

Ty, Sidney & Ellie

WELCOME FROM Schwan Angus

I would like to invite you to our 4th Annual Bull Sale held at our ranch in Waldeck, SK. Thanks to all our past, present and future customers for your support and confidence in our program. I truly love the cattle industry and the ability to raise my family in this lifestyle.

At Schwan Angus Ranch we have focused hard on building a strong cow herd; it has never been about numbers but rather quality. Our females need to be fertile – breeding back within two cycles, with great feet, udders, and disposition. The bull pen is no different. The bulls need to have growth, nuts, great feet, deep ribbed and muscle. To the customer more than ever you can expect high-quality, functional cattle.

We are excited about the bulls we have on offer. Once again we have tried to bring you our very best bulls. You will noticed we use a lot of our own bulls which I feel is a testament to our program plus some time tested legendary sires like SAV America, SAV Harvestor, Brooking Gold Coin, Coleman Bravo and McCumber Tribute. Our two walking herd sires Schwan Journeyman 911 and Brooking Prime Commodity 7019 have served us very well leaving awesome females and bulls that have been very admired by past customers. This set of bulls is deep and very consistent, resulting from our embryo program, strategic Al mating and the strong walking bulls. There is both a mix of performance and heifer bulls. You will not be disappointed.

I love talking to people that share the same passion for the cattle industry as I do. Please feel free to stop by anytime to have a look at the bulls. If you are unable to attend give me a call or any of the sales staff as they will be happy to help you. Thanks for your interest and I hope you are able to join us sale day either in person or on DLMS.

WELCOME FROM Bohrson Marketing

Welcome to the 4th annual Schwan Angus Ranch Bull Sale. Ty and family do a great job in sourcing and raising some of the most exciting and elite genetics in the Angus breed and this is your chance to step into many of these great herd bulls on March 24th. On behalf of the entire Schwan family and all of at Bohrson Marketing, please accept this as your personal invitation to the ranch for their sale.

The 2024 sale bulls are extremely rich in pedigree depth and are the most uniform set of bulls they have offered for sale. The walking bull battery, Embryo Transplant and Artifical Insemintaion breeding on these bulls is as good as anywhere you'll find and you will notice many recognizable and proven genetics as you study the paperwork. What's more important than that is the quality in these cattle. These bulls are deep ribbed, stout muscled and super attractive with a great Angus look to them. The amount of performance and calving ease orientated bulls makes this a one stop shop for all your buying needs. You can be guaranteed each bull is backed by the type of female you want your herd sire out of as they have done a bang up job building their program around sound, functional, big volume females with a great emphasis on foot and udder quality along with longevity.

Be sure to take a trip out to the farm anytime prior to sale day to tour the bulls with Ty. He is a knowledgeable cattleman that would be proud to show you his program. Make sure to come back on sale day to enjoy some great hospitality and take in this exciting set of bulls. If any of us listed from BMS can answer any of your questions or help in your selection of new bulls, feel free to utilize our free order buying and consultation services. We look forward to visiting with you about the Schwan Angus Ranch bull pen.

Best regards,

The Bohrson Marketing Team

BREEDER GUARANTEE

Schwan Angus Ranch guarantees our bulls to be sound, fertile and reproductive in accordance with the rules and regulations of the Canadian Angus Assoc. for the first breeding season. Claims must be made by September 1st of year of purchase. If a problem occurs, please contact Ty immediately and we will provide a suitable replacement, if available, or a sale credit. This guarantee does not cover death, injury or mismanagement.

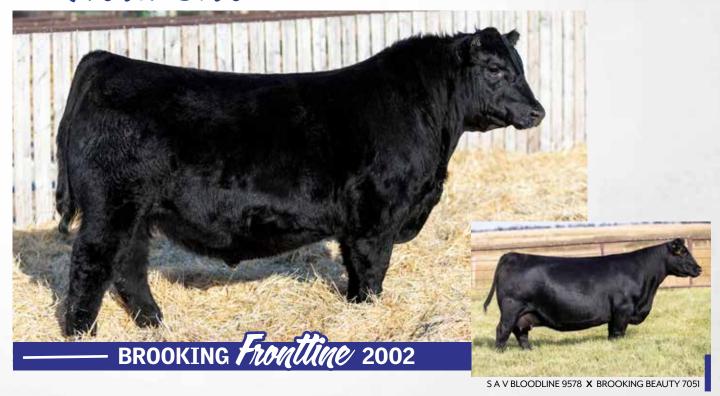

IN-HERD SEMEN

Schwan Angus Ranch retains the right to collect semen for in-herd use on any bull in the sale at their expense and buyers convenience.

DELIVERY

Free delivery to central points near your ranch in Alberta, Saskatchewan and Manitoba. All other points will be cost shared. A discount of \$100 will be provided for purchases hauled home on sale day.

BROOKING ROSE 201

E A ROSE 918 MIF

Schwan Journeyman 911G is a front pasture breeding piece that you could admire over and over again. He is the product of a flush we purchased at the legendary Motive Event on Brooking Rose 201. Journeyman has far past our expectations in term of overall mass, easy fleshing, sound structure with a rare attractive look. A herd sire of this caliber you don't come by very often that combines -2.6 calving ease while maintaining growth with an abundance of muscle. His first progeny are exciting with added performance and muscle in the bulls and an attractive look with a beautiful udder

in his females. His Dam was a favorite at Brooking Angus Ranch that exemplifies all the physical qualities they strive to produce. It was an easy choice to cross her with, the now deceased, S A V Renovation 6822 to create this flawless pedigree.

We have used Journeyman on our cows and have 6 bulls sired by him on offer. As you will see he stamps them with muscle, structure, perfect foot and an attractive look.

Lights out! This bull is the real deal. Journeyman 911 stamps all his calves but I think this is the closest to him that we have ever raised. Schwan Journeyman 3026 is impressive from any angle with style, substance and exceptional shape.

We moved his dam to the donor pen this spring and are we ever excited that we did. JL Lady 5196 carries herself proud with a beautiful udder, great foot, easy fleshing, angular in her design and just like the lady cow family works with anything you cross her with.

Many people that have toured through the pen have really admired this bull. Herd Bull candidate! Recommended for heifers & cows.
