can read the comments on her production record and see the quality and influence she has added to our program. We purchased the American Red herdsire from LCDR Simmentals in North Dakota and used him mostly on heifers the first year. He has a stunning profile, excellent structure and is a very good breeder. Never have we had a bull that has such a great foot and moves so effortlessly. This is American Red's first calf crop and all of his nine sons born have made the sale. He consistently stamps all his calves with a deep dark red colour. Here is American Xpress, a feature bull that looked amazing the day he was born in mid-February and continues to impress us at every stage of growth. He is super thick with lots of top, muscle shape, structural correctness, has a ton of hair and a super disposition. Here is an above average bull with above average EPD's and a combination of interesting new and proven genetics. We think he has a lot to offer. Give him some serious consideration, not often does a bull of this caliber become available. Opportunity knocks!!

**HSF RED FORTUNES SIS 33**  
**SIBELLE SPARTACUS 8A**  
**Dam: CROSSROAD EXCEPTIONAL 182E**  
**IPU MS. CODE RED 249A**

Apprentice was mothered by a Spartacus x Code Red transplant heifer and what an exceptional job she has done on her first calf. Her full sister sells in the heifer section as lot 78. You can really see that Spartacus thickness from his dam on this future herdsire and just look at his length! His birth weight was a little heavier than we like to see for a heifer but he was also a foot longer at birth too, which would certainly account for the extra poundage. His dam bred back on her first cycle and we are sure glad we bred her back the same way. American Red was purchased to use on females like this and we are sure pleased with the results. Apprentice is a solid red, long smooth bull with a good temperament and as you can see, he has large testicles. Here is a bull that is sure to sire an exceptional set of calves!

**~HETERO POLLED~**

# 3

## CROSSROAD ABUNDANCE 190G

PRS1275559 | CRF 190G | FEB 08 2019 | POLLED 7/8

EPD	CE	BW	WW	YW	MILK	MCE	MWWT
	9.9	2.8	77.8	119.0	30.4	8.8	69.3

**BW: 87 lbs. 205 Day adj. Wt: 829 lbs. 365 Day adj. Wt: 1442 lbs.**

**CDI ABUNDANCE 391C**  
**Sire: LCDR AMERICAN RED 99E**  
**HSF RED FORTUNES SIS 33**  
**SIBELLE SPARTACUS 8A**  
**Dam: CROSSROAD EMYLIN 125E**  
**IPU MS. CODE RED 249A**

Here is an excellent American Red son out of another Spartacus x Code Red transplant daughter. She is a full sibling to the dam of lot 2 and also to lots 10 and 11. And they are all full siblings to Crossroad Red Stetson who is the sire of lots 14 to18, 47 and the lot 78 in the heifer section. So you get to see the second generation Spartacus genetics at work. Let us know what you think on sale day. Here is a pretty darn good bull out of a heifer, full of meat and muscle showing good weaning and yearling weights and an above average set of EPD's. Great structure, hair, colour and testicle size on this future herdsire too. His dam is bred early to one of our new herdsires TSZ Madoc, we are sure looking forward to seeing those calves. Good growth, high maternal values, fertility and consistency, here is a bull with some real qualities that we think you are going to like.

BW: 92 lbs. 205 Day adj. Wt: 779 lbs.  
365 Day adj. Wt: 1400 lbs.

Here is a real good thick baldie bull sired by American Red and a half fleckvieh Red Mountain heifer. And again we have good growth and above average EPD's, these heifers are sure doing a good job on their first try. All Stars dam is bred early to another new herdsire we purchased last spring, R Plus Rattler. We are confident he will also complement our breeding program as we layer these genetics and attempt to bring our customers the very best possible. Be sure to check out this February born great haired, well-muscled bull on sale day, he has a good disposition and would be an excellent choice for your next herdsire.

BW: 91 lbs. 205 Day adj. Wt: 803 lbs. 365 Day adj. Wt: 1432 lbs.

A super good American Red son with a little star on his face and as you can see good depth of body and muscling throughout. Good testicle development on all these American red sons too. Born at 91 pounds showing excellent growth and mothered by another KWA Red Mountain sired heifer. The bottom side of this bull's pedigree belongs to an exceptional cow family with a Spartacus granddam that has a bright future and also the great grandam is showing no sign of slowing down either, her son sells as lot 64. Lots of maternal strengths in these combined genetics, here is a bull that is sure to produce some good ones!

**BW: 93 lbs. 205 Day adj. Wt: 860 lbs. 365 Day adj. Wt: 1497 lbs.**

You will be amazed at the quality of this bull on sale day. He was born to an extremely strong Paparazzi sired female. She is a daughter from our donor Ursula, many top sellers have been sold from her and her daughters. Ursula is one of the oldest cows on the farm (12) and is due to Red Stone for mid-January, her sons in the sale this year are lots 25 & 26. Authentic's dam raised an excellent son that sold to Old Elm Colony at Magrath, Alberta at last year's sale. Lots of performance in this future herdsire's bloodline and the American Red genetics has added even more to this already strong pedigree. Authentic is a solid red, moderate framed and is packed solid full of muscle. He also has a nice head to add to his stunning profile. Here is a bull that will really make a difference and would work well in any program, he will be a real herd builder.

**~HOMO POLLED~**

**Dam: CROSSROAD ECSTASY 30E**  
**CROSSROAD X-ATSY 264X**

Here is another super stylish, good bodied American Red son born unassisted out of a fancy heifer that has a great future. She is bred back the same way, hoping for a female this time. Americana's full fleck, fertile grandam always raises an excellent calf. She is due again in early January for her ninth calf and we can pretty much guarantee it will be good. Her Spartacus son sells as lot 58 this year, Gerald says he is insanely good, but we will let you be the judge. Americana has strong maternal strengths, fertility and consistency, all excellent traits he will pass on to his daughters. Here is a good bull with qualities you can count on, be sure to check out Americana on sale day.

**SVS PREMIUM 405B**  
**Dam: CROSSROAD EVELYN 5E**  
**CROSSROAD TWILIGHT 597T**

Another good American Red son that is naturally quiet just like his dam and grandam. This cow family has been producing good cattle for us for years. The grandam's last year's heifer sold to Tanner Oborowsky from Grandora, Sask. Ambassador was born at 91 pounds to a heifer. This solid red, well rounded individual offers many of the same qualities as the other American Red sons do. Great hair, big testicles, good growth and thickness, here is a real sound package that will add style and quality to your next calf crop.  
**~HETERO POLLED~**

## CROSSROAD RED MUSTANG 85G

PTG1268109 | CRF 85G | JAN 16 2019 | POLLED PB

VIRGINIA WALKER 97W  
Sire: **SIBELLE SPARTACUS 8A**  
FRANCESCA 2S  
IPU CODE RED 53Y  
Dam: **IPU MS. CODE RED 249A**  
SBSF MS WARRIOR 53U

E P D	CE	BW	WW	YW	MILK	MCE	MWWT
	8.5	3.3	73.4	109.2	38.4	7.6	75.1

**BW: 99 lbs. 205 Day adj. Wt: 763 lbs.  
365 Day adj. Wt: 1337 lbs.**

Spartacus was purchased together with Little Willow Creek from our good friend Philippe Belavance from Sibelle Fleck Simmentals in Quebec. After we seen the amazing thickness from our first set of Spartacus calves five years ago, we knew we had to introduce these genetics to our red cattle and we are sure pleased with the results. Red Mustang weaned off at 860 on Sept 8th, he is a full brother to lot 11. Three other full brothers were sold at our 2018 sale, Red Stetson

was purchased by Jean-Francois Leblond from Quebec for \$19,000, Red Styx to Crystal Springs Colony at Magrath, Ab. for \$12,000 and Red Sparks to Doug Krepps at Turtleford,

Sk for \$15,500. The dam of these five brothers is the IPU Code Red donor cow who has been a phenomenal producer, we have many daughters working in the herd. So far she has been flushed to Spartacus, Stepping Stone and American Red. In 2018 Meadow Acres purchased one of her Stepping Stone sons for \$26,000 and Labatte Simmentals purchased a full brother in 2019 for \$30,000. Proven genetics here in this Red Mustang herdsire along with structure, thickness, colour, hair and testicle size. No guess work here, a real outstanding bull for you to assess.

**BW: 97 lbs. 205 Day adj. Wt: 778 lbs. 365 Day adj. Wt: 1360 lbs.**

Weaned at 875, and a flush mate to lot 10. We are again pleased to offer you sons from our IPU Code Red donor cow. This year they are sired by Spartacus and are full siblings to the three sold in 2018 that averaged \$15,500. One of those sons that we collected semen on was Crossroad Red Stetson whose sons are lots 14-18 & 47. So you get to see the quality this bloodline is capable of producing. Spartacus sires thickness like none other, his sons both Fullbloods and Reds are always at the top of the bull pen and are in high demand at our sale. We have many daughters working in the herd and they sure pass on their natural Spartacus fleshing ability to their calves. Red Cadillac is a very good bull, naturally quiet, good colour, hair and style with an undeniable proven pedigree. We are pleased to offer you these two brothers knowing that either one of them would be an excellent choice.

**BW: 102 lbs. 205 Day adj. Wt: 883 lbs.**  
**365 Day adj. Wt: 1520 lbs.**

Weaned off September 8th at 960 solid pounds!  
Again a Spartacus sired red factor power bull that is wide topped and long bodied with a big rump full of meat and muscle. Great hair, colour and good testicle size on this bull too. His dam comes from a super cow family, her sons have sold to Crooked Creek Farms at Big River, Sk., Stolson Farms at Hodgeville, Sk. and Moore Ranching at Loon Lake, Sk.  
His grandam has been one of our best producers over the years, her ninth good calf sells as lot 23. Red Sizzler will sire early maturing heavy weight calves and leave you females that will produce the same. He is one rip of a bull, if you want to produce pounds, this guy will sire calves that will flatten the tires on the cattle liner. Guaranteed!

**Dam: CROSSROAD DINA 14D**  
**REMINGTON SOFT TOUCH 4S**

The sire of this good bull is Crossroad Red Stetson who is a full brother to lots 10 & 11. Red Stetson is a Spartacus x IPU Code Red transplant son and he was purchased by Jean-Francois Leblond from Quebec at our 2018 bull sale. Because of his quality and genetics we collected semen for in herd use and we are sure pleased with the results. We have five red and one black Red Stetson sons on offer this year, lots 14-18 & 47. Red Remington is a very good bull and you can sure see that Spartacus thickness that follows through the generations. He is a big bodied bull with lots of barrel and is naturally quiet just like his dam. I am still kicking myself for selling her heifer calf at our sale last year but Pernitsky Farms will be very happy with their purchase. Pictured here in November, Red Remington will grow into an eye appealing thick chunk of a bull and he will certainly catch your attention on sale day. We are confident you will be happy with the above average set of calves that he will sire.

**SPRINGCREEK ALL IN 155Y**  
**Dam: CROSSROAD CLAUDEEN 125C**  
**CROSSROAD X-KALOO 187X**

This rear quarter is only going to get bigger as he matures! Here is another Red Stetson son full of meat and muscle, good structure, hair and super stylish. Good temperament on this fella too. His dam is a powerful black female that raised a bull for Ernest Fendelet from Hafford, Sk. His grandam has raised many good sons and daughters for us over the years, one is the Calypso 343A bull owned by Crystal Springs at Magrath, Alberta. We saw Calypso and some of his phenomenal daughters this fall, very impressive to say the least! And old Grandma

has another good bull in the sale again this year, lot 39 be sure to check him out. Such very good, proven cow families on both sides of this future herdsire's pedigree, we certainly feel confident offering Red Rancher knowing that his new owner will be very pleased with the end results.

**BW: 102 lbs. 205 Day adj. Wt: 874 lbs.**  
**365 Day adj. Wt: 1519 lbs.**

Here is another one of our big boys sired by Red Stetson weighing in at 960 pounds on September 8th. He is going to have one heck of a rear quarter and rump when he matures! Red Direction is a bigger framed bull with a massive muscled body and big testicles. He will cover a lot of cows. His dam is a good producing cow with lots of maternal strengths. She has raised sons for Lee Peterson from Moose Jaw, Sk. and RCM Cattle Co. from Wrentham, Alberta. The cattle business is a lot of work and you need that cow to produce as many pounds possible to make it work. Here is a bull that will take your cow herd in that direction, he will sire calves with weaning weights like you have never had before. Red Direction will definitely raise the bar in the right direction and put more profit in your pocket. ~ **HOMO POLLED** ~

**BW: 96 lbs. 205 Day adj. Wt: 787 lbs.**  
**365 Day adj. Wt: 1440 lbs.**

In the cattle business length = more pounds = more \$\$ . Here is a super long bodied bull that weaned just a few pounds shy of 900, and when you look at his back end there is quite a few of those pounds just sitting there making quite a statement. Red Rodeo is full of thickness throughout and as you can see has big testicles, good hair and loads of pigment. He was mothered by a ten year old Gunner cow that is bred back for early January. She has three good daughters working in the herd, her last year's good son was purchased by Rosebud Colony at Rockyford, Alberta. Excellent maternal strengths in this powerful bull and combined with the consistencies of Red Stetson and that splash of thickness from Spartacus, you are pretty much guaranteed one of your heaviest calf crops ever. Put Red Rodeo to work for you, he will give you high returns on your investment in a very short time.

**CROSSROAD YOHANNA 384Y**

Pictured on November 25th just over ten months of age, here is a tremendous power bull with lots of hip and middle showing good weaning and yearling weights and big testicles too. His sire is Crossroad Red Stone, we collected semen for in herd use on this outstanding herdsire before he was sold in our 2018 bull sale to Meadow Acres for \$26,000 and they too are very pleased with their first calf crop. Red Stone is another transplant son out of the Stepping Stone x IPU Code Red genetics who are both known for producing females with excellent udders. The dam of Red Ruckus is a family favourite. She is bred back for an early January calf and we believe she will continue to produce the very best throughout her lifetime. Here is a bull with exceptional performance and thickness throughout. If you want to produce early maturing, heavy weight, top dollar calves, this naturally quiet good haired powerhouse bull will not disappoint!

**HILLCREST MISS RUSTY 61M**

Here is another one of our big boys, weighing in at 965 on Sept.8th. He is a tremendous transplant Westcott son out of the twelve year old Ursula donor cow who is due again for a mid-January calf. We have three of her daughters working in the herd and eight more daughters from four different sires due to have their first calf in 2020. One of the daughters has an American Red son in the sale, lot 7 be sure to check him out. Qualified's full brother sold in last year's sale for \$18,500 to Double RN Ranching and Schamber Ranches and the full sisters to Qualified that are due to calve this year are flat out awesome! Qualified has been a stand out since birth and continues to impress us. Pictured here at ten months of age you can certainly appreciate his thickness, deep quarter, length and the overall balance he possesses. Good performance and full of proven maternal strengths, he will sire calves with more pounds at weaning than you have ever had before and leave you daughters that will be your best producers. Here is a bull that will certainly add value to your calf crop.

**BW: 96 lbs. 205 Day adj. Wt: 784 lbs. 365 Day adj. Wt: 1344 lbs.**

Here is the natural calf from our twelve year old Ursula donor cow. She has 26 calves to her credit, many were high selling sons and the daughters raise nothing but the best. We are expecting more Ursula calves to be born in 2020, from four different sires, I don't think you can have too many of these good working daughters. They will give us a base to layer some of our new genetics on and keep the herd strong. This February born bull is sired by Crosby who has been used very successfully throughout the industry with excellent results.

The Crosby bloodline weaves through many of our females adding power and predictability for us to build on. Here is Cashback, a well- rounded individual with plenty of style, is naturally quiet, has good testicle size and his maternal strengths are through the roof. We think he will sire some tremendous progeny. If you are herd building, you won't find a bloodline that will leave you better females. February 26th may be your lucky day, owning this bull is like winning a lottery that pays big \$ every year.

365 Day adj. Wt: 1417 lbs.**

Mucho is a typical Voltage son with lots of middle and good thickness throughout. Stylish too with that splash of white on the face and good disposition to boot! His dam is a fault free cow that always brings home a good calf. She is bred back for a mid-January calf to our new R Plus Rattler bull, sure wish she would give us a daughter! She has placed bulls into the good herds at South Peace Colony from Dawson Creek, B.C., and Royal View Farms at Leask, Sk., and Crooked Creek Farms, just a couple towns down the road from us at Big River. What a set of blaze faced replacements this bull would sire and his steers would be very easy to market.

Born a 70 pound twin and just about hit the 800 pound mark on weaning day, not bad! Here is another good Voltage son that will sire those rugged, high performance steer calves and excellent replacement females. He was mothered by an extremely strong cow that has placed progeny in the herds of Stolson Farms, Cattle Creek Crossing, Rafter 4T, Moore Ranching and Old Elm Farming. Good bulls come from good cows.

**BW: 93 lbs. 205 Day adj. Wt: 704 lbs.  
365 Day adj. Wt: 1302 lbs.**

This guy's transplant Gunner mom has sure been a good cow, but those hips just seemed to seize up this summer, always sad when those good producers are loaded on the truck for the last time. She did her job though, at age eleven she still brought in an 800 pound calf. She raised nine January born calves, so excellent fertility here. Labatte Simmentals purchased a daughter way back

at one of the first Source sales. Sons were purchased by Alfred Nash at Glaslyn, Sk., Dry Creek Simmentals at Loon Lake, Sk and a good Westcott son went to Quentin and Lisa Taylor at Yellow Creek, Sk. We also have a really good daughter retained in the herd. Memphis is a bull that carries all the good Voltage qualities and combined with his dam's top notch record of production makes us confident that he will go on to be a good breeding bull for his new owner.

**BW: 83 lbs. 205 Day adj. Wt: 810 lbs.**  
**365 Day adj. Wt: 1423 lbs.**

Born an 83 pound twin and has grown into a super thick bull, he weaned off at 875 on Sept 8th. You can sure see that big volume soggy middle that all the Voltage's exhibit. His dam is a fullblood Bolero daughter, they have very nice udders and have the ability to feed a calf well. Marco is double goggled with some white in the flank and just so you know, a small patch of white on his shoulder too which would come from his dam's side. She has a solid pattern, but she is Simmental, it certainly won't affect the soggy calves he will sire. Don't let this one sneak through the ring without putting your hand up, you will drive a lot of miles to find one as thick as him.

**BW: 94 lbs. 205 Day adj. Wt: 801 lbs. 365 Day adj. Wt: 1414 lbs.**

Black Power is an extremely good bull and may be one of the most impressive black blaze faced bulls we have ever seen, anywhere. You can't help but admire his qualities. He has excellent length on his moderate frame, BUT it's the BUTT and thickness that takes your breath away! He is so very stylish with his overall shape, great hair and is naturally quiet to boot! The sire of Black Power is Crossroad Red Stetson who was one of the three impressive Spartacus x IPU Code Red flush mates that we offered in the 2018 sale. Spartacus puts a "butt" into his calves like none other and we knew we wanted to inject those qualities into our red program and collected Red Stetson semen for in herd use prior to the sale. On sale day he was a high seller that was purchased by Jean-Francois Leblond from Quebec. Black Power's dam is an impressive black Crosby female who has raised bulls for Goldridge Farming at Turin Alberta, West Raley Colony from Cardston, Alberta and an old classmate Delray Creary just north of town. Her last year's stylish heifer calf is definitely a future donor prospect. We are certainly pleased to pass these genetics on to you. Black Power will be one of the bulls that we will collect semen for in herd use, we definitely have to put some of these genetics back into the herd. Give this one some serious consideration, he is one of a kind!

**BW: 103 lbs. 205 Day adj. Wt: 869 lbs.**  
**365 Day adj. Wt: 1419 lbs.**

A March born bull that is the youngest in the sale but you can still see his potential with adequate thickness showing at this nine month stage of his life. He is smooth made and his stylish stature certainly does catch your eye when you walk in the pen. We have one daughter in the herd from his Rampage dam and another sold last year to Carla & Tyrone Borsa at Waldheim, Sask. Here is a good Next Up son that is sure to raise some very stylish and very saleable progeny.

BW: 85 lbs. 205 Day adj. Wt: 768 lbs.  
365 Day adj. Wt: 1389 lbs.

We sure like these State of War calves, low birth weights, born unassisted, make's calving these heifers pretty easy for both her and us. This young mama is a daughter to lot 55's dam and a full sibling to lot 51's dam. As I said before, this is a tremendous cow family to buy into. Black State is a solid black, super quiet, calving ease bull. He is full of maternal strengths that will put some grow into the calves he sires and his daughters will be your best. As you assess your bull needs, consider Black Blast, he would certainly have a place in a good herd's bull battery.

Spartacus has definitely left his mark, siring several high priced bulls to both breeders and good commercial cattlemen. He is the best Full Fleck bull we have ever used, his calves are early maturing with natural thickness that only the Spartacus genetics can offer. Here is Sangria, a very good bull shown here at ten and a half months, full of performance, big hip, wide topped, excellent testicle size, good colour, hair, one goggle, he has a lot going for him. His ten year old dam is here because she produces and she is bred back to Spartacus again for an early January calf. Her progeny have been purchased by Double G Farms, Cattle Creek Crossing, Leewood Ranch and a full sibling was purchased by Groupe BBBG in Quebec. We also have two excellent daughters working in the herd. Drop by anytime and we will show you the consistency and power this sire group has and if you are serious about the cattle business and are looking for a bull that has it all, we think Sangria could be at the top of your list!

**BW: 89 lbs. 205 Day adj. Wt: 751 lbs. 365 Day adj. Wt: 1287 lbs.**

Here is another excellent Spartacus son that we have also been admiring all summer. He is very quiet natured, full of thickness from front to back and is showing that extra muscling in the rump at this early age. He is a moderate framed bull with a thick hair coat, one goggle and good testicle size. His dam raised a high selling full brother that sold at the 2018 sale for \$27,500 to Ferme Des Quatre-Temps in Quebec. Pernitsky Farms, Allan Tkatchyk and Kulyk Simmentals have also purchased progeny from her. She is bred back to Spartacus and I am sure hoping for a heifer. Stand Out is very good, well rounded individual and will be popular on sale day, give this one serious consideration, he will be worth it.

**BW: 84 lbs. 205 Day adj. Wt: 752 lbs. 365 Day adj. Wt: 1350 lbs.**

You would never know he was born an 84 pound twin, he is another typical Spartacus son, extremely thick, full of meat and muscle. Quiet natured, big nutted, good footed and a good hair coat, Surefoot has all the qualities most are looking for when choosing their next herdsire. His dam's calves have all been born in January so fertility is certainly not an issue. We have one productive daughter in the herd, her bull calf is lot 41, so be sure to check

him out. Surefoot's dam has raised bulls for Peaceview Colony, Hannah Simmentals, Bristow Ranching, John Blomquist and our neighbours over the hill at Strate Lake Side Farm. Here is a quality bull that will sire an impressive set of calves, take him home knowing you purchased a good one.

**BW: 80 lbs. 205 Day adj. Wt: 781 lbs.**  
**365 Day adj. Wt: 1426 lbs.**

Born an 80 pound twin you would wonder how he could grow to look like this! In the cattle business length = pounds = \$ and here is a super long bodied bull that has all those early maturing Spartacus qualities. Pictured here at only 10 months you can see the thickness and rear quarter development. He is going to be one heck of a bull come sale day. His dam is an exceptionally good uddered nine year old Cornerstone female. We have three of her daughters working in the herd and two

of them are full siblings to Successor. Her sons have been purchased by Darren Hannis and Belle Plaine Colony. Superior maternal strengths in this future herdsire, if you are herd building here is a bull that will leave you with foundation females and long spined thick steers that will top the market. Successor would be an excellent choice for your next herdsire.

We purchased the On Point herdsire as a two year old so this is our first set of calves and we are very pleased with them. Network is a super stylish, deep bodied On Point son with great hair and eye appealing colour. He has good thickness throughout from the high fleckvieh influence on both sides of his pedigree. His dam is bred back to On Point for an early January calf, she is an excellent uddered female and has always calved in January. We have one daughter working in the herd, two sons were purchased by South Peace Colony at Dawson Creek, B.C. and another son went to O'Hare Ranching at Kitscoty, Alberta. There is a ton of maternal strengths and fertility in this bloodline, his daughters will be real producers. Network has a good disposition and will have a stunning profile when he matures. This is a really good bull for you to assess on sale day.

**CROSSROAD WRIGLEY 33W**

Here is an extremely good, mid-February born On Point son pictured Nov.25th, just a few days over nine months of age. Northridge is from a very strong producing Radium dam and she is bred back the same way for an early January calf. Her progeny have been purchased by Section 17 Livestock, Royal View Farm, Dry Creek Simmentals, John Bloomquist, Circle K Cattle and at last year's bull sale an excellent son was selected by New Pine Colony Ranching from Boyle, Alberta. Northridge is super stylish with great colour and just so you know, he does have a small bit of white on his shoulder. He has good thickness with lots of middle, a good temperament and big testicles. This early maturing bull will sire calves with heavy weaning weights and leave desirable replacement females full of production and longevity. Have a good look at this one on sale day, he has a lot going for him.

Starwest Pol Blueprint has sired both excellent sons and daughters for us. A large cross-section of progressive breeders have utilized him and there are many success stories of the progeny he has sired. We were fortunate to purchase the walking rights and are pleased to offer these Blueprint sons to you. Here is Bombay, a bull with a ton of shape and big time natural muscling from his Spartacus dam. He is a good structured bull, with good testicle size. A full brother sold to Stolson farms from Hodgeville for \$14,000 at last year's sale. We seen him this past fall and he looks awesome. Bombay's dam is bred back for a mid-January calf, so good fertility in this bloodline too. We think Bombay will sire some exceptional progeny, his daughters will make great mothers and raise your best ever!

**365 Day adj. Wt: 1422 lbs.**

Lot 66 & 67 are full fleck transplant brothers, we also have two fancy full sisters retained in the replacement pen. They are all sired by the polled Blueprint. The dam of these brothers is an awesome uddered hemisphere daughter, we culled her last year at age ten and her udder was still so good, but the hip not so good. She raised a \$25,000 high seller for us going to Hairy Hill Cattle Co. and they also bought a daughter at one of the earlier Source sales.

Another son was purchased by Sheldon Doerkson at Carrot River, Sk., and

we have three daughters working in the herd, one is the dam of lot 20, Red Classic so be sure to check him out. Banner is a real power bull, big soggy and thick, lots of testicle too. We think he will be a good breeding bull; his evening belling session is to let everybody know that he is a big boy and is ready for some cows. This is a very good bull and he will sire excellent thick sons and super producing replacement females.

Oh my, they don't come much darker than this. Colour and style to burn on this Steiger son. And if you are looking for long bodied, big butt with muscling throughout, he's got that too. Born to a fancy Subaru sired heifer that is full of strong maternal traits on both sides of her pedigree. She is bred back for a mid-January calf and looked great even after feeding this pretty boy to 835 pounds on weaning day. Here is a bull that covers all the bases, he is sure to get your attention on sale day.

It is early January and we have just calved out a few of these Steiger sired heifers and their tight little udders are near perfect. Traction's dam is a strong Cornerstone daughter, we have several and they really have been one of the cornerstones of our program over the last years. She has always calved early and is due again in mid-January. We have three of her daughters working in the herd and her progeny have been purchased by KSL Simmentals at Beaver Lodge, Alberta, Southridge Stock Farm at Vermilion, Alberta, and to Laurie's guitar pickin' cousins Marty and

Julie Lay at Loon Lake, Sk. As you can see Traction has some white feathering on his legs and I don't think that is a snowball on his topline either. This certainly won't affect the thick calves he will raise or the highly maternal replacements that will go on to be some of your top producers. Don't let this one sneak by, he is a good one. ~ **DILUTER FREE** ~

An end of February born big butted, big nuttied, long bodied full of meat bull is what his good picture shows you now, but this young fella will grow into a lot more bull by sale day. Sired by a bull we raised who is a son of the \$37,000 Crossroad Subaru who was our high seller a few years back. His dam is sired by the cow maker, Anchor T Rusty. She has placed progeny into the good herds of James Kohut, Garth Bradley and Bonchuk Farms in Manitoba. Good thick hair coat on this young bull and very good disposition too. Here is one that will sire you some long, thick and hairy, heavy weight money making calves. ~ **DILUTER FREE** ~

Born a 75 pound twin and he must have been doing a little drinking in his younger days to get to where he is now. It takes a good cow to grow a good calf, and his dam's side has certainly proven that over the years. His young Bolero dam has an excellent daughter that is due to calve any day and this bull's grandam was our old Sundae cow that brought home a good calf every year. Tremendous cow family here. We co-own this bull's sire with Ed and Brenda Beaulac from down the road and he is leaving us some excellent progeny. Great colour on this Grand Prix bull, good temperament too. Put him to work in your pastures, you will be pleased with the results. ~ **DILUTER FREE** ~

**BW: 100 lbs. 205 Day adj. Wt: 711 lbs.**  
**365 Day adj. Wt: 1247 lbs.**

We were hoping for a heifer when we bred this bull's dam to Polled Evolution, knowing she was looking old and this would be her last calf. She has raised us so many good females over the years we should have never sold any. She raised a good son purchased by Lee Crawford from Irma, Alberta. Ferme Gagnon in Quebec purchased a daughter as the high seller at the Source sale a few years ago and DGR Cattle Co. from Lacombe, Alberta also purchased her high selling daughter at last year's bull sale. We found another really good daughter dead in the pasture this past summer but she left us with a good heifer calf to work

with for the future. So that leaves us three super daughters working in the herd and we are happy that we can continue building this cow family. We think you will like this full fleck Explorer bull on sale day, he has some style with his good colour and balance, adequate thickness and as you can see good testicle size. He is full of maternal strengths and has a polled gene from his sire if you are thinking of moving your program in that direction. Here is a real interesting package for you to consider on sale day.

If you are looking for a polled bull out of two black parents, here is an absolute tank! He is super stout, super deep with a great hair coat and big testicles. He is sired by our heifer bull TSZ Hot Spot and weighed in at 90 pounds at birth and weaned off at 875 in early September. His powerful dam has a pedigree full of maternal traits that is hard to fault. She is bred back for a January calf to one of our new herdsire's R Plus Rattler for what we think will be a guaranteed good calf. Hot Shot is a very good bull are the comments we hear from visitors touring the bull pen. He will sire some good, soggy thick steers and replacements you will not want to part with.

~ HETERO POLLED ~ DILUTER FREE ~

# OPEN REPLACEMENT HEIFERS

For the last few years we have not sold any females other than through our bull sale. Our goal is to keep our herd strong in order to produce the very best bulls possible. This year we have chosen 11 solid open replacement females allowing you to expand your herd with some new and interesting genetics, just in time for breeding season. We have tried to select something for everyone and offer a good representation of our herd. They are extremely strong females, some are full siblings to our best cows and have full brothers in the sale allowing you to see the strength and potential of their genetics. We are proud that some of the females we have sold at previous sales have gone on to produce high selling progeny for their new owners. The heifers are available for viewing anytime, we always look forward to your visits.

**BW: 94 lbs. 205 Day adj. Wt: 627 lbs.**

~ FEATURE HEIFER~ She is an embryo transplant out of IPU Code Red x Spartacus and the first daughter to ever sell. The success of this combination of genetics over the past few years is through the roof! I have not added up the dollar value but it is high and climbing. Code Red's natural calf is lot 1 and there are also several other lots of Spartacus bulls and full brothers to this heifer for you to assess. As you read throughout the catalogue you will see how both Code Red and Spartacus have influenced our program. Spartacus has a long list of accomplishments, his forty nine sons that were auctioned off have averaged \$13,640, and we have many Spartacus sired daughters working in the herd that are among our strongest. We have ten full siblings to Genelli retained in the herd, two of them are dams of lots 2 and 3 and another is the dam to lot 81. These lots are all sired by American Red, so if we give you a straw with the purchase of this heifer you will be able to judge what your end product will look like. Sweet deal is what the "Master"(Gerald) says. He has been pretty quiet up till now, I wonder if it's because I've had him tied to a kitchen chair helping write footnotes?? Genelli is a true foundation female, we are pleased to offer her to you knowing she is one that you can build a herd on.

**BW: 94 lbs. 205 Day adj. Wt: 669 lbs.**

You are going to like this one, a real fancy black blaze heifer that is moderate framed and super quiet. This is our first set of Hot Spot calves and we are very happy with them. Hot Spot comes from extremely good uddered cow families that really impressed us when we toured the herd. He was purchased mainly for the heifer pen but we gave him a sample of second calvers and cows too. Gateway's Supremacy dam raised a good bull that was purchased by West Raley Colony at Cardston, Alberta. She is bred back to Hot Spot and we sure hope we get a heifer and this time she won't leave home. She will make a very nice addition to any herd.

Definite eye appeal here with her good hair coat, colour, body type and overall balance. Her beautiful uddered Stepping Stone transplant dam also has a stunning profile and has done an excellent job raising her first calf. Godiva's grandam is the 106R donor cow that has 38 registered calves to her credit and we have several of her daughters and granddaughters working in the herd. This young lady Godiva may be the last lot in this catalogue but she certainly has the quality to be the start of a new cow family.  
~ HETERO POLLED ~

**TERMS** - The terms of the sale are cash or cheque payable at par at sale location unless satisfactory credit arrangements have been made prior to the sale. The right of property shall not pass until after settlement is made.

**Crossroad Farms** reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should the purchaser fail to settle for his purchase Crossroad Farms reserve full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released. Crossroad Farms and sales staff has the right to refuse bids from anyone who has a previous record of default in payment and who has not made prior credit arrangements, prior to the sale with Crossroad Farms.

**BID**- Every animal consigned to the sale must be sold by auction. No by bidding will be permitted. Each animal will be sold to the highest bidder.

**DISPUTES**- In case of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

**PURCHASER'S RISK**- Each animal becomes the risk of the purchaser as soon as sold. **ANNOUNCEMENTS** from the auction block will take precedence over printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

**CERTIFICATE OF REGISTRY**- The proper Registration or Recordation paper, as the case may be, will be duly transferred and furnished to the buyer for each animal after the settlement has been made.

**SHIPPING**- Assistance will be given in making shipment after the sale but no risk is assumed by the Seller. Purchasers are requested to furnish shipping instructions when

making settlement.

**GUARANTEE**- All animals will carry standard breeding guarantee as specified by the Canadian Simmental Association. At no time shall the seller's liability exceed the purchased price of the animal.

**EXCEPTION TO GUARANTEE** - In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void. In the cases of bulls, they are guaranteed to breed naturally according to the Canadian Simmental Association Guarantee but no guarantee is given that semen from any bull will freeze.

**HEALTH** - All animals will have passed the required tests as determined by Agriculture Canada at sale location. It is the buyer's responsibility to determine health requirements for importing any animal into his province or state.

**ACCIDENTS**- Although every precaution will be taken to protect the safety and comfort of buyers, neither Crossroad Farms or any Sales Staff or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

**RIGHTS AND OBLIGATIONS** - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

**PICTURES**- By attending our sale you are giving your consent for your picture to be taken and used for promotional or advertising purposes only of Crossroad Farms. If you wish to not have your picture used please advise us in writing immediately after the sale.
