Welcome FROM HOEGL LIVESTOCK, ROBB FARMS AND GREENWOOD CATTLE

Welcome to the 2024 edition of the Robb/Hoegl/Greenwood Bull sale. What an exciting sale it will be at our new location, Hoegl Livestock, NE of Lloydminster.

We are very grateful and honored by the loyalty and ongoing support we have received from our customers. It is a privilege to raise our families and work in production agriculture, serving some of the highest caliber cattlemen and women in the industry.

We have all been exceptionally happy watching this group of bulls develop, along with an elite group of open heifers selling from Robb's and Hoegl's in this year's sale. The thought and foresight into making this offering the best quality we can starts with breeding decisions, with our customers' needs front and center.

The sale combines the top of each of our herds, with a nice combination of Fullbloods, red and black Simmental and Angus. The bull sale offering is selected by all three programs with exceptionally high standards; we offer only bulls we would look for to improve our own herds with sound, high quality performance bulls, built to last and most importantly backed by great cow herds. We are excited to offer over 20 embryo transfer calves from some of the best cows in the industry. We look forward to helping you move your program in the direction you wish. We back our programs 100% and guarantee this sale offering is a 'no disappointment' kind of group.

We are all passionate about our programs and feel we have a good grasp on what our bulls and females can offer you. We invite you to call any of us or the sales staff before sale day to discuss your needs. Better yet, to get your best look at the bulls and heifers come for a tour at our farms anytime - The coffee is always on and the beer is always cold!

The entire offering will also be available for viewing at the Hoegl Livestock Tuesday and Wednesday before sale day. Please join us Wednesday night for a free social.

We look forward to seeing you Thursday the 22nd for sale day and if you can't be in attendance please log on to DLMS. We look forward to working with our great customers and welcoming new ones that will become like all, great friends. Enjoy browsing through the catalog and selecting your next Herd bull from Robb Hoegl Greenwood!

WELCOME

Welcome FROM BOHRSON MARKETING SERVICES LTD.

One of the highly anticipated sales each and every spring is the Robb Hoegl Greenwood bull sale as it represents 2 different breeds and 3 elite programs within the beef industry. The large amount of repeat customers that are seen year in and year out just speaks to the product and more importantly the people that make up this sale group. This is truly one of the most diverse sets of bulls we see annually and the options will be endless on February 22 at the new location, Hoegl Livestock, just North of Lloydminster. We are so pleased to welcome you all on behalf of Bohrson Marketing and the RHG Bull Sale group to their 19th annual sale.

The Robb Farms set of cattle on offer represent some of the most elite genetic combinations in the entire industry. The embryo transfer cattle are backed by some of the most sought after donor cows in existence and are the type you can build a program around. As always, big, powerful sire groups from impressive walking bulls are represented in the offering, including the exciting first crop from the \$102,500 Ava's Scream. The bulls are as deep in quality as ever and are extremely consistent all the way through. Big hipped, broad topped, attractive cattle that can elevate a program. New this year is your opportunity to purchase open replacement females from the Robb Farms program. These females are selected right off the top of the pen with many of them out of their embryo program. These are big league females and are the only opportunity to purchase females with the LRX prefix.

Hoegl Livestock has developed their deepest set of bulls on offer to date for this 19th annual bull sale. Again, their matriarch donor female, Lady A 51A has provided a record flush of fullblood bulls that can suit the needs of any program. Past that impressive set of sons, the fullblood bulls are well represented in sire groups by their proven Mark 710F herdbull and new up and comer Darwin 8H. The red and black bulls are lead off with the rookie calf crop by the \$70,000 Crossfire herdbull and the proven herdbulls Lewis 317H and Full Velocity 117F. This year also features the most embryo transfer bulls in their offering, an exciting opportunity to step into bulls with popular, proven pedigrees out of some of the very best cows available in the industry. Their bulls are easy doing, responsibly developed options bred for longevity. These bulls have the length, depth, hair and overall complete and balanced look to make a positive impact on their new programs. They will also be offering a set of papered replacement females that are sisters to the powerful bulls on offer and represent their powerful herd bull battery.

Greenwood Cattle has become a household name in the Angus industry and are synonymous with quality seedstock. Their 2024 bull offering is as deep and consistent throughout the entire pen as ever before. The strict AI and Embryo Transfer program around Greenwood provides you with options you can't just get anywhere. Some of the most proven bulls are utilized to create sire groups hard to find and with well over half of the offering being out of their ET program, you can bet the cows behind these bulls are absolutely flawless. Their heavy emphasis on building around cows that are easy doing, soft made, great uddered, strong footed and attractive take any guess work out of the equation when it comes to sourcing your herd bulls. These bulls are some of the most impressive Angus bulls we get to see each year and the huge impact that past graduates have had on programs bought out of here is overwhelming. From topping the calf sales at the auction mart to winning shows at Agribition, the influence they have had on programs is hard to ignore.

We could literally go on and on about each one of these operations and their strong cowherds, great customer service and positive impact they have on the industry both locally and abroad but we simply don't have the space. We love that 3 like minded operations can come together to put on a sale as such with so much diversity and options for everybody. We highly encourage you to join us on February 22 at Hoegl Livestock for a great set of bulls and females and some of the best hospitality around. Be sure to call anyone from the Robb Hoegl or Payne families to discuss the offering and to best pin point some options for you and your program. All of us listed from Bohrson Marketing are very familiar with the programs and the cattle on offer and would be pleased to discuss and assist if you are unable to attend sale day via our free order buying and consultation services. We hope to see you sale day and look forward to visiting with you about this stout line up of Simmental & Angus cattle.

Best Regards,
The Bohrson Marketing Team

WE FEEL THIS IS BY FAR OUR GREATEST RESULT FROM OUR EMBRYO TRANSFER PROGRAM. LADY A 5IA HAS BEEN ABSOLUTELY LIGHTS OUT FOR US THE LAST DECADE AND CERTAINLY DOESN'T OWE US A THING. ANYTHING WE MATE HER TO, SHE SIMPLY CLICKS AND WE KNOW WE WILL ALWAYS GET A QUALITY PRODUCT AT THE END OF IT. SHE IS SIMPLY PREDICTABLE AND WE DEEM HER A BIG TIME DONOR COW THAT GETS IT DONE. HER TRACK RECORD INCLUDES PUTTING MULTIPLE HERD BULLS IN SOME PROGRESSIVE COMMERCIAL AND PUREBRED OPERATIONS AS WELL AS HIGH SELLING DAUGHTERS THROUGH SPECIALITY SUMMER SALES AND FRIDAY NIGHT LIGHTS. IN THE SUMMER OF 2023 A FULL SISTER TO THE 3L BULL WAS A \$35,000 HIGH SELLING HEIFER CALF AT JUST 7 MONTHS OLD. THIS TRULY SPEAKS TO THE POPULAR 5IA DONORS BREEDING ABILITIES. EVERY LADY A DAUGHTER WE HAVE IN PRODUCTION AT HOME HERE IS COOKIE CUTTER IN TERMS OF BODY SHAPE AND UDDER QUALITY. A DAUGHTER OF 5IA HAS A FEATURE SON IN THE SALE, THE 43L BULL. ALL 5

OF THESE BROTHERS HAVE BEEN STANDOUTS SINCE THE DAY THEY WERE BORN. EACH WITH SOME SLIGHT DIFFERENCES AND ADVANTAGES, IT'S ALWAYS EXCITING WHEN SOMEONE SEES THE PEN OF THEM FOR THE FIRST TIME AS MANY FOLKS PICK OUT A DIFFERENT ONE AS THEIR FAVOURITE. THE ONE THING THESE BROTHERS ALL DO HAVE IN COMMON IS THEIR QUALITY. THEY ALL HAVE ADDED LENGTH, DEPTH, COLOUR, POWER AND SOUNDNESS WRAPPED UP INTO A VERY EYE APPEALING PRODUCT. THE FOOT QUALITY, TESTICLES, POWER AND STRUCTURAL INTEGRITY THESE BULLS BRING TO THE TABLE IS A GREAT REPRESENTATION OF THE DIRECTION WE ARE TAKING OUR FULLBLOOD HERD. WE FEEL SO CONFIDENT IN ALL 5 OF THESE BULLS AND PLAN TO UTILIZE A COUPLE OF THEM IN OUR OWN PROGRAM.

OUR LEWIS HERD BULL HAS DONE A GREAT JOB FOR US. WE REALLY WANTED TO FIND A TYCOON SON A COUPLE YEARS BACK AND 317H CHECKED ALL THE BOXES FOR US. IT'S HARD TO ARGUE HIS ABILITY TO PUT THAT EXTRA LENGTH INTO HIS PROGENY. LENGTH EQUALS POUNDS AND THAT'S EXACTLY WHAT YOU'LL FIND WITH 22L. ONLY 86LBS AT BIRTH AND 930 POUNDS AT WEANING SHOWS A BIG OLD SPREAD FROM BIRTH TO WEANING. LOOK TO THIS EXCITING TYCOON GRANDSON TO LEAVE YOU AN EXCEPTIONAL SET OF SONS TO MARKET AND HIS DAUGHTERS WILL BE SOME EASY ONES TO BE SORTED INTO THE REPLACEMENT PEN AS BOTH SIDES OF HIS PEDIGREE SCREAMS MATERNAL QUALITY AND LONGEVITY.

LOT 60: RECOMMENDED FOR COWS. A BIG TIME HERD BULL PROSPECT TO LEAD OFF OUR BULLS!! THIS MERCURY SON HAS BEEN AT THE FOREFRONT OF THIS CALF CROP ALL SUMMER ON PASTURE. HE IS THAT HARD TO FIND A.I. SIRE CANDIDATE, WHO COMBINES MASSIVE RIB SHAPE AND DEPTH OF BODY THAT DOESN'T TYPICALLY COME WITH HIS LENGTH OF SPINE. HE CARRIES HIMSELF PROUDLY AS HE MOVES WITH EASE AROUND THE PEN AND STANDS ON A NEAR PERFECT FOOT. HIS DAM IS AN AWESOME UDDERED, EASY DOING 3 YEAR OLD THAT HAD A \$15,000 BULL IN LAST YEAR'S BULL SALE, SELLING TO WALGREN FARMS AND DOUBLE RN. SHE HAS ENTERED OUR DONOR PROGRAM SUCCESSFULLY FLUSHING LAST SPRING AND BREEDING BACK HER NEXT CYCLE. THE PEDIGREE ALONE HERE IS ENOUGH TO GET US EXCITED FOR HIS FUTURE, BUT SEEING IL AND HIS DAM IN PERSON WILL MAKE IT WORTH YOUR TIME. WE HOPE TO USE HIM HEAVILY IN OUR OWN PROGRAM.

THE POPULARITY OF OUR DARWIN BULLS AND THE FEW DAUGHTERS WE MARKETING IN 2023 REALLY MADE US WANT TO OFFER ANOTHER ONE TO THE PUBLIC. AS WE ANALYZED COW FAMILIES AND PRODUCTION RECORDS, WE KNEW 542L WOULD BE A GREAT REPRESENTATION OF OUR PROGRAM FROM THE CONNEE COW FAMILY. 542'S DAM HAS PUT 4 PRODUCTIVE DAUGHTERS INTO OUR OPERATION AND THE ONE SON SHE'S HAD WAS A FEATURE TO THE BOYS AT VEGREVILLE COLONY IN 2020. YOU WILL APPRECIATE 542 FOR HER COLOUR AND PIGMENT, MUSCLE SHAPE AND FEMINITY.

ANOTHER ONE OF THESE GOOD FULL VELOCITY FEMALES THAT WE CAN'T SPEAK HIGHLY ENOUGH OF. THEY ALL GROW INTO JAMMY, AWESOME COWS. 534L COMES FROM ONE OF OUR LONGEST LINES OF COWS IN THE HERD. GREAT GRANDAM WAS A CORNERSTONE BLACK FEMALE IN OUR HERD WE SHOWED SUCCESSFULLY MANY YEARS AGO AND ALL HER DESCENDANTS FLAT OUT WORK. DAM, 503C HAS BEEN A PRODUCTION GIANT WITH 3 DAUGHTERS WORKING IN HERD AND TWO BULLS THAT HAVE GONE TO TWO LONG TIME CUSTOMERS MJM ENTERPRISES AND COTEAU GRASSLAND MANAGEMENT. YOU'RE BUYING A TRUE PIECE OF PROGRAM HERE IN ONE OF OUR MOST PRODUCTIVE COW FAMILIES.

THE LONE BLACK FEMALE IN OUR HEIFER OFFERING AND A UNIQUE ONE AT THAT. A BLACK HIDE AMBER DAUGHTER WHOSE MOTHER WAS AN ACQUISITION FROM LEWIS FARMS. THE AMBERS ARE SOME OF THE MOST FAMED COWS AT LFE AND FEMALES LIKE 52E MAKE IT OBVIOUS WHY. MUCH LIKE HER DAM, 532 IS TANKY, SQUARE MADE AND LEVEL. THIS WILL LIKELY BE SOME OF THE LAST CHANCES YOU EVER GET TO ACQUIRE SOME FULL VELOCITY DAUGHTERS AND IF YOU COME EARLY FOR A TOUR AT THE FARM TO SEE SOME IN PRODUCTION, YOU'LL WANT TO GRAB EVERY LAST ONE.

It is a pleasure working with the hard-working folks at Hoegl Livestock and Greenwood Angus. The cowherd utilizes a customized winter mineral program that is balanced to the forages they have harvested. This helps in the proper development of the bull calves at a young age and in utero. The bulls feeding program is built to maximize forage utilization and gut health.

The bulls are developed on grass with their dams and then moved onto a balanced TMR that promotes lean muscle growth. Organic minerals are used to ensure proper immune function and overall health of the bulls. The nutritional health and development of the bulls and the entire cowherd is of utmost importance and is continually being tweaked to meet environmental and seasonal conditions.
