

# SIMMENTAL BULL SALE

**Tuesday February, 25 2020**

2PM /// ON THE FARM /// VERMILION, AB

## CHAPTER TWO

a program that invests in it's future...

# welcome

Welcome to the Second Annual W2 Land & Cattle Bull Sale held once again on the farm in our heated sale/calving barn. We would like to welcome the Wallgren family for the second year who have consigned a strong set of yearling bulls. Thank you to our customers from last year who put their faith in our program. It truly is humbling to hear the feedback on our bulls.

It's no secret that the last year was tough in all aspects of agriculture and we too saw our fair share of "head scratching moments", but like Jenna's dad Don has always told us "if it was easy everyone would be doing it". With the hardships mother nature threw at us along with the hurdles from our own government we were able to make it through, and even managed to add one more little rancher to the family. Jenna, myself, Marley, Cash and Jaycee welcomed the 4th (and hopefully last haha) child to the family, Merit Waltz on May 1. We are a family-run farm and that means it's pretty standard to see all 6 of us in the barn or in the tractor and we wouldn't have it any other way.

A little history on our cow herd. We brought over 60 cows from Jenna's family in Saskatchewan back in 2015 and have steadily grown the herd to what it is today. We run 165 Purebred cows and implant a growing number of embryos each year. This last year we put in 40 embryos, 90% of those being from foundation cows we have invested in to walk the pastures of W2. We're darn proud of our cow herd and love to show them off when ever we get the chance. Along with investing in these top cow families in the industry, we have set out to source the top herd bulls to walk our pastures. We truly think our lineup of herd bulls would challenge any operation out there. We calve the bulk of our cows in April and May, but we do calve around 40 cows in early winter, mainly for some females to sell each fall to purebred operations. Our cows calve under minimal supervision. It usually involves checking the cameras from the seeding tractor or Jenna checking between seed deliveries for our Pioneer customers in the spring.

Now about the offering... We were excited with the group of bulls we put together last year and were humbled by the interest in our program. With that being said this year's set is deeper, there is no doubt in my mind. We were able to get some bulls out to some really impressive operations last year and we feel this set of bulls has the same kind of potential in them. Some days we think we're crazy for doing this "2 yr old thing" but it was a vision Jenna's dad had when he started this purebred herd and it's one we really believe in as well. We don't push these bulls one bit as yearlings. We let them grow and mature as we believe they should and then kick them out for the summer to live on green grass. The bulls came in this year a little later than usual due to the tough fall. We put bulls on feed at the end of October and are really impressed with how they have done. Typically what you see on our bulls is what you get. They have gone through those awkward growth spurts and we love that a lot of the unknown has been taken out of the equation.

Come on by any time and have a look at the bulls or the mommas they come from. We really think these are real world cattle, that can not only survive, but excel in any operation. On sale day come early and enjoy some good ol' Vermilion hospitality!

*The Waltz Family*

# Sale Information

## Sale Day Phones

Kelly Waltz	(780) 853-3834
Jenna Waltz	(780) 853-3873
Dean Wallgren	(780) 806-0571

## Schedule

*\*Bulls can be viewed at anytime on the farm*

**Tuesday February 25, 2020**

**Rib Lunch // 12:30pm  
Sale // 2PM**

## Sales Management

The W2 Land & Cattle is an ideal sale to source age advantage bulls from a good program that is backed by great people. This second annual event saw a great crowd with many bulls selling to local cattlemen along with many excellent bulls selling out of province and the reports back were very satisfied customers. As W2 continues to concentrate on the extra age division, we welcome in the Wallgren family to bring 7 yearling bulls from the top of their program and they fully stand behind them 100% much like the Waltz family.

Kelly, Jenna and their entire family have passionately built and expanded a great program emphasizing on maternal strength and Simmental performance. They have a strong base cowherd to build off of but have been as progressive as any breeder out there adding important breeding pieces to their herd to benefit and enhance their strong program. They calve in the spring, much like you, the valued customer and understand first hand the importance of calving ease with strong udders combined with Simmental performance is the recipe for a valuable program. These extra-age bulls are built to last and can cover more cows in their first breeding season and are in ideal condition for longevity. The Wallgren family also has the customer in mind with bulls developed with longevity in mind and many strong cow families are featured in their offering.

The hospitality and meal are exceptional and the quality bulls on offer will be more than enough reasons to join us at 2pm on the farm in Vermilion. The bulls will be sure to impress but if you can't make it sale day, feel free to contact any of the sales staff to represent your needs in a professional and confidential manner. We look forward to visiting with you on Tuesday, February 25 for Chapter Two of the W2 Land & Cattle Bull Sale.

## w2 LINCOLN 5F

Homo Polled /// Black /// WW 5F /// 1248856 /// 5-Mar-18

Calving ★

Act. BW 99

Adj. WW 784

CE	BW	WW	YW	MILK	MCE	MWW	API	TI
6.4	4.1	68.8	107.4.1	20.1	0.4	54.5	122.5	65.52

WHEATLAND BULL 131L  
**S: WHEATLAND BULL 680S**  
 WHEATLAND LADY 351N

R PLUS BLACKEDGE  
**D: WFL LICIOUS LADY 9028W**  
 WFL RED LICIOUS

**LOT 1:** Lincoln has been near the top of this bull class since Day 1. He is an embryo calf who comes from our powerful Licious 9028W cow. Our 9028W Licious cow is a maternal sister to the mother of the famous Westcott bull who has been so popular the last few years. We have three full breds to this bull who are equally as impressive as well as a bull calf in the yearling pen who patterns Lincoln very closely. To say this flush clicked would be a huge understatement. Not only does this bull come from one of our top black cows, but on the top side of the pedigree is the famous 680S. 680S may have made as big of an impact in the Canadian Simmental breed as any bull. When you analyze Lincoln he is easy to fall in love with. He is stout, stout, stout! From the ground up he is very correct sitting down on a big foot that really gets out and moves. We feel Lincoln is the right kind for today. We homo polled tested a handful of bulls this year with Lincoln coming back homo polled. Lincoln is a herdbull.

Sire: WHEATLAND BULL 680S

Dam: WFL LICIOUS LADY 9028W

## w2 BANK ROBBER 29F

Homo Polled /// Black /// WW 29F /// 1286884 /// 12-Apr-18

BLCC BLACK TARGET 46X  
**D: W2 BEAUTIFUL TARYN 417B**  
 W2 TARYN 703T

**LOT 2:** Bank Robber 29F has had that herd bull look for a very long time. As visitors went through the bulls on pasture this summer 417B was being picked out every single time as the top, if not one of the top bulls in the group. Bank Robber comes from the Jesse James bull purchased out of the highly respected R Plus program. He was the high selling Venom son the first year Venom calves were offered. The \$50,000 Venom had sons average over \$13,000 that day and we believe this was the top of the pen. Venom himself has went on to do great things at the Circle G and McMillan programs. We have bred Jesse James for 3 years now and plan to keep using him for his very functional sons and daughters. They are all stamped the same way. Bank Robber himself is huge across the top, carries that muscle down low in his quarter and like we mentioned earlier just has had herd bull written all over him for a very long time. His dam is young cow, who phenotype wise may match up against any cow in the herd. With 417Bs superb udder and Cobra being on the top side we have no doubt that Bank Robbers daughters will find their way to the replacement pen.

Sire: R PLUS JESSE JAMES 6062D

Dam: W2 BEAUTIFUL TARYN 417B

5.7	2.8	72.1	106.5	19.8	3.5	55.9	114.99	66.58

**LOT 3:** When you analyze the 28F bull there sure is a lot to like about him. Soft made, great over that top and sits down on a great set of legs that can really get out and move effortlessly. When we crossed Jesse James with the 203Z cow who is a black goggle eyed cow we were hoping for a black blaze, but this guy turned out just fine and will sire a lot of heavy weight steers in his future were sure of. The Jesse James bull has turned in to an impressive mature bull that we love to put in the front pastures to show off. Not every bull purchase works out the way you had hoped, but we definitely hot a home run with Jesse James.

Sire: R PLUS JESSE JAMES 6062D

Great Grandsire: NCB Cobra 47Y

R PLUS VENOM 4006B

4	4.7	77	112.8	17.9	3.5	56.4	106.45	66.34

**LOT 4:** Here's the first red Jesse James son and he no slouch when compared up against his black brothers. He's one of the youngest bulls in the pen being an end of May calf, but just a bull that continues to get better every time we see him. Built like his brothers with that herd bull look, real good top and hip to him, just this time in a red package. The 045 cow is out of the Talkin Business bull that Don raised himself and did a ton of good things in the early years for the W2 herd. At 10 years of age she has kept a real tidy udder and looks to have some longevity built in to her.

6.9	2.5	69.7	102	21.1	6	56	115.38	64.95

**LOT 5:** Hustler has stood out for a long time for his blood red color and goggle eyes. He comes from a red goggle eyed cow, who put another real good bull in the pen for next years sale. As far as frame size goes she would be on the bigger side of things for cows for us. Hustler himself has that extra length of body that is so often over looked when selecting your next herd sire. The best way it was ever put to me was "at some point of their lives every animal is sold by the pound, and that length means weight". A bull that will cross really good with some solid colored cows.

 NUG PASHMENIA 403P

BLCC MR SLEDGE 135Z  
**D: W2 KALA 505C**  
 W2 AIR MAIL 305A

**LOT 7:** Here is our lead off Sailor bull and would be one of, if not the favorite bull to have ever been bred here at W2. We purchased the Drunken Sailor bull out of Meadow Acres program where he was in the Labatte/Meadow Acres Bull Sale back in 2017 as the high selling black bull that day. He is out of the famous Nug Pashmenia 403P cow. Money Made patterns his sire very closely. He is awesome haired, deep chested, super explosive through that rib cage and when you get behind this bull he's massive. He comes from a young heavy milking cow who would rank very high in our black program. We expect Money Made to do big things in the industry and we plan to use him ourselves in the future. Money Made is built like a brick sh\*t house.

Sire: MAF DRUNKEN SAILOR 266C

Grandsire: SVS CAPTAIN MORGAN 11Z

## w2 RAIDER 22F

Homo Polled /// Red /// WW 22F /// 1286869 /// 10-Apr-18

RU TRADIN PAINT 2Y  
**D: W2 BEHAVING BADLY 415B**  
 NORTH HILL SAMMY 69S

**LOT 8:** Raider is a bull that has looked like a herd bull for a real long time. He had a lot of admirers on grass this summer and then as 2 yr old bulls will do got fighting and hurt himself a bit in early fall and it knocked him back a bit. He is completely healed and a bull that will continue to get better as he catches his pen mates. His dam is a Tradin Paint cow who would be one of our most impressive black cows. The Tradin Paint bull goes back to the great 37U Flirt cow of Ranciers. With Pashmenia on the top side and Flirt on the bottom side there is a lot of breed leading cow families built in to this bull. Raider 22F look like a herd bull.

Sire: MAF DRUNKEN SAILOR 266C

KS RED BY DESIGN N968  
**D: W2 BORDER 656D**  
 W2 BORDERTOWN 456B

**LOT 14:** This Red Mountain grandson has risen to the top of the red pen for a lot of different reasons. Everest 17F is out of our Mountain bull who we have successfully used on heifers the last few years. A paternal brother went to Ruzicka Farms last year as a feature bull for us and he was impressive. We toured the Ruzicka cows this summer and saw his brother out with his second group of cows he had covered and he looked the same as the day they selected him out of our sale. That's exactly how is sire Mountain comes in every year after breeding. The 17F bull is a chunk of a bull. He is really explosive through that rib and deep through that chest floor. He has such a treat to watch as he moves as he holds himself together so well. We expect this Mountain son to calve equally as easy as his sire, while not giving up any performance in his calves.

Sire: KWA MOUNTAIN 18C

Pat. Sib - Sold to Ruzicka Farms

11.4	2.2	69.5	105.7	24.4	5.6	59.2	132.83	71.67

**LOT 16:** Elevation 12F has stood out for a long time with his gentle disposition as well as that desirable blaze face. Again another calving ease option, but with some added jam behind him. We calved out our first set of Mountain daughters this last spring and every single one of them set down perfect udders. At some point we will have to quit using the Mountain bull as we have retained a lot of females over the last couple years, but that time hasn't come yet. If you're looking for that bull to add a splash of white on some heads this may be the guy. His mother has consistently thrown blazes her first 3 calves. That's about as close to a science as we can find with chasing the whole blaze thing... This guy will sell early on Feb. 25.

Calving ★★★ | Act. BW 84 | Adj. WW 788

CE	BW	WW	YW	MILK	MCE	MWW	API	TI
10.2	2.5	64.7	97.3	25.8	6.2	58.2	131.49	68.2

**LOT 17:** Mass 36F comes from a really good young Teddy daughter who is deep red and hairy, hairy, hairy. These Teddy daughters have really shown their worth these last couple years. We decided to let our first ever Teddy daughter go this fall and she fetched \$9750. She was legit and like so many of the Teddys, soggy and setting down a great udder. The Mass 36F bull himself is a really deep red and has a lot of capacity to him. He is probably the biggest frame wise out of the Mountain sire group. Again, another bull who should calve really well and should have a little bit of added performance.

**w2 ALTITUDE 39F**

Scurred /// Red /// WW 39F /// 1287117 /// 8-May-18

Calving ★★★ | Act. BW 84 | Adj. WW 712

CE	BW	WW	YW	MILK	MCE	MWW	API	TI
11.9	1.8	66.2	99.7	27.1	7.2	60.2	131.18	69.94

**LOT 18:** Altitude 39F comes from a real moderate black baldy female so to say we were surprised to see a solid red calf would be accurate. There's a lot of reasons to like this younger bull, but we think his best attribute is how balanced he is. Everything is in proportion on him and he comes together in such a smooth package. We really like how square this bull is and how he always holds himself together so well as he travels. Again out of our sure fire Mountain bull should let you sleep at night as this guy will calve really well.

8	3.6	73.7	114.5	25.6	5.7	62.5	127.14	72.05

**LOT 19:** The Rise 9F bull comes from a young red cow who has put a keeper in the bull pen the last two years. She looks well on her way to becoming a pillar in our red division. She is awesome uddered, dark red and puts a lot in to her calf every year. Another real good calving ease option, but we do think any of these Mountain bulls will work well on cows. We do know that you will be getting a good nights sleep when calving cows bred to these bulls. We literally have never pulled a Mountain calf (hope I didn't just jinx myself)

10.7	1	71.2	106.7	23.7	8.5	59.3	142.85	74.23

**LOT 20:** Here is heifer calving deluxe bull who we bought in calf from the impressive Westway Farms program. Her mother was our pick and Westways high selling female the day we picked her out of Simmpower a couple years back. She has put another bull in the pen for next years sale that looks to be promising as well. Elway 1F's sire Prime Beef is an AI bull who has numbers that are out of this world for calving ease. He's about as dark red as you can make one and so smooth through that front end with a real nice skull to him. He should calve very well to someone who would like to throw a Simmental bull in with their heifers or be a real good choice for someone wanting to breed a little more frame into some smaller Angus cows.

9.1	3.2	69.3	106.7	23.3	5.6	58	126.88	69.16

**LOT 21:** The 32F bull is similar to a lot of the Mountain bulls as far as smooth shouldered and dark red. He will calve really well. He comes from a really great looking Ya Man female. She is huge ribbed, great uddered and really extended through that front. She's a cow we definitely should have a picture of to show off. The Mountain bull has our biggest sire group this year and most of these bulls are coming directly from heifers. We expect our heifers to bring in a calf in the fall that competes with the older cows. When we sorting off for the bull pen with this group we were really surprised with how many of these Mountains made the cut, but that just speaks to the quality of this bull and what he has done for our program.

## w2 BACKCOUNTRY 35F

Polled /// Black /// WW 35F /// 1286888 /// 4-May-18

Calving ★★★ | Act. BW 82 | Adj. WW 766

CE	BW	WW	YW	MILK	MCE	MWW	API	TI
11.4	2.4	71.4	109.4	22.6	5.5	58.3	133.05	71.92

**LOT 22:** Backcountry 35F has been a standout for a long time. We only have two Mountain sons in the black pen this year and this would be the more powerful of the two. 35F has a lot of middle to him and is great over that top. He comes from a first calf heifer who has added another great bull to the pen for next year. She is earning her keep real quickly around W2. We think Backcountry would work great on a black set of heifers or on an Angus based set of cows. I know I sound like a broken record, but this Mountain son will calve really well. Our black pen is really strong this year and Backcountry fits in with the best of them.

10.9	2.7	71.8	110.7	22.1	5.9	58	131.17	72.19

**LOT 23:** Here's the second black Mountain son in the offering and a true candidate for the heifer pen. Such a clean made bull up front with very little waste, a skull that says calving ease and a bull that is just very balanced from front to back. I know I keep mentioning a heifer option on these Mountain bulls as I do think every single one of them could work well in the heifer pen, but breeding these bulls to cows should work well too. It's never a bad thing to have those calves slip right out and get up and get going!

					5.2	3.3	66.8	99.9	21.5	3	54.9	109.7	64.44

**LOT 25:** Here is the loan Black Royal son of the sale. Royal Black is a direct son of NUG Royal Red and a bull that worked very well for us for a couple of years. He sired our high selling black bull in last years sale going to the good people at Westman Farms and JK Bar Cattle. Those two programs can pick out the good ones and the brother to this guy was darn good. The 24F bull himself has a lot of things going for him as well. Tons of length, holds himself together so well all the time, real clean through that front and great haired. These Black Royal sons truly seem to get better with age, just as their sire did. We lost Black Royal last year and he truly was an impressive mature bull. With all the good things we've mentioned about 24F the best thing may be the cow he's out of. She is my kind of cow, super stout and a cow that gets picked out every time someone tours the pasture. She has a son that will highlight our bull sale next year as well.

Welcome! It is with great excitement to be the guest consigner in the 2nd annual W2 Land and Cattle bull sale, and are very thrilled about the handful of bulls we have put together to offer! Our farm is a purebred and commercial cattle and grain operation, that is located 10 miles north of Edgerton. We run about 120 commercial cows and have slowly built up our purebred herd in the last few years to roughly 15 females. We strive to build our herd off the best genetics out there, and we're continuously buying foundation female that we can expand our herd upon. This is our second lineup of bulls we have ever had to sell and we're very confident that we have a very solid, uniform set of bulls to offer on sale day. Come stop in and have a tour of the bulls and females anytime, coffee is always on! Feel free to contact us about any questions of the bulls or anyone at Bohrsen Marketing Services for their professional assistance. We look forward to seeing you all on February 25th!

**LOT 30, 31 & 32:** We couldn't be happier with how these 3 full brothers have come along. It's been a toss up all year of which one we've liked better and we still can't make up our mind. We decided we really need to hop on a opportunity to get embryos on Sheila after we saw her dominate on the show road a few years back. It's not hard to find Sheila genetics in most sales as she impresses most cattlemen no matter how she is crossed. We have more Sheila calves that are on the ground right now and they look awfully exciting. These bulls have some big time maternal strength that they're backed up on, and adding even potential from there sire Stepping Stone that is one the hottest bulls in the breed that gets used heavily in the AI program. We are very pumped to see the future in these brothers and we encourage you to take a look for yourself.
