Westgold Farms Ltd.

5th Production Sale

DLMS Farmgate Timed Sale

Opens: Tues. DEC 8, 2020 at 9:00 AM

Closes: Wedn. DEC 9, 2020 at 7:00 PM

Welcome from Westgold Farms Ltd.

Welcome to all past, present and future customers to my 5th annual production sale. Only the top 41 breds are being sold in this year's sale. There are heifers in this sale to suit anyone's herd. Almost every heifer has bred early and all are bred to quality yet calving ease bulls. The red and black service sires are all homo polled. Some heifers are homo polled by parentage and another 26 have homo polled tests pending. The test results will be here before the sale and will be noted in the online catalogue. I will deliver to central points in AB and SK. For any inquiries, call me or any of the Bohrson marketing team. Heifers may be viewed any time at the farm.

Wishing the best to all fellow breeders!

Sincerely,

Ken Gilbert
Westgold Farms,
Minburn, Alberta
Ph: (780) 593-2103

Visitors welcome to view cattle at any time.
Directions to Farm from Minburn:
5 km north to "T" corner, then 1 km east to RGE RD 101, then 5 km north, farm on east side.

Westgold Farms Ltd.

Westgold Farms is well known for their high power Simmental program that produces many of the heavyweights in the land. To produce those performance bulls, you need a high performing set of production cows to take you there and Ken has definitely built that. This offering of bred heifers are the same genetics as those sought after bulls that can push the scale down in the fall. Year in and year out, this sale has provided awesome customer feedback on successful purchases and is a sale to mark on your calendar for this December.

Ken has always bought the best herd sires that are offered each and every spring. His commitment to incorporating breed leading genetics has elevated his cowherd which allows him to sell the very best bred heifers in this event. The sale offering is a product that is easy to invest in because they're right for the times and will add quality to every program. The services that they carry are utilized for calving ease and marketability which will supply a strong return on your investment.

The sale has transitioned to an online sale close-out and the heifers can be viewed at the farm with Ken prior to. This is a great opportunity as you can see the depth of quality in his sale offering and also view the awesome set of bulls that wills ell next March and they dams behind them too. We enjoy working with Westgold and their progressive approach to the industry, we have viewed this exciting group of breds and would be honoured to visit with you about them and be of assistance, so give us a call.

NUG MISS 114L

Leading off the fullblood section is a heifer that should have stayed here. A favourite from birth, this thick tanky, quiet heifer has a dam in the donor pen whose first son sold to Spring Lake Simmentals. To no surprise Doug Zimmer always commented on the beautiful udders all his daughters have as KHG 170X as a 10 year old cow still has a flawless udder. Flushed 170X to 3 different sires last year and have 30 embryos in the tank. Kirsten will shine where ever she goes. Bred early wouldn't change a thing about her.

Exposed to Kuntz Salty 2E March 20 to May 31.
Ultrasound pregnant 90 days July 10.
