

**RUSYLVIA CATTLE CO.**

*Fourth Annual* **BULL SALE**

**FEB. 28, 2024 | 1PM | ON THE FARM AT DERWENT, AB**

# Welcome from **RUSYLVIA CATTLE CO.**

It just seems like yesterday we were working on the third sale in 2023 and here we are getting ready for the fourth addition. Time sure flies when you live life at full speed and busy with all things agriculture. Rusylvia Cattle Co. was established in 1994 when Ken and Josie got married, and so, this year marks the 29th year of selling bulls. Rusylvia Cattle is made up of grain, hay and pasture land along with 400 cows. Our purebred herds are Simmental, Black Angus and Maine Anjou with the majority being black. Our commercial herd is Angus x Maine and Angus x Simmental. All the cows are managed the same way including – herd health, graze grass until November, corn graze until December, and cereal silage or silage bales during the calving period. We utilize natural heats to AI about 140 cows each spring and put in 40-50 embryos as well. The benefit list is long with AI and ET programs, and it truly gets exciting every calving season to see the results. Josie and Riley both AI with Josie having taught AI to hundreds of people over the 15 plus years teaching the course at Lakeland College. The bulls on offer are from some of the leading genetics on offer in Canada and in the U.S.

We sometimes get asked why three breeds. Josie got her first Maine in 1981 and brought 40 head to Alberta in 1994. The Maine breed performance, quietness, hair and incredible mothering ability is what we appreciate the most. The Black Angus purebreds started in 2005 with purchases from Stretton Creek, Mountain View Farms and KBJ Dispersal. We loved the commercial Maine x Angus cross calves including pounds at weaning time and felt the two breeds fit together well. The Simmental is the newest addition with our first purchases in 2015. The boys being active on the show road across western Canada really loved the excitement, people and what the Simmental breed had to offer. With key female purchases, leading AI sires and embryos, our program rapidly developed.

Rusylvia Cattle is truly a family-run operation with our boys growing up showing, running equipment and doing all things agriculture. We love the lifestyle, the challenges, but mostly the rewarding

relationships we've formed through so many avenues over the years. We have many great families who help us along the way with various things, but two families deserve the most heartfelt thanks – Shologan Family including Mark, Lee, Joanne and Faith. Lee is like a additional son around here and has a keen eye for cattle, knows what he wants, has a great work ethic, and we sure enjoy having him come help. Many of the bulls today are owned in part by the Shologan family. Chatsworth Land and Cattle including Nick and Alex Wasylik are adding some first-calving January pairs to our sale offering, and we are super excited to have them contribute. These are two of the hardest working, super keen, aggressive and knowledgeable cattlemen. We would be remiss not to mention their sister Charlotte often helps out with marketing, which is her passion. Nick and Lee are both much loved, appreciated and welcome during the fall show road and any other time of the year when we need a hand or a laugh, or two. Cassidy Daley was a great addition to our show crew this fall and in the bull picture pen. We sure enjoy having her help, input and smile around the farm.

Bull buyers, show families, junior families, fall sale supporters, and the list goes on, are truly the best part of the business. Some of the best times are every year at Agribition, Stockade Round up, Farmfair, Olds Fall Classic, Calgary Stampede, Summer Synergy or the multitude of other events we've attended. There's nothing we love more than having a cooler of refreshments waiting when we get a call someone is stopping in to do a pasture tour or getting the coffee ready after the bull pens have been toured. To all our past bull buyers, we thank you for your support over the years, often sight unseen until we arrive with the bull or the yearly visit to do your selection. This year, please plan to stop in ahead of the sale or the morning of to have a visit. The bull pen will be open anytime for viewing prior to the sale or the morning of the sale. Bulls will all be semen tested and guaranteed, and have been on a cereal Silage TMR with peas straw, hay and the Bullseye bull supplement. Many of these bulls are from the boys' own herd as you will see several tattoos; the boys' herds have been developing since they were nine years old.

On sale day, come early to tour the bulls, have some lunch, enjoy the video sale in our heated building and stay for refreshments following. You also have the option of bidding/viewing online from your home with dlms.ca. We truly believe the cattle business and its producers will have some bright years ahead, and we look forward to enjoying those with you. Thank you for your time, interest and support. If we can help at all, please call or stop in.

All the Best,  
*Ken, Josie, Tyson, Riley and Taylor Pashulka*  
**Rusylvia Cattle Co.**

## SALE DAY INFORMATION

### Schedule Of Events

**Lunch:** 11:30 am  
**Sale:** 1:00 pm  
**Refreshments:** 3:00 pm

### Viewing Of The Bulls

Anytime prior to the sale, or sale day morning.

### Sight Unseen

Call Ken or anyone of the boys or sale staff and they will gladly assist you.

### Delivery

Bulls delivered to central points in Western Canada prior to April 15, 2024. We highly recommend insuring bulls that are left at the farm following sale day. \$150 will be taken off if the bull is picked up sale day.

### Payment

Balance payable sale day. Please call Ken to discuss other arrangements, we will gladly work with purchasers.

### US Purchases

We will arrange all health testing and export papers at cost to US buyers. Delivery arrangements will be coordinated to the US Border Vet closest to purchaser. Bulls must be paid in full prior to shipping to the USA.

# Welcome from BOHRSON MARKETING SERVICES

## Meet OUR FAMILY

The Pashulka family of Rusylvia Cattle Co is one of the hardest working, down to earth, premier breeders of livestock in all of North America and each spring we are so impressed as we analyze their pen of bulls they have to offer. If your needs be that of a Maine Anjou, Simmental or Angus, the depth will leave you with plenty of options come sale day. We are proud to again welcome you on behalf of Bohrsen Marketing and the Pashulka's to the 2024 edition of Rusylvia Cattle Company's bull sale.

The 2024 offering is simply impressive. The strict embryo transfer and artificial insemination program at Rusylvia has again left a consistent set of sons spread across 3 breeds with many 1/2, 3/4 and full brothers available in their respective divisions. They are developed and brought along responsibly with longevity in mind. These bulls are able to get out and get straight to work and simply do their job and that is so evident in the amount of loyal repeat customers that show up each year. This exciting set of bulls is highlighted by some big time herd bulls in each division that are hard to find just anywhere. The offering is full of cowboy bulls that are high volume, easy fleshing, hairy individuals with a great look.

We really do hope you make plans to join the Pashulka family on February 28th for their 2024 bull sale season. The hospitality is top notch and coincides with the top stock available. Be sure to take a trip to the farm anytime to view the bulls prior and give them a heads up so they have time to order some famous Derwent pizza, like the bulls, it will not disappoint. We highly encourage you to give Ken, Josie, Tyson, Riley or Taylor a call prior to the sale to discuss the offering and your bull needs. If any of us at Bohrsen Marketing can be of any assistance, please do not hesitate to contact us as we would be pleased to help you source your next purchases.

Best regards,  
**The Bohrsen Marketing Team**

**BOHRSEN**  
MARKETING SERVICES

**RUSYLVIA CATTLE CO.**  
Ken, Josie, Tyson, Riley & Taylor  
PASHULKA

It is a pleasure working with the great people from Rusylvia Cattle Co on their nutrition program. You will be tough pressed to find a family more dedicated to the agricultural industry. Whether you are in the market for Angus, Simmental, or Maine bulls, you'll be sure to find something in their impressive and consistent bull pen. I hope you can make the sale to see this impressive group.

The cowherd utilizes a customized organic mineral program that is balanced throughout the year. The bull development program is built to maximize forage utilization and gut health. All forages are sampled and analyzed to ensure quality feed sources are used. Once the calves are weaned, they are slowly transitioned to a TMR. The TMR is forage based and is designed to

promote lean muscle growth, allowing the bulls to express their genetic potential. Rumen health is of upmost importance, which is why suitable protein sources and proper starch levels are fed to the bulls. Organic minerals are used both on the cow herd and sale bulls to ensure proper immune function and overall health.

The overall nutritional health of both the bulls and cowherd is of major importance to Rusylvia and it shows in the quality and consistency of their cattle. If you have any questions about the nutrition program, feel free to reach out. Good luck on sale day.

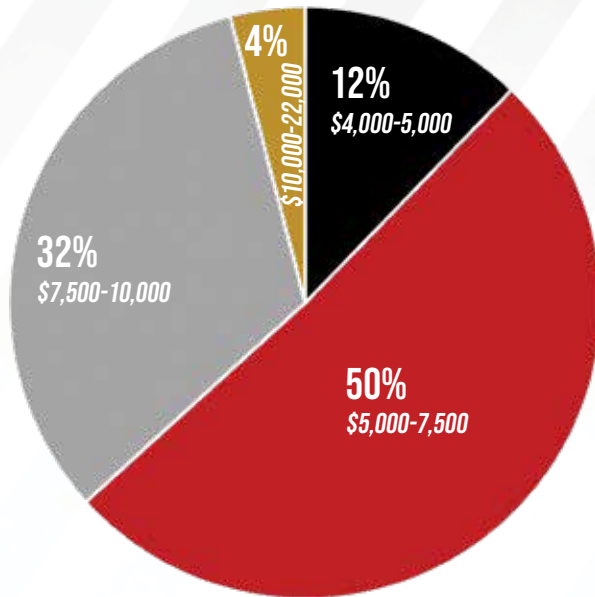

*Good luck on sale day!*

## 2023 BULL SALE PRICES

### Price Range

Rusylvia bulls are available in a wide range of prices to meet all of our customers needs.

## TERMS & CONDITIONS

### Terms

Payment in full must be made before cattle can be released and shipped. Exchange rates will be announced sale day and the sale will be held in Canadian funds.

### Bidding

In person, online through DLMS or via sight unseen purchase option.

### Announcements

Any announcements made at the time of the sale will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

### Insurance

We strongly recommend the buyer insures for full value on all purchases.

### Weaning Weight Date

Simmental and Angus weaning weights were recorded on September 8, 2023, and Maines were recorded on August 21, 2023.

### Purchaser's Risk

Each animal becomes the risk of the purchaser as soon as sold.

### Health

All sale animals have met all necessary health requirements. Bohrsen Marketing Services assume no responsibility for the health status of any animal in the sale.

### Certificate of Registry

A registration certificate issued by the applicable breed association and a certificate of registry duly transferred will be furnished to the buyer of each registerable animal after final payment has been made.

### Information Supplied

The information contained in this catalogue is believed to be true and accurate. The seller has provided the information to Bohrsen Marketing Services and they assume no responsibility if the information supplied is not accurate.

# VOLUME BUYER

\* REPEAT BUYER

## LOT 1: FEATURE

Here is an individual that is a complete standout. One you will love for his dark red hide plus his natural muscle shape, length of body and just his overall appearance. His foot and hind leg are extremely good. He was shown very successfully this past fall being reserve intermediate Simmental bull calf at Stockade round up followed by reserve grand champion overall Simmental bull at stockade round up. This guy is stacked with quality on both sides of his pedigree being a son of the great SVS Rancher and one of the best Simmental females around WFL sage 506C. We truly believe this young sire will be a breeding piece in the future and see tremendous potential. We are excited for the future of the 14L and look forward to seeing him develop in the program. We are offering 100% Possession and will retain 50% Semen Interest in this outstanding future herd sire, with that said we are very open to visiting with the potential buyer about possible shared possession or show this guy down the road. We think this bull has a lot of opportunities ahead and are excited for what the future holds for this exciting sire.

**SELLING 100% POSSESSION AND 50% SEMEN INTEREST; HOMO POLLED.**

DAM: **MRL MISS 7362E** MRL MISSILE 138C  
MRL MISS 2386Z

There is only a few red Simmental bulls in the sale this year but what we lack in quantity we definitely make up for in quality and this guy is a great example of that. This mader walk the line son will be one of the stoutest, powerful and unique bulls you'll lay eyes on. This guy has herd bull wrote all over him. This is one that has been extremely impressive since birth and has been awesome to watch grow and mature and can only imagine as time goes on what he will do for any operation. **HOMO POLLED.**

MRL MISS 5310C

Here is a set of ET brothers that we think a whole lot of. The amount of body and substance these two carry is non to less impressive. If your looking to add volume and bone and pounds to your cow herd take your pick on these two. Whats even more impressive about these two is how they get out and travel for carrying that much body mass and power and stepping down on a great big square foot. **HOMO POLLED**.

When you first walk into the pen this will be one that catches your eye right away. This big time black blaze bull is one impressive individual with being big bodied, stout made, awesome haired and a good look to him and a bull that gets out and moves on a big solid leg with an awesome foot under him. His pedigree is definitely something that is interesting and very unique. Being a son of the famous mader walk this way a bull that needs no introduction to the breed with siring some of the best and high selling bulls and females year after year and his dam is a jaw dropping female and one that has made a lot of great ones. We here at Rusylva and Chatsworth have retained this guys full sister and was successfully shown this past fall. The quality and the breeding on this bull speaks for itself. Owned with Chatsworth Land and Cattle. **HOMO POLLED**.

WFL SWEET LICIOUS 1044X

This structure son has been a pen favorite for some time now and when you lay eyes on him you will understand why. His dam is \$30,000 FNL sale feature and has been a top producer here at Rusylva. This bull is packed with natural muscle and shape and has those true herd bull features we look for. This is a bull that gets out and move's great on a big square foot. Not only being back by some of the great pedigrees in the breed but also has the quality to make it. This will be one you will want on the short list. **HOMO POLLED**.

Here is your opportunity at the only red blaze bull of the offering this year. This bull doesn't only catch your eye because of his color but his over quality. Off a first calf heifer that we and Shologans purchased out of the legendary R+ dispersal. He is awesome made in term of his shape and skeleton design and a bull for being off a first calver having a ton of power and performance.

As the saying goes, if it ain't broke, don't fix it and that's why we keep flushing Calla 47C back to I Deliver. This combination just keeps producing great ones like We Deliver. This guy has been living up to the standards starting off with being the reserve champion bull in Farmfair and Agribition and the President's Classic behind his brother 10L. This guy has full brothers working in Rick Deagle's Ranch as well as the Pick Six Operation. If you saw the champion female pair at Agribition, this bull calf was sired by 22 full brother, so this genetic combination works and goes out working successfully in other herds.

MR RUSYLVA BENNILLI 6B  
MISS RUSYLVA 18A

Here is a bull calf with a purebred pedigree that's from the past sire FJH Executive who was well known and used quite successfully. This bull is not only an outcross but will add some size to his offspring and backed by a great Benelli daughter. This bull weighed at the top of the Maine pen, and if you were looking for that purebred bull to add to your herd, then take a good look at him.

I DELIVER  
MISS RUSYLVA 47C

This has got to be one of the best maintainer bulls we have raised to date. This well built, long, smooth-made, well-muscle machine is one you can use on any kind of cow, and you'll be impressed with what you get to top it off. This guy won the Grand Champion Maintainer bull at both Farmfair and Agribition. His dam 7J is a full sib to We Deliver, and she has won many grand and reserve champion banners at every show she was in. She has developed into a super cow and has definitely earned her way to the top of our herd and will be entering the donor pen. His sire Motive is the go-to bull when breeding our heifers – born easy and perform well. These calves are competing with our cows for the top end weaning and performance weights. Owned with Wilken Ridge Farms and Rapid Creek Ranch.

MONOPOLY 07S  
MISS RUSYLVA AINT SHE PRETTY

Here's a bull that is a powerhouse. Sired by Benelli and off the well-known Diamond cow that Riley campaigned very hard winning every show she was in. 50L follows his mother's footsteps as being the quietest bull in the pen and not giving up any performance either. This guy will produce purebred calves when used on purebred females. Even back on commercial cows, he will produce some pounds in your calf crop and calves with an extra length of rib and top.

FINAL ANSWER ANGUS  
MISS RUSYLVA 25Z

Our only other Benelli sired bull in the sale, so don't miss him. Benelli calves have become very popular and in high demand across the country. at 800lbs pounds weaning weight on August 21 91L was only 10 pounds shy from having the top weaning weight of the Maines so performance is one of his top traits. Being a three-quarter blood, he will also produce purebred calves.

NMR MATERNAL MADE  
MISS RUSYLVA 7B

Another sire, we use exclusively on our heifers is Sooline motive. He has proven to be easy calving and best of all crosses perfectly with the maine heifers to produce the top calves in the pen every time. Here is a bull here that would work in your heifer pen, off a maternal made mother should give you some Replacements.

MR RUSYLVA NONEBETTER 49N  
MISS RUSYLVA ELITE 83E

If you're looking for a calving ease bull, this is the one. His sire final answer is probably the most predictable and proven calving ease sire out there as he's been around for 20+ years. These calves are born small, but bend the growth curve when they hit weaning and on. This guy was our top performance calf from our entire first calf heifer pen. You won't find a better combination than this for calving ease to growth and performance, adding pounds and dollars to your

MISS STYLE SHIFUP 40A

Our first bull to offer off our walking herd sire Deagle whom we purchased from Deagle Cattle Company. Deagle was the lead off and top selling bull that year in their sale. This guy adds some size and is an outcross pedigree for those needing a bloodline to cross back on.

We feel we have taken the guess work out of your decisions on choosing bulls for calving ease when breeding to SooLine Motive. Another son here that follows the footsteps of the other Motive bulls. Sells without registration papers.

## 8 LOTS OF 3-5 OPEN COMMERCIAL HEIFERS

55 / 56 / 57 / 58 / 59 / 60 / 61 / 62

THESE HEIFERS ARE FROM THE TOP OF OUR COMMERCIAL HERD. WE WILL SORT THEM INTO GROUPS OF 3 OR 5 FOR UNIFORMITY. THE GROUPS WILL CONSIST OF ANGUS X, ANGUS/SIMMENTAL, AND ANGUS/MAINE.

# 2023 FALL SUCCESSES

Welcome to the 4th annual Rusylvia Cattle Co. Bull Sale, a huge thank you to Rusylvia for giving us the opportunity to try something new as a guest consigner in this great sale, it's a privilege to work alongside the Pashulka family who are truly an amazing family as well as friends!

We have on offer some great 1st calving pairs All of these heifers bred up early and have some great early born calves at foot. every calf was born before the second week of January, giving these 1st time mommas all the time they need to be able to put embryos in them come late March/ early April.

We've been super happy with the quality and production of our bred heifers these last few years, We have been running a 42 day breeding cycle on all heifers for 10 years and are incredibly happy with the conception consistency results! All the hard work is already done with these girls, you won't need to keep them for a whole winter or even calve them out if you're needing some females to put embryos in or breed for some nice early calves.

We work very closely with Bullseye Feeds for our mineral and feed package, these females have been on a full TMR ration since late October, developed by Bullseye.

You can bid on these pairs with confidence knowing they've already proved themselves as great producers. All heifers are palpated as yearlings before breeding, And on a full herd health protocol. Bred to heifer bulls from Rusylvia Cattle Co and Everblack Angus. Calves at birth have gotten Vitamin AD, Vitamin E and Selenium, Calf Guard and Nasalgen. Bull calves have been ringed.

You're always more than welcome to stop in and have a look at the pairs anytime, we would love to show you around. don't hesitate to contact us about the pairs in the offering or give a shout to anyone at the Bohrsen Marketing team for their assistance. We look forward seeing everyone sale day February 28!
