ANCHOR B - ANCHORAGE
nineteenth annual bull and female sale

Thursday, March 26, 2020 :: at the Anchor B Farm - Hanley, SK :: 1pm
We are very excited to invite you to our 19th Annual Sale. Moving the sale to our farm three years has been a great opportunity to host you and show you the daily operation of Anchor B /Anchorage. You will see how our bulls are developed for both the yearling and 2 year old market along with feed rations and of course the daily management of the cowherd. Our operation is like many customers as we are very hands on and you will note the care and attention that we as breeders spend daily with our cattle. We hope this care and detail resonates with you. If you have any questions about the bulls or cowherd, please feel free to ask any of us.

2019 was an interesting year again as we didn’t have any rain until late June, however with this rain it was our first year since 2016 where we put up enough feed for the winter. We are appreciative of the good quality of feed we have and hope you find yourselves in the same situation this winter. The consistency of the beef markets over the past few years has been appreciated to offset the high feed costs. We continue to be optimistic about beef supply demands worldwide and are excited to be in the beef industry.

If you can find time amongst your busy schedule, we hope you can attend our 2020 Sale on Thursday, March 26th. We expect great weather, great food and great socializing.
Welcome from the Bohrson family

Terms & Conditions
» Cattle will sell under the standard terms and conditions put forward from CSA and BMS. These are available upon request.

Insurance
» Insurance will be available sale day.
» Please insure your bull(s) if they are returning to our farm.

Terms
» Cattle will sell according to the Terms and Conditions of the Canadian Limousin, Angus and Simmental Associations.

Guarantee
» All bulls will be scrotal measured, semen tested, and sell as guaranteed breeders.

Delivery
» We will transport your purchase to central locations in Western Canada and trucking arrangements to Eastern Canada or USA will be co-ordinated.
» Bulls can remain at our farms until May 1 with no additional charge. These bulls must be insured.
» All registered bulls carry registration papers, performance info, and EPDs.
» Each owner reserves the right to collect semen on any of their bulls sold through this sale. The semen collection will be at the seller’s expense and buyer’s convenience. Any semen collected will be for in-herd use only.

Catalog design by Bohrson Marketing
» The information printed has been supplied by the seller and believe to be accurate. Updated sheets and announcements from the block will take precedence over any incorrect printed material.

Gold Rush created quite a stir at CWA 2019 capturing Junior Champion Bull Calf as he had many followers and I believe he is the type of bull that I think the Limousin breed has been striving to produce in Canada for 50 years. His EPD’s are breed leading with WW, YW, Milk and Doc within top 20% of the breed. Docility being Top 1%. Gold Rush just celebrated his first birthday on February 14th and you won’t find a more powerful, mellow, soft made, heavy muscled bull in the Limousin Breed. He has tremendous shape, style and presence. His pedigree is stacked with maternal strength as well.

Homo Polled test pending
Lot 2  Anchor B GRAND SLAM 2G // Hemo Pld (P-3) // 91% Limo
JBH 2G // Jan 8, 2019 // CPM4099822

COLE ARCHITECT 08A
sire: RPY PAYNES CRACKER 17E
EDW BEACH BODY

HUNT CREDENTIALS 37C ET
dam: B BAR NICOLE 28E
B BAR NICOLE 31C

Recommended for Heifers and Cows.
» Grand Slam has stood out here since Day 1. His dam was our choice from the 2018 B Bar Cattle Sale and she definitely exceeded our expectations with her first calf. This Nicole female is out of the very popular HUNT Credentials and developed a very nice udder. RPY Paynes Cracker’s first calves have been very well accepted in the Limousin breed
» If you are looking for a hairy, long made, easy doing bull with calving ease look no further.

Lot 2 - July 2019

sire: RPY PAYNES DIESEL 37D
EMF POLL ZILL

ROMN MADE TO ORDER
dam: TMF TOO MUCH FUN 507T
LZYR 101L

Recommended for Cows.
» Guns N’ Roses is the result of embryos we purchased from the Greenwood program. We have always been fans of the great TMF Too Much Fun cow and we were fortunate to get G N’ R along with a full sister from the embryos. A bull that is very stylish with lots of hair and free movement.

Sire of Lot 3
RPY PAYNES DIESEL 37D

Sienna
Recommended for Cows.

Gladiator is our lead bull from our Senior Herdsire JYF Deadeye 628D. We selected his sire from J. Yorga for muscle, scrotal development and disposition. He has passed all of these traits on to his first calf crop. The picture of Gladiator shows his tremendous muscle shape and you will be even more impressed in person. With his dam being a direct daughter of the great ROMN Made to Order you will also want to keep females of this bull, lots of milk in pedigree and consistency built in.

Recommended for Cows.

General Lee is a bull that follows close in type and kind to Lot 4 Gladiator. Out of JYF Deadeye and a dam that goes back to Made to Order, you will see many similarities in these bulls. Check out the March birthdate of this bull and you will note that there is lots of potential here.
**Lot 6**

*dam: RIVERSTONE CHEERLEADER  
HIGHLAND BARBARA 9Y*  

**Recommended for Heifers and Cows.**  
» Generation is out an honest, hard working LimFlex cow we purchased a  
few years back as a feature heifer calf. Cheerleader has produced 2 highly  
sought after black bulls in 2018 and 2019 Sales and this bull won’t disappoint. 92G  
is a high percentage LimFlex bull that shows very good balance of Limousin muscle  
and Angus capacity. Breed with confidence.  
» Maternal brothers have sold to Delbert Warren and Martin Bohrson.
Recommended for Heifers.

» Ghostrider is built to breed heifers. He is moderate in his frame and will allow you to have sleep filled nights. His dam is a hard-working, heavy milking female that was our only Wulfs Amazing Bull female to be born in 2016. Many will remember our high selling bulls in the 2017 Sale (Anchor B Donaldson and Anchor B Durant) which were both sons of Amazing Bull.

» Maternal brother sold to Norm Brown, Ont.

Recommended for Heifers.

» Garrett is another Dallas son that has calving ease, muscle shape, and a moderate frame.

» We selected Garrett’s dam from Solid Gold 2017 from Double B Cattle (Hewson family) due to maternal strength for the Betty cow family and Supreme Champion Canadian Impact.
Recommended for Cows.

» A long bodied, smooth made Dallas son that will cover cows.
» Maternal brother sold to Tim Fleury.

Recommended for Cows.

» Another long bodied bull with frame to cover cows. We purchased the heavy milking Pipeline dam from Campbell Limousin Cowherd dispersal a few years back and she just had her 12th registered calf. Longevity built into the pedigree.
» Maternal brother sold to Glen Cline and a maternal sister sold to Cyndie Leblanc, MB.
HUNT TESTAMENT 40T  
sire: HUNT CREDENTIALS 37C ET  
JKTW WHISKEY RIVER 985 W
ANCHOR B "THE BOSS"  
dam: LIMOUSIN X  
COMMERCIAL

Recommended for Cows.  
» 36G is a HUNT Credentials son out of a first calving Boss daughter in which we are unable to register. Long bodied, hairy calving ease bull that will work in a lot of situations.

HUNT TESTAMENT 40T  
sire: HUNT CREDENTIALS 37C ET  
JKTW WHISKEY RIVER 985 W
KOYLE APACHE BA  
dam: ANCHOR B DENVER 126D  
ANCHOR B ZAHARA

Recommended for Heifers and Cows.  
» Fulton is a very good candidate for use on heifers and cows. We have successfully used HUNT Credentials on heifers and he has proven himself for calving ease and style. Fulton’s dam is a first calver out of Anchor B Zahara (Granddam of Lot 1) and maternal strength is built in here. We had enough confidence in JBH 216F as we utilized him on a select group of heifers in 2019.
Recommended for Heifers and Cows.

We have had many good "THE BOSS" calves over the years and this will be the last opportunity to purchase a bull for your program. Both Fortis and Forsyth have calving ease and the extra age that will cover a few more cows.
Recommended for Heifers and Cows.
» Take a look here, Fremont is a Credential son with loads of muscle and shape. His dam was selected as a heifer calf and we are very pleased with her first calf. Credentials continues to provide a lower, consistent birthweight and Fremont will work in many situations.

Recommended for Heifers and Cows.
» Fresno is another 2 year old black bull that is very versatile with calving ease and the ability to cover to cows. Sired by Credentials and again you see the consistently this sire has provided. We had enough confidence in JBH 225G as we utilized him on a select group of heifers in 2019.
» Maternal brother sold to Greg Trewin, MB.
Recommended for Cows.

» Fullerton is a powerful 2 year old bull whom has muscle shape and capacity. He is a former show female from Koyle Farms (Ontario) which had a great career, she has transported herself into a good milking quality cow.

» Maternal brother sold to Wedrick Stock Farm.

Recommended for Cows.

» Firestone is a powerful Limflex bull that blends Limousin muscle and Angus capacity in a moderate package. Triple L Midland is a proven Angus producer and Firestone will provide some females to keep as well.
Riley is pleased to offer Glass Heart for your appraisal as our lead off heifer. We have been very pleased with the Credentials sons over the past couple of years and now that the females are in production we continue to be more impressed with this sire. Our Credentials females were highly sought after in our 2019 Sale. To increase the strength of this heifer is her dam, Greenwood Elastic Heart, who Riley selected as a high seller in the 2017 Western Select Sale in Lloydminster from Greenwood Limousin. She had a very successful show campaign and continues as beautiful cow. To finalize the package, check out the EPDs here. Breed this heifer many ways and you will have calving ease, performance and scrotal.

» We selected 596 for the sale as she is the top heifer out of our Senior Herdsire JYF Deadeye who also sired Lots 4 and 5. She is a deep made, soggy, hairy female with eye appeal.
When we committed to selling some Angus heifers in the sale for the first time, we knew we had to offer our very best.

Mayflower 9035 was a standout from birth and all along the summer time she was a special one that rose to the top and many around here are in agreeance, she is the best Angus heifer born on the farm in 2019.

Incredible pedigree with the incredible breeding of Bravo on the top side with the maternal greatness of Natural Law on the bottom and stems from the famous Mayflower cow family.

Impressive phenotype, strong EPD’s with an excellent pedigree from a beautiful dam makes this female a hard one to let go but you know when it hurts to let them go, they are the type to be proud of to go on and carry your prefix and provide a great ROI for the successful purchaser.
Here is a special female that we have the utmost confidence in and absolutely know she has a special presence that she will be a highly maternal breeding piece.

If there was one to hang a halter on, we feel Lucy 9232 could be an extremely competitive breeding heifer in the March division that has the style, length of hip, soundness, sweep to her underline and attractiveness upfront to garner some banners.

Her dam, the $19,000 (US) PF 7229 Lucy 2555 is a beautiful female that is a granddaughter of the $100,000 Basin Lucy 3829 that is a great donor for Express Ranches.

A maternal brother sold last year through the sale and we feel that Lucy 9232 is a special female that we really encourage you to make the trip to Hanley to view.

A true brood, production female in the making that is sure to impress with her ability to convert and always be bold sprung, easy-keeping and have extra dimension.

Her dam, HF Tibbie 21D was a sale feature and our pick of the 2017 Hamilton Farms Sale who is beautiful udder, strong footed and highly productive.

Backed by an outstanding cow family, this female is one to tie into with confidence that she will be a profitable investment as she ties it all together in a very hard to fault package.

We do feel the upside to this female endless and the type we want to offer the industry.
Queen 9221 is out of a strong udder, tank of a production female that we acquired as a feature female from Nordal. She has extra shape and overall dimension while still being attractive made and very complete. The Motive x Emblazon combination will surely enhance maternal strength and the ability to raise those heavy, sought after progeny that will be the money making kind.

Queen 9221 is out of a strong udder, tank of a production female that we acquired as a feature female from Nordal. She has extra shape and overall dimension while still being attractive made and very complete. The Motive x Emblazon combination will surely enhance maternal strength and the ability to raise those heavy, sought after progeny that will be the money making kind.

This April born sweetheart has always been of high quality and is out of a strong udder, good footed dam that annually produces one at the front end. Paternal brother sold last year to Ryan Grindheim and 308A has another strong calf aside once again this year. Her sire, Courage needs no introduction as he was purchased as lead bull and high seller from Anderson that has produced equally as strong sons as daughters.
Recommended for Cows.
- Big League is a bull we are very proud to offer as he is an embryo calf from one of our very best donors, EXAR Blackbird 0698.
- 0698 is a beast of a production female that always cranks them out and she is a crowd favourite from all that have ever laid eyes on her.
- His sire, Sudden Look is a breeding sensation that has limited semen available in Canada and when it is put up for auction, brings a large premium.
- Big League can be invested in with confidence on cow family and is most impressive to view him in the flesh. He is attractive fronted, soft middled, well muscled and gets out and moves with ease for as much shape, dimension and power that he possesses.
Recommended for Heifers and Cows.

» Just a 76 pound birthweight in this stout made, well muscled, tank of a breeding bull that combines some of the best genetics in the Angus business.

» His sire, Bank Note is the $125,000 breeding phenom that is commended for his outstanding daughters and equally as impressive sons.

» His dam, Elsa Erica 7120 is a maternal sister to the $12,000 bred heifer we sold to the outstanding program of Spruce View Angus in the Angus Collection Sale.

» This is a pedigree you can invest in as it annually raises the top genetics in our program and Lot 28 is a prime example of their potent breeding potential.

Recommended for Cows

» We have combined some of the very best genetics in the business here with Lot 29 and it resulted in a ground pounder of an impressive herd sire.

» This soft made, easy doing, good haired and sound individual wraps all the quality together in a true herd bull package.

» His sire, the $95,000 Firebrand is one of the hottest bulls in the business and has sired the $53,000 daughter that was on the FarmFair and Agribition Supreme Champion Pair.

» His dam, Wiwa Creek Erica 77’12 was highlighted through Power & Perfection as a $21,000 high seller and a female with a strong udder and production value.
Recommended for Heifers & Cows.

A cool opportunity here with a bull bred by one of the most respected programs in the business, Hamilton Farms.

His dam, HF Miss Annie 50E was purchased as a $10,000 feature bred heifer at the Angus Collection who has dropped a beautiful udder and is strong footed, fertile, fault free and will add natural dimension and pay weight to her progeny.

Her sire, Thrive is a $35,000 1/2 interest calving ease specialist that has produced an impressive calf crop at HF and we are excited to have a son here that is very complete made.

Strong spread from calving ease to ww to yw ensures Lot 30 will be a valuable investment and you’ll want to keep every single daughter to build a program around.

Recommended for Heifers & Cows.

Another son here from an impressive Hamilton Farms female, HF Echo 111E stems back to the famous Echo cow family that is the backbone at HF.

A stacked pedigree and high quality calving ease prospect that will leave you incredible females.

Lot 31 is as deep and soft ribbed as you can find while still being level topped with a smooth shoulder and extension through the front end.

We can’t say enough good about the Oklahoma sire group and these three bulls are awesome examples of his breeding ability.
Recommended for Heifers & Cows

» Oklahoma is a breeding machine in our books and an important piece of our program moving forward with outstanding sons and daughters.

» Lot 32 is a feature bull in our offering and puts it all together with an impressive presence when you lay eyes on him and backed by an awesome pedigree.

» His dam, Coul Lady Blossom 38’17 was a high seller from Belvin and is out of one of the most prominent cow families in the industry.

» We are confident he will work on well developed heifers with ease as his EPD’s, pedigree and phenotype shows that with a higher actual bw, we stand behind this bull as a very complete calving ease individual.

Recommended for Heifers & Cows

» The third Oklahoma son on offer and one of the standout calves since birth that has always had extra presence to him.

» Ultra calving-ease with just a 0.5 BW EPD and solid grow numbers in a smooth made package.

» His dam, Belvin Lady Blossom 70’17 was a high seller in the 2017 Belvin Sale and is out of the great cow family that is known for foot and udder strength with high production value.

» Lots 31, 32 & 33 are all Oklahoma sons from first calvers and we are extremely proud of the trio that is on offer.
