## Live Viewing the Sale Cattle

You will have over 300 head to look at so you are strongly encouraged to view the cattle prior to sale day. Cattle are available for on farm viewing at any time. They will be sorted and put in their pens on November 23.

# Welcome from WLB Livestock

It was in the early 70's and I was working the purebred sale circuit through the U.S. midwest. Simmental sales at that time were only offering ½ and ¾ bloods as purebred Simmental were still a year or two away. That's why it was such a big event when a sale in Kentucky offered a Fullblood Simmental heifer calf consigned by a Canadian Simmental ranch called Bar 5. What she sold for I can't remember but I do remember meeting Glen Osborn and Mac Draper for the first time. A couple of years later I was invited to work the second Bar 5 Bull Sale. It was then that I met Neil Moffat, John Draper, and Wilf Davis as well as a number of Simmental breeders that I have long since called friends. I can still remember that week back in 1975 being part of "the Bar 5 Bull Sale" and observing the energy and enthusiasm that existed in that barn full of people and Fullblood Simmental cattle.

I got invited back to Canada not to work at Bar 5 but to work for one of its owners, Donn and Sylvia Mitchell. Donn and Sylvia owned Klondike Farms, a world renowned Polled Hereford operation. It was a few years into my employment at Klondike that Nancy and I met. We celebrated our 40th anniversary this past August. It was during our twelve years at Klondike that we started our family. Our sons, Travis and Anthony cut their teeth on cattle and the farm way of life.

After working at Klondike for twelve years Nancy and I made a five mile move over to Bar 5 Simmentals. This is when I think Simmental really got in my blood. I have plenty of good memories working with the Bar 5 cowherd before moving into the Bar 5 office where I worked with Wilf on sales & marketing. What really sticks in my mind through those Bar 5 years are the Simmental breeders and their enthusiasm. No matter what state or province I went to on behalf of Bar 5 that Simmental enthusiasm was always there.

Nancy and I left Bar 5 in 2000. By then we had put together a small but successful Polled Hereford cow herd. It was in 2003 that we got more serious about putting together our own Simmental herd. By then Simmental wasn't just in my blood it was in my bones. Nancy could see my desire to have our own Simmental herd so we enlisted the help of our friend, associate, and mentor, Wilf Davis. Wilf has played a key role not only in the selection of our first five Simmental females but also in selecting other building blocks for us along the way. Wilf connected us with our first five Simmental females which came from Barry Labatte. Three of those original foundation cows are recognized in this catalogue by the cow families carrying their name. 412H, 66K, and L205.

The females that gave us sellable bulls, such as 412H, 66K, and L205, became the template for building this cowherd. Looking back I have to say we didn't build it on a specific type or size of cow, we built it on a cow's ability to raise sale bulls year after year. We let cow type and size sort itself out. We single out L205 for having such a philosophy. I still remember her first calf, a Joker bull calf. I wouldn't of believed it if I hadn't seen it for myself but he was up and sucking in less than 10 minutes of birth. You can bet we wanted more of that.

In the spring of 2004 and once again with Wilf's help and direction we hosted our first on farm bull sale. It was held outside with a grand total of 12 Hereford and 2 Simmental bulls in it. A good Hereford friend, Jack Lewis, auctioned them off from the back of his pickup. We had no sales ring. Instead we turned the bulls loose in a circle of people made up by those attending the sale. Here we are sixteen bull sales later writing the forward for our Simmental dispersal sale catalogue.

Friends have said, since we dispersed our Herefords in 2016 our Simmental dispersal should be a walk in the park. To that we remind them our 2016 Hereford dispersal was 132 head with a 56 page catalogue. This dispersal catalogue will have 112 pages with 326 head in it. It contains, hands down, the best crop of calves we've ever produced with some of the most promising bull calves we've ever weaned and the cowiest bunch of bred heifers we've ever developed and don't forget the 71 heifer calves. If our program is truly working they should end up making the best cows out of the whole bunch.

When you join us on sale day we ask you to look around and remember anywhere you sit, stand, or walk on sale day was just a field of canola stubble with no trees when we bought it in 1981. Our two sons, Travis and Anthony were very instrumental in the development of WLB. Their sweat in planting, weeding, and watering over 10,000 trees and picking almost as many rocks helped turn it into what you will see sale day. We wouldn't be where we are today if it wasn't for their efforts here on the farm. Yes it's always nice to see your kids take up the torch but there is also satisfaction in seeing them light and carry their own torch and run their own race. Travis happily serves farmers in the Shoal Lake area by keeping their New Holland equipment operating. Anthony recently became the General Manager for region one with Pattison Agriculture in Swift Current. You can bet we're proud of our boys.

Nancy and I have long talked about our dispersal day. We were both agreeable in not wanting this day to be a "have to have" event and that it isn't. We also agreed we wanted to disperse our cows while we both have the energy to give it the effort that one's life long work deserves. We're pleased to say at catalogue time we're both healthy and grand kids do have a way of changing your priorities. It's time to slow down and enjoy them.

Remember there are over 300 head of cattle to walk through so you are encouraged and invited to come anytime, for as long as you need, to view the sale cattle prior to sale day. If we can assist with your plans in some way please call upon us.

Many thanks,

*Bill & Nancy*

# Welcome from Bohrson Marketing

One of the major events to unfold in the Canadian livestock industry in 2020 will be the Complete Dispersal of WLB Livestock. This must attend sale will feature the multiple decades of passion and knowledge that Bill and Nancy Biglieni have put into their productive Simmental cowherd. There are many things that can be bought in life but experience can't be and while you wisely invest in this sale, these genetics are backed by 50 years of cattle industry experience as they were mated. Invest into this program with confidence that you'll be receiving the very elite genetics in the Simmental industry today which many of them are outcross to the mainstream bloodlines.

The love for the Simmental breed started at Bar 5 when they became heavily involved in that famous programs success. Bar 5 is the most recognized Simmental name worldwide and along with many key cattlemen such as their mentor, Wilf Davis, they had a significant role in that awesome cowherd. We too, have always respected and looked up to Wilf with great appreciation for his cattle knowledge and dedication to the breed and we couldn't think of a better role model to build a cowherd with as he was always there for Bill and Nancy giving worldly advise throughout the years.

As you read Bill and Nancy's welcome, you will notice that they have traveled the world in order to study and also judge cattle of multiple breeds but the Simmental is where his heart is. That experience is noted when you see the consistency and quality of the WLB program that we put in front of you in this impressive catalogue built on cow families success. The strength in cow families is the root to every successful program and they learnt that early on to invest in quality and build around production records. The amount of highly productive cow families to be sought after as it is a true testament to this deep cowherd.

When viewing the WLB cattle themselves, you'll see their emphasis on longevity and production value. Almost every animal in this catalogue has been pictured and that is a true testament to the strength of the herd along with their hard-working approach. They have true confidence in their cattle and know they'll give you the same strong ROI that they have carefully selected them for throughout the years. One of the cool qualities of this program is that the pedigrees are relatively outcross to the majority of the Simmental databank and we are confident they're built for profitability.

Bill and Nancy have stated that it is time to slow down and with the young grandchildren and family growing, it will allow you the opportunity to access their entire program. This is a great opportunity and they have put every waking hour of energy into this cowherd and know it will give you ample opportunity on sale day to reap the benefits. They are carrying early and exciting services that are sure to take your program to the next level. Whether you are looking for the next special donor or a trailer full, this is the place to be this fall for quality and opportunity.

We strongly encourage you to view the cowherd throughout the fall and any time prior to the sale as we know it will surely impress you. Both Bill and Nancy are highly respected cattlemen and we know that they will give you a first class tour and assist in finding you exactly what you seek. Ourselves at BMS are very familiar with the offering, if you can't be in attendance we would be honoured to represent your needs in a confidential and professional manner. We look forward to seeing you at the end of November for this historic event in Douglas, Manitoba.

# *A word about* Morden Vet Clinic *herd health from*

I have had the pleasure of providing Veterinary Services to the WLB Livestock herd for the last 19 years. Bill and Nancy Biglieni have developed a very good herd and have proven to be excellent managers of their cattle. They diligently follow the preventative vaccination program that I have recommended over the last 19 years. This vaccination program should insure that the WLB herd does not have any BVD PI (persistently infected) cattle. In the past we have also blood tested calves to insure they are BVD PI negative and they have all tested negative.

## New Born Calves

- Inforce 3 intranasal vaccine (MLV IBR, BRSV, PI3)
- Vitamin AD
- Vitamin E/Selenium
- Toltrazuril orally

## Calves (~2-10 weeks of age) – when cows get their pre-breeding vaccination

- Pyramid 5/Presponse (MLV BVD, IBR, BRSV, PI3, Pasteurella)
- Tasvax 8 (8 way blackleg including tetanus)

## Cows Pre-Breeding (late March/early April),

### And heifers that will be bred for the first time

- Express 10 (MLV BVD, IBR, BRSV, PI3, Lepto x 5)
- Tasvax 8 (8 way blackleg including tetanus)

## Pre-Weaning (Late Summer) All calves

- Express 5/Sommugen (BVD, IBR, BRSV, PI3, Hemophilus)
- Tasvax 8 (8 way blackleg including tetanus)
- Ivermectin pour on
- All bull calves receive a rumen magnet to aid in the prevention of hardware.

## Late Fall/Early Winter

- Scour Bos 9 (scour vaccine – E.coli, Clostridium, Rotavirus, Coronavirus)

Note: All bred sale females will have the Scour Bos 9 vaccination prior to the sale.

The entire WLB herd received Longrange injectable dewormer just prior to going to pasture. This provides 5 months duration of deworming. Every sale animal will have received a fall application of Ivermectin pour on.

I pregnancy tested the WLB herd this summer using palpation and ultrasound.

1st group – Bred heifers, some cows July 23

2nd group – Cows August 7

3rd group – Cows August 11

The advantage of pregnancy testing the heifers and cows when they are less than 4 months pregnant is that I can more accurately determine the stage of the pregnancy and as a result the breeding dates and calving dates listed in this sale catalogue should be accurate.

*Dr. David Hamilton*

# *A word from* Feedmax Nutrition

Feedmax opened doors in September 2001, primarily as a swine facility but as the ever changing industry called for multispecies feeds then started producing feed for all livestock in 2002. Currently we offer Complete Feeds, Supplements and Mineral for all species. With Nutritionists on consult to support with customization of feeding programs we are able to work with multispecies in many different facets.

At Feedmax we encourage our livestock producers grow as much feed on farm as possible. Sometimes there is need for supplementation where there are gaps in the nutrition being supplied. We have been working closely with Bill and Nancy to optimize their feeding program. Bill and Nancy have been active with Feedmax since September 2011. While working with the Biglieni's and our Nutritionist, we have developed a custom feeding program for optimum performance from their bulls. With communication we have been customizing the feeding program with Bill and Nancy to enhance their bulls so their customers receive a sound animal. The program is designed to help with growth, fertility development and overall performance. We have balanced the ration with chelated minerals, vitamins, selenium and proteins for enhanced feeding and nutrient absorption. We at Feedmax congratulate Bill and Nancy on the success they have had breeding high quality seedstock for the North American beef industry and would like to thank them for making us a part of their nutritional program.

## Accommodations

Best Western :: 204-727-7997  
Lakeview Inn and Suites :: 204-728-1880

## Pictures & Videos of the Sale Cattle

Cow pictures were taken June through August, all other photos were taken October 5. Heifer calf videos were taken the beginning of October while all other cattle will be videoed beginning of November. All sale cattle will have videos available online in early November. To view their videos go to [wblivestock.com](http://wblivestock.com), [www.bohrson.com](http://www.bohrson.com), [www.liveauctions.tv](http://www.liveauctions.tv), [www.firstclassmarketing.com](http://www.firstclassmarketing.com), [www.buyagro.com](http://www.buyagro.com) or [www.DLMS.ca](http://www.DLMS.ca).

## U.S. Buyers

U.S. buyers will be charged \$150 CAD per animal purchased. This charge will cover the export testing necessary for entry into the U.S. Trucking and all US Customs and Veterinarian charges will be the expense of the buyer. U.S. buyers are advised to check with their state vet regarding the health tests requirements for entry into their state. Cattle are continuing to move across the border without any issues.

## Exchange Rate

The US/Canadian exchange rate will be announced prior to the sale.

## Terms

The terms of this sale are cash, cheque, E-transfer, or money wire.

## Breeder's Guarantee

As this is a dispersal sale, all cattle sell with no further guarantee. Any known defects if not in the catalogue will be announced sale day.

## EPDS

EPDs listed are as of October 2, 2020.

## Announcements

All announcements from the auction block will take precedence over the printed matter in this catalogue. Buyers are urged to stay attentive for such announcements during the sale.

## Accidents

While we are very pleased that you have chosen to come to our sale, you are reminded that you do so at your own risk.

## Delivery

Full settlement must be made before any cattle leave. Cattle to be picked up at the farm or trucking arranged. All purchases must be picked up prior to December 21.

## Buyers Risk

All purchases become the responsibility of the buyer once the sale is over. We strongly encourage you to protect your investment by insuring your purchases.

## Load Out

All cattle will be available for loading as soon as settlement has been made. All cattle must be picked up by December 21. Cattle left for later pickup will be at the buyer's risk.

## Livestock Insurance

Livestock Insurance will be available through Keystone Livestock Service. A representative will be in attendance. **Bull calves wintering at WLB must be insured for mortality and injury at full value.**

## WLB Junior Incentive

Nancy and I are pleased to offer a 10% discount to our junior producers (under 21 years) on their heifer calf purchases. All heifer calves must be transferred to the junior receiving this discount.

## Call In Bids

We hope you can participate in person at this sale, but if you can't attend and you would like to have someone bid for you, give one of the sales staff a call. You can discuss the cattle with them and make arrangements for them to act on your behalf.

## Poll Testing

Only cattle known to be homozygous polled either by pedigree or by DNA are noted with an HP in their lot information. Any DNA testing done this summer was done through the CSA. These results can be viewed along with their pedigree at [simmental.com](http://simmental.com).

## *WLB Bull Calf Wintering Program*

The months between weaning and maturity is an important time in the life of a growing bull calf. It can have a lasting effect on his maturity and lifelong breeding ability. In recognition that not all producers will have a pen available to properly develop a bull calf during this critical stage of his development, we would be happy to winter your WLB bull calf purchased through this sale under the following terms.

**This option is available for bull calf purchases only.**

- Your decision to have WLB winter your bull must be made at time of settlement.
- All bull calves staying at WLB must be fully insured for injury and mortality. Insurance will be available at time of settlement.
- A charge of \$1,000 will apply and must be paid at time of settlement.
- All bull calves wintered at WLB must be picked up no later than May 1, 2021.
- Your bull calf will be guaranteed to pass his semen evaluation prior to being picked up.
- In the event your bull, wintered at WLB, should fail his semen test a refund will be made in the amount of the purchase price of your WLB bull calf plus your \$1,000 deposit.

## **LiveAuctions.TV 2.0**

### **How to participate & Sign up to Bid**

1. Go to [www.liveauctions.tv](http://www.liveauctions.tv)
2. Click the 3 bars on the top right hand side of the webpage
3. Fill out the all the required fields
4. Verify your account, you will receive an email
5. Click on the sale you wish to bid on
6. Request a buyer number
7. You will receive a text code to input, once the code is entered you are good to go

**You no longer need an app to bid from your phone.**

# The Dest L205 Cow Family

L205 was among the first five bred females purchased from Barry Labatte. It's an understatement to say she got WLB off to a good start. L205 still rates as one of the best footed individuals we have ever had the privilege to own. She is the cow that taught us, if you're going to raise performance bulls you will need a cowherd that milks. We have sold a number of commercial and breeder bulls that trace back to this cow family. WLB Big Northern 4161D was a headliner with the L205 legacy attached to him. He was our \$32,000 high seller in 2017 going to Lewis Farms, Sprucegrove, AB. His flush sisters and progeny are included in this sale offering.

**BREEDING** Exposed to SFM Stoughton 18D April 17 to July 10, 2020. Confirmed 2020 INFO to May 7 breeding.

Pretty good udder attachment for being in the top 1% of the breed for milk. Her dam produced a lot of performance bulls for us. One son went to TE Cattle, Spiritwood, ND. Another to Taylor Wilton, Neepawa, MB. Her sister sells as lot 14.

**BREEDING** | Exposed to NUG Carhartt 211F April 23 to July 9. Confirmed to April 2020 INFO | 23 breeding.

The only red, Kopp daughter to sell. She's just getting into her prime. You can expect good things out of her. Note she ranks above breed average in 12 out of 14 categories. Two daughters sell as lots 9 and 18. The Carhartt son at her side has been one to watch all summer and continues to move up the ranks among his pen mates.

You will find four flush sisters to the \$32,000 WLB Big Northern 4161D being offered. This sister is one year older than the other three that sell. Note the Remarkable heifer calf at her side. Her 2018 daughter was a feature bred in our first ever bred yearling sale going to Deeg Simmentals and Bohrsen Marketing, Strathmore, AB. It's going to be interesting to see where she takes her new owner. She's certainly heading in a good direction.

# The New Trend 412H Cow Family

Wow does this cow hold some memories. Once again a cow from the Labatte group that deserves credit for her lasting influence in our cow herd and the power she has contributed to our bull pen over the years. She came to us as a four year old, moderate in size, full of barrel with a superb udder. Among her credits would be WLB Obsidian Black 391Y, our high selling bull in 2012 to Double Bar D Ranch, Grenfel, SK. That same year another bull from the 412H cow family, WLB 400Y, sold to Muirhead Cattle Company, Shellbrook, SK. WLB 391A, maternal brother to 391Y was among our high sellers in 2014 going to Doll Farms, New Salem, North Dakota. This is a cow family to grab a piece of, whether it's a herd bull or a herd matron you will have some good ones to choose from.

Anytime you can grab a daughter of Lucy 373T you better take it as there have only been two Lucy daughters ever born, this El Tigre daughter and a yearling Go Daddy daughter you will find listed in the yearling section of this cow family. Lucy373T has been a bull producing Momma putting all nine of her sons either into our bull sale or into the WLB program as a walking herd bull. This daughter has had one bull calf. It went to Johnson Land and Cattle, Killarney, MB

A bomb proof female that's always a favorite among visitors. She's got the presentation that makes you take a closer look. When you do you won't be disappointed. She's right and plentiful in her udder and walks the talk as demonstrated by the top end calves she brings in each fall. Her two daughters that sell as lots 37 and lot 46 are stand outs in their groups. The same can be said about her 2020 born blaze faced son. Her 2018 daughter went to Bert's NR Simmental, Haywood, MB. Her two granddaughters sell also, you will find her influence runs generations deep.

She walks the talk. There are plenty of individuals we could talk about in her pedigree. Her dam and grand dam have an admirable record for herd bull production. It looks like this young Kopp daughter is well under way of carrying on the family tradition being the dam of WLB Remarkable 337F and now raising what we feel is one of our most attractive Eldorado bull calves. Her 2019 bull calf went to Johnson Land & Cattle, Killarney, MB.

As a yearling, Remarkable exhibited more flank and set in his back legs while walking on an extra big foot. Things we wanted to work on in our program. So we retained him. He has rung the bell in all categories, both in his sons and his daughters. Maternally he carries as much genetic strength as any bull available going back to Olive 365T, one of our all-time favorite cows. If you would like to add more flank and free up some back legs as well as put a bigger foot under your blacks all the while building on your maternal strength then you need to get serious about the opportunity that exist with this lot.

**BREEDING** | AI'd to Skors High Roller 34C on April 27. Exposed to WLB John Wayne 193G May 18 2020 INFO | to July 10, 2020. Vet examination inconclusive. WLB will be responsible for DNA cost.

The third daughter of Gwen 373Z. She's only a three year old but rates very high in our books. Her Blaze On yearling daughter, lot 49, and the Remarkable heifer calf at her side have us thinking she could be donor qualified. Vet wouldn't make a call either way on whether she is bred to 34C or John Wayne. Either way it's a good thing with this young female.

- Same nice design as her dam who sells as lot 41.

Lot 49

# The IPU 66K Cow Family

IPU 66K was a three year old when she came to WLB. She falls right in there with L205 for the good feet she possessed and maintained in her 12 years at WLB. At 15 years of age I would of gladly taken her feet and put them on any animal I have ever owned. She's a female that we didn't give enough credit to early enough. She proved equally influential in both bulls and females. We used a Red Nugget son, WLB Oil Patch 366R, out of one of her daughters .We then used a son of Oil Patch. Watch for Oil Patch and his son WLB Blowout 381T in the extended pedigrees on a number of the WLB cows in this offering. The latest member of this prominent cow family to walk the WLB pastures is WLB Black Medicine 479G. You'll find him listed in the IPU 66K cow family offering. His service sells on a few of the yearling females.

**BREEDING** | Exposed to NUG Carhartt 211F April 16 to July 9. Confirmed to early 2020 INFO | May breeding.

She's had all bull calves to date including one to Tanner Dobson, Manitou, MB, another to Cattle X, Hamiota, MB and the stand out Carhartt son that sells at her side. Her dam was a very reliable and productive female raising eleven calves in twelve years before we lost her this spring. This is a good female to grab a hold of to start your own cow family.

As mentioned in the 66K forward, the cow family behind this young herd sire has given us some productive and long lasting females with good feet under them. Black Medicine spent a considerable amount of his summer in the creek pasture with the black yearling heifers. He displayed excellent libido and stood up well to the challenging conditions that a summer walking the creek can present. His dam sells as lot 58.

# The Conray Cows

We have picked up some pretty good cows over the years. Many of them were bought at dispersals. Such is the case for Conray Carla 4885R and Conray Maya 778R, "The Conray cows". If you research their pedigrees you will find they are both daughters of Ellingson The Rock J928. What caught our eye about him was his daughters were small teated, very good uddered females. These females added udder quality to our red program.

One of our first walking bulls was the Wheaty bull (LER 462P). He set us up with some nice uddered, small teated cows. When we crossed him with 47Y it really doubled up on the maternal influence packed into the resulting pedigree. This Wheaty daughter has been busy giving us bull calves. Her first born was WLB Big Easy 385E. He was our 2018 high selling red bull going to Triple T Diamond Simmentals, Lundar, MB. Her second son went to Josef Upgang, Poplar Point, MB. and this year her son went to J & B Livestock, Baldur, MB.

**2020 INFO** Blockbuster 3011C May 11 to July 11, 2020. Confirmed to April 20 breeding.  
One of our favorite Sunny daughters. She has so much that's right about her. Right down to the tight square udder she sets her table with and her EPDs that reflect her genetic strong points. Certainly a female that makes us smile everytime we check pastures. Dam sells as lot 65.

**BREEDING** Exposed to NUG Carhartt 211F April 16 to July 9. Confirmed to April 2020 **INFO** 30 breeding.

Opportunity knocks with this good looking Trademark daughter. She has the productive power of May 384X up front in her genetics. She had the misfortune of losing her bull calf this summer. One son went to Don Rickard, Deloraine, MB. Another son sold to Les Jack, Rocanville, SK.

**BREEDING** AI'd to WLB Encore 3011C 443F on May 1. Exposed to LFE Blockbuster 2020 **INFO** 3011C May 23 to July 11, 2020. Confirmed to May 1 breeding.

Two things most every Sunny daughter has in common is their high standing in the CSA EPD Percentile charts for Stayability and Marbling. Along with her "go with the flow" attitude, 356C has a productive cow look about her. Her look can definitely be found in the Blockbuster heifer calf at her side. A son went to Tanner Dobson, Manitou, MB. A daughter sold as a bred heifer to Southam Simmentals, Elm Creek, MB. Another son to J & B Livestock, Baldur, MB.

One of the genuine gems in this sale. A must see daughter of May 384X that has a near perfect udder that's full of milk, verified by the heavy weight bull calf that sells at her side. If you don't get this cow bought then make sure you go home with one of her two daughters. They sell as lots 84 and 88.

One of the good young red cows to grab a hold of. Take a look at her Scream heifer calf and her Utah yearling daughter. When you put Game On and Sunny together you can't help but come up with some "best of the breed" EPD percentile numbers. Such is the case with 424E where she is in the top 1% for CE, BW, MCE, and also 1% for her API. She's a young female with her whole life ahead of her and one that we feel is bred to "walk the talk".

# The Braveheart SW Cow Family

Sure wish we had taken a picture of this cow when she was in production. Beautiful in her presentation and very likeable in her type possessing a darn nice udder. She quickly became a ET donor. Wilf bought her in the 2010 Keystone Sale. Another good one, Wilf! 8W's biggest credit was this spring when a two year old's first calf WLB Top Tier 456G, topped our 2020 bull sale going to Canadian Sires, Labatte Simmental, and Oberle Brothers for \$52,500. You will find a few select females in this sale carrying his service. His dam can also be found in this book.

**BREEDING** | AI'd to WLB Encore 3011C 443F on April 15. Exposed to LFE Blockbuster 2020 INFO | 3011C May 11 to July 11, 2020. Confirmed to April 15 breeding.

One cool young cow in this 47Y daughter. Little did we know when we snapped a cell photo of her cleaning off her first born son what it all was going to evolve into. That first born son grew up to be WLB Top Tier 456G, \$52,500 sale topper in our 2020 bull sale going to Canadian Sires, Labatte Simmental, and Oberle Brothers. Be sure to look up the select females that carry his service. Now that she has weaned another great herd bull prospect in just her second calf, we feel confident in saying 343E is the real deal. No one hit wonder in this young female.

A lot of you may not realize that we bought Blockbuster sight unseen with Darryl's help. Darryl didn't give us a "you gotta own him" sales pitch but he did tell us what he liked and what he didn't like about Blockbuster. After hearing him out we asked Darryl "Would you want a whole pen of sale bulls just like him?" Darryl's immediate reply was "Your darn right I would!". What Blockbuster has done for us at WLB is common knowledge. Some of the females in this sale are bred to his \$52,500 son, WLB Encore 443X. The Blockbuster calves that sell in this sale will be the third BB calf crop produced at WLB. We still get anxious waiting for each BB calf crop and excited about what he will add to our program and our bull development pen. What do we know about Blockbuster now that we've walked him for four breeding seasons? We know his sons don't quit. Maturity makes his progeny better. A high percentage of his progeny are double dark red. They have his presence, his muscle, his ambitious stride and his saleability. His daughters were a feature in our sale last fall so we only have one in production here to show and sell you. She's worth looking up. She didn't sell last fall because she didn't stand up to the other sale heifers at that time. Take a look at her (lot 17) and her exceptional heifer calf. Like we said the Blockbusters just get better with maturity. We look at Blockbuster as a "long haul" herd bull. His pedigree may be "old hat" but what he's selling in terms of dimension muscle, soundness, presentation, and predictability will never go out of style.

Selling 100% semen interest, 100% possession and 288 doses of breeder use semen. Lewis Farms will retain their current inventory of semen for their own in herd use.

One of the regrets we have with this dispersal is not being able to follow through with the breeding plans we had for Carhartt. We believe he will be a great compliment to the Blockbuster daughters and also the other way around. To date we still consider Carhartt to be a high maternal, calving ease sire. This is reflected not only in his EPDs but also in the hard data exhibited by his dam and his sisters. He could well prove to be among the top calving ease Red Whiskey sons. The story of his origin is worthy of mention as his dam was bred and raised by Spring Creek Simmentals and selected by Maxwell Simmentals for their ET program. They both know how to raise and buy good cattle. When we examine Carhartt's numbers we get a bit excited about his top 2% rating for MCE. That's something we will always take a bit more of. For you carcass builders his top 15% ranking for marbling will be sure catch your attention.

Selling 100% semen interest, 100% possession and 70 doses of breeder use semen. Maxwell Simmentals will retain their current inventory of semen for their own in herd use.

# The 43Y Cow Family

Certainly a cow family that has made its presence known here at WLB. 43Y's production record is impressive only to be in the process of being out done by her progeny, but then that's what progressive breeding is about. Our comments on this cow family wouldn't be complete without complementing our friend and fellow Simmental breeder, Jim Ransom for breeding such a productive female.

**BREEDING** | Exposed to SFM Stoughton 18D April 17 to July 10, 2020. Confirmed 2020 INFO to May 26 breeding.

You will find selling in this event, 45 descendants of 43Y, representing four generations. We flushed 43Y one time with great success. Yes we probably should have kept doing it but we are a "mom and pop" operation and chose to limit the number of irons we put in the fire. Five 43Y daughters that sell are a result of that flush. A number of the bull and heifer calves on offer are sired by a son born out of that same 43Y flush, WLB Eldorado 3615C. Another daughter of that flush was our high selling heifer calf in our first Internet Heifer Sale. We feel that any of the 43Y daughters are very worthy of ET consideration and would also encourage 43Y's new owner to maximize their investment through a ET plan. Her natural calves have excelled also. A natural born Bounty Hunter son was a \$20,000 high selling bull in 2018 going to Ferme Gagnon, Cheneville, QC. A natural born Riddler daughter was a \$16,000 high seller in 2019 going to Quinn Wilson, Calgary, AB. She has clicked with a number of bulls. We consider a 43Y grandson, WLB John Wayne 493G, to not only be a feature in this sale but also among the best we have ever produced (see lot 109). A number of special lots carry his service. It's easy to see there exists a great opportunity in this cow family but don't overlook the great opportunity that exists with its matriarch.

**2020 INFO** to April 30 breeding.

It would be so nice if every cow were this easy to get a picture of. 361C is 43Y's first born. Her appealing look seems to accompany her where ever she goes and how ever she stops. She passes her smoothness and correctness of build on to her offspring as displayed by her deep bodied blaze faced Stoughton bull calf. She most definitely qualifies as a front pasture female as well as an ET candidate. Nuff said this cow can speak for her self.

**2020 INFO** | 18D May 11 to July 10, 2020. Confirmed to April 20 breeding.

If I could choose the stamp of cow that I would most like to duplicate it would be this 43Y daughter. 3612C is a big barreled, full bodied cow that is moderate in her frame and very influential in her production. She's as natural and smooth in her stride as a cow can be. In addition to her attractiveness and volume she has proven to be a reliable contributor to our cause. If we weren't having this dispersal you can bet that her Boone Pickens bull calf would be getting serious consideration to walk our pastures in 2021.

**BREEDING** Exposed to SFM Stoughton 18D April 17 to July 10, 2020. Confirmed  
**2020 INFO** to April 20 breeding.

We have learned to respect not only the productive abilities of 43Y progeny but also the genetic power that gets handed down to each generation in this cow family. This 43Y flush daughter got our attention last fall when she weaned what we have come to feel may be the best bull we have bred and raised. As her son, WLB John Wayne 493G, lot 109 approaches maturity we realize" he is for real" and that his dam is for real also. 3612D has gained even more respect with the bull calf she has at her side this year. Like we said in our forward, "The cows that can bring in quality bull calves year after year are quick to gain favor around here.

To have a herd bull of John Wayne's caliber with his look, temperament, and mobility out walking our cows this summer certainly added a skip to our step. We firmly feel John Wayne is among the best we have raised to date. His genetics are rock solid as can be seen by the number of productive individuals listed with him as members of the 43Y cow family. Study his family, watch his video. come to the farm see him for yourself, then think about owning a pen full of bulls with his top, his rear quarter, his presence. It can't help but make you smile and skip too.

**BREEDING** | Exposed to SFM Stoughton 18D April 17 to July 10, 2020. Confirmed to 2020 INFO | early June breeding.

I can't really say anything about this 43Y daughter that hasn't already been written about her flush sisters. Like I said earlier we base our decisions on production and eye appeal and this 43Y daughter has both. A blaze face Riddler daughter sold to NA Bar Land and Cattle, Viking, AB last fall. Her Stoughton son sold to Townview Farms, Shaunavon, SK this spring. Her attractive Remarkable bull calf is worthy of making your short list out of this cow family.

**BREEDING** | Exposed to WLB John Wayne 193G April 8 to July 10, 2020. Confirmed 2020 INFO | to April 8 breeding.

Cows like this three year old blaze faced Bounty Hunter daughter add to the time you spend doing pasture checks. I've found myself watching her and admiring her many physical attributes. There is so much to like about how she is made and the attractive way she presents herself. You can really see her mother and grandmother mirrored in her look and her movement. Right down to her tight square udder.

**BREEDING** | AI'D to LFE Nighthawk 3013D April 17. Exposed to WLB Black Medicine 2020 INFO | 479G June 2 to July 10. Confirmed to April 17 breeding.

- Reminds me of 43Y at this age.
- Nice big rib on her moderate frame.
- Looks like her teat size has been handed down from her dam and grand-dam.
- Added maternal strength with Skors High Roller 34C in her genetics.
- Wouldn't surprise me is she ended up a donor female for her new owner.

**2020 INFO** Exposed to WLB Remarkable 337F May 27 to July 11, 2020. Confirmed to April 21 breeding.

Don't miss this productive Good Time daughter. Counting the fancy heifer calf at her side, three of her daughters also sell. The others are lots 120 and 122. You will notice a lump on her tail head where she dislocated a vertebrae a couple years ago during breeding season. It hasn't affected her and she continues to perform at a very impressive level of production. One son went to Les Jack, Rocanville, SK. Another went to DKB Simmentals, Pierson, MB.

- Deep quartered and just as deep down her side.
- Really likable from her hooks to her pins.
- Out of a nice uddered Good Time daughter.

# The Ellie May 30R Cow Family

We've been the beneficiaries of Wilf's good eye and his love of Simmental for a number of years. Such is the case with Ellie May 30R. She was one of two bred heifers Wilf came home with after attending Miles and Bonnie Glasman's M&J Farms production sale. Ellie May produced WLB Roughneck 377W who went on to be our high dollar black bull that was purchased by Hart Farms in South Dakota.

**BREEDING** Natural bred to WLB John Wayne 493G on April 17. Exposed to SFM 2020 INFO Stoughton 18D May 11to July 10, 2020. Confirmed to April 17 breeding date.

A lot of things to like about this square uddered female. She has that wide hip that's so common with the Kop daughters. I've always felt this one has the potential to produce big. She's off to a good start from the looks of her heifer calf.

- Both parents are black.
- Dam sells as lot 131.

# The Blacksand Cows

We, like a lot of other breeders were there for the Blacksand dispersal. We were mainly after a daughter of Spring Creek Black Tess 25T. We were very pleased to not only come home with one of the three Black Tess daughters but two of them. It was one of these that produced a \$28,000 El Tigre son, WLB Go Daddy 368D. We also picked up an attractive daughter from the Shania cow family. We feel there is a lot of opportunity left in these Blacksand females, no matter which one you choose.

**BREEDING** | Exposed to WLB John Wayne 193G April 29 to July 10, 2020. Confirmed 2020 INFO | to April 29 breeding.

She's the one we came to buy when we went to the BSCC dispersal. Her dam Springcreek Blk Tess 25T needs no introduction, being the dam of industry legend, Springcreek Lotto 52Y. 56A has given us WLB Salute 368C who walked our heifer pastures and WLB Go Daddy 368D who sold for \$28,000 to Circle G Simmentals and Terron Farms, Lacombe, AB. I wouldn't argue with anyone who wanted to call her one tank of a cow. She's got the kind of bulk that we strive to breed into all our cattle. She's sound and solid from the ground up and just waiting to produce another great one.

Lot 152

# The WLB Blaze Program

Our Blaze program was designed to give us more blaze faced bulls to sell and infuse the blaze characteristic into our cowherd. It has been popular among our cow/calf producer customers. Though not all the individuals in this group are blaze faced they all go back to a WLB Hereford female which of course is a great source for accessing the white face trait. You will find 1/2, 3/4, 7/8 purebreds in this group.

## 153 WLB 360Y SIERRA 237A

**BREEDING** Exposed to LFE Blockbuster 3011C April 11 to July 11, 2020. Confirmed 2020 INFO to April 11 breeding.

A great opportunity exists with this half blood. She has raised two bull calves to date and both have sold well above the average. She slipped her 2020 calf but we chose to keep her around because of the superb job she did on her first two sons. Gentle disposition and above average production capabilities come with this F1 Simford cow.

Lot 168

# The Sunny Valley Cows

We have long been admirers of the Sunny Valley program. Their influence runs deepest in our red program because of the influence of Sunny Valley Force 47Y. If it wasn't for this dispersal I am sure that the SVS influence would inevitably make an equal mark in our black program.

# The SFM 119B Daughters

I was privileged to tour some very impressive North American Simmental cowherds in my travels on behalf of Bar 5 Simmentals. Brian and Keith Stoughton's cowherd north of Maidstone, SK was among the ones that quickly gained my respect. It was because of this respect that we wanted to grab a female out of their dispersal. We ended up not only purchasing 119B but also her Cobra son, "SFM Stoughton 18D". You not only have the opportunity to choose from five 119B ET daughters but also the opportunity to choose from a number of Stoughton progeny including two of our herd bulls, Remarkable 337F and John Wayne 493G.

**BREEDING** | Exposed to SFM Stoughton 18D April 17 to July 10, 2020. Confirmed 2020 INFO | April 22 breeding.

A standout female from the Harvest Hoedown Sale. Her first daughter, also a very productive female sells as lot 182. A son went to Sean Strain, Carberry, MB. She has a fancy red Stoughton heifer calf selling at her side.

# The Workman Cows

We have always looked at dispersal sales as a good place to pick up breed advancing females. After watching Greg and Pat Workman diligently build their cow herd through the years it was a no brainer to grasp the opportunity presented in their dispersal which went on to gross over a million dollars. We were rewarded for our actions when a female born from those purchases topped our 2019 female sale for \$16,000.

**BREEDING** AI'd to Skors High Roller 34C on April 21. Exposed to SFM Stoughton 2020 INFO 18D May 16 to July 10, 2020. Confirmed to April 21 breeding.

A female that quickly gained our respect for her standard of production and her strong maternal influence. She weaned off her 2020 Remarkable bull calf posting our heaviest ever adj WW of 948 pounds. A 104A daughter was one of two \$16,000 females sold in our 2019 Fall Female Sale. She went to Laura Horner, Minnedosa, MB. Certainly a proven cow that has plenty to offer whether it be in the way of ET or just a front pasture cow to build a herd around.

# The Molly 86Y Cow Family

When talking to Glen Maxwell about the bred females he and Kevin had in the Camrose Country Classic sale, his comment regarding 86Y was a lot of good bulls have been produced by her cow family. Fast forward to today, Molly didn't leave us a lot of bulls but she did give us some darn good females that now present an opportunity for their new owner to start their own productive cow families.

**BREEDING** | AI'd to WLB Go Daddy 52Z 368D on April 24. Exposed to WLB John Wayne 193G  
**2020 INFO** | May 3 to July 10, 2020. Observed bred May 3. WLB will be responsible for DNA cost.

I had long wanted to own a daughter of Skors Enticer 4W. WOW did I ever get a good one. It's going to be interesting to watch how far 38d's new owner goes with her. I feel "the sky is the limit" for this milky, perfect uddered, well bred young female. She offers a lot of flexibility in which way you choose to go with a mating. You can mark her as a prime candidate for ET. One of our biggest regrets about this dispersal is giving up the opportunity to work with young cows such as 38D. She gave us a herd bull in her first calf. He posted and adj. WW of 811 lbs and an adj YW of 1574 lbs. His sons and daughters sell. Look for the Skorse 372F calves. Her 2020 heifer calf is a standout among the 71 heifers calves that sell. Her Bounty Hunter yearling sells as lot 189 may just end up better than its Mama.

# Service Sires

**ERIXON GAME ON 42Z**  
This Crosby son excels in calving ease, growth, and productive daughters. Semen sells.

**LFE BLOCKBUSTER 3011C**  
Blockbuster has given us everything we wanted from him and more. He sells with semen.

**WLB JOHN WAYNE 493G**  
Can hardly wait to see his first calf crop! He and his dam sell.

**NUG CARHARTT 211F**  
Added to the WLB line up to continue our quest for ideal maternal and performance balance. He sells with semen.

**WLB BIG NORTHERN 52Z 4161D**  
2017 \$32,000 high selling bull purchased by Lewis Farms. Genetically supported by the L205 cow family. His flush sisters sell.

**TJSC BOONE PICKENS 46C**  
Chosen for his blaze face and breed best calving ease.

**WLB BOUNTY HUNTER 365C**  
The more we find out what he can do the more we like him.

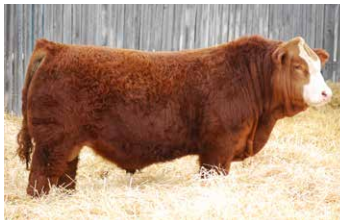

**WLB EL DORADO 3615C**  
Powerful beef genetics backed by a powerful cow family. Check out his progeny that sell. His flush sisters also sell.

**WLB ENCORE 3011C 443F**  
2019 \$52,500 high selling bull purchased by Labatte Simmental and Oberle Brothers. His dam sells.

**WLB GO DADDY 52Z 368D**  
\$28,000 bull purchased by Circle G Simmentals and Ter-Ron Farms. His dam sells.

**WLB TOP TIER 456G**  
2020 \$52,500 high selling bull purchased by Bohrsen Marketing, Labatte Simmental and Oberle Brothers. His dam sells.

**WHEATLAND KILL SWITCH**  
Proven and popular red sire.

**LFE THE RIDDLER 323B**  
Well respected sire of attractive and productive long spined Simmental.

**WLB BLACK MEDICINE 479G**  
We called upon this Bounty Hunter son to walk the yearling heifers after AI. His cow family is a good addition to a pedigree. He sells along with his dam and sister.

**WS PROCLAMATION E202**  
A multi trait sire with many assets to offer.

**LFE NIGHT HAWK 3013D**  
High selling sire for Lewis Farms.

**SFM STOUGHTON 18D**  
His power in siring herd bulls over shadows the excellent mothering ability of his daughters..

**SKORS HIGH ROLLER 34C**  
Well known for his calving ease and maternal power. He has also worked well in our sale bull pen.

**WLB BLAZE ON 365C 361E A**  
Calving ease sire of deep bodied cattle.

**WLB STOCKMAN 420B**  
Cowmaker!
