Genetics Tenth Anniversary BULL SALE Hereford & Black Angus

ANIMAL NUTRITION

I have worked with RSK Farms for many year's providing nutritional consulting with their cow herd, replacement female program and their Bull Development Program. Bull Development is a high priority at RSK, ensuring the bulls are developed to the best of their ability without over doing it. Growth and performance, body condition, hair, structural soundness, and reproductive development, are some of the hilites we aim for when designing a bull program. We want to stay away from over condition bulls that break down, are not fertile, and just don't get the job done. These bulls only cost you a lot of money! At RSK over the year's we have seen changes in their development process. From self feeders and hay feeders to incorporating higher quality forages and less grain. Silage bales, top quality hay, oats and a custom bull development product is the direction RSK uses to develop their bulls. We sample and test on farm ingredients using the nutritional values of the ingredients and then design the program with a custom Bull Development Product to meet the protein and energy requirements of the program. This program is designed and balanced using the Cargill Beef Max Ration Balancing Program. This product fills the nutritional gaps the ingredients have and we enhance the program balancing proteins, amino acids, energy ,fiber levels, micro and macro minerals and vitamins. RSK also sees the value using Diamond V NaturSafe in this product to enhance gut health, immunity and a better absorption of nutrients. We know this helps with reproductive development for the bulls as well. The goal for the Bull Development Program to raise bulls in a safe and nutritionally sound environment that will provide optimum value from their customers and prospects in their sale.

Cargill Animal Nutrition - Doug Allison, Beef Consultant 204-724-2652 - doug_allison@cargill.com

VACCINATIONS

Pyramid 5 plus Presponse as an aid in the prevention of disease caused by IBR, BVD Types 1&2, PI3 and BRSV, and as an aid in reduction of severity of pneumonic pasteurellosis caused by Mannheimia haemolytica. Covexin 8 Plus to protect against diseases caused by Cl. chauvoei (black leg), Cl. haemolyticum (bacillary hemoglobinuria), Cl. novyi Type B (black disease or infectious necrotic hepatitis), Cl. perfringens Type B (lamb dysentery), Type C (hemorrhagic enterotoxemia), Type D (pulpy kidney), Cl. septicum (malignant edema) and Cl. tetani (tetanus). Pour on Ivermectin products and Clea Up 2 are administered as well. Also Maxi Guard is given in the spring, before heading to pasture that controls Moraxella bovis bacterin for the prevention and control of pinkeye. At the time of fall booster shots, Quiet Weans (yellow nose clips) are inserted into the calves noses to prevent nursing and are left in for 5 days. This proves to be very effective for a low stress weaning solution. Strict emphasis is put on structural soundness, testicular development, do ability, performance, functionality and disposition!

Welcome

Welcome to the 10th Annual Elite Genetics Bull Sale hosted by RSK Farms and Rideau Angus Farms! Join us for an extraordinary event showcasing the pinnacle of Angus and Hereford genetics carefully bred by these two progressive programs. As we celebrate a decade of successful sales, we are proud to present a select set of elite bulls, each representing the culmination of generations of meticulous breeding and selection.

The offering features bulls with outstanding pedigrees and proven performance, backed by the robust cowherds of RSK Farms and Rideau Angus Farms. These bulls embody the traits essential for superior genetics, promising to elevate your herd to new heights of productivity and profitability. In addition to the stellar lineup of bulls, we are thrilled to present three exclusive commercial pens of heifers, offering an opportunity to enhance your breeding program with top-quality females.

We invite you to explore the offerings further by connecting with RSK Farms or Rideau Angus Farms as they would love to talk cattle and tour you through the offering and cowherd. Our dedicated team members, including Nate Marin, Martin Bohrson, and Darryl Snider, will be on-site to provide insights and assistance, ensuring that you find the perfect additions to your operation. Join us for a day of unparalleled genetics, networking, and camaraderie at the 10th

Annual Elite Genetics Bull Sale, see you there!

Best Regards, The BMS Team

DIRECTIONS

From Brandon: Travel east on HWY #1 to the Douglas corner. Turn north on Douglas RD (98W) and travel 5 miles to road 66N. Signs will be up.

Welcome to the 10th annual RSK RAF Elite Genetics Bull Sale! Jess and I are very excited and humbled to be hosting our tenth bull sale. This year's sale offering is a testament to the direction and the path that each breed has worked towards over the last ten plus year's. It's crazy how fast 10 year's really goes by. I remember our first sale in Neepawa; the great partners and consignors over the year's that brought bulls and females, the family and crews that always helped and most importantly the buyers and supporters that keep this sale going strong. It feels great to see our genetics go out and work and provide a positive ROI for our customers. We sincerely thank you all so much!

The depth and quality of this year's offering is second to none and this year's sale offers a diverse group of breeding tools. Balance 207H and Command 91H calves make up the main part of the RSK pen this year. Two Hereford bulls that will again play a big role in the future here at RSK. Executive 4J is breeding tremendously well, proving to be easy calving with great growth and flawless structure. Watch for him to leave his legacy. The past couple of year's saw a big investment in expanding the Angus herd here and many of the resulting progeny are also highlighted.

We are continuously building, raising and acquiring new genetics to build the quality of the RSK and RAF programs. Our emphasis is on breeding well rounded, balanced offspring based on quality genetics that promote improved structure, muscle pattern and efficiency. Our bulls are raised on a high forage ration with a Cargill pelleted supplement to promote longevity and do-ability. Being in Manitoba you can be assured of the toughness and hardiness of our bulls. RSK-RAF prides itself on being progressive operations and breeders. We have made management and breeding selection decisions that are proving to increase productivity, quality, consistency, and profit in our product that will pass onto you, in your product.

Many of our customers are repeat and multiple buyers. This tells us that it's not just a bull business, but also a people business. Our customers are pleased with the product, but more importantly happy with an honest, reputable and knowledgeable service. We love catching up with our customers as it provides us with feedback about our product as wells as assisting in improvements for breeding decisions. The customer is our main source of information and the continued support from our customers is what is keeping us in a business that we love.

All the sale information will be online including bidding with Liveauctions.tv, videos and pictures. Feel free to contact any RSK-RAF member for more assistance.

We look forward to having you join us for the 10th Annual Bull Sale, and cannot wait to see were the next 10 year's takes us!

TO,

We could not think of a better way to start this year's offering of Hereford bulls. These two full brothers, RSK SCK 207H NEW NOISE ET 42L and RSK SCK 207H TIME BOMB ET 46L have made a lot of friends throughout the year. They are sired by NJW 139C 181F Balance 207H, our pick from the 2022 NJW bull sale and by none other than Blair's AXA Nellie 20E, dam of RSK SCK 7615 Double Down 30H our high selling bull in 2021 for \$39000.00 for half interest to Wooden Shoe and 4 Taylors Livestock.

Both of these tremendous herd sires possess that amazing pattern and look. Their structure and skeleton are flawless, big footed and fluid moving. New Noise 42L carries a touch more of a soggy look with a big hip and deep rib and middle. Time Bomb 46L possess a touch more stretch of body, with a smoother look about him, but while still maintaining bold shape and a massive hip. They will add performance to their progeny, just take a look at the WW indexes of 119 and 110 respectively. The quality in these two full brothers is second to none, but you decide which fits your program.

RSK SCK 207H Proceed 78L has left his mark on the beef industry so far. We campaigned him very successfully this summer and fall. Proceed was the MHA Field Day Res Junior Champion Bull, Junior Champion at the Alberta Showcase in Red Deer, Intermediate Champion at Farm Fair, and Res Junior Champion at CWA. One comment that was always said by the judges was, "I cant wait to see how this guy matures, he has a bright future ahead of him."

Proceed 78L puts all the pieces together and not just by chance. His maternal brother RSK SCK 8Y Jury 25J was very similar and high seller for \$15,500.00 to Paul Kress. This Balance son has great structure and flex, a beautiful sleek front end and an explosive hip dimension. He has a balanced and appealing look with a cherry red color pattern. Combine this all with a tremendous EPD profile, a 115 WW index and 112 YW index, make this heifer bull a performance package as well!

It's always nice to offer up a consistent set of bulls from a sire group, but when you can from one donor, even better. This is another reason why we flush our best females. Harvie HBM Ms Firefly 66C has been tremendously good for RSK Farms and Anita Doktor. Purchased from the Harvie Ranching dispersal on the merit of her great structure, body and genetic package, we were very pleased to have got her bought. She has since been part of the donor herd at RSK and will continue to do so. Mating to NJW 139C 181F Balance 207H has also been off the charts, with a high selling heifer calf in the 2023 RSK RAF Elite Genetics Sale to Mannle Herefords and now these three full brothers.

RSK 207H Justice ET 68L, RSK 207H RSK 207H Loyalist ET 48L and RSK AD 207H Lawless 29L are moderate made, well balanced and good structured. They are all deep chested and bold in rib shape and muscle type. Basically, all the best things we see in Balance 207H, their sire. RSK 207H Justice ET 68L was on the show road this fall and made many friends in the stall and ring, especially always being the youngest in a tough senior division. RSK 207H RSK 207H Loyalist ET 48L and RSK AD 207H Lawless 29L are the more moderate two brothers well suited to breed in any heifer pen. One of them just offers a whisker more pigment!

Oh boy, Balance 207H sure stamps his progeny with consistency and type and RSK FM 207H Lariat 15L is just that. Lariat 15L is moderate in stature but very complete made, nice pattern and style. His dam has never missed bringing a good one to the pen at weaning. A daughter resides at Springfords in BC and a RSK Pit Boss son sold in last year's bulls sale. This guy will add a splash of color and pigment to your calves and will work in the heifer pen.

RSK SCK 207H Knockout 93K is a Balance two-year old bull that we walked on a few females this past summer. I liked this guy right from the beginning. He is balanced quite nice, attractive and still maintains great shape in a stunning moderate size. He's dark cherry red and has two full pigmented eyes.

TESTIMONIAL

in past year's. Both Andrew and Jessy were very helpful in trying to make my bull selection easy. Both my Hereford bull and Black bull worked out very well at our place. I used the RAF bull on my Hereford heifers and have had nothing but good luck with the calving ease they said he would bring to my program. The after sales service was second to none with a few friendly calls between ourselves a couple times a summer. Andrew just wanted to make sure everything was going ok. I will be looking for another heifer bull soon and will be looking to RSK Farms/Rideau Angus Farms to provide one.
Thanks RSK and Rideau!

RSK 30H Order Sixty Six 66L is the only RSK 7615 Double Down 30H son to sell this year, basically because he was the only Double Down bull calf we had. What was lacked in quantity, was not lost on quality. Genetically, he is stacked: Rib Eye R117, All In 7615, Nellie 20E, Leader 9515. Order Sixty Six is a performance bull that will add the pounds to your calf crop in the fall. Long made throughout and big spined he ties a tidy and angular front end, big rib and powerful quarter all together. He is sound and long strided, short marked and goggled.

Back in 2017 we were stalled across the aisle from Rocking G Cattle Co. and noticed a heifer calf in the string. She was amazing and went on to win Champion Female that year at CWA. She was Pixie 707E. So when the opportunity came to purchase some full sib embryos, Jess and I jumped all over it and we ended up with 2 great horned bull calves. RSK 5511 Resolute ET 51L and RSK 5511 Lawful ET 62L are powerful, rugged made bulls. Big skeleton, big foot, big hip and big barreled. They are just impressive individuals with so much mass and sogginess. These guys will push the scales down and I expect their offspring to do the same.

RSK 511 Resolute ET 51L was campaigned this past summer and fall, and was a producer favorite, even from other breeds. Resolute 51L was named Reserve Champion Bull at the MB Field Day, Res Intermediate Bull Calf at Farm Fair and was the 2023 Semex Presidents Cup Champion Horned Hereford Bull.

They say length equals pounds and performance, I say they are right. If you are needing a bull that will add pounds, performance, size, and length, then look no further, because RSK 91H Legacy 41L puts a performance package together that is hard to find. Imagine a pen of heavy weight baldie steers in the fall or a pen of performance bulls for your customers in the spring, Legacy 41L will do that. His Epd's say so, his indexes say so, and his pedigree says so. His sire, Command 91H has been leaving his own Legacy here and at so many other operations around North America.

TESTIMONIAL

First Class is 6 years old this spring and we're still using him very heavily! He just finished another fall breeding season and still looks the same as ever; soggy, easy doing and thick made. We cannot say enough about how happy we are with all his offspring! We now have a young herdsire who is out of him, LDW 79K, and his calves born this spring have all hit the ground with FULL pigment. Each and every one of them. First Class is a tremendous bull who stamps all his offspring with power and pigment!

He will leave a lasting legacy in our herd for many, many years to come!

RSK 20C Louisville 119L is the youngest bull in the sale. This March 20th bull will just be a year old at sale time. He is moderate in type but packs a punch genetically and phenotypically. Louisville is sired by RSK Digby 20C and out of a great performance Sage daughter. He's dark cherry red and well made.

Our first group of bulls to sell off our \$115,000 herd sire from the W Sunrise program - Executive 4J. 12L has loads of top, length and width of base. He is free moving, smooth shouldered and had a moderate BW of 88lbs. His dam is a no miss female for us with sons working in numerous programs and her 2022 daughter being retained in our herd with just the most picture perfect udder. If you are looking for a maternal bull to add to your program take a look at this guy.

W Sunrise Executive 4J Flush brothers from one of our leading females. Both are super long, sound footed with impressive shape and style. Their sire is none other than our 4J bull who we selected from the W Sunrise Program. Rideau Ever Entense 64F is leaving a huge impact in our program for such a young cow. Her Mcinley daughter was the high selling Angus calf sold to Haroldsons Polled Herefords & Steven Knuston. CAP 13K her Titan daughter was campaigned very successfully on the show road this fall and is turning into a powerhouse female.

These will be her first bull calves to sell and the first bulls from the \$115,000 sensation W Sunrise Executive 4J.

A very unique individual off of a first calf heifer, Hamilton Rosebud 121J is a beautifully uddered well balanced young cow with great feet and legs and depth to her. She was purchased from Hamilton Farms in the 2022 CWA All Star Sale. 1L will be one of the first sons to sell off of their exciting herd bull Daltons Trailblazer who just combines so many neat attributes to the puzzle, hes long bodied, stout made, wide based and is backed by a great set of numbers. You will find a lot of similarities between 1L and his sire. A long sided bull just packed full of red meat.

This extra age bull comes from one our the oldest cow lines at Rideau Angus, the "Errolines". He is bred for calving ease and maternal greatness. I used this guy on a group of purebred Angus and commercial heifers. His calves are coming easy will loads of vigor. His Sire Square B True North is known for his high maternal traits and carcass merits. His dam is a big bodied heavy milking cow, if you are wanting to keep replacement females to put back into your program this guy will give you beautiful set of females.

TESTIMONIAL

We purchased RSK 7165 Bankroll ET 64K from RSK Farms out of the RSK RAF Elite Genetics Bull commercial, Black Angus Influenced cows. He has been hitting them out of the park, all with the chrome and an average 75 lbs birth weight to top it all off. You can buy from RSK with confidence! TERMS & CONDITIONS

BULL WARRANTY: The consignors guarantee to sell you a bull that has passed a semen test performed by a licensed veterinarian. Should a bull fail to be a satisfactory breeder that is unable to physically breed a cow or heifer, a credit will be given towards the purchase of another bull. We guarantee to provide you with a sound breeding bull, but will not provide replacement or credit for physical injury or mismanagement. Bearing this in mind, we strongly advise you to insure your bull. All problems must be reported to the consignor in writing. The bull must be returned to the consignor immediately when the problem is detected, at the buyer's expense. The consignor will have the bull examined by a veterinarian, and will have 60 days to prove the bull a breeder. If the bull does not prove to be a breeder, the buyer will be entitled to a complete refund of the purchase price of the bull in question. Should the bull prove to be a breeder, he will be returned to the buyer at the consignor's expense, and the matter will be considered closed. In the case of losses, the consignor's will only be responsible for the original purchase price of the animal. We assume no liability, legal or otherwise, to make any compensation to the buyer.

THE CONSIGNORS: Reserve the right to inherd semen use on any bull sold in the sale, with semen drawn at the consignor's expense, and the buyer's convenience.

WINTERING: Buyers choosing to have their bulls come back to the consignors will be charged \$5.00 per day beginning April 28th. Bulls remaining in the wintering program must be insured by the purchaser. If they are not insured, they cannot stay.

DELIVERY: The consignors will offer free delivery on all bulls up to a 200km radius, additional mileage rates will apply after 200kms at cost. If bulls are picked up on sale day, the buyer will receive a \$100.00 credit off their purchase.

USA DELIVERY: We are happy to assist with the paperwork and getting your purchases across the border. Sellers are responsible for health papers & transportation costs from seller's yard to the nearest border port or nearby location up to a cost of \$400.00. Buyer covers Brokerage, Other Associated Fees, and Transportation costs from the nearest border port or nearby location to their destination of choice.

VOLUME DISCOUNT: Purchase 3 bulls to receive a 3% discount, 4 bulls for 4%, and 5 bulls or more for 5%.

SIGHT UNSEEN PURCHASES: If you are unable to attend the sale day, we would be happy to discuss your program to help select to most suitable bull for your herd. 100% Satisfaction Guaranteed.

TERMS: The terms of the sale are cash or cheque, payable at par at the sales location, unless satisfactory credit or invoicing arrangements have been made prior to the sale. The right of property shall not pass until settlement has been made. US exchange rate will be made prior to the sale.

ANNOUNCEMENTS: from the auctioneer will take precedence over any material printed in this catalogue.

REGISTRATION & TRANSFER: A registration certificate of the animal will be duly transferred to the purchaser.

LIABILITY: The owners, their employees, sale staff, and representatives accept no liability for accidents that may occur. Persons who attend do so at their own risk.
