SIMMENTALS**  
*Online Bull + Female Sale*

**Sale opens March 16th at 9am CST :: Closes out March 17th at 7pm CST. :: Online with DV Auction**

## **Meadow Acres Bull Warranty Program**

We are pleased to offer a warranty program that is designed to help get your bull through the most critical first breeding season.

Duration- 6 months Rate- 5%

This warranty covers injury, sickness or death. It does not include freezing semen.

Mismanagement, injury or death due to malicious, willful or intentional acts or mistreatment by you or your employees are fraudulent claims.

Contact us asap when you have a problem to ensure we can handle any issues in a timely manner. A vet report will be required for claim purposes.

We will have a suitable replacement bull to your yard as soon as possible if required or a credit to next year's sale.

Credit Only no cash refunds. Amount will be based on settlement value less salvage if possible and will not be for more than settlement amount at time of purchase.

Bulls that are not covered by this warranty option at the time of settlement will not be covered by Meadow Acres other than the breed guarantee standards set by the Canadian Simmental Association.

We highly recommend that bulls that remain at the farm until a later date are covered with our warranty program or a third-party insurer. If you need a recommendation, please let us know.

With the sale being online only we will contact all buyers within 24 hours to see if you would like to take the warranty.

## **Volume & Repeat Customer Discounts**

2 bulls 3%

3 bulls 4%

4 bulls 5%

5 or more bulls 6%

Discounts only apply to bulls that settlement is made on sale day. With the sale being online, a 14-day grace period will apply to make settlement and have discount apply. No bulls purchased in partnership with someone else are eligible for this program.

Repeat Customer Discount - 2%

## **Delivery**

**Delivery will be provided in most cases right to you, or a central point within the prairie provinces. Other provinces we will coordinate delivery with you in the most cost effective and efficient manner possible. Please see the US Purchases information on delivery to the States.**

## **Herd Health**

All animals sold are on a complete herd health protocol since birth. We work closely with our veterinarians to ensure our herd's health is optimized for our benefit and yours.

## **Semen Testing**

All bulls sold that are 12 months of age or more will be semen tested prior to the sale. All scores and information will be available as requested. Supplemental information will be available prior to sale day.

## **Semen Collection**

Meadow Acres Simmentals reserves the right to collect semen on any bull in the sale at the buyers convenience and our expense.

### Online Viewing & Bidding

Sarah Buchanan 306 681 5340

### Catalog Design by Bohrson Marketing

The information printed has been supplied by the seller and believed to be accurate. Updated sheets and announcements from the block will take precedence over any incorrect printed material.

### Sale Videos & Pictures

Videos of all bulls and heifers will be available online at [www.dvauctions.com](http://www.dvauctions.com) or [www.meadowacressimmentals.com](http://www.meadowacressimmentals.com) by the end of February. Videos completed by Golden Thread Livestock Images. Photos were taken in-house Jan 3rd-5th, 2021.

### Sight Unseen Program

We understand that it is never easy to get away and for some of our customers distance is now more of a factor than in the past. We know these cattle like the back of our hand and are confident we can select a bull that meets your specifications. Give us a call prior to sale day and we would be happy to go through the bulls with you and identify the right bulls for your operation. Contact Dustin or Kirsten to discuss. If you are not satisfied with your bull upon delivery, we will take the bull back and refund your money, no questions asked. We also have a professional team of sales consultants to assist you if you are not able to attend the sale that will help you find and buy the bull that is right for you.

### US Purchases

We are happy to complete all required health paperwork to get your bulls across the border with no hassle. Delivery will be made to the North Portal Canadian border crossing. Cost of delivery from there is the responsibility of the purchaser. We have lined up a custom hauling company that will haul into the States with no issues. If you have questions regarding export, please contact us. The exchange rate will be posted on the online sale upon opening March 16th. The dollar continues to be very much in your buying favour.

### Sale Day Phones

-Sale opens for bidding at 9 am CST on [dvauction.com](http://dvauction.com)

-bulls available for viewing all day

March 17th

-bulls available for viewing all day

-sale closes out at 7 pm CST on [dvauction.com](http://dvauction.com)

# -- Welcome --

On behalf of our family, it is my pleasure to invite you to our Third Annual Bull & Female Sale. What a year it has been! A year full of chaos and craziness for a lot of people. We feel fortunate that our way of life and what we do generally did not change. We continue to go about our lives in the same manner as before, working hard to produce the best crops and livestock while having some fun along the way! Our highlight of 2020 without a doubt was the addition of our little boy, Briggs Frederick Robert, born two days after harvest was complete. He has been such a joy for our whole family!

Due to ongoing and changing Covid restrictions we have made the decision to put this year's sale as an online only sale. We hope that this format will be well received by customers. You have the benefit of coming to the farm early to view the sale cattle and their dams, as well as having all the bulls sell at the same time, so there is no sale order to worry about! We have included an information page with all the details you need to know to bid and buy through this format. If you have any questions regarding the online platform or require assistance getting set up, please feel free to contact myself or Sarah Buchanan with DV Auction. Videos of all animals will be available by the end of February on both our website and our sale listing on the DV Auction website.

Our driving factor as seedstock producers continues to be our customers and their success with our bulls and females. We continue to focus on the cows behind the bulls. You will find that cow families have a huge influence being highlighted throughout the catalogue. As always, we have bulls to suit many different needs for our customers. This year's offering is a group that is consistent in their type and are sound, high quality beef bulls. They continue to be developed not by being pushed with a feed pail, but with the goal of longevity and the ability to go to work and last. The replacement heifers are a true highlight and without a doubt the strongest set we have offered. These are going to be exceptional females to add to any herd.

We are pleased to offer a repeat customer discount, volume discounts and free delivery within the prairie provinces. We also offer an in-house no-nonsense warranty program on the bulls. Please ensure you read through the sale information to learn more about it. The sight unseen program is also offered and can be utilized if you are not able to get here to see the offering for yourself. We know these cattle and would be happy to discuss them with you. We will ensure that the bulls you buy are right for you and within your budget. We have a great sales staff that are familiar with the entire offering and are another excellent resource available to help you in making your buying decisions and purchases on your behalf in a professional manner.

We invite you to join us for an open house being held the weekend before the sale, March 13th & 14th. If another time works better for you, please give us a call and we will be happy to accommodate you. All visitors to the farm will have their name entered in a draw for a \$500 sale credit. We are proud of the offering and the cow herd behind them and would be happy to show you around. If you are not able to get to the farm but have inquiries, please feel free to give Dustin or myself a call to discuss the bulls or any details pertaining to the sale. Thank you to our customers for their continued support and interest in our program. We hope you will consider Meadow Acres to fulfill your bull requirements for this year.

*Kirsten*

*Meadow Acres Simmentals*

*Meadow Acres has elevated their program into one of the very elite Simmental cowherds in Canada. Their strategic herdsire and replacement female purchases have strengthened their herd to a point of sheer depth of quality runs the entire way through. You will see in this catalogue from cover to cover that the emphasis on depth of pedigree with cow families is very important and no matter your budget, the strength is evident throughout.*

*This offering of bulls and heifers is their best to date and one that will impress with consistency and quality throughout. When you analyze the set of bulls you can admire the hair, muscle shape, masculinity, foot quality, balance and overall herd bull presence that they've bred into their cowherd. They emphasize structural integrity with the Simmental power that has elevated this great breed and their bull pen is one of the deepest we have toured in 2021. When you invest in Meadow Acres bulls, you can confidently buy knowing that they are bred for longevity and ROI with the Fornwald family 100% guaranteeing that you are a satisfied customer.*

*The set of open heifers on offer truly is awesome - a couple of donor material females are in the mix with the entire offering being from the top of their replacement pen. New this year will be the online bidding format which enables you to view the bulls at your leisure prior to sale and bid from home in a racehorse format. We encourage you to visit with the Meadow Acres crew on their offering. They're very proud of them for obvious reasons. We are very familiar with the sale bulls and females on hand and we are here for any assistance come sale time whether it is bidding on your behalf or giving you free advise on the sale offering. This set is worth the drive. The Fornwalds are great to work with and we will guarantee you'll leave with high quality genetics from a family program that fully stands behind their product.*

Best Regards,

*Scott Bohrsou  
Bohrou Marketing Services*

*Welcome to the 3rd Annual Meadow Acres Simmentals Bull & Female Sale. Once again the Meadow Acres crew has brought you an incredibly consistent and functional set of Simmental bulls. The bulls on offer are the right kind. Stout, hairy, good footed, functional bulls that are bred and fed with the commercial cattlemen in mind. Meadow acres prides themselves in using the very best Simmental genetics available to produce these bulls. The bulls are sired by breed leading AI sires as well as one of the most exciting and exclusive walking herd bull batteries in the industry. They are then backed buy one of the most appealing sets of Simmental momma cows you will find, most of the bulls mothers will be onsite for viewing as well. Please bid and buy with confidence as the bulls are of very high quality and are guaranteed 100%.*

*On offer once again is a select group of open females. Many of these females are selected right off the top of the Meadow Acres replacement pen. These females are functional, hairy, stout and feminine in their design. They have been fed and developed with the entire group of Meadow Acres replacement heifers so they are in the right shape. Take these females home and breed them to the bull of your choice for a greater return on investment.*

*This year's sale will take place as a timed auction on DV auctions with a horse race style finish. If for any reason you are unable to visit the farm to view the offering please do not hesitate to give us a call. All of us at First Class Cattle Marketing will be very familiar with the offering and it will be our pleasure to assist you in a very professional and confidential manner with the purchase of your next herd sire or female. I wish all of you a very successful bull sale season.*

Sincerely,

*Darnell Fornwald  
First Class Marketing*

# Affordability

## 2020 Sale Pricing Breakdown

## *Meadow Acres Simmental Bulls are Affordable*

In our 2020 bull sale, 80% of the bulls sold for less than \$7,500. With extensive use of embryo transfer and AI we are proud to offer many full,  $\frac{3}{4}$  and  $\frac{1}{2}$  brothers to provide customers with a uniform and consistent product. You will see the direct benefit of uniformity in your calf crop and added value that they will command. We understand you work hard to make money and hope you will consider a Meadow Acres Bull to be a high-quality herd sire for a reasonable investment.

# Racehorse Style Explanation

**OPTION 1** - Utilize any of our sales staff with Bohrson Marketing, First Class Cattle Marketing or Dustin & Kirsten for order buying services. We will bid for you in a professional and confidential manner.

**OPTION 2** - bid yourself on [www.DVAUCTION.com](http://www.DVAUCTION.com)

1. Create an account at [www.dvauction.com](http://www.dvauction.com) under the "registration" tab.
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction. You will be notified once you are approved.
3. Find the Meadow Acres Simmentals Bull & Female Sale [Online Only] to view the entire sale offering
4. Place your bids between Tuesday, March 16th at 9 am and Wednesday, Mar 17 at 7pm.
5. Proxy Bidding – if you cannot make time to keep an eye on the sale or be available for the close out, register a proxy bid and let the DVAuction system represent your bid while you are away. Look for the "Proxy Bid" tab on the auction listing and fill in your maximum bids. DVAuction will handle the rest in strict confidence.
6. All lots will close at the same time. Bidding will be extended by 5 minutes if a bid is placed on any lot within 5 minutes of the closing time.

## **How to Bid:**

Horsace Style Closeout - Explained

**SALE ENDS AT 7PM WITH EXTENDED BIDDING TO FOLLOW AND WILL CONTINUE UNTIL THERE IS NO BIDDING FOR 5 MINUTES!**

With this option, all lots will close simultaneously.

A few benefits to this style of auction are:

- the buyer has the CHOICE to switch to any lot(s) in the offering if he is outbid on his/her current choice
- buyer does not have to deal with the sale order of the sale because all lots are offered and bid on simultaneously
- the buyer has a choice(s) and more time to make his/her decision.

Extended Bidding means that the auction is not declared closed until there have been five minutes of inactivity after the 7PM close out. **REMEMBER TO CLICK ON THE REFRESH BUTTON TO UPDATE THE TIME REMAINING!**

**Example 1:** Auction Closes at 7pm. There is no bidding from 6:55 pm to 7pm. All lots are declared closed and the sale ends at 7pm.

**Example 2:** Auction closes at 7pm. There is a bid placed at 6:58pm. The Auction is extended 5 additional minutes. No more bidding occurs. All lots are declared closed and the sale ends at 7:03pm.

**Example 3:** Auction Closes at 7pm. There is a bid placed at 6:58pm. Auction is extended by 5 minutes until 7:03 pm. Another bid is placed at 7:02 pm. No more bids are placed. All lots are declared closed and the sale ends at 7:07 pm.

Proxy Bidding is a feature you may use during the duration of the auction. This feature allows you to place a private maximum bid that only you will be aware of and allow the computer to bid on your behalf when another bidder places a bid on the same animal(s) as you.

LRX MS BLACK 15B

Dam MRL EL TIGRE 52Z  
**MAF PASHMENIA 166B**  
NUG PASHMENIA 403P

An easy favorite in the offering, this Black Ops son has been a powerful standout since early on. 19H is a very complete made individual that we appreciate for his overall mass, power, good foot and huge testicles. The cow family makes this bull even sweeter, the Pashmenia cow family, one of the most powerful in the breed. His dam is a beautiful El Tigre daughter that is powerful, excellent footed and uddered. A bull that you will notice right away with his proud head carriage, quiet demeanor and big-time weaning weight EPD. This sire group is a new pedigree for this year's offering. Throughout the bulls and females highlighted here Black Ops has sired calves that have big time performance, power and bulls that are rugged and masculine and females that are feminine. This son we feel is better than his sire and will be a great addition to any bull battery offering a strong mix of terminal and maternal traits. Maternal brothers have sold to Josh Stentoft and Tye Klatt.

**MAF PASHMENIA 265C**  
NUG PASHMENIA 403P

If you are in the market for a power bull, this sire group is full of a variety of options to fit the bill! This bull packs a big punch and is stout made, deep and soggy. A bull we really like and appreciate for his rugged, powerful design. 191H's make up is no surprise when you analyze his pedigree. His dam is a Pashmenia daughter, which makes him a 3/4 brother to the lot 1 bull. She is also a full sib to the MAF Drunken Sailor bull we sold to W2 Land & Cattle. Sailor was a powerful bull and is responsible for the new Patriot sire group this year that will be featured later on. There is power in the blood here. Maternal brothers have sold to Kris Boyes and Brady Farms.

We purchased Black Ops to be our black power bull and his progeny are consistent with what we expected from him. This bull stays true to the sire group and offers up lots of meat, hair, testicles, rib shape and a good foot under him. 250H would be the longest spined bull in the sire group. His dam is a powerful cow and would be the granddam to the feature black heifer, lot 68. A maternal brother sold to Knud Jensen.

Another power bull, this time the youngest bull in the offering. This March born bull is a powerfully constructed individual that is heavy haired, heavy muscled with large testicles. He is deep sided and soggy made. Check out his adjusted weaning weight of 951 lbs that ranks him second in his contemporary group. The EPD profile backs up the facts and shows big time weaning and yearling at the very top of the breed.

A feature Proclamation son that is smooth made, very deep sided and exhibits thickness and a strong muscle pattern. He is wide topped and has a nice balance of phenotype and performance. 97H is big ribbed and has an excellent foot under him. All summer I couldn't help but be excited every tour through the bull pasture at the job the two-year olds were doing on their bull calves. You will find throughout the offering a strong set of bulls off first calvers. 97H's dam is one of those young cows. She weaned off this heavy bull and was bred back early and is calved out again. What more can you ask of a young cow?! This bull combines a moderate birth weight, great structure, phenotype and power. An excellent bull that can be appreciated in person as much as on paper with an incredible EPD set.

A powerhouse of a Proclamation son in 35H. He packs a lot of performance into a deep and long made package. A bull out of a first calving Pashmenia daughter that brings strong maternal and huge terminal features to this meat wagon. We purchased Proclamation semen to use on heifers as an out-cross and infuse some new genetics to the offering. We didn't use a lot of it but these three bulls we have are an impressive set and offer up very complete made, deep, soggy, beef bulls with performance and excellent EPD's. This bull has huge weaning and yearling weight EPD's and combines proven and new genetics together effortlessly.

11H is a beefy bull that is more moderate made than the other two Proclamation sons. He is solidly made, with lots of muscle, depth of body and length. A bull that is good footed and has large testicles. He has a moderate birth weight and exceptional EPD profile. 11H has had lots of character since a young age. His pedigree combines many maternal powerhouse sires and dams and offers up more of a calving ease type but still exhibits performance and power.

Here is a bull that we are excited about and a great way to lead off the solid set of Exclusive sons in the offering! He is moderate framed, long bodied, smooth made with explosive rib shape, depth of body and thickness. A bull that is clean in his lines and the most attractive made bull in the pen. He has strong herd bull presence and style to him since a young age. 8H started off at a modest 77 pounds out of a first calving heifer. His growth and maturity was exceptional from birth to weaning. With the combination of his low birth weight and smooth design we feel he could be utilized in the heifer pen. His dam is calved out again with a full sib heifer calf weighing 68 lbs. I think that the cow family behind this bull makes him even stronger. His dam is a full sibling to MAF Patriot 32F, a bull that you will see an impressive set of progeny from featured in this sale. She is a moderate framed female that has an exceptional udder and tidy made. 8H's granddam is MAF Sabrina 89B who is a beautiful cornerstone donor female for us here. Her ET sons will be featured in just a few lots. We believe he has predictability and consistency built in that will benefit any operation.

Another calving ease type Exclusive son, 148H is similar in type to the lead off bull. He is explosive in his muscle and rib shape, moderate framed and smooth made. A bull that is long spined, clean made and has lots of extension. He again has a modest birth weight of 78 pounds out of a first calver and his spread from birth to weaning was excellent. The Exclusive's are consistent in their type. They are moderate framed, wide, thick and big bodied. Another bull that has a good look to him. A sound made individual that has calving ease built into his pedigree. His dam is sired by a bull we used for clean-up on our heifers and was a consistent low birth weight sire. 148H has an excellent set of EPD's with strong calving ease and birth weight numbers, but still average weaning and yearling growth numbers. If you are looking for new pedigree to potentially use on heifers, have a good look here.

This full brother would be the heaviest haired and the largest framed of the flush brothers. He is long bodied, thick and has a nice maternal look to him. He should sire moderate, thick made, good looking offspring. The full sisters to these bulls are beautiful. Two of them are in the girl's show pen and halter broke and waiting for some shows to happen this year. It was tough on the girls last year not having any shows. They both love it! We look forward to the girls showing them this summer in Portage at the YCSA show, fingers crossed! I'd keep all the heifers off a bull with this pedigree.

An Exclusive 1/2 blood son that is out of the powerful and beautiful SAV Emblynette 4223. We have been fortunate enough to work with Brooking Angus to establish a half blood program here through embryo transfer of some of the most elite and influential Angus cows in the breed. When we decided to get into half bloods, we decided that you can breed any cow to an AI Angus bull, but it would really make the program a feature to access the best of the Angus genetics and breed Simmental. We are excited about the future of this program as another tool to add for our customers. This bull is very complete and made right from every angle. He is deep and long with a great hair coat. A bull I really like for his balance and style.

Power bull here. The first of four flush brothers that are all similar in the power and performance they offer. When we flushed 119Z these bulls are just what we hoped for with the breeding to Patriot; powerful, well constructed red bulls. He is wide topped, thick made, with lots of depth and is overall very complete. 71H is the most moderate of the flush brothers. He has a lot of presence to him and will catch your eye right away.

Another powerful flush mate with extra length of body. Like 71H, this bull is constructed with a big hip, lots of width and large testicles. His dam has been a very productive cow for us. Her Westcott daughter was a high selling female to Double Bar D in 2018 and is a donor that has produced an outstanding set of bulls for them. These sons will sire the right kind.

Likely the longest bodied of the full brothers. 15H is dark red and stays consistent and true to the flush with nice muscle pattern, depth and overall completeness. We will be breeding the first Patriot daughters this spring and if you are wondering what their potential will be, have a look at the open heifer section. They are sure to impress and are maturing into beautiful, very functional females. These bulls are sure to breed true with the cow families that are combined in their pedigree.

Another baldie that follows suit with the sire group. Long bodied and hairy with lots of muscle shape. This bull offers more of a maternal strength EPD profile and he goes back to the Pocahontas 52N cow. We have retained a full sister to this bull that calved out a few days ago and has a really good udder. Should make nice fancy females.

A dark red bull with an outcross pedigree for our operation. His sire is a bull we purchased from R Plus as a clean up heifer bull and his dam is a blood red Godfather daughter out of our foundation donor dam Montana. You will see the Montana cow family throughout this offering. They are extremely productive cows that are strong uddered, big bodied and attractive. This bull is long bodied, great haired with overall balance and softness.

December 2020 would have normally been our biennial bred heifer sale but with everything going on in the world, as well as welcoming a new baby in September we decided to take the opportunity and retain all our bred heifers. With that in mind, we are pleased to offer these outstanding replacement heifers. These are the best set we have offered and are chosen from some of our top cow families and sire groups. These are sisters to the heifers that we are keeping in our replacement pen and the bulls in this sale. We are constantly working on improving our herd, focusing on udders, foot quality and functionality. The heifers are all on the same full herd health protocols as the bulls and managed for growth and breeding ability. We guarantee these heifers to be breeders. Buy with the upmost confidence.

A Black Ops daughter that compliments the powerful set of bulls in the offering well. She is similar in the power she offers; thick, big middled yet clean made and smooth. 204H is an attractive female that is well balanced and moves out freely. We unfortunately lost her mother the other day and we should be keeping this one. Her dam was a very nice cow; powerful, big bodied and good uddered. A maternal brother sold to Sam Mickelson last year.

A really complete and stylish feature Patriot daughter. She is long bodied and has a lot of natural thickness and volume to her. She is smooth made, clean in her lines and very balanced. A heifer that will catch your eye right away. The Patriot females are an impressive group, just like the bulls. They are backed by our very best cow families and will be a strong set of females for our herd in the future. 76H's dam is a strong uddered Riddler daughter that goes back to the Mader Twisted Sister cow we purchased as a calf out of the Agribition sale in 2011. Another impressive individual that will do good things for any program.

This feature Exclusive daughter is a sweet made as they come. She is phenotypically hard to fault and a real powerhouse. She is clean fronted with tons extension through her front end and follows that with huge sweeping rib shape and nice thickness and top in her. She moves out smoothly on a very good foot and holds her head proudly. She follows up her exceptional make up onto paper and has an excellent EPD profile. We have yet to sell an Exclusive female and we are parting with a really special one here.

This year Brenna & Britt have two open heifers in the sale. This is the first and a special one to Britt. Affectionally known as "Mini", her dam is Britt's first 4-H Heifer. I will never forget the day this heifer was born. Britt was determined it was Scarlett calving on the cameras. It was in fact her, and Britt went running to the barn as fast as she could to get there. It was the cutest thing! This heifer is extra hairy, moderate and clean made. She is long spined, feminine and quiet natured.

Another feature heifer, this time a red blaze face that is powerfully constructed and backed by an excellent cow family. 146H is big bodied, soggy, thick with lots of shape and eye appeal. This heifer is free moving and has excellent teat placement. The Noremac cow family offers longevity, youthfulness with excellent udders and feet. 146H's dam is moderate framed and big bodied with an excellent udder. Maternal brothers have sold to Jarrod Kirby and last year to Crocus Simmentals. She is going to be a powerful cow with a bit different pedigree that will allow a lot of flexibility in breeding choices. We hate to part with her but she will be a valuable asset to any herd.

A super cool red 1/2 blood female here. A heifer we really like for her substance, thickness but femininity and clean made extension. A perfect blend of power and pretty, this heifer is sure to catch your eye. The mating sure worked well. Too bad it didn't work out to a higher percentage on the upgrade table! The Red Stone females we have calved out have very good udders and this heifer should be the same. A maternal sister sold through our first bull sale to Outset Cattle Co. This heifer is quiet and would be a fun one to make a project out of.
