BLACK ANGUS 32-67
SIMMENTALS 68-85

welcome from **W SUNRISE**

It is a great privilege to welcome all of you to our 8th annual W Sunrise bull sale. With out the great support of you, none of this would be possible. It is exciting to work with some of the best commercial and purebred ranches in Canada and the United States. Staying true to what we believe in we feel this set of bulls represent what we set out to achieve. Easy doing, attractive cattle with the females the biggest focus. At W Sunrise we have always put the greatest emphasis on the maternal side of the cattle industry. We are constantly culling and searching for the next greatest herd bull or female to take our program and yours to the next level. All efforts are exhausted on finding what we feel is the best the breed has to offer. Our cattle are constantly challenged with weather and environment and not only have to maintain but have to thrive. Staying true to the maternal side of the industry we are extremely excited to introduce Simmental to our existing program. We had a rare opportunity to purchase two outstanding herds from two great families. Its exciting to work with the Adams family at Ter-Ron and the Snider family as we introduce the Simmental bred to this ranch. They are selected and managed under the exact same criteria as the Angus. The main focus is and always will be the females. We have a small selection of Simmental bulls this year and next year we will have an even bigger more impressive set. As we were able to purchase some new exciting herd bulls. Once again, we have fed our bulls under the watchful eye

of Matt Criddle and Bullseye Nutrition. These bulls are fed to express muscle, performance and phenotype without being burnt out. Longevity has always been our main focus while feeding these bulls.

We would also like to say thanks to Emma Falconer for helping all summer and looking after the summer sale females and to Sam Runions for stepping in this winter to help calve and feed.

If you get a chance stop by the ranch anytime and we would be happy to tour you threw this set of bulls. We would also be excited to spend a little extra time to show you the exceptional set of cows that raise them. We look forward to seeing everyone at the ranch before the sale, or visiting on the phone before hand and of course on sale day.

Sincerely
Tanner, Megan, Paige and Quinn

Terms & Conditions

In-herd Semen W Sunrise retains the right for in herd semen use on all sale bulls. All sale bulls in the catalog are sire verified.

EPD's Printed EPD's are the current CCA EPDs at publication time.

Breeder Guarantee All bulls have been registered, unless indicated in the catalog, and papers will be transferred to the new owner. All bulls sold are guaranteed to the standard breed association guarantees. In no event shall the seller be responsible for reimbursing more than the purchase price.

Sight Unseen We would love to have you with us; however we do understand how busy things can get around the ranch. Our sight unseen program is simple. Call Scott Bohrson or Tanner Walgenbach in advance and we will discuss your needs, cowherd, goals, budget and which bull or bulls work best for you.

Delivery FREE DELIVERY to central points near your ranch in Alberta, Saskatchewan and British Columbia. All other points will be cost shared. Delivered at the seller's earliest convenience after arrangements to do so. We will take \$200 off the price of the bulls if taken home sale day. All bulls that are returned to the feedlot will be delivered by April 20 for the convenience of the feedlot.

Loading Out Loading will not be allowed until the conclusion of the sale.

Insurance All bulls returning to the seller must be insured.

Liabilities All persons attend the sale at their own risk. The sellers and/or sales staff assume no liability legal or otherwise, for accidents that occur in, on or about the premises.

Semen Test All bulls will be semen tested before sale day.

Terms The terms of the sale are cash or cheque. All monies are in Canadian funds. The right of property shall not pass until after settlement has been made. All settlements must be made with the clerk before any cattle will be released.

Disputes Every animal sells to the highest bidder and in the case of disputes, the auctioneer's decision will be final. Announcements from the auction block take precedence over the printed matter in the catalog.

Viewing Bulls are at home at the ranch, stop by anytime prior to the sale to view bulls and dams. Bulls will be trucked to town on Sunday April 9th where they can be viewed up until sale time.

Health Bulls and the entire ranch are on a full herd health program with Zoetis.

welcome

from **BOHRSON MARKETING**

WSunrise is one of the top purebred programs going in the land and one that sure sets a precedent on how to raise high quality cattle that appeal to the commercial cattleman while doing an incredible job of standing behind their product. The Walgenbach's are a dedicated and hardworking family that put their best foot forward every day and strive to produce elite genetics that work for the Canadian cattle industry. They are truly some of the most genuine, salt of the earth people we have the honor to work with up and down the road and highly recommend you to consider your next purchase to come from these good people.

It is one thing to say it and another to stay disciplined and work hard on it but as the years go on we continually hear about udder and foot quality and rightfully so. W Sunrise would have one of the strongest and deepest sets of cattle on their ranch that exemplify strong feet, very good udders and are structurally correct to ensure longevity and profitability. The set of Angus are equally as strong on the reds and the blacks with this always being a feature set to sell every spring. The Walgenbach spare no expense sourcing the very best herd bulls so you can get the top genetics in this sale and there are some very new and exciting sire groups on offer in 2024 that will surely impress. New to the sale will be a select group of Simmental bulls that will compliment the Angus offering as they are equally good footed, strong udder and sound cowherd that they acquired. They bought the entire cow herds from Ter-Ron and Snider's and what a set they have acquired to build off of.

We have a great respect for the Walgenbach family as they are in tune with their customers goals and produce a product to suit their needs and move the cattle industry forward. This no non-sense cow herd is highly productive and the type you want your next herd bull from. Our BMS Team is very familiar with this program and feel the 2024 offering is as deep as ever and we encourage you to visit with the Walgenbach on this impressive set. If you can't make it sale day, feel free to contact any of us at BMS to represent your needs in a professional manner as we will certainly go through them detailed to ensure you get the right bull for your program. See you in Fort McLeod on Wednesday, April 10 as we wrap up a great sale season with one of the very highlight sales of the spring.

Red W Sunrise Charlie 358L is among if not arguably the most exciting red bull we have ever raised. This young superstar does so many things correct. He is perfect in his structure and phenotype, stands on an exceptional big dark foot, carries big bone and mass, yet holds it all together in a hairy, attractive, dark red presence. Needless to say, we are very excited about this bull and his future. We are excited to use him in our own program. It's rare to see a red bull with this much power and performance built in such an attractive phenotype. To check off all the boxes he comes from an ideal Angus cow with a beautiful udder and a highly production track record.

Red W Sunrise Charlie 409L has been one of our favorite calves all year. He has had a big-time herd bull presence his whole life. On the move he gets his head up high with lots of charisma like he knows he is special. He is full of muscle and masculinity, and has an unbelievable look to him, not to mention he comes from an extraordinary female, she is our favorite red cow on the entire ranch. She is awesome footed, has an absolute gorgeous udder in a highly attractive ideal angus look. With this combination the future is bright.

311L is an eye-catching son of Charlie, one of the first bulls noticed in the entire pen by everyone that stops. He has a sharp herd bull presence to him. 311L has a great attractive look that is extended into his front end, deep bodied, level hiped and hairy. This guy moves extremely well threw the pen and carries himself very well. Sound made and backed by an unbelievable cow family. His maternal granddam is the dam of Lot 2. His mom is exactly what you would expect coming from 26E. She has the same great phenotype, perfect udder and stands on a tremendous foot. This exciting herd bull ties together a lot of real world traits that will do this industry good.

These next five lots are the successful result of flushing Executive 4J to our outstanding Brooking Annie K 5106 cow. These sons possess a lot of the same characteristics of their exciting sire. They are up headed, nice skulled, attractive, hairy, powerful made calving ease herd bulls. They have an absolute stalked pedigree with some of the best cows and sires in the industry backing them up. The maternal value in this sire group is unmatched. The daughters behind these five full brothers will be a mainstay in any progressive cattle herd.
