annual bull & female sale

THURSDAY
MAR.24

Welcome from the Bohrson Family

Welcome to the 21st Annual Anchor B / Anchorage Bull and Female Sale. Our family is pleased to host you again at our home and we look forward to seeing you.

Well, at least 2021 is over. While we are happy with the calf crop to come out of 2021, it wasn't without it's struggles. Like the majority of you, our feed supply was significantly depleted again in 2021 and pastures were stressed. Although everything seems to get a little more difficult, I continue to be optimistic about the beef industry. Despite the high feed costs, our great consumer demand continues to hold our prices stable. As an eternal optimist, I'm excited to see many spring/summer rains & green grass growing which will produce us the pounds of beef to take to market. When the rains come, the feed prices will re-balance and it will be a great time to be in the beef industry. There is no time like the present to improve your bull quality.

As we continue with our on-farm sale, you will find comfort in our spacious penning on both sale day or in advance if you want to preview the bulls & cowherd. We are available at your convenience if you would like to come to the farm early to get a better appraisal. This can give you additional time with our family as well, as we all know sale day can get a little hectic. We take a lot of pride in our cowherd & we always have time to talk with you about them.

With the convenience of having an on-farm sale, there is no need to bring your trailer sale day. We can arrange delivery after the sale and will keep bulls until May 1 if desired. Our goal is to make your bull purchase as comfortable as possible.

We continue to be pleased to work with the Bohrson Marketing Team and recommend you contact any of our BMS Team or Sales Staff and get their take on the offering. As well, internet bidding available via DLMS.

Please feel free to contact any of the Bohrson family with questions. We look forward to seeing you Thursday, March 24th.

Terms & Conditions

Cattle will sell under the standard terms and conditions
put forward from CAA and CLA. These are available upon request.

Volume Discount

3 bulls - 3%; 4 bulls - 4%; 5 bulls - 5%, etc.

Insurance

Please insure your bull(s) if they are remaining at our farm.

Crossfield Agencies

Michelle Marko 587.999.6467
email: michelle@crossfieldagencies.com

Guarantee

All bulls will be scrotal measured, semen tested, and sell as guaranteed breeders.

Delivery

We will transport your purchase to central locations in Western Canada and trucking
arrangements to Eastern Canada or USA will be co-ordinated.

Bulls can remain at our farms until May 1 with no additional charge. These bulls must be
insured.

All registered bulls carry registration papers, performance info, and EPDs.

Each owner reserves the right to collect semen on any of their bulls sold through this sale.

The semen collection will be at the seller's expense and buyer's convenience. Any semen
collected will be for in-herd use only.

Catalog design by Bohrsen Marketing

The information printed has been supplied by the seller and believe to be accurate.

Updated sheets and announcements from the block will take precedence over any
incorrect printed material.

» *Recommend for cows*

» *Jack Daniels 1J is the first son of the \$60,000 Anchor B Gold Rush 48G to ever sell, and will be the only for 2022. Gold Rush shook the Limousin breed in 2020 selling to J. Yorga Farms (CDN), Treftz Limousin (USA), & Summit Livestock (AUS).*

» *Like his father, Jack Daniels has tremendous shape, style and presence. He is powerful, mellow, soft made, and heavy muscled. His EPD's are breed leading with WW & YW in Top 1%, MK & SC in Top 2%, while Doc is Top 4%. Alongside some Top 1% Carcass EPD's you won't find a better fit for adding beef to your operation.*

» *On the dam's side, we have B Bar Nicole 28E who is a HUNT Credentials daughter out of the great Nicole cow family. We purchased Nicole as a high selling bred heifer in B Bar's 2018 Sale. She is a heavy milking, bold ribbed, level topped female that just doesn't miss. Stop by the farm to see her alongside her 2022 Anchor B Gold Rush heifer calf. As well, a very good 2 year old daughter that Riley used for 4-H last year.*

\$4,000 Dragon View Angus

» A female that will catch your attention for all the right reasons and 1 wrong one is the Lot 44 feature female. She is extremely impressive in her type and awesome body with a strong pedigree and one that we want to design all our females to replicate. Now, she is shorter eared but that wont hold up her production value as she is awesome in her design and we recommend with confidence

» We always sell many of our best heifers in this sale and Lot 44 certainly is that with body, mass and overall dimension

» When this one came into the picture pen, she commanded attention with her extra shape and rightfully so as she goes back to a high quality female

\$3,000 Matt Bushbeck

» Awesome female here and a pedigree to tie into as her Lot 32 maternal brother is showcased as one of the sale feature extra age bulls and a stud at that

» Her dam, 6225 knows how to produce and is an ideal Angus female as well with strong feet, good udder and brings in a top calf each and every year

» This huge ribbed, hairy, stout made and well balanced female has it all going her way and is one to be admired by top cattlemen

\$5,000 Poplar Meadows Angus

» We truly think this one is has a special design to her and is why we are adding this May 1 female to the sale and what we truly are hoping for is that she lands in the hands of a progressive program that wants to drag her around and do some damage in her age division on the show road

» 1210 can compete and do some damage as she is super sound, flexible in her movement, huge ribbed and has more look and presence than her picture even shows - when she rolled through the picture pen and after the clipping crew followed her over there with excitement as it was their favourite of the day

» This May born fits right in with her older pen mates and she goes back to a 21D female that was a high seller from Hamilton Farms

» We will be following this female wherever she goes and know her future is very bright as she wraps together strong EPDs, awesome phenotype with an outstanding pedigree
