178 Railway Ave E or Highway 18 E
GPS Location
N 49.25.19.7 Lat. 107.03.57.2 Long.

PRE-SALE VIEWING

Bulls available for viewing at Mankota Stockmen's Weigh Co, Thursday, March 27th until sale time. Bulls are available for viewing anytime prior to that at the ranch located 10 miles south of Val Marie, SK.

DELIVERY

Free delivery from the yards to a 300 mile radius for purchases of \$5000 and over. Bulls will be delivered starting after the sale. It is recommended to insure all bulls returning to the ranch.

SIGHT UNSEEN

We would love to have you with us: however we do understand how busy things can get around the ranch. Our sight unseen program is simple. Call Colt in advance and we will discuss your needs, cowherd, goals, budget and which bull or bulls will work best for you. Many of our bulls have been marketed this way in the past.

SEMEN COLLECTION

Cowtrax retains 1/3 Revenue Sharing semen interest in all the bulls selling unless otherwise stated. Cowtrax reserves the right to collect unlimited semen off any bull in the sale at their expense and the buyers convenience. Any retained semen interests are negotiable please call if you wish to discuss.

U.S.A. BUYERS

We welcome U.S. customers and will handle necessary health, export papers and delivery within a 300 mile radius of the yards at a \$200 cost. U.S. funds will be accepted at the Rate of Exchange current on sale day.

USA EXCHANGE

For our American friends the current exchange rate is **\$750 US buys \$1000 CDN**. An up-to-date exchange rate will be announced on sale day.

TERMS & CONDITIONS

Bulls will sell under the standard terms & conditions put forward from the Canadian Angus Association. These are available upon request.

Welcome from **COWTRAX**

Welcome to the 11th Annual Grasslands Angus Bull & Female Sale hosted by ourselves at Cowtrax and our good friends and partners Holbrook Angus & Hanson Angus! As the cliché goes it is our best offering yet but I feel when you study the catalog of each consignor you will see it truly is!

First of all I would like to thank the countless people that pitch in day in and day out to make this passion for the purebred angus seedstock business possible for us. It takes many helping hands to get the great dams to these bulls bred, the calves their first suck all the way til they make their way to their forever homes come March. Without divulging any names we sincerely appreciate each helping hand that is lent to us.

Boy what an exciting time to be in the cattle industry. Never before have our cattle been worth as much as they are today and is the quality product us purebred and commercial cattlemen produce been more important! Our goal stays the same to progressively provide each calf crop more high in quality, more consistent, more maternally driven and fault free. Bulls that are very sound with high quality feet, thick tops, deep bellies and big hips, backed by extremely good females that have pedigrees filled with proven cows.

The offering is highlighted by our largest group of calving ease bulls we have ever had as they are always in high demand. Led by the new \$80,000 HF Reverence 23K, HF Alcatraz 60F, U-2 Coalition 206C and FF Charger F17. As well as many rugged, powerful cow bulls sired by HF Mastermind 98H, Ellingson Profound 8155, Remitall F Historic 323H and Cowtrax Cast Away 11F. Sprinkled in are some real interesting genetic pieces from our ET program and some special semen we have invested in like SAV Density, SAV Scale House, BC Robust and Hoover No Doubt. I think no matter what your needs are we have a bull that will fit your needs! Most of all I need to thank our many loyal customers who have become great friends along the way. As well as the new customers and friends we will make. It is a pleasure to service your bull battery needs and help with the success of your herd.

If you have any questions about the offering please do not hesitate to reach out to me with any questions. I love visiting about the cattle and helping find the bull or female that best suits your needs. We invite you to the ranch anytime prior to the sale for a tour and hope to see you March 29th in Mankota, SK!

HF REVERENCE 23K - 2263414

REVERENCE

HF Reverence 23K was the \$80,000 high selling bull from the 2023 Hamilton Farms Bull Sale purchased by Bar-E-L Angus and Cowtrax Cattle Co. He is a calving ease bull with added growth, muscle shape and large scrotal. He backs this up on paper with a BW EPD of 0 and a YW of 125. His dam is a 13 year old tanky female with a beautiful udder. She is also the dam of our top donor female HF Echo 314F. The Sitz Profound daughters have picturesque udders and we predict the Reverence daughters will be even better! The first sons are creating a huge buzz within the industry and rightly so. If you want powerful herd bulls that calve very easy and are backed by high quality maternal lineage step into a Reverence!

BW	WW	YW	MILK	CE	MCE	CWT
0	61	125	25	8	0	53

HF ALCATRAZ 60F - 2043806

ALCATRAZ

We purchased Alcatraz from Hamilton Farms in 2019 at a Canadian record for \$200,000 for ½ interest with our friends at Bar-E-L Angus. Alcatraz checks all the boxes. He is so sound with a perfect foot, powerful, lots of muscle shape, hair and a very docile temperament. He has also become our go to heifer bull that won't sacrifice pounds in the fall! His daughters are raising some of our very best calves which has earned him his final mark of approval. Alcatraz was sold this past fall to Lindskov's LT Ranch in South Dakota so sons will be limited in the future, collect them while you can, you'll be happy you did!

BW	WW	YW	MILK	CE	MCE	CWT
0.6	51	100	44	7	5	40

COWTRAX CAST AWAY 11F - 2020012

CAST AWAY

Cast Away was our 2019 High Selling bull for \$15,000 to MFD Land & Cattle. He is as impressive as we have ever raised, super stout, easy fleshing, docile and sound. His progeny have been called "belly draggers" by many, he adds hair, depth and spring of rib to anything he is mated to. His daughters are doing a great job raising calves in some very tough conditions the last few years. Whether you need soggy steers or easy doing females a Cast Away will suit your needs!

BW	WW	YW	MILK	CE	MCE	CWT
5.6	66	106	15	-9	5	37

HF MASTERMIND 98H - 2151939

MASTERMIND

Mastermind was our selection of the first set of Showman 338 sons for \$30,000 with Bar-E-Langus. Mainly because of the excellent females he comes from, his dam Tibbie 14D is absolutely massive with a perfect udder, grand dam Tibbie 77Z is apart of 3 flush sisters who have sent multiple bulls into purebred operations, and great grand dam Tibbie 100M was a Farmfair and Agribition Champion! Mastermind is a power bull with a big top and huge hip, with added heel depth on his foot. His sons are some of the biggest, stoutest bulls we have ever raised yet most with a mid range birth weight. His daughters were very successful on their first chance at motherhood, they have tight tidy udders with good suspension and have raised some real features!

BW	WW	YW	MILK	CE	MCE	CWT
3.4	77	139	24	4	5	55

REMITALL F HISTORIC 323H - 2149444

HISTORIC

Historic is a powerhouse, heavy muscled, with extra mass and substance, with exceptional feet. Richard toured us through the cows and 3 that are found at the forefront of his pedigree were my favorites that day. His dam Tibbie 14F was beautiful as you can make them extra length, femininity, then we saw his grand dam, Wow she was a tank, both with perfect udders. His sire Renown 312F was my pick the year he sold, then we saw his mother who was great again. With his kind of power backed by generations of excellent females it was a no brainer he is the kind we needed. His first sons are just what we were hoping for, very stout, good footed, fault free cattle.

BW	WW	YW	MILK	CE	MCE	CWT
2.4	61	114	28	4	3	42

FF CHARGER F17 - 2182174

CHARGER

Charger F17 was our choice from Flesh Angus, MT in 2019 as the top calving ease bull to sell. He is a son of the calving ease specialist Capitalist 316 and his mothers pedigree includes low birth, high maternal sires Connealy Thunder and Leachman Right Time. When you talk about balance in bull Charger comes to mind, he is very hard to fault. He stands on great feet with extra heel depth, moves effortlessly, has extra length and look with adequate middle and muscle. He consistently produces low birthed progeny suitable for your heifers. Like expected his daughters are impressive in their udder quality with perfect teat placement and teat size.

BW	WW	YW	MILK	CE	MCE	CWT
-1.3	49	90	30	12	15	51

ELLINGSON PROFOUND 8155 - 2087909

PROFOUND

We used Ellingson Profound as an outcross performance sire to add power, muscling, thickness and pounds. Boy did he hit the nail on the head and exceed expectations. The Profound calves are good from day one, they are the earliest maturing cattle we have ever been involved with. They are very masculine and wean off as the heaviest calves, yet they level out at yearling time and stay at a nice frame size that we like. We only have a few daughters but they look like they will be long lasting females that will raise the good ones!

BW	WW	YW	MILK	CE	MCE	CWT
4.1	88	140	7	2	9	72

U-2 COALITION 206C - 1837798

COALITION

Coalition is one of the most popular calving ease bulls in recent time and excels at everything we look for in a good beef bull for our environment. They are born light, grow well, are very stout and have exceptional feet. Sired by Syndicate who is an outstanding female maker and being out of one of the best females in the land Erelite 109Z who was a \$140,000 high seller in the U2 dispersal. If you want sound, functional, high quality calving ease bulls that give you a top quality product in the fall and leave you with some outstanding females check out the Coalitions! We will have many more sons and grandsons in the next couple years!

Sleep all night calving ease! This guy was born a little bit early from his due date but nonetheless comes from females who typically lower BW yet wean a high quality product. His dam would be a maternal sister to the featured Lot 73M bull who was a part of our Grand Champion Pen of 3 Angus Bulls at Agribition!

Time tested genetics that are proven to thrive in the harsh environments our cattle are run in. Alcatraz, Ambush & Pioneer have become household names in our country for their no nonsense kind, high quality feet, medium birth, stout, thick and deep! That sums up 12M who also has great angus character in his head, thickness over his top and gentle disposition. A bull that will work well calving the heifers but would also work on your cows!

Cortez 15M is a burly made, stout rascal that bulges with muscle and stands on a perfect foot. A star studded pedigree with Coalition, Alcatraz and the Erica 7Z cow family that has raised multiple donor females and sale feature bulls. A full sister to his dam, Erica 45H would be our favorite Alcatraz daughter we own who we have been flushing and also used a son on our own heifers last year. Calving ease, balanced figures, good big weaning weight and backed by an outstanding cow family!

FULL SIB TO DAM

GRANDDAM

Big Time Sale Feature! Riggs 16M is a powerhouse! Not big in frame but extremely long, lots of base width and full of red meat and excellent feet. One of the top weaning calves but also has gained really well on feed being the heaviest bull in the pen when we weighed in December. His pedigree is outcross to most modern genetics yet it is one that is extremely proven. BC Robust has slowly become one of the most popular bulls in the breed. His dam Socialite 7163E or "Sassy" was purchased by Poplar Meadows Angus as the "Pick of the Merit Heifer Calves". We fell in love with Sassy when she was Reserve Champion female in Brandon as a bred, a high volume female, tons of middle yet beautiful front and the next year we purchased half of her. The Granddam would be a maternal sister to the 2024 Grand Champion Angus Female, Merit Socialite 1028J. His flush sister looks great, imagine the daughters he will produce! Flush brother sells as Lot 34M.

I really enjoy building a pedigree stocked full of great females and great sires. When it comes to life in a package as high quality as Stoker 20M, his flush brother Skoal 50M and their flush sister Echo 9M it is very rewarding! His sire SAV Scale House combines Sitz Upward, Leachman Right Time and Blackcap May 1416, arguably the best full sister to SAV Resource and Renown! On the bottom our top donor, the Syndicate daughter, Echo 314F has been the best producing female we have ever owned. Stoker 20M is ripped with muscle from end to end, large crest, yet his sister is ultra feminine and wide hipped. If the bulls look like bulls the females will look like females!

From day 1 you know these Echo calves are going to be good. That was just the case with Pecos 27M who was a part of our Grand Champion Pen of 3 Angus Bulls. He was a lead bull in that group that catches your eye with his sweeping rib shape, huge hip, stylish look, and balanced appearance. A flush brother was also a part of our show bulls the previous year selected to be used in the Sandy Bar and Valley Blossom herds. Echo 314F now has 28 progeny on the ground, highlighted by a \$16,000 lead off bull to Merit Cattle Co last year. If you want calves that grow early, provide added power and shape and create females that stay medium in size yet full of capacity check out Pecos!

The lone No Doubt x Echo 314F son in the sale this year but he's a standout! Thick and powerful with that herd bull look of crest and wooly hair. Nile 28M's EPD's predict he will add Weaning Weight, Yearling Weight, Scrotal Size and Carcass traits. There is 4 flush sisters to him, 3 that calved this year and they are excellent power females, good mothers. Another maternal sister that is really getting it done is the dam to Feature Lot 40M. Added stretch, power and growth in this bull! Maternal brothers sell as Lots 20M, 27M, 50M!

Fan Favourite! Delta 40M combines SAV Density with a Mastermind x Echo 314F, 2 year old female creates a great balance of extremely high quality maternal excellence with muscle shape and body dimension to make great progeny of both sexes. We really admire the added shape he has for a Density, the bottom side of the pedigree typically adds scrotal and he stands on a real solid foot. His dam is a high octane, extremely powerful, sweet uddered female who looks to follow her dam into the donor pen very soon! A full brother to Echo 13K was the \$16,000 Milwaukee 153L to Merit Cattle Co who was Champion Yearling Bull in Brandon. Also a full sister to her resides at Pieschel Farms and her first calf was a \$25,000 4th high seller at Angus Collection last fall. Delta 40M is a bull we plan to draw some semen on and incorporate back into our herd as we think he has a world of potential!

Power Bull! This Profound son pounded the scale down in the fall and to no surprise as his flush brother was the heaviest weaning bull the year before and went on to sell to C&L Beasley in Alberta. Extremely deep bodied bull, very long spined, out of a cow we lost much too early in life. His dam was ideal in her make up, perfect foot and udder combined with overall mass of body and feminine look. Fortunately we flushed her once and got 20 embryos, 2 full sisters having their first calves this spring look amazing, them and the other 3 younger sisters will be a huge part of the future at Cowtrax!

Skoal 50M is one that has stopped me in my tracks ever since he was just a calf. Right from his powerful skull, crested neck, thick powerful made, with dense raw muscle shape and stands on a great foundation. At a young age he knew he was a bull prowling around with his head cocked and a deep bellow. The genetic combination is wildly high quality and very predictable with sires like Sitz Upward, Leachman Right Time and Blackcap May 1416, who is arguably the best full sister to SAV Resource and Renown. Then on the bottom add in the phenotypically flawless, long, stout yet feminine and perfect uddered HF Echo 314F makes it hard to beat! His flush sister is among our top 3 favourite replacement females and looks like she will follow in her dams footsteps to make a high quality production female. The EPD's are balanced, the phenotype is outstanding, the production record has no holes, study Skoal 50M carefully!

A bull who has a low birth EPD and weight but when you see him in person isn't your typical "little heifer bull". 55M has size, scale and dimension that has been evident in every son or daughter from the M'Brook Lass 56Z donor female! Unfortunately 56Z went down the road due to injury last fall at 12 years of age but she was a massive power female, with a big, correct hoof, and unmatched ability to add power and quality to sons, grand sons, daughters grand daughters and so on. Her biggest achievement was the \$15,500 Barstool 27G bull, but her most prolific daughter would be the dam to feature Lot 85M, check him out!

 BROOKING BLACK ANGEL 6024

The highest growth EPD bull in the entire offering but doesn't overshadow his quality phenotypically. Murdock is aptly named after my Papa Bill who we lost in May of 2023 and my partner on his dam Black Angel 8019. After watching her video Papa remarked "That's a deep sum BITC..." and she's been a great producer as well! Murdock in his own right is the most stylish bull in the entire offering with a snazzy front end, yet he is wide topped, round bellied and a good hindquarter. He was also a part of our Grand Champion Pen of Angus bulls @ CWA. He will add the style and presence as well as the pounds that get our commercial cattleman paid in the fall!

 YOUNG DALE GRACE 126Z
 K M RIGHT TIME 7302
 BREED CREEK M'BROOK LASS 305

Pueblo 85M anchored our Agritbition Grand Champion Pen of 3 Bulls where he was admired by many. He is the earliest maturing bull we have ever been around, truly a man among boys early on. Then went on to be our heaviest weaning bull calf at 830 lbs. Incredible mass, capacity and depth of rib while maintaining a powerful herd bull presence up through his front end. No surprise as his Believe dam would be the biggest bodied cow on the ranch, heavy milking, square uddered and had the high seller in 2023 to Lacombe Research Centre. She is also a full sister to \$15,500 Barstool 27G and \$10,500 Beer Buzz 56H to RT Ranch and Iron Plains Ag. Grand Dam instills power and potent production in every pedigree she is in and was a top donor for us. If you're ready to add 3 dimensional pounds in your bulls and heifers look no further than this relatively unique pedigreed power bull!

DAM

FULL SIB TO DAM

GRANDDAM

MATERNAL BROTHER

Revenue 86M ranks right near the top of the calving ease bulls in the sale. A thick made bull with proven calving ease on both sides of the pedigree. His 10 year old dam was purchased from Poplar Meadows after we studied the stellar production of the Lady cow family. 94B is a tanky, stout, perfect uddered Aviator female out of Lady 9339 who has registered 89 progeny to date with daughters averaging around \$10,000. A maternal sister was one of our best heifer calves in the 2023 calf crop and sold in the Angus Collection sale for \$10,000.

Marquis is a big bodied, power bull, that is perfect in his lines, correct and pleasing to look at from every angle. His Blackbird dam's production record has no holes, she has raised 5 bull calves in a row that have all been sale features selling to RT Ranch and last year to Burnett Angus. The Blackbird female is one everyone marks down, she is the belly dragging kind that is wider and deeper than she is tall with a beauty udder! Masterminds added size and power complimented Marquis dam just perfect to create this sale feature!

Tremendous eye appeal to satisfy the eye when you spot this guy. Every 3 & 4 year old Alcatraz daughter had a Mastermind calf this year. A perfect combination to create balanced, fault free cattle. All of these 3/4 brothers have plenty of growth, fleshing ability, sound feet and stunning look. In turn the 3/4 sisters also follow suit in what we feel will make a great set of cows down the road. His dam is docile, milky, and had a top quality bull last year as well.

The ultimate combination once again! Magician 156M's dam is a workhorse! For the 3rd time in a row bringing a Grasslands sale highlight. A Maternal brother last year was a \$11,500 top seller to 4K Angus and the year before a son to Tetreau's. Use Magician to incorporate that consistent added length, stout body, overall completeness and sire females that will raise your best calves!

COWTRAX RED RIVER 21H - 2179413

RED RIVER

By far the best walking sire I've ever had, Red River sees heavy use around here, something that won't change anytime soon, breeding everything but his daughters. Sired by Alcatraz and out of the great 20Y cow who in my opinion is one of the best to ever call Cowtrax home. A moderate framed tank with good nuts, a great disposition and about as perfect of a foot as you will find. Traits he passes along to all his progeny. Every bull I consigned is sired by 21H. The daughters have beautiful udders and are great mothers. This will be a sire group you'll want to check out sale day.

My pick of the bull calves from 2024. I really enjoyed watching this bull grow and develop. 703M has as much muscle as any bull I've raised. Long stout with a masculine head he screams herd bull. 40C is a super reliable cow that brings in top end calves every year. I retained a full brother last year to use on commercials and he's turning out great. Other sons of 40C are working at Kornfeld's and Sand Lake.

 SCA LADY ANN 58M

This bull is a real treat. If replacement heifers are a priority for you, then look no further, this is the bull for you! The Lady Ann cow family is small in number at my place but one of the best without a doubt. 85Z is as consistent as they come, in fact, she's had four Red River sired calves, and all four were bulls. At 13 years old, 85Z shows zero signs of slowing down, I believe she could winter on snow and scenery and stay fat. Bulls have sold to Ray Rintoul, Lee Holbrook, Brent Griffin, Trafton Ayers, and two were retained at home.

Another Red River/Harvestor that catches your eye. A big crested neck to match the big hip, he looks the part. Harvestor 4C was owned with Breed Creek and left some fabulous progeny. The Harvestor cows are no nonsense down to business females that work their ass off. This bull will for sure leave a set of calves you will be proud of. The only female 69E ever had is a beautiful bred heifer by Red River that should calve any day and has a typical Red River udder, flawless. Sons to Dixon Grazing and Jason and Karla Hicks.

41Y is going to die here. A true staple in my herd, she has put a bull in this sale nearly every year, and the times I'm lucky enough to get a daughter from her they don't leave. At 14 years old she still sports an impeccable udder and feet that are second to none. This bull may not be the heaviest she ever weaned off, but he is no slouch. With a mother like 41Y you will want to keep every daughter. He's a touch bigger framed and will cover rough country with ease like his brothers. Sons to Brent Griffin (2), Masfield Grazing (3) and Lee Holbrook.

GGA BIG SHOW 22J - 2209416

BIG SHOW

BIGSHOW was purchased as a calf at Glen Gabel's dispersal. We were looking to get some SHOWMAN 338 into our herd and boy did he not disappoint. This eye appealing bull has perfect feet, a very large wide hip and a smooth moderate frame. He is one of the best bulls we have used, and we are sure excited with how his daughters are developing. He had the run of the place last year and covered 65 cows. While watching his first daughters let down beautiful udders with calves at side now, it is easy to see we should have semen drawn on him.

Strong herd bull prospect right here. Stamped with the same phenotype we all admire of 22J. This feature bull is out of an outcross cow purchased from Kyle Switzer. Solid beauty of a cow with perfect feet and udder. This guy was always a tank of a calf, catching your eye every time. This is the type I would start a purebred herd with. Maternal sister to this bull 682K was sold in our 2023 sale to our friends at Iron Plains Ag.

We admire the job 704k did on her first calf here. She was one of our most eye appealing heifers out of the 2022 calf crop. She caught attention when she was in the Champion pen awarded at Frontier Days Pen Show in 2023. She lets down a beautiful udder, moderated framed but weaned off one of the heaviest. Our Growth Fund daughters sure work hard. Don't miss out on this calving ease bull.

He is one of our younger bulls but don't be fooled. We flushed his dam 11E to 5 different sires. Jayne did well with her in the show ring for a few years, and we wish we had 100 of her. The influence this dam has had on our herd has really left its mark over the last years, and now she can leave a mark on yours! On tours many people think she is the perfect looking angus cow, and we stand behind her. We all have seen the work her calf STUNNER 396G has done, now with BIGSHOW as his father I don't think we could play the genetic game any harder. He is going to be one of a kind! Come and see how the 11E daughters raise calves and you'll know what we mean.

This is a good young calving ease bull out of a first calver out of MOVIN ON. Lots of light birthweights in this pedigree, and again 298F on the bottom. 622J cattle are the type to develop big bellies and travel smooth as a cat, with ample heel.

This beautiful heifer is out of an awesome XT cow. This is a very hard-working cow that weans off calves $\frac{3}{4}$ of her body weight each year. We have lots of replacements out of this cow and now is your chance to have one of our best. These 2 heifers are the pick of the herd so be assured you are getting our best.
