Donation Lot

Our donation lot this year will be raising funds for the Heart & Stroke Foundation, a foundation very close to our hearts.

With saying that we are very blessed to have an amazing photographer in our family and she has graciously donated an amazing canvas. Feel free to check out her website to see all her stunning work. www.ShellyPriest.com

Shelly Priest is a local Alberta fine art photographer out of Calgary. Growing up in Alberta, Shelly acquired a love of nature which she transposes into her photography. She now travels North America capturing stunning landscapes and wildlife. Shelly takes her wildlife photos to a higher level by creating these amazing images you see here with this Tundra Wolf 24x36" canvas.

Thanks,
Shelly Priest

www.eclecticshots.com | www.ShellyPriest.com

TERMS: The terms of the sale are cash, cheque, and wire transfers, payable at par at the sale location unless satisfactory payment arrangements have been made prior to the sale with seller, buyer and Bohrson Marketing Services. Bohrson Marketing Services reserves the right to require a certified cheque as settlement before releasing any sale cattle. Payment in full must be made before cattle can be released and shipped. Exchange rates will be announced sale day and the sale will be held in Canadian funds.

BIDDING: All animals to sell through the sale must be sold by auction with each animal selling to the highest bidder. Private sales will not be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted.

DISPUTES: In cases of disputes, bidding will be reopened between the parties involved in the dispute. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid and the auctioneer's decision will be final.

ANNOUNCEMENTS: Any announcement from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

LIABILITIES: All persons attend the sale at their own risk.

CERTIFICATE OF REGISTRY: A registration certificate issued by the applicable breed association and a certificate of registry duly transferred will be furnished to the buyer of each animal after final payment has been made.

HEALTH: All sale animals have met all necessary health requirements and it is the buyer's responsibility and expense to obtain the health requirements for importing any animal into his province or state. Bohrson Marketing Services assumes no responsibility for the health status of any animal in the sale.

PURCHASER'S RISK: Each animal becomes the risk of the purchaser and is sold "as is".

SHIPPING: Shipping of cattle, semen and/or embryos are the responsibility and expense of the purchaser. Purchasers are requested to provide shipping instructions at settlement on sale day.

INSURANCE: We strongly recommend insurance for full value on all purchases.

ACCIDENTS: Every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

INFORMATION SUPPLIED: The information contained in this catalogue is believed to be true and accurate. The seller has provided the information to Bohrson Marketing Services and they assume no responsibility if the information supplied is not accurate.

WINTERING/DELIVERY: Bulls can return to consignor's farm and be fed free of charge until April 1st, 2021 providing they are fully insured. They will be delivered prior to April 1st within 250 km from the consignor's farm at no cost to the purchaser.

TRIPLE HREAT

BULL & FEMALE SALE

We thoroughly enjoy working with these programs and they are offering another impressive set of herd sires from the heart of their herds. Cow families and maternal strength are always discussed when we make seasonal tours through these herds and the ability for the momma cow to raise profitable offspring is their number 1 goal. This has transitioned into a loyal customer base as they've noticed that the genetics represented in this sale will indeed increase quality of cattle and bottomline of their calf crops. These breeders fully stand behind their bulls and are great to work with and we can confidently say they'll put their customers first to ensure they have a valuable herd bull to service the cowherd.

The Yellow Rose, Hampton and JR programs are passionate about the Simmental industry and through decades of breeding cattle, they have assembled a high production cowherd. The fullblood component has definitely been growing and the main reason of their increased popularity is the addition of Disco, their senior herd sire that was a \$16,750 high seller from the respected Anchor D program. His sons and daughters have been excellent and your opportunity to buy this proven herd sire is an exciting opportunity. They've always been known for producing powerful purebred genetics that are heavy haired, soft made, good bodied and highly productive. The cow families they breed around are often outcross to the mainstream genetics yet are highly productive in their own right, this is one of the deepest sets of bulls they've ever offered.

We have a tonne of respect for the Kathol family and their approach for highly maternal cattle that raise a heavy calf at weaning. When we toured in mid-October through these sale bulls, foot quality, udder strength and overall longevity was commonly talked about as the main focus in order for their customers to receive ROI through buying bulls at KSR. It is a strong cowherd that backs these bulls and it is difficult to manage extra-age bulls and find them as strong made as the group you'll find here. Long, powerful, good hair, sound made and overall complete. New to the KSR offering this year is a trio of yearling ET bulls that are worth getting excited over. These bulls are true herd bull prospects that have pedigree galore and phenotypically they're extremely good and hard to fault. You can invest in this program with confidence as it is very complete.

Don't overlook the pairing of purebred heifers and foursome of commercial females on offer as well. These females are a prime example of the quality seedstock that you can source from this sale and share the same genetics as the strong bulls on offer. We encourage you to reach out to these breeders and visit with them on the offering and if it doesn't work for you to join us on sale day, tour the bulls prior and see them along with dams as we know you'll enjoy the depth of options. If ourselves at BMS can be of assistance, feel free to reach out to us and we will represent your need on sale day but we hope you will join us and take in great hospitality from real good people.

Best regards - The Bohrson Marketing Team

YELLOW ROSE CATTLE HAMPTON SIMMENTALS JR CATTLE

On behalf of all of us at Yellow Rose, Hampton and JR Cattle, I would like to welcome you to our 3rd Annual Triple Threat Bull & Female Sale. It's with a great pleasure that we have the great cattle producers of Kathol Simmental Ranch, and Donovandale Simmentals from Ontario joining us.

As the world seems to be in a different state than it was last year at this time, we have changed up a few things for the sale. All of us welcome your visits to the respective operations at anytime and new to this year we are going to have ALL bulls on site here at Falun for an Open House Feb 17-19th. Sale day will go as in past as a video sale and we encourage anyone that would like to view prior to sale day to come on over.

This year we have another special Donation Lot. Entire proceeds will go the Heart & Stroke. We have all lost so much this last while and we as a group would like to give back and would like to Thank Jodi's sister Shelly Priest for her donation of a Tundra Wolf picture on a canvas. She is extremely talented and we are very humbled to have her donate this.

We look forward to seeing as many of you as possible sale day or prior to the big day. Sale will be online at www.DLMS.ca. All operations are extremely proud of the offerings you will see.

As for the YR, HPR and JR programs we will have results to the homo polled tests prior to sale day.

Hope to see you Feb 20 on the farm at Falun

Well as they say when one chapter closes another opens. With that we have decided to sell our Full Fleckvieh herdsire Disco. As we just are in the building of that side of our program and with retaining as many daughters as possible it's time to give someone else the great honour of owning him. He is a bull that gives calving ease and performance. His traits of the soft deep rib, hip, good big foot, truly come thru on his calves. His first daughters are calving as this is being written and have nice udders. This is a unique opportunity to get into a PROVEN herdbull. We take pride in offering him for sale. He was the high seller in the prestigious Anchor D bull sale when we purchased him for \$16,750 as a yearling. Disco will be missed here but his mark on our Fullblood program will be seen for years. He is being wintered at our south farm but will be here for the open house.

A full brother to our high selling bull, and reserve senior bull calf champion at Farmfair 2019, that sold to SAJ Simmentals from Edam, Sk. This beginning of February bull has the look of his brother and will sire to turn heads. His mom may of dropped back in calving for a year but this year laid down and calved a month earlier. Fertility is strong in this girl and has a beautiful udder and a good big foot.

I get so excited every time I walk into the bull pen and see this boy just get better and better. We unfortunately only got one calf crop from Full Flush but boy he sure left an imprint in our program. Pit Boss came in off the cow August 23 over 1000 lbs. His dam only weighed 1370 lbs. Performance is in him. Nice uddered, moderate cow that produces like crazy. Pit Boss has that look and outcross pedigree of a game changer for either the commercial or breeder.

730H has got a ton of hair, deep side and a sound structure. The length of body he exhibits should transmit into more dollars in your pocket when his calves sell. The great Charo cow family that Lewis Farms is known for backs this guy. A solid bull all around.

YR FULLHOUSE 610H

BGF 610H 02-JAN-20 1340548 PUREBRED

Full House is exactly that, full of muscle, style, balance all the way and super sound. Backed by the Rosslynn cow family makes his bottom side as inviting as his top. These Full Flush sons are a super group and with 610H being from 2 black parents gives him that non-diluter gene. So you can be safe using him on either red or black cows.

Player is a soft sided, deep ribbed good hipped bull. His dam knocks it out of the park each year. Unfortunately we haven't had a heifer out of her, but when you can produce bulls like she can year after year a person can't complain. Player will mature into a herdbull like his sire. Casanova has left an imprint in our herd and his sons go out and work for the new owners. Brothers have sold to Odean Trautman & Brian Gross, Leduc; Dennis Wolf, Westeros.

Red Fever is a mix of the purebred and fleck genetics. His dam is from an young black cow who has done a great job each year, unfortunately has lost both her last 2 bull calves that were slotted for the bull sale got injured. She is a stylish, angular female that has a beautiful udder and balanced structure. This red blazed bull will add some rib, and depth to your calves. He has calving ease built in and would be good on some bigger heifers and 2nd calvers.

My bull "RPM" is my only bull that I'm selling this year. His dam is a moderate cow with a beautiful snipe, perfect udder, great feet are a few words that could describe her. His sire MRL Casanova has been one of our top producing bulls we've had. Now back to "RPM" he is a heifer bull who is light red and has that winning stripe of white on his face. I would like to thank Diamond W Holdings at Breton as well as Jeff and Mark Erkund from Amisk. The proof is in the pudding with these two brothers out there making great animals. If you're looking for a red heifer bull with the winning stripe check out RPM on sale day!

 (780) 898-3264 - Susan
 (780) 898-6345 - Arkia

KATHOL SIMMENTAL RANCH

We are pleased to be consigning to the Triple Threat Bull sale again this year. As always, the bulls on offer here today have not been picked over and are our complete set of 2019 born bulls with an added twist this year of a few embryo yearlings.

We continue to pride ourselves on customer service and providing structurally sound, quiet disposition cattle. The two year olds are developed at a little slower pace but as you will see at sale time they are maturing in to thick, sound herdsires.

Feel free to stop in at our ranch to view the bulls before the sale – we welcome your visit.

Special thanks to Arika for all her hard work preparing these bulls, taking the pictures, and helping in so many ways.

DAM | KSR 60Z

These bulls came as a complete surprise to us as we had not expected identical twins in our embryo program. Throughout the year it has been a constant discussion as to which is better and yet we still can not decide. 3H and 4H bring depth and capacity we are always striving for. When you get behind them the strength down their spine and roundness in their quarter is significant. The dam behind this flush program goes back to Bodybuilder and Power Drive. 60Z has become a bull making machine.

"Shell-shocked" little recipient cow two days after delivering these identical twins. Fortunately, a foster mom was found.

DAM | KSR 20B

The small birth weight on 53G does not take away from the masculinity that he possesses. This bull tracks out on a strong set of feet and legs providing a nice flex through his shoulder. 20B has contributed some great genes into our herd as we currently have an appealing first calf heifer of hers and a bull calf who's growing like a weed this year.

93G is a great combination of a larger frame score mixed with fine bone, allowing for what we expect to be easy calving. His smoothness carries over his shoulder and down his long length of spine. The pedigree behind this bull is filled with fertility and soundness throughout both sides.

There is a lot of correctness when you look at this bull. 13G is a very smooth bodied, deep sided individual and carries his masculinity like a herdsire should. On the move this bull has a nice flex in his joints making him captivating to watch. The dam of this bull has amazing fertility and put everything into raising 13G.

When you get behind this bull you can't miss his capacity and the thickness in his hind quarter. 37G carries nicely into his bottom third and when you see him on the move, he tracks out smoothly on a great set of feet and legs. 13C has produced two sale bulls for us back-to-back and recently weaned off another bull prospect.

77G is an impressive bull to look at. The volume in his middle carries throughout his body and all the way down his flank. I know I've said this a million times, but we pride ourselves in the quality of feet our animals have and this bull has just that. The mother of this bull is extremely feminine with a valuable heifer calf in the pen right now.

8G is one of the longest bulls we have this year. His length of spine complements his strong topline and his great width and depth of body. This bull walks like a dream with a great set of feet under him. 18C is becoming a rising favourite. This hardworking super productive cow is turning into a real bull factory as she has produced two sale bulls in a row now and weaned another prospect this year.

Although this bull is slightly smaller than the rest, he is structurally as complete as any. From his strong foot to his great spring of rib, to his masculine crest attached to a small head it makes it impossible to fault this bull. His dam's fertility has given us everything from masculine herd sires to multiple replacement heifers. Let this bull bring the correctness into your herd that you've been looking for.

It is only fitting to start with discussing the cow behind this bull. She is pictured here at 10 years old and has produced a working bull every year. This bull's half brother (54C) has been a herd sire for us for the past 3 years and some of his progeny are selling in this sale. 56G is an incredible half blood reaping all the benefits of hybrid vigor. His length of spine is obvious and the foot underneath him is one that will not disappoint.

This year we decided to offer 2 of our "Razor" daughters from a couple of our strong red cow families. Both heifers have not had special treatment and until Jan 4 were in a 10 acre field with the rest of our replacements and commercial heifers. Hairy, deep, and genetically strong. If you're looking to add an honest heifer look no further. We run our young girls very basic on a roughage diet until a month before breeding then they will get a couple pounds of grain and silage. The longevity of our females has been lengthened this way and it also sorts out the right kind. Both girls were being kept to either be sold in fall at select sales as breds or be future producers here. Mitzi & Primadonna will strengthen your herd like they would of for us.

45

HAMPTON SIMMENTALS COMMERCIAL HEIFERS

All 4 of the heifers are sired by 3 different herdbulls. CEN Red Fuel 482F, TCW Commander & MRL Casanova. Born late February - early April
