Dear Cattlemen & Friends

We encourage you to come out in person to check out the sale offerings & our BUY BACK PROGRAM any time before or on sale day and receive a complimentary \$250 CASH CARD at time of delivery for your purchase

A Note About Our Bull Development Program

At Northway Cattle Co. the bulls are never pushed hard on feed and are developed responsibly. In the late fall once the grass is gone the cows and their calves get moved to their Wintering Site's (over 120 acre pastures to promote exercise, walking for water.) Bulls start eating a high roughage total mixed ration from bunk feeders alongside their mom's until they get weaned in early February, they then go through their first screening process. The bulls are required to have been born unassisted & weigh over 700 pounds at adjusted 205 DW, any bulls that fail to do so get ringed. The bulls are then fed a balanced high roughage based ration for 120 days to target 2.5 pounds gain per day. Before going back out to pasture for the summer the bulls go through a second screening process where we cull the bulls that couldn't achieve the 2.5 pound per day gain that was targeted, we also cull the bulls that show structural or disposition issues at that time. We require the bulls to achieve these goals as we think there are enough good registered bulls for sale in the industry that we don't need to add any that don't represent what we're trying to accomplish. Another reason we don't sell bulls that don't meet our standards is we will offer to return your support with a premium buy back program and so were constantly trying to improve on traits for calving ease, weaning weights, feed efficiency & growth traits, as those are the kind of calves we would prefer to buy & feed.

BREEDER GUARANTEE:

Northway Cattle Co guarantees our bulls to be structurally sound & fertile in accordance with the rules & relations of the Canadian Angus Association.

All Bulls have been vet inspected and semen tested by a Licensed Veterinarian. We stand behind the bulls we sell, if a bull fails to be a satisfactory breeder or unable to physically service cows or heifers we require him returned to us, we will replace him with one of equal value or with a full credit minus salvage value in next year's sale.

MILK SCORE:

Our evaluation of the milking ability of the sire's dam and expected milking ability of the sire's daughters.

- ★ Lower weaning weights from insufficient milking ability of the sire's daughters.
- ★ Sire would be breed average for his daughter's milking ability.
- ★ Growth traits can be maximized from the milking ability of a sire's daughters.

Northway Cattle Co will retain an in herd use interest in every bull selling in the sale.

Angus is a Leading Breed for Calving Ease

Average Birth Weight EPD, by Birth Year, on Angus Base

Angus Cattle Produce the Heaviest Carcasses

Average Carcass Weight EPD, by Birth Year, on Angus Base

NORTHWAY

cattle co.

**INVEST IN
THE PROGRAM
NOT JUST
THE BULL!!**

5% discount on purchase of 5 or more bulls!

Our Northern Climates and environment is more challenging, so we focus on breeding cattle that excel in traits for hardiness, growth and feed conversion.

One (1) pound more feed intake per pound of gain is all it takes to loss profit in the feed yard. E.g. 6:1 vs 5:1 lbs feed:gain conversion on 1,200 pounds of gain in the feed yard is an extra \$195 cost to the feed yard.

FREE TRUCKING for our customers for farm direct sales.

(Must be able to accommodate and fill a liner for this option)

For more information contact Pete Stahl (780) 835-8291 or Albert (780) 834-7055
or visit our website at www.northwaycattle.ca

Bulls produce calves with HEAVIER weaning weight without sacrificing calving ease or vigor at birth. Bulls will leave you a solid replacement pen for your next generation of cows.

Join the growing number of satisfied customers in our "BUY BACK" program and get in on our higher premium bids for your calves. We will pay a \$15 premium on top of our bid to our customers for selling us their calves farm direct.

We are transparent with our customers about the present and future cattle markets and the influence it could have on their calf marketing decisions. With markets becoming extremely volatile we help our customers forward sell their calf crop if needed to help manage their market risk.
