

RIVERFRONT

Angus Ranch

7th **ANNUAL BULL SALE**
MARCH 29 2024
At the Ranch • Medicine Hat, AB • 1 pm

WELCOME

from *Riverfront Angus Ranch*

On behalf of our family, Rachele and I would like to invite and welcome everyone to our 7th Annual Bull Sale on March 29, 2024. It is once again located at the ranch, 5 miles west of Medicine Hat, AB. We look forward to seeing and visiting with everyone on sale day, but as always encourage people to come out and look at the cattle beforehand. We appreciate people taking the time to come out and see what things all are about. We would be proud to show you around and answer any questions you may have. There is a no better industry that we would want to be a part of, and lots of that has to do with the people that are involved. Not only do we feel we have the best customers, we are fortunate to have a great sale staff as well. The Bohrsen Marketing team is as professional and knowledgeable as it gets and we are excited to once again have them back. If you are unable to make the sale or have questions about the cattle, feel free to contact anyone of them as well. The sale will once again be broadcasted on DLMS for those interested in that route.

I hate to say it but it definitely is true this year that this would be our best and most consistent set of bulls we have put together. There are a couple bigger sire groups that provide uniformity and ability to put half brothers together. This would be the first year of the Emerald Sire group and we are really excited about him and the future with him in. We are really excited about the females he produces, but are overwhelmed with the quality of the bulls. They are super stylish, heavy, hairy, and the right kind. The Triumph and Three Rivers bulls are also very good as a group and I think they will serve our customers well. There is a big focus on phenotype in these cattle, foot quality, and the ability to last. In our eyes, they are not overfed and are ready to go out and work.

It has been a little bit of a whirlwind year, with many areas desperate for moisture. There has been many stories of feed and grass shortages, with many cow numbers being reduced. On the other hand, Calves were at a premium this fall, and the market seems to be holding on and looks good for the next few years. Obviously, Medicine Hat was in the heart of the drought, with very little moisture all spring and summer, and above average temps, making it really tough on pasture conditions. With that being said, our cows performed well, with weaning weights right up there and our preg check results being as good as they ever have. These cattle had it tough, having to travel rough terrain for grass and water.

We encourage everyone to come out anytime between now and sale to have a look at the bulls and their dams. We are located just 5 miles west of Medicine Hat and are easy to get to you. We would love to have a visit. The videos will be posted on DLMS before the sale and encourage people to view them. We will do everything in our power to make it a good experience for you and will stand behind these bulls 100%. We would like to thank all of past customers and friends that have helped us get to this point. It is truly rewarding to get to work with some of the best people in the industry and have so many repeat customers return each year.

Any questions, please feel free to reach out.

Ashton and Rachele

WELCOME

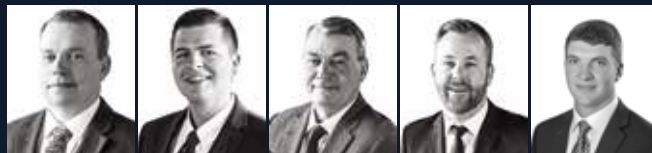

from *Bohrson Marketing*

High quality cattle backed by even better people is what comes to mind when we think about Riverfront Angus. The Robertson family are some of the very best people we have the honor to work with each and every season. They are truly some of the most genuine, hard working and dedicated people in the industry and if you've never met them, we encourage you to as we know you'll agree.

We are loaded for bear in the 2024 sale offering and it truly is an exceptional pen of bulls with so much quality throughout. They are owners on the breed leading Emerald bull who does so much right and is the hottest thing going as the sons are incredible and the daughters are to die for. The Riverfront set of Emeralds are worth the drive to check out because they are the real deal and backed behind a cow herd that is one of the very best in the industry ... big statement, sure, but once you see them you'll understand. This bull pen is stacked with quality as the Triumph bulls are impressive and absolutely clicked with this cowherd and are among the very best we have seen this spring with so much quality throughout. The Three Rivers offer up power and payweight in a different twist of pedigree and have been utilized with success throughout the industry. Future 8055, Impulse and Milestone are among the walking bulls at Riverfront and what a stacked group of bull power they have obtained. We are excited about this set of bulls for a good reason and it is one of the most memorable and impressive sets of bulls we viewed in 2024.

This family program is an ideal place to source your next herd bull because the cattle are deep in quality and the Robertson's will fully stand behind them. We encourage you to visit with them on this group of bulls and don't forget about the impressive commercial heifers also on offer as they are extremely nice. Ourselves at BMS would be excited to work with you if you can't attend and represent your needs in a professional manner. We do hope you can make it sale day as the cattle will impress, the hospitality is great and the people behind Riverfront are the right kind to work with, see you on sale day!

Best Regards,
The Bohrsen Marketing Team

LUNCH

Lunch is provided before the sale at 1pm.

OWNERSHIP

Riverfront Angus Ranch will reserve the right to 1/3 semen interest in all bulls selling. Buyer has full possession and salvage value.

CATTLE INSPECTION

All bulls will carry an identity tag, tattoo and required CCIA button. Bulls will be available for inspection prior to the sale.

BREEDING GUARANTEE

All cattle are sold as sound and right and sell with a responsible breeders guarantee of satisfaction. In the unlikely event of a dispute, the regular Breeders Guarantee, standard with Canadian Angus Association, shall apply.

SALE LOCATION

5 miles west of Medicine Hat on HWY 523 (Holsom Road). Turn North on RR71 and head 1/2 mile. Sale Barn is located on west side of the road.

SIGHT UNSEEN GUARANTEE

In the event you are not able to make it to the sale, feel confident with a 100% satisfaction guarantee. If you are not happy, you don't own him.

INSURANCE

Ownership risk to purchaser commences when the Auctioneers hammer falls. Livestock Insurance is recommended, Riverfront assumes no responsibility for bulls returning to the ranch following the sale.

DELIVERY

Free delivery of bulls in western Canada. Bulls will be delivered in a reasonable time frame following the sale.

TERMS OF SALE

Terms are cash or cheque. No sale entries will be released until satisfaction settlement has been made. Registration papers will be supplied upon sale completion.

LIABILITY

All person who attend this sale do so at their own risk, and the owners and sale staff assume no liability, legal, or otherwise for property loss or for any accidents that may occur.

ANNOUNCEMENTS

Errors discovered in the catalogue will be corrected from the auction block at the beginning of the sale and such corrections will take precedence over printed material in this catalogue.

It is again a pleasure to be working with the progressive and hardworking folks at Riverfront Angus Ranch. Ashton and family take great pride in raising angus genetics and the quality of bulls on offer continues to increase every year. There is a very uniform group on offer for the 7th annual sale.

The bulls are slowly developed on a forage-based, total mixed ration that is balanced to maximize the bull's genetic potential and to promote lean muscle growth, enhancing the longevity of the bulls. It is important that rumen health stays a priority throughout every stage of the bull's development, therefore, the diet utilizes a chelated mineral package to enhance the bull's immunity and complement the bull's growth patterns as they develop. The Riverfront cowherd utilizes a chelated mineral package throughout the year which is essential to the overall health and longevity of the sale bulls on offer. The nutrition and development of the bulls along with the entire cow herd is continually being monitored to meet environmental and season conditions to complement the animal's overall health.

If you have any questions about the nutrition or sale bulls, please feel free to contact me.

Best of luck to the Riverfront Angus Ranch crew on sale day!

The lead off bull out of a really exciting group of Emerald Calves. We were fortunate to be a part of the Emerald group and think he will play a big role in our herd in the future. He stamps his calves with an extreme amount of phenotype, performance, and overall quality. The 921 Female is quickly rising to the top as one of our favorites. Her first calf was the lot 1 bull in our 2022 Bull Sale. Her 2nd calf is one of the top yearling heifers we have and was shown successfully this summer. 318 himself has as much look as any bull in the pen. He is deep bodied, thick made, and is very expressive in his muscle shape. A really exciting pedigree combining new and exciting genetics and also some of the most proven in recent years.

 BROOKING BEAUTY 6051 FLAG PRIMROSE 10540

The lot 2 bull would one that has had us excited for a long time. He was one of my favourites all summer long and finished near the top of the class in regards to performance. He posted one of the bigger weaning weights and has continued on since being on feed. Another bull stamped like his sire with added look and presence. 308 is the natural calf off our donor cow Brooking Primrose 4020. We couldn't be happier the job she did raising this guy @ 9 years old and bred back and calved early in January again this year. She is a big bodied cow, with a great udder and outstanding feet. Her first daughter was a highlight for us selling to KCH Cattle Co for \$26000. Another daughter looks to be a front runner for the kids to take out this summer.

MUSGRAVE BIG SKY
RIVERFRONT PRIME BEAUTY 612D
EBON HILL BEAUTY 472'13

Lot 3 is a real soggy made, big topped, big hipped, overall very solid bull. I think it would be hard to go wrong with a bull like this considering the real world qualities he possesses. He may be the thickest haired bull in the pen and stands solid on all 4 corners. He has only picked up gears since weaning and seems to be getting better and better every day. The dam is just as solid and quietly is getting it done. She had a feature bull last year selling to Code Ranches, and has a daughter who would be the dam to the good lot 21 bull. The grandam 472F was our absolute favourite cow we purchased from Ebon Hill Angus. She was a model cow and a future donor cow, however we lost her at a really young age, but managed to keep a couple of daughters that have done a great job. A Maternal Sister to 612 would have weaned off the heaviest heifer calf of the 2023 crop, which also was an Emerald.

329 would have about as stacked and proven pedigree as we have. The renowned Beauty cow family on both sides of the pedigree reads as maternal as it gets. The grandam on the bottom side would be a full sib to the famous Brooking Beauty 333 who has sold over a million dollars in progeny and continues to gain steam. A maternal sister to 712 will enter the donor pen this year and we are very excited about her future. These Emerald sons are so consistent, and all have such character and herd bull presence. Lot 4 will be another to have marked down as he has what it takes to put a pen of heavy steers together and a replacement pen 2nd to none.

When we acquired Emerald Semen we bred almost everything we could, and are sure glad we did. The lot 5 bull would come from one of the strongest producing cow families we have – The Annie K's. 015 is a young cow quickly rising to the top of our program. Her first calf sold as the lot 1 and high selling bull last year to Rafter T Ranches. It looks promising when a 3 year old raises feature bulls in her first 2 tries. A maternal sister entered the donor pen last year and produced probably the best female to ever walk the pastures here. 335 has a real desirable birthweight, above average performance, and back by as consistent cow family as we have.

BROOKING EMERALD 9179 **BROOKING ROYAL LASS 313**
 BROOKING BEAUTY 6051 WERNER ROYAL LASS 4218

If you are looking for a maternally charged bull, 305 might just fit the bill. Lot 10 is the natural calf off our donor cow Brooking Royal Lass 313. Unfortunately, she was injured this summer, and as a result 305 was left on his own. We did manage to flush her to Emerald in the spring and she gave us a bunch of embryos that are hitting the ground right now. There probably hasn't been another cow in our herd that has produced so many good daughters. She was designated a Premier Dam with Canadian Angus. She sold one Daughter to Brooking Angus Ranch and her only Bull Calf sold to Joe Waldner at Swift Current. The udder quality and fertility should be 2nd to none. 305 has really come on this winter and will be one to watch for come sale day.

LAWSON'S CHLOE C815 RIVERFRONT ANNIE K 808F

The lot 13 bull is a bull we feel is pretty special. We were excited when he was born, and he has not disappointed since. What makes this bull so intriguing for us would be his dam. 119 is a female that we feel would be the best we have raised. Unfortunately, the plans we had going forward ended abruptly, when we lost her suddenly this fall. She was a model cow in our eyes, in regards to body shape, udder quality, and foot shape. She was showed successfully the last couple years, and always received positive comments from other exhibitors. Lot 13 would be her first and only calf. 330 or as he is known around here "Oakland", is impressive in his own right. He has had from an early age a presence about him. He was the biggest spread bull we had, with a 76lb birthweight and posted our heaviest weaning weight. He is a moderate made bull, but is super deep, thick, and big topped. We love the big crest and amount of bone he has for a calving ease bull. We would like to incorporate this bull back into our program. Terms to be announced.

COLEMAN TRIUMPH 9145 | **RIVERFRONT TIBBIE 143J**
 LAWSONS CHLOE C815 | HF TIBBIE 61F

This would be our first year of the Triumph calves, and we have been impressed by the overall group. They have provided more performance than we were expecting, and the bulls are all good footed, rugged, no holes type. 316 is out of a first calf heifer who did an outstanding job on her first try. 143 is a really pretty made female with an excellent udder, who turned around and calved first cycle again after putting her fair share into her first calf.

BROOKING FIREBRAND 6068
RIVERFRONT BEAUTY 123J
EBON HILL BEAUTY 7114

Lot 16 is a calving ease option with nice growth numbers. His Firebrand 2 year old dam is heavy milking, deep ribbed, and square made. Another example of a young cow raising a heavy calf and breeding back for the first cycle. Greeley showed the 123 cow and had a really good run. 320 will be in demand with a nice birthweight, great look, and backed by a good up and coming young cow.

ELLINGSON THREE RIVERS 8062 | **BROOKING INA 8101**
 EA EMBLYNETTE 6279 | BROOKING INA 4022

Lot 19 leads of a powerful set of Three Rivers calves. A bull we sampled to provide some performance and pounds. As a sire group, they are good footed, stout made, and long sided. I think these bulls will have some friends sale day as they grab your attention when looking through the bulls. The 307 calf was early maturing and was one always noticed through the summer. I love the head and front end on this bull. He is very well balanced and one of the heavier bulls in the pen. The Bank Note daughters are known for the foot quality, capacity, and have made really nice cows.

ELLINGSON THREE RIVERS 8062 **RIVERFRONT BEAUTY 910G**
 EA EMBLYNETTE 6279 RIVERFRONT PRIME BEAUTY 612D

Here's a neat bull that has really come on since weaning. An Interesting pedigree with Stunner and Big Sky on the bottom side. 910 would be a maternal sister to the feature Lot 3. She is a really unique cow who is really moderate made, but is made with lots of shape and thickness. Her first 2 calves have both sold through this sale to WB Cattle Co and Lawrence and Linda Wilson. She once again calved first cycle and hopefully will put her 4th bull in row through the sale next year. If you are looking to bring your cow size down a bit but still keep the pounds on, this guy would be a good option.

371 is something a little different for us. A few years back we seen a pair of bulls win the Oyen Beef Expo Pen Show. They happened to be 1/2 blood Sim Angus calves. We ended purchasing our pick of those 2 bulls for use on our commercial cows. With our commercial cow numbers depleting and after his use the last few years we decided to run him with some registered cows to clean up. As a result we have this March calf who's as solid as any. Hes hairy, big boned, big topped, and has a lot of shape to him for such a young calf. His dam is has put 2 other bulls through the sale that have sold well to Erwin Schlenker Farms and Buster and Caleb Klassen.
