

# PHEASANTDALE *Cattle Co.*

20th Annual  
BULL & FEMALE SALE  
at the ranch - Balcarres, SK

2024  
THURSDAY ~ FEBRUARY 29

# Welcome

On behalf of everyone here at Pheasantdale Cattle Company, we want to welcome you to our 20th Annual Bull and Female Sale. To say that 2023 was a whirlwind year is an understatement, but we have complied an impressive group of yearling bulls, coming 2-year-old bulls and open females, and we can honestly say these are the best yet. Over the years we have been compiling a group of prolific females to build this powerful set of calving ease, maternal orientated bulls that are built around structure, fertility, longevity and much more. As you study the catalog you will find the absolute best, we have to offer from front to the back of the catalog. Rest assured we have sorted this offering for 100% soundness and fully guaranteed to do their job efficiently. We strive to make it our mission for you, our customers to purchase problem free herd sires to add value to your operations.

A new year always brings new and exciting genetics here at Pheasantdale, with the addition of our new walking herd sires SVS Triumph 81J and McIntosh Hancock 19J along with new AI sires such as KWA Slider 196H and CKCC Dimension 8965 which we are excited to bring their first calf crops to our ring. These new sire groups have added style, bone, depth, and overall capacity to our red and black program and have by far blown us out of the water. We are pleased to offer red, black and fullblood future herd sires that have a cross section of calving ease and performance, which many are curve benders for both. We can ensure that these bulls are built for profitability and come from a program that fully stands behind their product. You will notice in the comments for each lot we have designated each bull to they type of females they are best suited for.

We wish to thank all the buyers that purchased females from us this fall as your support in our program is overwhelming: Ted Elmy of Kelvington SK, Adam Niezgoda of Kelvington SK, Matthew & Terry Berezny of Iuna SK, Section 17 Livestock of Melville SK, Jensen Simmentals of Climax SK, Biblow Farms of Springside SK, Crocus Simmentals of Swift Current SK, Jason Tocher of Melville SK, Nicole Karapita of Jedburg SK, Art Weber of Southey SK and Yanko Simmentals of Ituna SK.

We hope you join us Thursday February 29, 2024, for lunch and refreshments and an afternoon of socializing. Again, we would like to extend the sincerest Thank you to Erin Yewsiuk Photography for capturing the bulls in pictures and videos, our brother and sister in-law Austin & Jennifer Fisk for clipping and torching bulls. We also wanted to thank Austin and Jennifer, Mark Pillar & Nat Grylls, Baxter Blair, Cole Reid and Taylor Reid for helping CoraLee and Lee navigate the fall show season while having a little one in their house. If you are unable to attend sale day, the staff at Bohrsen Marketing Services are familiar with the sale offering and will be able to assist you with your selections. Once again, we are pleased to have the great staff at DLMS offer their expertise with online services. This year we have chosen to move to 100% video sale for the safety and contentment of the bull offering. We wish you all the best in 2024!

### Our Sale Facility

*Welcome to the "20th Anniversary Sale" for the Pheasantdale program. Over the early years in the Simmental breed the Stilborn family established themselves as a mainstay in the Simmental industry with many accolades. Pheasantdale Cattle Co. was recognized last November at the Yorkton Harvest Hoedown for their longstanding commitment to this great event.*

*Lionel, Pat, Lee, CoraLee & Hadley proudly present this 2024 sale offering. Pheasantdale has a strong commercial base of customers and the purebred participation has a active following with their herd sire selections and progressive AI program. This year, buyers have many outstanding options, from the deep selection of black baldy, red baldy, and solid colored bulls. The 3 fullblood fellas will be popular once again sale day. The SVS Triumph sons will headline the red division with their depth, muscling and birthweight consistency. The black category offers the first sons of McIntosh Hancock with many headliners. The 20+ long yearlings will cover larger groups of cows and miles of pasture.*

*Always a highlight is the female component with two 3/4 BBF Hancock sisters, plus 4 high quality red heifers.*

*On February 29 join the Pheasantdale family at the farm for a great event. Bohrsen Marketing Services is very familiar with the sale offering and will represent all inquiries in a professional manner. See you on February 29!*

## ***Bulls are Semen Tested...*** Scrotal measurements and current weight will be available sale day. ***Delivery...***

Bull buyers taking bulls home on sale day will receive a \$75.00 discount on each bull

Bull staying at the farm following the sale must be insured.

Bulls will be delivered to central points in Saskatchewan, Manitoba & Alberta as soon as possible following the sale, at the seller's convenience and the buyer's risk.

Bulls left at the farm after April 20th will be charged \$3.00 per day and must be picked up by the purchaser.

## ***Sight Unseen Purchase Program***

If unable to attend sale day, come view bulls ahead of time, or talk to us or one of the sale consultant about the bulls you may be interested in. On sale day you can either leave an order with Bohrsen Marketing or be on the phone with one of them when the lots you are interested in are selling, or bid live with DLMS.

## ***Volume Discount***

- 3% discount on 3 bulls

- 4% discount on 4 bulls

- 5% discount on 5 or more bulls

Pheasantdale Cattle Co. retains the right to collect semen on any bull in sale for in herd use.

2023 Simmental Average EPDs							
Breed Average - Fall 2023 CSA Genetic Evaluation							
	CE	BW	WW	YW	MCE	Milk	MWW
Current	7.6	3.6	76.6	112.3	4.1	28.6	66.9
EPD on CURRENT POPULATION - all calves born in the last 2 years (2021 - 2023)							

## ***EPDs - Expected Progeny Differences...***

How to use them:

CE - Calving Ease - The likelihood of a sire's progeny requiring assistance when born. A higher EPD represents a higher likelihood of an unassisted calving.

BW - Birth Weight - Larger values indicate heavier birth weights, lower values indicate lighter birth weights.

WW - Weaning Weight - Higher weaning EPD predicts higher weaning weights.

YW - Yearling Weight - Higher yearling EPD indicates greater

expected yearling weights.

MCE - Maternal Calving Ease - The larger EPD indicates a higher percentage of unassisted births for calves born out of this sire's daughter.

MWW - Maternal Weaning Weight - A larger EPD indicates greater weaning weights for the calves from daughters of this sire.

MILK - Maternal Milk - Larger numbers indicate more milking ability of a bull's daughter.

## ***Win a 2024 Sale Credit***

Purchase a bull from any current Saskatchewan member, and when the registration papers are transferred, your name is entered to win a \$2000 sale credit! The draw will be made at the SSA's annual general meeting in July and the lucky winner will have one year to use the credit at any public auction or private sale on bulls or females purchased from any current SSA member.

## ***Terms & Conditions...***

**TERMS:** The terms of the sale are cash or cheque payable at par at the sale. The right of property shall not pass until after settlement is made. All settlements must be made with the clerks of the sale before any cattle will be released.

**PURCHASER'S RISK:** Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

**DELIVERY:** Delivery shall be at the seller's convenience. The animals shall be at the risk of the purchaser.

**ANNOUNCEMENTS:** Announcements from the auction block will take precedence over the printed matter in the catalogue.

**GUARANTEE:** Contributors to this sale hereby guarantee that subject to proper treatment, care and exercise, all bulls are warranted to be breeders. In the event of a bull proving to be a non-breeder after receiving proper care and attention, settlement is to be made under the rules and regulations governed by the respective breed association. At no time shall the liability exceed the purchase price of the bull.

**ACCIDENTS:** Although every precaution will be taken to ensure the comfort and safety of the buyers, neither Bohrsen Marketing Service or Pheasantdale Cattle Co. assume any responsibility in this matter and disclaim any liability legal or otherwise in the event of accident or loss of property.

When we purchased Springcreek Sue 81E out of Friday Night Lights in 2017 we had no clue the monumental impact she would have on our herd. Upon addition to our herd, she has had 3 bull calves sell through our bull sale grossing \$36,250 and giving us one daughter in our herd. Her 4th son to grace our sale ring is Pheasantdale Goliath 80L, a dark cherry red Bailey's One of a Kind son and the longest spined bull in this years offering. You must admire Goliath for his broad pin set, deep and very powerful lower quarter, big back and bold rib shape. With his robust structure, Goliath still moves with ease and pulls you in with his attractive herd bull skull, masculine crest and unprecedented phenotype. We believe Goliath is the real deal with his breeding potential being endless as he will sire extremely high-quality offspring of both genders. **COW BULL, HOMO POLLED BY PARENTAGE**

- Low birthweight
- **1st Calver Friendly**
- **TRIPLE POLLED**

When we purchased SVS Triumph 81J a Mader Walk this Way son from Sunny Valley Simmentals we did so with the thought in mind to bring bulls like 900K to the table all day long. He is a bull that is extremely attractive from his herdbull skull all the way through the length of his skeleton down to his solid foot he carries. We really appreciate the amount of capacity and sogginess throughout his ribcage and lower third and you couldn't ask for a more structurally correct bull when in motion. He is a bull that pulls above average EPD's in 97% of category requirements. We stand fully behind Triumph 900K to bring you top end replacement females time and time again. He is a bull with a nice low birthweight and a 278 day gestation.

Pheasantdale Slider 126L or lovingly known as "Cheeseburger" around the ranch is a bull that is bringing everything you could ever ask for in a HEIFER bull together in a neat little package. We absolutely love every inch of this bull; from his skull to his neck and shoulder, through his middle all the way to his lower third. He is literally as wide as he is tall and packs on the sogginess in all the right places. Being out of two black parents, he is a non-diluter red bull, meaning your not going to get any mouse-coloured offspring from him.

- Larger framed solid black bull
- Long bodied and great overall capacity
- **PERFORMANCE BULL**
- **MULTI GENERATION POLLED**

If you're looking for a bull that is going to bring you heavy steers come weaning time and the flashiest top end black baldy replacement heifers come fall then Pheasantdale Hancock 97L should be at the top of your list. We love 97L for the skeleton he has, his smooth shoulder, great length of body, wide topline and square hip. Not only is he attractive phenotypically, but he is genetically stacked to be a female maker every day of the week. We purchased his dam East Poplar Bently 946G in 2020 from Simmsational and we haven't looked back since. She is a female that is very easy fleshing and thick made with an excellent tidy udder. We have retained 97L's maternal sister in herd and his maternal brother sold in last year's bull sale to Knapp Farms. **COW BULL, HOMO POLLED, HOMO BLACK**

If you want to add some pretty prominent genetics in the Simmental breed to your herd like Mader Victoria Secret, LFE BS Charo, LFE The Riddler, NCB Cobra, CKCC Dimension and Mader Iron Sugar; then we highly recommend Pheasantdale Hancock 189L. Personally we score this bull pretty high on all the things we like about his phenotypically and genetically. He screams herdbull when he's on the move, you can appreciate his strong bone, the mass and capacity in his skeleton, the overall depth throughout and his wicked hip. Hancock 189L's maternal sister, Pheasantdale Lady Anarchy 39K is a female that we are beyond proud of as we paraded her this fall at Manitoba AgEx in Brandon where she was named National Reserve Champion Female for 2023 and placed second in class to the Grand Champion Female during Agribition 2023. **COW BULL, HOMO POLLED, HOMO BLACK**

Pheasantdale Hancock 181L is one of our favourite McIntosh Hancock 19J sons in this year's sale offering, so much so as he was a 1/3 of the pen bulls we showcased this past fall at Yorkton Harvest Showdown. You must admire 181L for the length of body that he has and the thickness that covers him. He is extremely attractive in his structure and motion when on the move. His maternal sibling Pheasantdale Framework 240K was our high-selling black yearling bull last year selling to Regan Shackler. **COW BULL, HOMO POLLED, HOMO BLACK**

- **HEIFER BULL**

Pheasantdale Full Freedom 43L is an extremely attractive double goggled full Fleckveih bull. He is super long bodied with lots of depth and an impressive wide topline. 43L has great spring of rib along with a thick wavy hair coat that Reba McEntire would be jealous of. He is a bull that is very quiet and gentle natured. We believe that Full Freedom will sire big, rugged steers come fall and beautiful blaze faced replacement females. His dam is a large framed, very large capacity cow with a really great udder. She has raised 3 bulls that have sold really well through previous sales. **PERFORMANCE BULL, DILUTER FREE, HOMO POLLED**

**MATERNAL SIB**

PHEASANTDALE MS 36W

Pheasantdale Full Freedom 38L is the third and final full Fleckveih on offer this year. He is bull that has excellent length of spine along with a nice wide topline and depth that carries down to his lower third. Full Freedom 38L currently ranks in the top 4% of the breed for milk and weaning weight. In this powerful package comes a moderate birthweight of 92lbs. We believe he is the perfect chrome factory for British bred herds. 38L's dam is no stranger to our catalog, FGAF Barb 103E, has a perfect, tidy udder we wish we could put on all the cows. She is more moderate framed but is very fleshy and has great spring of rib. Last year, 38L's maternal brother sold through this very ring to Ward Family Farm at Lemberg and his maternal sister sold to Lakeview Simmentals at Meacham SK. **COW BULL, DILUTER FREE, DOUBLE POLLED**

**MATERNAL SIB**

- **COW BULL**
- **HOMO BLACK**
- **HOMO POLLED**

If you're looking for bull that is going to add size, mass, bone, correct structure and be a chrome factory then Pheasantdale True North 88L should be at the very top of your list. While True North 88L is pretty to look at, you absolutely have to admire him for his broad pin set, deep and very powerful lower quarter, big back and bold rib shape. Don't think you can be even more impressed with 88L, watch him in motion as each step is perfect from one foot to the other. His dam is deep, soggy larger framed no miss female with 1 previous son selling through this ring to Bill Baumung, her first bred heifer sold to Striker Cattle Co of MB through Simmsational, and we retained her Mader Son of Anarchy 144H daughter in our herd. **COW BULL, HOMO BLACK, HOMO POLLED**

- Medium framed solid red bull
- Long bodied with great depth in his barrel
- Wide topline
- **HEIFER BULL**
- **HOMO POLLED BY PEDIGREE**

Pheasantdale Gunsmoke 2L is one of those bulls that is dead quiet, almost too quiet, you know the ones that are a pain in the you know what. Besides his sweet and gentle disposition he is a bull that is an absolute powerhouse. With his robust structure, Gunsmoke still moves with ease and pulls you in with his attractive herd bull skull, masculine crest and unprecedented phenotype. We believe his breeding potential is endless as he will sire extremely high-quality offspring of both genders. His maternal sister is one that we are extremely proud of and she will be missed here at the farm, Pheasantdale Lady Epic 10K was a female we took on the show road last year as an open heifer and again this year as a bred heifer. She was paraded at Brandon AgEx and again at Canadian Western Agribition where she made many new friends and eventually found her new home with Jensen Simmentals of Climax SK during Simmsational this past December. **1ST Calver Friendly, HOMO POLLED BY PEDIGREE**

**MATERNAL SIB**

- Nice thick wavy hair coat that is fairly dark red.
- Maternal sister in herd and maternal brother sold to Ted Elmy
- Dam is a large framed ¾ blood cow that makes this guy 7/8
- **COW BULL**
- **MULTI GENERATIONS POLLED**

## TWO YEAR OLD BULLS

Here at Pheasantdale Cattle Company we run 2 calving programs: our winter program starts January 1st to roughly March 15th where we calve out 340 purebred momma cows. Our spring program starts May 15th to roughly July 1st where we calve out 100 purebred momma cows. The one January and handful of February born bulls were not offered for sale last year as we intentionally held them over to be offered this year. Our spring calving cows calve on their own with zero help from us 2 miles north of the yard on pasture, where we check them twice daily, only to tag and weigh what has been born throughout the day. These bulls are grown on a high roughage diet throughout the first winter after weaning and turned back out on grass from May to October before returning to the yard where they are continued on a balanced TMR growing program. Our goal with our 2-year-old and long yearling program is to be able to offer genetics that will work twice as hard for a faster return on your bull investment by allowing that more mature bull to cover more females or multiple calving seasons when you purchase him. The bulls are on a total herd health program, and given that the bulls are older, they have been given their IBR, BVD vaccine along with Ivomec before heading to grass last year.

When it comes to choosing long yearlings and 2-year-olds for our sale its no easy feat as we take it extremely serious, even more serious is being chosen as a standout in the pen and being featured in our sale catalog. Pheasantdale Freedom 300K is truly one outstanding breeding bull from his overwhelming herd bull presence and masculine energy. He is so attractive from his skull through his neck extension that ties into a smooth shoulder and overall capacity as a whole. When out on the move you must appreciate his cat like movement and perfect foot placement all while admiring the power in his hind third. Lot 29, PTS 98L is his full sibling, you don't want to miss either one of these brothers. **COW BULL. POLLED TEST PENDING**

If your business is the bull making business, you'll want to make Pheasantdale Affinity 94K your number one draft pick. He is a bull that is overwhelmingly eye appealing from his dark cherry red luscious hair coat and the thickest long yearling bull in this years offering. You must admire him for his broad pin set, deep and very powerful lower quarter, big back and bold rib shape. With his robust structure, Affinity 94K still moves with ease and pulls you in with his attractive herd bull skull, masculine crest and unprecedented phenotype. His dam is an RF Capacity daughter off our donor cow MAF Pocahontas 87C, who is no stranger to our bull sale, with 2 bulls sold previously and 4 daughters retained in our herd. **HEIFER BULL, HOMO POLLED BY PEDIGREE**

What's in a name? Not a lot of people put stock into naming bulls after calving but here at Pheasantdale Cattle Company its something we think a lot about. During the development of this bull, his name came to us, Pheasantdale Mr. Freeze 304K, and we hope you do exactly that. FREEZE!, stop and appreciate the absolute MACHINE 304K is and what he is bringing to the table. Phenotypically he is so attractive and showstopping from his beautiful head, excellent neck extension, smooth shoulder, large rib cage, wide topline, to his thick and juicy rump all the way down to his sturdy foot. Genetically he is equally attractive with names like: LFE Heavy Hitter, LRX The Godfather, Mader Famous, Springcreek Lotto, Springcreek Liner and Blacksand Linnette, you cant go wrong acquiring Mr. Freeze! His dam Blacksand Nikki 2A is a name that has frequently graced the pages of our catalog time and time again with 4 sons to sell previously and 2 daughters retained in our herd. **COW BULL, HOMO POLLED BY PEDIGREE**
