

DIAMOND T

CATTLE COMPANY

11th ANNUAL
Stockmans Choice
Bull & Female Sale

Tuesday April 1, 2025 – 2 pm at the Ranch – Olds, AB

Welcome

from **DIAMOND T CATTLE**

We are thrilled to be addressing our customers in our 11th Edition of the Stockmans Choice Bull & Female Sale catalogue.

Spring sprung early this year, we are nearing the completion of calving, and we have been seeing lots of heats on our mature cows, which gets us excited for sale time! With the mail strike in December, we opted to not send our annual letter to our customers which makes us feel like we have so much to update you all on, we look forward to doing so in person! The kids keep us busy running to sports, 4H, cattle shows and junior rodeos. We are constantly reminded how great it is to have a cow herd that works for us and not the other way around.

Dawson Cleveland joined us again this winter and we are so excited to have him back. The extra set of hands is so helpful and keeps Justine out of the feed tractor, which she's happy about. Dawson knows the cattle here just as well as the rest of us, so please feel free to reach out to him if you'd like to do so.

Every year we think the sale offering can't get any better and then it does ... which is exactly what we strive for each day. Grandpa Ron always says, "those cows better be out producing themselves!" Our 3 main sire groups on the Black Angus side are Peak Dot No Doubt 1019G, Montana Judgement 1038 and LFE Best Answer 800H. Our Red Angus sire groupings are Red Allison Elysium 80J and Red Pacific Rolling Rock 8K. We also have a few embryo calves offered in the sale this year; Justine is always thrilled when we are heavy on embryo heifers and I'm a little more disappointed we don't have more bulls to offer in the sale. We are confident in these bulls; they are bred & raised to work for you and last.

New this year, we have milking Elysium daughters and boy oh boy, we are even more thrilled with them than we imagined. We continue to be impressed with our No Doubt daughters. They will be our foundation moving forward. As we source new genetics each year, we continue to focus on finding sound, maternal cattle that will last and repeatedly produce pounds. Our calves are never crept fed, Justine likes to remark that we run the pairs with too many black bears to afford to feed all the wildlife in the Bearberry area! Our mindset has always been steadfast and firm that, **"if our customers aren't creep feeding, then the bulls they are buying can't be either."**

I've snuck some more heifers by Justine again this year; as they entered the picture pen, her favourite statement was "who decided to sell this one". More recently Justine has admitted that we don't have enough ground to keep them all. These heifers are right from the heart of our replacement pen, and we are confident they will work for you, the same way they would work for us if we kept them here.

We continue to work closely with Doug Roxburgh and Bullseye on our nutrition program. With Doug's guidance we are confident in how we grow and develop our cattle. We are always tough on fertility, structural integrity and longevity. We also continue to work hand in hand with Hans Reimert of Pioneer Veterinary Service. The bulls have all gone through a Breeding Soundness Evaluation and the heifers have all been palpated.

The following pages are our blood, sweat and tears. We work each day to raise cattle that we are proud of; each breeding decision, feeding decision, land use decision is focused around producing high quality cattle that get better each year. Every year we say it and it holds just as true today as any, we LOVE raising cattle and we are so grateful that we get to continue to do so! All thanks to YOU, our customers. Last year we said, "Not every day is perfect but there is something good in every day" and that is as true then as it is now.

As we get closer to sale day, please stop in for a tour and visit. We would be thrilled to show you through the bulls and their mama's! There is nothing we enjoy more than getting to know our customers and talking about cattle.

We are confident in our "sight unseen purchase plan", we are always so excited to tour the herd and help you navigate through our program to choose the animal that will fit your breeding scenario accurately. After all, you know your cows better than anyone and we know the capabilities of this cowherd so between the pair of us, we'll come up with the best solution.

Please plan to join us and bring your family on April 1st to the 11th Annual Stockmans Choice Bull & Female Sale - at the Diamond T Sale yard!

We stand Behind our Bulls and Beside our Customers!

Best regards,
Brody, Justine, Calynn & Hiller Gardner

SALE LOCATION

Directions From Olds, AB

West of Olds on Hwy 27, 16km.

Turn south onto Range Rd 34, Diamond T is the first farm on the east side of the road.

UDDER & FOOT SCORING

We have included udder scoring on the dam's side of the bulls and heifers as well as foot scoring on the individual lots. We hope this will give our buyers a deeper insight of the maternal, structural and longevity of the Diamond T breeding program.

CALVING EASE CHART

- ★ Recommended for use on mature females
- ★★ Recommended for use on big strong heifers, young cows and mature females with periodic assistance
- ★★★ Recommended for use on young cows, youthful females and heifers with minimal assistance
- ★★★★ Recommended for use on heifers and youthful females with ease

11th ANNUAL

Stockmans CHOICE

Bull & Female Sale

Tuesday
April 1
2 pm at the Ranch Olds, AB

Welcome
from **BOHRSON MARKETING**

BOHRSON
MARKETING SERVICES

The last 12 months has been some of the most rewarding times to be in the beef industry. As cow/calf producers, we finally have the sense of feeling like we are in the driver seat a bit with record high prices on all classes of cattle. There is no better time to own a cow and to own grass and their certainly is no better time to surround yourself with high quality seedstock to utilize in your program to strengthen your program. The Diamond T Cattle Company's "Stockman's Choice" Bull & Female Sale will have just that on offer here for their 11th annual sale and on behalf of the Gardner family and our team at BMS, we wish to invite you to join us for their 2025 event.

Again this year are Black & Red Angus Bulls designed to get out and work. These bulls are athletic and fed for longevity. They have been developed with the rancher in mind and are bred to be sound structured working bulls for all sorts of climate and terrain. The red bulls are again highlighted by the proven and predictable Elysium 80J herd bull. He has done a great job leaving a consistent set of sons that are hairy, low birth and high performing. We really appreciate the red set of cows Diamond T has assembled with a great deal of stress on quality feet and fleshing ability. The Black bulls are cowboy bulls and are anchored by a good selection sired by powerful walking bulls and exciting ai bulls. The No Doubt sons have been very popular with long standing Diamond T customers as they are big bodied and stout made with sensible birthweights and scale crushing performance. New this year is an exciting set of sons by the ai sire, Judgement, that adds a new level of maternal qualities to the bulls without sacrificing the always needed growth. These Judgement sons are hairy, soft made and all possess a great look to them. Best Answer is well

represented here with sons built for the heifer pen. There is gonna be some heifers to get bred one day in this country to start at the attempt of the cowherd rebuild and what better bull to utilize than an own son of this popular caving ease stud. Best Answers are low birth bulls that still have plenty of meat and potato's to them at the end of the day.

As always, Diamond T has dipped into the replacement pen to offer some select Black heifers. These females are sisters to the bulls and are a great look into what the maternal side of the bulls pedigrees have to offer. These females represent the powerful cow families that work at Diamond T and are a great opportunity to select some top end females to start a program with or to mix in with your already existing operation. Take these gals home, turn them out, breed them how you want and watch them work for you.

Be sure to give Brody or Justine a call anytime before the sale to visit about the cattle on offer. They are knowledgable cow folks that would love to hear from you. Be sure to go out anytime previous to view the bulls and their mothers and then plan to be back with us sale day for the great set of Angus genetics and some awesome hospitality with some of the best pie you'll find anywhere! If we at BMS can assist in any way, feel free to give us a shout anytime. We would be glad to help.

Best regards,
The Bohrson Marketing Team

- Year after year the leadoff title is a battle between many bulls whom we go back and forth on for months
- Since the beginning, Monument 2428 has set the standard in the red pen for muscle density, power, foot quality and maternal prowess and that makes him a clear candidate for the poll position of Lot 1
- Astute cattlemen and women that tour the bull runs at Diamond T all stop and analyze this stud for his foot design, structural integrity, massive center body cavity and that herdbull look that catches your attention from every angle
- Maybe, just maybe, the most intriguing aspect of this unique breeding tool might just be his drop-dead-gorgeous mother that we will flush this spring
- Perfection in udder quality, soggy middled and all the brood cow power you need to raise the good ones, this Staunch daughter has hit home runs every year raising 2 sale toppers to Semlin Valley and Moore's along with 2 retained daughters that are the mothers of Lot's 2 & 3
- We feel that Monument is the best Elysium son to date, and we plan to use him extensively in our operation

LOT 2

- A bull that'll get the cowboys geared up for calving right here
- This smooth made, 3-star CALVING EASE option is built with all the parts to make him a real asset
- His mother is beautiful, he boasts a 78 lb BW, has a 116 WW index and is going to look like an absolute stud on those big, powerful heifers that he'll cover in big pastures
- The first Elysium daughters are calving this winter, and you will hear even more about him in the years to come because of them
- 2437 is made with herdbull style, Angus character in his skull, that Elysium red-meat and a dark foot built by generations of sound-made Angus

LOT 3

- There are those bulls that come along and check a lot of boxes like 79 lb BW, 3-star CALVING EASE sire, out of a great uddered, beautiful cow, stacks multi generations of maternally driven sires in his pedigree...well this stud does all of this and more
- The first Rolling Rock son is going to be one of the elite heifer safe options sale day and he stacks the great 180F cow on his maternal side
- Top 5% MILK and +0.1 BW, this rascal will make you somebody that all the neighbors fight one another to buy your heifers

- Elysium sons averaged over \$13,000 last spring across Western Canada, and they continue to lead the way within the breed for muscle dimension, hoof integrity, cherry pigment, outcross pedigree and that added skeletal design that Red Angus cattle need
- Elysium 2451 will be a proven commodity come sale day as he exhibits all the traits his sire is known for as is backed by a big-time cow from Six-Mile's famed Rebecca cow family
- This dark cherry red herdbull and his beautiful uddered dam stopped visitors in their tracks this summer in pasture tours from Oklahoma and they remarked at how impressive of a pair they were and reminded them of her stellar granddam Serebel 175H
- Implement this dude in your bull battery to add CALVING EASE, color and length of body

- This bred heifer market is booming every fall and people like Scott Anderson, Buster Andrew, Reid Snodgrass, Keith Kinnear and many more are selling reputable sets across Western Canada and what is one thing they all have in common...they buy high quality CALVING EASE bulls
- 3-star CE, +0.4 BW and a 75 actual BW, this guy is built for heifers with a smooth front end, sleek shoulders and he possesses that cherry color that is highly marketable
- Maternal brothers have sold to Colby Simpson and Justin Morin and a beautiful Authentic daughter retained that has a ripper bull calf on her

- Round, sound, low-to-the-ground, butts, guts & nuts
- This moderate framed, ultra easy fleshing stud is quick to spot in the pen and would right at home alongside a nice pen of replacements with his hair coat and great leg structure
- Semlin Valley, Alan Shields and the Snodgrass family have purchased maternal brothers over the years and loved their CALVING EASE
- The dam is still punching out impressive bull calves for us year-after-year with a dark foot and the ability to add a little extra length

RED TER-RON SASSY 1U

- Scale-crushing power, growth and performance in a stout, cowboy package on this big ol' brute
- In the entire offering, Elysium 2443 is the largest framed, most powerful tank that offers that most potent growth curve for his future offspring with breed-leading stats
- +71 WW, +120 YW, 130 WW ratio, +29 MILK all set him in the top 1% of the entire Angus breed
- His outcross dam just flat out sets the bar being the mother of the \$9000 Get Smart bull a couple years ago to Riverside Angus, the Stiggin's family, the top 23 born red first calver this year by Elysium and an elite heifer calf last month
- The most exciting set of steers that walk-through sale barns across Canada have added length, shaggy hair and a big ol' hip...this stud will generate a trailer load of sons that will make you a giant payday

- Ray Charles could walk through the red pen and scout out this belly-dragging, soggy-featured herdbull
- A red hided Rolling Rock with length, a huge shape and great feet that has an outcross pedigree for almost all our customers is refreshing
- Big-time weaning weight with an ADJ 205 of 751 being the 3rd heaviest weaning weight bull of the offering
- A maternal sister was the \$12,000 Red Round-Up highlight a few years ago to our great friends, The Reid's in Ontario

- There isn't enough O's in coool to describe this stud of Calynn's
- If you don't have Rocky 24100 circled, highlighted or marked after a pen tour, I'll buy you a steak dinner, mark my words
- Genetically he's outcross pedigreed, 3-star CALVING EASE, the 2nd heaviest 205 day weight bull in the offering and has arguably the best footed and uddered red momma on the ranch
- Phenotypically, this tank is ultra long, soggy, shaggy and has more muscle density mass than Doug Roxburgh standing beside Scott Anderson
- Owned by Calynn Gardner

- It's Hiller's turn to bring a CALVING EASE stud into the ring with this long bodied, smooth rascal
- He's had some rough luck with this cow after purchasing her through Red Round-Up but he finally got a dark red, big boned, heifer bull that he can show off to our customers that have the need to cover that nice set of British cross heifers or that powerful set of Fleck females
- 24105 is super good footed and this 3-star CALVING EASE bull has an abundance of growth with a 731 lb 205 weight and a 113 WW ratio
- Owned by Hiller Gardner

- Do you love your wife? Have you been in the doghouse lately and really need a great gift to smooth things over? How about this 4-star CALVING EASE bull that will make it so she can sleep through her checks next spring and just wake up the next morning and count the live, healthy, nursing calves?
- An ultra-low birth, 70 lb BW, +0.6 BW EPD sire that will just freshen the heifers and make them spit out excited, vigorous calves is what we all want for our heifers
- This dude will last in the heifer pen for many years and be a great investment

- +0.6 CE, 4-star heifer bull, and a whooping +30 for milk translate to you should keep every daughter from this CALVING EASE stud when they're in production in 2 years
- Same cow family as Lot 7 feature, the Roka cows are short gestation and calve with ease
- Imagine the buckskin crossbred calves out of 2453 and a set of Char heifers or a cool set of simm/angus females

- This guy wont rock your doors off like Lot 1, 2 & 3 or blow your skirt up like Cal's Lot 10 but you can't afford to have open heifers when the market is going to be as strong as it will be in the fall of 2025 so latch onto this stud for added security
- Sleek and refined fronted, he'll work for years in the heifer pen

- Genesis 2170 was the \$11,000 leadoff and feature Red U2 Genesis 103G son that Nielson Land & Cattle bought a couple years ago, and we have used him through AI in the heifer pen with great success for 2 years
- The pigment and dark color, combined with a black foot and good structure will make this rascal a unique breeding piece for years to come
- Thick middled, stout and loaded with meat

- To highlight and lead the black offering every year is a privilege that comes with honor and responsibilities to showcase our program moving forward
- No Doubt 2449 certainly makes us proud as breeders to promote our product by commanding attention with power, dimension and real-world performance to leave you with a set of progeny that will move your cowherd in a direction of positive ROI
- The No Doubt cattle transmit more payload and WPDA to their calves and this powerhouse will lead the way in that category
- Maybe the most intriguing puzzle piece about 2449 is his unique mother who has been flushed many times and is putting together a set of Brooking Emerald and Coleman Glacier calves this spring for us that are impressive
- The 1849 SAV Sensation daughter is beautiful uddered, great footed and has produced sale highlights to Richardson's, Purdy's and Beeby's

- Sitting here writing these can sometimes be difficult to describe all the benefits of each bull in a different and interesting manner to keep your attention but when you have one this good...he writes the footnote himself
- A 3-star CALVING EASE No Doubt son with a cool look and out of a front-end, big-time producer, this stud will have a TON of friends on sale day
- Broad based, big footed, longer than the cold snap in February and maybe the most docile in the whole offering
- Next fall when you have a set of British cross heifers out of this stud, if you don't keep every single one of them, call Scott Anderson or I because we will be there as fast as the old farm truck can travel
- A maternal sister is the top 2022 born female in her contemporary group
- **Owned by Calynn Gardner**

- 2473 was built and put on this earth to breed heifers and make you money
- Cattlemen, this 3-star CE, 79 lb BW, +0.7 CE EPD, +0.2 BW and +11.0 MCE stud will go out and make you proud and your neighbors jealous when they see this tapered and smooth shouldered hunk walking your pastures
- His mother is a beautiful uddered specimen and has raised a CALVING EASE son to the Jorgenson family and a productive 2022 born female we retained

- Is this bull going to blow your skirt up or get your engine revving over 3000 RPM's, in all fairness... nope, but he is still low birth enough to be a 3-star CALVING EASE, heifer-safe option and he is also super quiet and friendly in the pen
- One of the biggest hardships in this exciting upswing in the cattle market is not having a live calf and this cow family has a sh%& ton of vigor when they're born

- Start the dually, grab the wife's car, put fuel in the quad, heck, toss a saddle on the gelding and get on over to the sale barn on April 1 to see this absolute highlight from Hiller
- Mark my words, this stud will lead a CALVING EASE group of bulls and there will be astute cattlemen from across the province lining up to utilize this positive CE, high MCE No Doubt son for his wicked look, added dimension and that herdbull presence we love to acquire
- The smartest thing you could do on sale day is buy a trailer load of these Peak Dot No Doubt sons and do nothing but count your stacks of cash next fall when you bring that load of calves to town to the market
- At Diamond T, we build cattle from the ground up starting with a great foundation and 2459 has exceptional feet
- **Owned by Hiller Gardner**

- In a world of rising feed costs, source or raise cattle that are feed-efficient, low-input, easy to maintain, and that big rib cage, soggy middle and forage look is right here in No Doubt 24132
- Just a mid to late March bull that has the running gear and WPDA to keep up with the big boys, this stud is going to breed heifers like a dream this spring
- His hard-working dam has raised a son for Jon Mackenzie, and he works hard in the Cypress Hills of Magrath

- We have been anticipating the Montana Judgement calves for quite some time and maybe more excited about their future as any sire group in a long time
- Combine that with the maternal prowess of our CAA ELITE 1437 cow on the bottom side of this pedigree, here is a herdsire prospect that combines a world of potential
- Judgement 2436 is powerfully constructed with more length, rib cage, muscling and center body cavity
- When you take your first set of steer calves to the market next year, your neighbors will drool over the cheque you get from their added length and the power he'll put in them
- His dam is a massive anchor to our cowherd and has produced multiple sale toppers to LLB Angus, Dun-Rite Stock & Stables, our good friends the Harriman's and more females and bulls retained in-herd to even count to perpetuate her incredible legacy

- Feast your eyes on this tank that has more middle barrel than me at an all-you-can-eat seafood buffet
- Doug Henderson used to teach us to, "buy your herdsires based on the cow" so in this guy's case, invest as fast as you can
- The Bardolia 2145 donor cow will have a significant impact on our future as we have flushed her numerous times to elite powerhouse matings to further solidify the prominence of the Bardolia cow family to Diamond T
- The Judgement females in the replacement pen are so broody, capacious and maternal that we are pumped to have them as our backbone for years to come so combine that with a Bardolia raised son and this stud will be a true female maker

- If length equals pounds, then this big beast will be the rancher's best friend for a massive set of steers come next fall
- Just picture it, you drop your calves off at Rosehill's and the buyers are sitting there and they see the length, hair and muscle from a set of calves sired by No Doubt 2469, you'll be a popular fellow
- Maternally, this rascal has one of the elite, picturesque females backing him in the herd with 1770 who is always recognized on pasture tours
- I'll bet this big guy has a ton of friends come April 1

- There isn't an EPD for longevity so just buy a bull out of a very mature cow who is backed by generations of long standing, productive females...here is your next herdbull
- In a world of increased cost and tighter margins, we need this product (your cows and your bulls) to work efficiently and last for years, Judgement 2410 is backed by 5 generations of cows that produced well past 10
- This attractive made hoss is going to look great in a powerful crossbred heifer pen or on a nice set of Simm cross first calvers with his incredible EPD profile and great foot
- The dam is Calynn's top producing cow with 3 daughters all retained and calves in the first 2 weeks every year
- Owned by Calynn Gardner

- Sit for a second, close your eyes and picture a pedigree with Bravo, 8180, Alcatraz, Renown, Bando and 2 direct shots of Final Answer...now open your eyes and see this brick sh@# house staring you in the face
- The leadoff bull from our Medicine Hat pen, this boss is cool on the profile and oozes all the herdbull characteristics that gets your heart racing when you get to a sale
- Big nuted, wicked hair, soft sided and that true Angus skull that the breed is known for
- Dam is an HF Alcatraz daughter that did all this on her first try and she'll be an important piece moving forward
- Statistically he's just as impressive with a 3-star CE score, 81 lb BW, 734 lb 205-day weight, and the heaviest WW in his contemporary group all with a whopping +37 MILK, the highest in the sale
- Justine is trying really hard to convince me to keep some of this stud to breed our heifers

- 78 lb BW CALVING EASE specialist that is rated a 4-star CE weapon in the heifer pen
- Sensibly sized, soggy, great feet, very sound in motion and one of the most friendly, good-natured bulls of the bunch
- His momma is another hard-working first calver that goes back to our Bardolier Lass cow family that is the second most prolific group we've ever owned for putting more bulls through this sale than most

- Best Answer, Motive, No Doubt combo that is one of the lowest BW in the sale at 70 lbs
- 4-star CALVING EASE, +0.1 BW, +6.0n CE, +8.0 MCE and +29 MILK...this guy must be an honour student with grades like that
- Tremendously long sided, huge nuted, big timbered, masculine and powerful
- Buy a trailer load of these Best Answer calves if you have a big group of heifers to breed and the results will be ROI

- Late March ET son that is genetically bred to raise wicked females and stout made sons
- This Brooking Mercury x Bardolia 1491 mating has left us an amazing set of females that have us so excited for the future and this is the only bull
- 3-star CALVING EASE option that is smooth, tapered and built to succeed for you in the heifer pen for many years
- The 1491 donor is one of the premier females we have ever raised

The cattle market has been strong and the early bulls sales this season have gone very well. Over the last few years focusing on silage production has become a bigger focus. It becomes the base to the diets we use to feed and develop the cattle. Developing mineral and protein supplements to fill in the gaps where needed. Changes have been made but the focus on producing functional bulls and females that will last for years to come has not. The bulls feeding program is built to maximize forage utilization and gut health. The bulls are developed on grass with their moms and then moved onto a balanced diet that promotes lean muscle growth. Organic minerals are used to ensure proper immune function and over all health of bulls. The overall nutritional health and development of the bulls and the entire cow herd is of utmost importance and is constantly being tweaked to meet environmental and seasonal conditions. If you have any questions on the feed program at Diamond T, please feel free to call.

Understanding

FOOT & UDDER SCORING

We have Included udder scoring on the dams side of the bulls and heifers as well as foot scoring on the individual lots. We hope this will give our buyers a deeper insight of the maternal, structural and longevity of the Diamond T breeding program.

Udder Suspension Code

9		Very Tight
8		Tight
6		Intermediate/ Moderate
5		Pendulous
4		Pendulous
3		Pendulous
2		Very Pendulous/ Broken Floor
1		Very Pendulous/ Broken Floor

Teat Size Code

9		Very Small
8		Small
7		Small
6		Intermediate/ Moderate
5		Intermediate/ Moderate
4		Large
3		Large
2		Very Large/ Balloon-Shaped
1		Very Large/ Balloon-Shaped

Foot angle

	1 Extremely straight pasterns. Very short toe. Unsound.
	2 Straight front and rear pasterns. Marginally unsound.
	3 Moderately straight front and rear pasterns.
	4 Slightly straight front and rear pasterns.
	5 Approximately 45-degree angle at pastern joint. Appropriate length of toe and depth of heel.
	6 Slightly shallow heel and long toe.
	7 Moderately shallow heel and long toe. Somewhat weak pasterns.
	8 Shallow heel and long toe. Marginally unsound.
	9 Extremely shallow heel and long toe. Extremely weak pasterns. Unsound.

Claw Set

	1 Extremely weak, open, divergent claw set. Unsound.
	2 Open, divergent claw set. Marginally unsound.
	3 Moderately open/divergent claw set.
	4 Slightly open/divergent claw set.
	5 Symmetrical claws, with appropriate space between claws.
	6 Slight tendency for claws to curl. One claw may be slightly larger than the other.
	7 Tendency for claws to curl, with one claw larger than the other.
	8 Moderate scissor claw and/or screw claw. Curling of one or both claws. Near crossing of claws. Marginally unsound.
	9 Extreme scissor claw and/or screw claw. Pronounced curling of one or both claws. Crossing of claws. Unsound.

- Selling a Bardolia???? You actually snuck one past Justine?
- We wanted to dig into the replacement pen and come up with an elite group for this offering and this is the big-time, front pasture kind that we want to start with
- Whether you want to show one this summer at Showdown in Stettler or maybe put a breeding piece into the cowherd, this beautiful lady will be a valuable asset based on her lineage and cow family
- A maternal brother sold to Bezjack's and an elite No Doubt son sold last year to the great crew at Crowfoot Cattle

- Bank Note, Bravo, Royal Reserve and Final Answer, holy cow this is going to be one good uddered gem
- This sweet, feminine, gorgeous profiled female is docile and going to make a hard-working cow just like the Chloe family that was made so prominent in the Crowfoot herd
- Maternal brothers have headlined this sale before to Conrad's, Little Plume Ranch and The Clark family

- This is a bittersweet footnote; we lost the 1441 donor this winter after a storied career, but we also LOVE this heifer and are excited about her future
- The 1441 cow the kids affectionately referred to as "Barbie" was Reserve National Champion female for us and Nielson Land & Cattle in 2016 and would lead the way in the donor pen for years
- This beautiful constructed, soggy made, elegant female is one of the few Montana Judgement females to sell in the country because everybody wants to keep them
- **Owned with Nielson Land & Cattle**

- One of the larger framed, power options in the heifer pen that is stouter than most
- Look at the rib and capacity in these No Doubt daughters and they are going to be a major factor in our program moving forward, you'll want to acquire as many as possible
- A maternal brother was the leadoff CALVING EASE Payweight son last year selling to our longest standing and most prolific buyer, the Schmidt family
- **Owned by Calynn Gardner**

- Here is a sweet-made, pretty made one that will add the frame and stretch to her offspring
- No Doubt daughters have beautiful udders
- Longevity is built in spades on the Empire Queen cow family as the 1539 cow has put a bunch of bulls through this sale to Newsome Farms, Jay Rimke, Alan Shields, Elwood Gardner and Alicia Copeland

- This young, mid-March heifer is re-fined, feminine and has more style than Beth Dutton
- If you're wanting to make your own purebred replacement or maybe even your next herdsire, breed this girl for some power and you'll love the results
- Dam was a past feature female from Rusylva in the Angus Collection sale in 2020

- Rod McLeod has always taught Justine and I to sell the ones that hurt to get rid of...that is Bardolia 2435
- This sweetheart is as long as a Riley Chalack bar tab and will transmit that into her stout offspring
- The Bohrsen crew convinced us to sell a maternal sister sired by Coleman Bravo 2 summers ago in the Family Matters sale to Thistle Wood Farms and she was a knockout
- This one might just be a sale feature

- To say we've jacked up the quality of the female offering is an understatement because we're letting go of this beauty
- This heifer was a single calving check away from being a March 1 baby so she is young, but she is backed by one of the largest framed, powerhouse cows on the ranch
- 17101 raised the Undeniable 2334 bull last year that highlighted the sale to Justin & Debbie McMillan and they are so happy with him, well guess what... this is a FULL SISTER
- Super cool, pattern, beautiful design and loads of potential in this cow prospect right here cowboys

FULL BROTHER

- Just a young, mid-March heifer that is an absolute peach to be around
- Take this sweetheart in any direction, 4H prospect, junior show heifer, brood cow, you name it
- The last HF Shawshank female that we will ever have for sale, and they were the cornerstone of this place for a few years raising more bulls than almost any other set of females
- 2 big-time herdbull brothers have breezed through this sale to Lutz Land & Cattle and Troy & Cathryn Hagel as well as a beautiful OCC Legacy daughter to Simpson's
- Owned by Calynn Gardner

- A little different twist here folks but this one is as sweet as Grandma Donna's pies
- We bought a simmental bull from Tyson & Tracy last year to clean up on a group of cows and increase vigor and heterosis and the result was a massive set of steer calves and select few cool halfblood heifers
- The old Empire Queen 1507 cow has produced a ton over the years including 2 retained females and multiple sale bulls and most notably a '22 born female that Brock Stecky shows in High Stakes
