WELCOME FROM WHEELER'S

Welcome to our 21st annual bull sale! The saying that time flies really does ring true. Our commitment and responsibility to raising quality seed stock is as strong as ever. After losing dad last spring we have been reflecting about where we started and where we are headed.

We are very proud of how far we have come with growing the quality of our genetics since we started our purebred herd 26 years ago. It truly takes a life time to develop a cow herd with the consistency we strive for in type, soundness, udder quality and production. It is an ever moving target that we love to pursue and we hope that the third generation will continue that passion. We truly are a family run operation with everyone contributing on a day to day basis, and 100% of our income is produced by our cattle. We have never had the time or money to put up with mediocre or problem cattle, so culling takes care of itself.

SALE DAY IS CUSTOMER APPRECIATION DAY PLEASE JOIN US!

One of the things that has not changed over these past years is our commitment to produce cattle that work for commercial cattlemen. We started with commercial cattle and our breeding objectives have never wavered from the same goals we had as commercial cow/calf producers. In the past few years we have used a lot of outcross genetics, and our motivation was not to make something shiny and new for the purebred industry. Our goal was to make the cattle better for our commercial customers because that was what we felt we needed to do. Our program has always been based on selling quality, and not just trying to make a silk purse out of a sow's ear. We put a lot of effort into breeding, developing, and representing our cattle. We even make our own advertising and sale catalogue. We hope that passion and commitment to what we do shines through and you can sense the pride we take in our work.

The offering itself represents the best of the past 26 years of our breeding program. On almost every bull offered the sire and dam both carry our prefix. Every bull was raised by a cow bred, born and raised here. That is a reflection of a true breeding program. We have developed what works in our environment and we feel that they will most likely work in yours. The depth of quality is as strong as ever in our yearling offering of red and black bulls. There are bulls that will suit any taste and budget. Our two-year old offering is smaller this year in numbers due to the drought, but the quality is very strong. We would be happy to talk with you about the offering and help recommend bulls that fit your particular goals and environment.

We need to take this opportunity to thank all the people that have helped us get to this point. We have met so many great friends, mentors and customers on this journey that are truly what makes it all worth while. Most importantly I must thank my parents Harvey & Frances who have always allowed me to take a very active role in our purebred herd. One of the most important things they have taught me is how important it is to have a life partner that will support you through thick and thin, and I am forever thankful that I have Rhea by my side. Hopefully one of their grand-sons Ty, Tate or Rhett gets to write the welcome for our 50th celebration!

Please feel free to reach out to us with any questions about the offering. We have a very professional, top notch group of sale staff that we can also recommend with confidence to represent our program.

Michael

You are not just buying a bull.

YOU ARE BUYING OUR PROGRAM

CUSTOMER SERVICE PROGRAM

TERMS: Our terms are 50 percent due sale day and a post-dated cheque for the balance dated May 31, 2024. Please ask us if you require additional terms, we are willing to work with our customers.

VOLUME DISCOUNT: Purchase three or more bulls and receive a 3 percent discount, five or more bulls receive a 5 percent discount.

DELIVERY: Bulls will be delivered as soon as possible following the sale. They may stay on the farm until delivery can be made or you pick up your purchase. For US purchases we will complete necessary health papers and cover delivery to the border. We will also do our best to help with further trucking arrangements.

WINTERING: We are willing to winter all sale bulls free of charge until April 1. After that date all buyers will be contacted, and arrangements will be made for delivery or pick-up. All bulls staying on the farm **MUST** be insured for full mortality.

INSURANCE: Larry Toner Agencies will be available for your insurance needs on sale day. Remember all bulls staying on the farm must be insured for full mortality.

COMMON SENSE BREEDING GUARANTEE: All bulls will be semen tested and vet inspected. We fully guarantee all bulls sold 100 percent to be breeders. We do not cover injuries, but are willing to provide a bull while your bull heals. In the event of a problem, we guarantee to provide you with a quality bull to get your cows bred. We understand that when your livelihood depends on your cow herd's production you need service and not hassles.

BULL BUYING MADE EASY

SIGHT UNSEEN PURCHASE PROGRAM: Call us with your needs and we will recommend suitable bulls. We know our bulls better than anyone and can help you source the best bulls for your program. We have professional and knowledgeable cattlemen that can provide you with a second opinion as well. All orders are handled in strict confidence!

VIDEOS & ONLINE BIDDING: The entire offering will be videoed in March and will be available on our website and www.dlms.ca and www.cattlevids.ca. Online bidding will be available sale day, we encourage bidders to log in prior to sale day to get registered.

Videos available on www.dlms.ca

CALVING EASE RATING:

- * Larger calves at birth and more pounds at weaning. They are recommended for cows only.
- * * Moderate birth weights while maintaining performance. They can be used on cows, or large well developed heifers preferably of british breeds. A few assisted births may be expected out of heifers.
- * * * A calving ease bull that will provide very little calving difficulty and can be used confidently on heifers.

LET US HELP! 306-260-7336

Give us a call, text or come for a tour anytime! We would be happy to visit about your goals and help suggest bulls that will fit your needs. We can help you sort through all the data and information and find you the right bulls. And maybe even save you some money in the process!

RED WHEEL *Stark* 67G

ACTUAL BW: 82 | ADJ. 205: 771 | ADJ. 365: 1360

EPD'S BW 2.8 | WW 63 | YW 105 | M 154 | CE -1.0 | MCE 3.0

Owned with Six Mile Ranch

| DAUGHTER

Stark has proven himself to be one of the most balanced and consistent sires we have ever used. He is not extreme in any one trait, but we have also not found one major hole in his production record. That says a lot! Phenotypically his progeny are of a sensible mature size with added natural muscle shape, fleshing ability, and correct feet and legs. Their natural do-ability, fertility, foot quality and added dark red hair coat have proven them well adapted to thrive under our extreme conditions these past few years. Now that his daughters have calved we have no doubt that they will be productive, fault-free cows with great udders and milk flow. We absolutely love our Stark daughters! They say that the true test of a herd bull is if he can out-produce himself, and we feel that Stark has done that.

RED SSS *Good Time Charlie* 364J

ACTUAL BW: 86 | ADJ. 205: 763 | ADJ. 365: 1346

EPD'S BW 4.0 | WW 47 | YW 96 | M 22 | CE -3.0 | MCE 0.0

Owned with W Surprise Angus- and Y Coulee Land & Cattle

We added Good Time Charlie to be our next female making sire. He has a herd bull presence, style and structural correctness we have not seen in a Red Angus bull in a long time. Find his video on our website and you will see what we mean. He is a big ribbed, and bold sprung bull with added bone. Charlie's dam is one of the most productive females in the SSS herd and we expect that production level will be passed on to his daughters. We plan to build our program around Good Time Charlie moving into the future.

RED WHEEL

Fort Knox 47H

ACTUAL BW: 94 | ADJ. 205: 790 | ADJ. 365: 1362

EPD'S BW 4.3 | WW 73 | YW 121 | M 29 | CE -5.0 | MCE -4.0

Owned with W Sunrise Angus-

| DAM

From the tip of their nose to their tail his calves are **STOUT!** They have added rib shape and bone, without adding mature frame size. After calving paternal sisters by Red Box and knowing the exceptional udder quality of his dam we feel Fort Knox could be an udder improver. His dam is a feature donor cow in our ET program. Fort Knox is a power bull that calves easy and averaged 87 lbs on his first calf crop. He will sire the replacement heifers we need to remain profitable, but also produce those steers that weigh up in the fall. Built like Fort Knox!

RED WHEEL

Hard Knox 75H

ACTUAL BW: 82 | ADJ. 205: 762 | ADJ. 365: 1358

EPD'S BW -0.4 | WW 46 | YW 82 | M 33 | CE 7.0 | MCE 7.0

Owned with J Bar Dee Farms-

| DAM

Hard Knox is a bull that is built right for the times. He offers calving ease in the package that matters, not just low birth weights! His calves are built and shaped to be born easy and averaged around 77 lbs in his first calf crop. When you study their head and shoulder shape and length of body we can recommend them with confidence for your heifer pen. His progeny are also stamped with that extra dark red colour that everyone likes. His dam Auburn 19E has been a consistent producer including the trio of flush brothers that headlined our 2022 sale.

RED SIX MILE *Mossy Oak* 175H

ACTUAL BW: 70 | ADJ. 205: 888 | ADJ. 365: 1506
EPD'S BW -0.1 | WW 66 | YW 123 | M 24 | CE 10.0 | MCE 11.0

Mossy Oak was an AI sire we added to be an outcross calving ease bull for our program. We felt he was the most complete John Wick son available. His spread from birth to yearling is impressive and he appears to have passed that to his sons.

RED W SUNRISE *Typhoon* 604H

ACTUAL BW: 74 | ADJ. 205: 784 | ADJ. 365: 1379
EPD'S BW 0.3 | WW 54 | YW 87 | M 18 | CE 7.0 | MCE 10.0

Outbred with Six Mile Ranch

Dam

We added Typhoon to our herd bull battery for his rare combination of calving ease, growth and maternal traits. His sire, Tycoon has proven to be one of the rare calving ease and high growth bulls in the breed. We feel Typhoon's dam makes him the next step in this line and his daughters have exceeded our expectations so far. Typhoon will be one of our most heavily used sires going forward.

RED WHEEL *Arrow* 66J

ACTUAL BW: 90 | ADJ. 205: 829

EPD'S BW 2.7 | WW 56 | YW 85 | M 20 | CE 1.0 | MCE 4.0

Arrow is a bull we retained to be a walking herd sire for ourselves. His pedigree combines Hawkeye (a Lewis 3008B son) on a Magic Mike daughter. Some of the best female producing sires we have used. Arrow is a smooth and correct bull that we admire for his foot shape. If he breeds true to his pedigree he will be a foundation maternal sire and add pounds at weaning time in the process. We like the look of his calves so far, they have been lower birth than we expected.

W SUNRISE *Executive* 8J

ACTUAL BW: 84 | ADJ. 205: 795 | ADJ. 365: 11363

EPD'S BW 5.3 | WW 64 | YW 109 | M 25 | CE -5.0 | MCE 2.0

Executive was a bull I found as a 2 month old calf. I saw him again after weaning and at 14 months. By sale time he was pushing the scale down at 1700 lbs, but we are happy to see that he has slowed in his growth curve and will not be excessive in his mature size. He always impresses for his power, bone, depth of heal, and most importantly his added length of spine. Length is something that is slowly being lost across all breeds. His calves have been born long bodied and stout, hairy, dark red with black feet. They have alot of vigour and get up and sucking quickly.

COLEMAN *Bravo* 6313

EPD'S BW -0.2 | WW 52 | YW 97 | M 22 | CE 15.0 | MCE 11.0

Bravo was an AI sire we added to be an outcross calving ease bull for our program. Bravo is an extremely easy calving sire and was produced from one of the most highly recognised maternal cow families in the world, Coleman Donna. His sons are sound footed, deep ribbed with nice hair coats and exhibit traditional Angus character.

John Wick has been popular for siring attractive made and structurally sound cattle. All terms we would use to describe this calving ease herd sire prospect. We were happy when Combest Red Angus purchased Pride 13J as the high selling heifer in our 2022 Celebration female sale and left her with us to manage her. She is a special female you will hear more from in the future.

Convoy is the result of an embryo we sold to Bar Double MM and after seeing him we decided to buy him back to use in our own program. Never before have we bred a bull that we feel represents what we have been trying to achieve over the past 25 years in our breeding program. Knowing how his pedigree is stacked gives us great confidence in how he will reproduce his type and kind. You will not find an Angus bull that packs more natural muscle on to a sensible frame size. He stands on a solid foot, has lots of hair, and we admire his skull shape and masculinity. His dam Annie Oakley has not missed and is one of the most unique cows in the entire breed.
