

PHEASANTDALE
Cattle Co.

22nd Annual
BULL SALE
at the ranch - Balcarres, SK

2026
THURSDAY ~ MARCH 5

Welcome

Once again it is with immense pleasure that we welcome you to our 22nd Annual Bull Sale here at Pheasantdale Cattle Company. Every year we start this greeting with what a year it has been to be in the cattle industry, and it could not get any truer with the past year we have had, with auction houses seeing record soaring prices across the country and no signs of slowing down. This year we have compiled an impressive group of breeding individuals in both the yearling and long yearling divisions; honestly in our opinion, the best we have offered for your appraisal to date. Over the years we have been gathering a group of prolific females to build this powerful set of calving ease, maternal orientated bulls that are built around structure, fertility, longevity and more! As you study the catalog, you will find the absolute best we have to offer from the front all the way to the last lot. Rest assured, we have sorted this offering for 100% soundness and fully guaranteed to do their job efficiently. We strive to make it our mission for you, our customers to buy problem free herd sires to add value to your operations.

A new year brings new and exciting genetics here at Pheasantdale, with the addition of new herd sires in Black Gold Mountain View 15L, the \$55,000 WFL Mountain View 4J son that we purchased from our friends at Black Gold Simmentals of Lloydminster, Kuntz Louisville 2L from Kuntz Simmentals of Battleford whose sons will make their debut in the ring this year. Along with the new herd sires comes an exciting group of AI calves in sires like LRX Sterling 46J, SVS Tycoon 841F, LFE Loyalty 836H, Black Gold Kraken 6K, Crossroad Pilot 21H, KWA Shamrock 151H, W2 Southside 2K, WFL Water Valley 2064K, Black Gold Ava's Scream 102J and Crossroad Dateline 59L. These new sire groups have added style, bone, depth and overall capacity to both the red and black programs all while blowing us out of the water as a group. We are pleased to offer red, black and fullblood future herd sires that have a cross section of calving ease and performance which some are curve benders for both. We can assure you that these bulls are built for profitability and come from a program that fully stands behind their product. Once again, we have appointed each bull to the females that would suit them best for easy reference.

We wish to thank all the buyers that purchased females from us this year: TL Farms of Stony Beach SK, Circle Lazy J Cattle of Saskatoon SK, from Yorkton Harvest Showdown: JJ Nichols of Watson SK, from Canadian Western Agribition: Sawley Cattle Ltd of Fenwood SK & Eliza Anderson of Big Beaver SK, from Transcon's 48th Annual Simmsational Sale: G Bar C Stock Farms of Pierson MB, Oakview Simmentals of Darlingford MB, C & E Stevens of Craik SK, Jensen Land & Cattle of Climax SK, J Bar C of Melville SK and Circle 7 of Shaunovan SK; from Friday Night Lights; Black Gold Simmentals of Lloydminster SK and Kwiatkowski Cattle & Dart Simmentals of Glendon AB.

We hope to see you at the ranch on Thursday March 5, 2026, for lunch at noon, the sale at 1 p.m. followed by refreshments and socializing after. Again, we would like to extend our thanks to Erin Yewsiuk for working with our crew on picture and video days. If you are unable to attend on sale day the staff at Bohrsen Marketing Services is familiar with our offering and will be able to aid you with your selections. As always, we are happy to work with DLMS for all your online bidding needs.

From our family to yours we wish you all the best for 2026!

- 53 Yearling Bulls
- 22 Long Yearling Bulls

BMS is proud to be involved in the 22nd annual bull sale on March 5, 2026 at the Stilborn Ranch.

Lee, CoraLee & Hadley have definitely stepped up their Pheasantdale program with a number of feature herdsire purchases and a deep battery of AI sires.

The Pheasantdale trademark continues to produce genetics that their commercial customers expect and rely on. Cattle that display length, are easy doing, sound and fertile.

Their 2026 line up offers a wide genetic base and introduces the first Mountain View and Louisville sons and a wide selection of AI sired sons. Both red & black opportunities will sell, plus several fullbloods. These yearling and rising 2 yr olds are headed by Eagles, Freedoms, Hancock and Triumphs.

Please join us sale day for a solid set of yearlings and a super group of rising 2 yr. olds. Enjoy the Pheasantdale hospitality and please contact one of the BMS team for more information as we would love to share our comments on the program.

Bulls are Semen Tested... Scrotal measurements and current weight will be available sale day.
Delivery...

Bull buyers taking bulls home on sale day will receive a \$75.00 discount on each bull

Bull staying at the farm following the sale must be insured.

Bulls will be delivered to central points in Saskatchewan, Manitoba & Alberta as soon as possible following the sale, at the seller's convenience and the buyer's risk.

Bulls left at the farm after April 20th will be charged \$3.00 per day and must be picked up by the purchaser.

Sight Unseen Purchase Program

If unable to attend sale day, come view bulls ahead of time, or talk to us or one of the sale consultant about the bulls you may be interested in. On sale day you can either leave an order with Bohrsen Marketing or be on the phone with one of them when the lots you are interested in are selling, or bid live with DLMS.

Volume Discount

- 3% discount on 3 bulls
- 4% discount on 4 bulls
- 5% discount on 5 or more bulls

Pheasantdale Cattle Co. retains the right to collect semen on any bull in sale for in herd use.

2025 Simmental Average EPDs							
Breed Average - Spring 2025 CSA Genetic Evaluation							
	CE	BW	WW	YW	MCE	Milk	MWW
Current	8.1	3.4	78.6	114.4	4.4	26.2	65.4
EPD on CURRENT POPULATION - all calves born in the last 2 years (2023- 2024)							

EPDs - Expected Progeny Differences...

How to use them:

CE - Calving Ease - The likelihood of a sire's progeny requiring assistance when born. A higher EPD represents a higher likelihood of an unassisted calving.

BW - Birth Weight - Larger values indicate heavier birth weights, lower values indicate lighter birth weights.

WW - Weaning Weight - Higher weaning EPD predicts higher weaning weights.

YW - Yearling Weight - Higher yearling EPD indicates greater

expected yearling weights.

MCE - Maternal Calving Ease - The larger EPD indicates a higher percentage of unassisted births for calves born out of this sire's daughter.

MWW - Maternal Weaning Weight - A larger EPD indicates greater weaning weights for the calves from daughters of this sire.

MILK - Maternal Milk - Larger numbers indicate more milking ability of a bull's daughter.

Win a 2026 Sale Credit

Purchase a bull from any current Saskatchewan member, and when the registration papers are transferred, your name is entered to win a \$2000 sale credit! The draw will be made at the SSA's annual general meeting in July and the lucky winner will have one year to use the credit at any public auction or private sale on bulls or females purchased from any current SSA member.

Terms & Conditions...

TERMS: The terms of the sale are cash or cheque payable at par at the sale. The right of property shall not pass until after settlement is made. All settlements must be made with the clerks of the sale before any cattle will be released.

PURCHASER'S RISK: Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

DELIVERY: Delivery shall be at the seller's convenience. The animals shall be at the risk of the purchaser.

ANNOUNCEMENTS: Announcements from the auction block will take precedence over the printed matter in the catalogue.

GUARANTEE: Contributors to this sale hereby guarantee that subject to proper treatment, care and exercise, all bulls are warranted to be breeders. In the event of a bull proving to be a non-breeder after receiving proper care and attention, settlement is to be made under the rules and regulations governed by the respective breed association. At no time shall the liability exceed the purchase price of the bull.

ACCIDENTS: Although every precaution will be taken to ensure the comfort and safety of the buyers, neither Bohrsen Marketing Service or Pheasantdale Cattle Co. assume any responsibility in this matter and disclaim any liability legal or otherwise in the event of accident or loss of property.

Occasionally, a bull comes along, and you know he is the one you have been waiting for, for us that bull is Pheasantdale Paddy Wagon 158N. Since birth he has been a standout calf, one that has been fun to watch develop over the past year and one that is going to be missed by our daughter, Hadley. Placing Paddy Wagon 158N as Lot 1 in the catalog and the leadoff son of Black Gold Mountain View 15L was a complete no brainer for us. He is a super stout made red bull with a ton of capacity through his middle and down into his lower third. We truly admire all aspects of Paddy Wagon, from his refined skull, excellent neck extension and smooth shoulder to his structurally correct skeleton and solid foot. We have been so high on this bull late summer and early fall that we chose to show him at Canadian Western Agribition where he made many new friends. Looking at his pedigree, you have to admit that it's pretty stacked on both sides with KWA Red Italian 122E, Crossroad Black Rebel 4F, WFL Westcott 24C and WFL Sweet Licious 1044X. Paddy Wagon 158N's dam Pheasantdale Fancy 107F is a medium framed lighter red female with 3 daughters retained in herd, one son sold through our sale in 2022 to Kevin & Orla Wiloughby of Indian Head and most recently a daughter in Pheasantdale Ms Tonky 6M selling through Transcon's 48th Annual Simmsational to D-C Cattle Co of Melville SK. **HOMO POLLED, SECOND CALVERS AND COWS**

Pheasantdale Fancy 107F - Dam

 Maternal Sibling

Pheasantdale Ms Tonky 6M
 Maternal Sibling

Following up Paddy Wagon 158L might seem like a tough deal but when a sire group is this consistent there isn't a bad choice. Pheasantdale Nitty Gritty 152N is the darker version of lot 1 with a touch of a money stripe and we believe is the perfect follow-up to Paddy Wagon. He is a larger framed fella with a wide top, robust middle that leads down into his lower third and you can bank on his correctness in his skeleton when in motion. His dam is a super cool made WS Epic E125 half fleckvieh blaze faced female that is larger in her skeleton and carries great depth of body with a well-balanced udder.

Pheasantdale Mountain Man 59N is a medium framed, long spined dark cherry red bull with the rump on him like a Belgium Blue. He is a bull that brings a wide top and depth throughout his entire body. Mountain Man 59N is very smooth made through his neck and shoulder as it ties nicely into the rest of his body. He is very attractive when on the move throughout the pen. His dam Pheasantdale West Red 20E is a female that we admire for her length of body and overall capacity that she showcases, we currently have 3 maternal siblings retained in herd.

Pheasantdale Shamrock 25N - calf

Two of the coolest bulls in this year's offering are this pair of 3/4 KWA Shamrock siblings. Both bulls carry the same frame score for us, where 25N is a touch longer in his skeleton and a bit more smooth in his lines 38N is deeper in his middle and carries further down into his last third. Both bulls off a splash of chrome in their heads with 25N having a splash above his eyes and 38N being a full on baldy. Shamrock 25N's dam is a medium framed female that is soggy in her makeup with a great udder whereas Shamrock 38N's dam is a larger framed blaze faced female with a long skeleton and very heavy milking.

Pheasantdale Ms Tonky 110M- Maternal Sib

These Honky Tonk 8K calves sure have made a stamp in our herd and now they will make theirs in our customers herds as well. Pheasantdale Honky Tonk 46N is a super special bull here for us with his paternal sibling, Pheasantdale Ms Tonky 110M being our high selling female this year at Transcon's 48th Annual Simmsational sale for \$16,500 to Jensen Land and Cattle who actually purchased Pheasantdale Honky Tonk 8K from the Double G Simmentals dispersal and she was a part of our Agribition show string. 46N is a medium framed bull that we have to admire for his long body, overall capacity from head to tail an all the way into that lower third. When you get him out on the move you appreciate how he tracks out perfectly and shows that herd bull presence in his front end. His dam is a super stout made Springcreek Blue Chip 9D female with a very well-balanced udder.

HLTS Sammie - dam

Pheasantdale Tycoon 63N is the result of a group of embryos we purchased out of New Years Resolution a couple years ago and unfortunately or fortunately for 63N he was the only bull out of that group with the rest being females. Tycoon 63N comes at you with a dark cherry coat and shows that future herd bull stance well. He is super stylish in his make up and skeleton, when out on the move you have to admire how smooth and demure he is. His dam is absolutely no stranger in the Simmental breed being the great HLTS Sammie who recently sold in her entirety in December at the Mother Lode sale for an outstanding \$92,500 as a 12-year-old cow.

One of the most exciting black bulls we have on offer this year is the solo LRX Sterling 46J son, Pheasantdale Carnival Ride 64N. One of the many things we appreciate about Carnival Ride is his skeleton, as you look at this baldy bull through his neck extension and into his smooth shoulder, you can see the capacity he carries throughout. We really like watching this bull move throughout the pen, the herd bull presence is extremely overwhelming. We showcased Carnival Ride 64N as one of our pen bulls at Yorkton Harvest Showdown this past fall and he was received quite well among the other exhibitors and show viewers. His dam is a moderate made female with great depth of body and a tidy udder.

Polar Camel 65N is one of our favourite McIntosh Hancock 19J sons that we are offering this year. He hands down had the heaviest yearling weight out of this years sale offering at 1401lbs and for good reason too. Polar Camel is one of the larger framed black baldies and is what we think is the complete package. He is extremely smooth in his lines from his head set to his neck extension and how it connects into his shoulders and rib shape. He brings a lot of weight which will translate nicely into his offspring.

- He's as wide as he is tall and just as deep
- **HOMO POLLED, RED CARRIER, 2ND CALVERS**

If you are looking for a yearling bull that screams herd bull from the mountain tops of Balcarres Saskatchewan, Pheasantdale Hancock 69N is the one your looking for. We really admire this bull for the development he has achieved and has handily risen to being one of the top black bulls this year. He's bringing a longer spine, depth throughout his middle and into that hind third all while being structurally correct and smooth when out on the move. His dam is a female we purchased from CoraLee's parents as an open heifer and she has been quite the producer for us with having twin heifers and only ever having one other bull who sold to Sharko Land and Cattle. She is a larger framed black female that is very robust in her makeup and has a well-balanced udder. **HOMO POLLED, HOMO BLACK, COW BULL**

Here's a bull that patterns the previous lot almost to a tee and one hates to repeat themselves but here we are. Hancock 27N is a larger framed bull that is packing in the depth and capacity division. He has an excellent skeleton and foot under him. We really appreciate this bull for his herd bull look and overall masculinity that he has. His dam Pheasantdale Ms Blk 23D is a larger framed female that has a ton of spring to her rib shape and is very heavy milking. **HOMO POLLED, RED CARRIER, COW BULL**

Cartel 19N is a neat specimen for us, he is a little smaller on the medium frame side of things but very well put together. We admire this bull for the length of spine he has and the thickness he has within that frame. He is super smooth made in his neck extension and shoulder. With Cartel 19N being a KWA Slider 196H son you have some calving ease in this bull. His dam came inside Springcreek Lima 12G when we purchased her from the Springcreek Simmentals dispersal and honestly, we are surprised the only white Cartel has is located at his navel with his dam being pretty painted up. **HOMO POLLED, RED CARRIER, 2ND CALVERS**

Freedom 95N is one of the coolest bred bulls we think we have to offer, he is one that is dominating in the future herd-bull race. He is bringing that extra length in his skeleton and capacity throughout which will eventually turn into dollars in your pocket when you wean those big steers in the fall and produce some flashy top end replacement females. We really appreciate this bull when he is out and, on the move, every foot is placed perfectly. His dam is a larger made red baldy female that we purchased from the Sunrise dispersal and she hasn't disappointed us joining our herd.

We are pretty proud to offer you two half siblings in these Black Gold Ava's Scream 102J sons. Ava's Scream 37N is a sweet made medium framed bull that packs a punch in the pounds division. The extra length of spine, wide top line and exceptional depth body are all characteristic that he is going to pass along to his progeny and the way the market is currently, it's going to add dollars to your pocket. When he is on the move, he is super attractive in his front end and the herdbull crest he is developing makes him a sure-fire standout. **HOMO POLLED, HOMO BLACK, COW BULL**

If you're in the market for a black bull and High Roller 57N isn't at the top of your list, we should have a conversation and re-evaluate. He has been a standout since weaning time and just keeps developing at a rapid rate. We really appreciate the length of spine, depth in his barrel and just overall mass he is bringing forward. The way he is put together is incredibly attractive, from his head shape and how it ties into his neck and down into his shoulder, we are excited to see what High Roller 57N can do for his new owners herd. **HETRO POLLED, RED CARRIER, COW BULL**

TWO YEAR OLD BULLS

Here at Pheasantdale Cattle Company we run 2 breeding and calving seasons; our winter program starts January 1st - March 15th, where we calve out 300 purebred momma cows. Our spring program starts May 15th – July 1st roughly where we calve out an additional 100 purebred and commercial momma cows. Our spring calving females calve out on their own without any assistance from us, 2 miles north of the yard on pasture, where we check them twice daily, only to tag and weigh what has been born throughout the day/night.

All the extra age bulls in this program are virgins, not offered for sale previously and were intentionally held over for your evaluation and purchase. These bulls are grown on a high roughage diet throughout the first winter after they are weaned and turned back out onto grass from May to October before returning to the yard where they are continued on a balanced TMR growing program with guidance from our nutrition team at BeefSmart Consulting. Our goal with the extra age bull program is to be able to offer top quality genetics that will work twice as hard for a faster return on your bull investment by allowing that extra maturity to able these bulls to cover more females or multiple calving seasons when you purchase him. The bulls are on a total herd health program and given the extra age, they have been given their IBR, BRSV, & BVD vaccines along with Ivomec before heading to grass last spring under the advisement from our Veterinary team at Melville Veterinary Clinic.

98			2.2	5.1	82.4	121.3	30	1.1	71.2

- Larger framed blaze faced bull
- Wide topped with a great length in his skeleton
- Excellent extension in structure when on the move
- **TRIPLE POLLED, COW BULL**

Pheasantdale Eagle Eye 274M is one cool cat. He's super smooth in his lines and tracks out nicely when in motion. One thing we admire about this bull is how he is put together. He has a masculine herd bull head that ties nicely into his neck then explodes into a robust middle. If you want to raise top end replacement females and scale topping steers come fall Eagle Eye 274M is an outstanding option for you. His dam Pheasantdale Banger 201F is a larger frame, soggy made female with great extension in her spine, easy fleshing and heavy milking. **NON-DILUTER RED (OFF 2 BLACK PARENTS), POLL TEST PENDING**

By far the most exciting 2-year-old bull this year if not the entire bull offering has to be Pheasantdale Eagle Eye 230M. He is exceptionally long in his skeleton and as wide as he is deep. We absolutely love the overall capacity, masculinity, and functionality he brings to the table. You'll notice his birthday is February, while we could have offered him in the bull sale last year, he would have been the youngest bull on offer, but we wanted to give him the chance to grow into himself and develop. Boy has he ever done a stellar job at that. Eagle Eye 230M is a bull that we would proudly showcase to everyone who steps in our yard. His dam Pheasantdale Ms BLK 87B has raised 2 past sons who were well received through this very sale with 3 of her daughters being retained in herd. **COAT COLOUR & POLL TEST PENDING, COW BULL**

- Medium framed red blaze face
- Great spring of rib with a wide top
- Excellent muscle definition
- Structurally correct and very attractive in motion
- **HOMO POLLED, 2ND CALVERS**

Memphis Mafia 246M is one flashy dude that catches your attention the minute you walk into the pen. He is exceptionally made when it comes to the length of body, depth, robust rib shape, and thickness that carries down into his rump and lower third. We really appreciate this bull for how cat like he is when in motion as he sets down on a sturdy foot. His dam is no stranger to our program here at Pheasantdale and Springcreek Sue 81E will hold a special place in our herd as her daughters carry on her legacy. Sue 81E has had 4 sons grace this very sale ring and all daughters retained in herd with the exception of Pheasantdale Lady May 200M who we proudly showcased at Agribition this past fall and sold at Friday Night Lights in Olds for \$18,000 to Dart Simmentals and Kwaitkowski Cattle. **HOMO POLLED, 2ND CALVERS**

Pheasantdale Triumph 257M is already a champion to us as he was a part of our Champion Futurity Cow/Calf pairs at Yorkton Harvest Showdown in 2024. Besides him bringing home a banner with his dam, Pheasantdale Lady Scream 54K, he is a cool medium framed dark red bull that has exceptional neck extension and smooth shoulder. He's bringing the meat in his long body and packing on the pounds throughout his skeleton with his robust middle that carries nicely down into that lower third. We really appreciate the structural correctness this bull has and how fluid he is when in motion. **POLL TEST PENDING, HEIFER BULL**

Phone: 1 (780) 842-4900

Email: admin@beefsmart.ca

We started working with the Stilborn family this past summer. We have been enjoying getting to know the family and understanding their operation. This is truly a family run business, with Hadley tagging along for daily chores and the big jobs, like picturing or processing cattle. We have worked closely with Lee on balancing the rations and mineral formulations for the cow herd, heifers and bulls. All rations rely heavily on barley/pea silage and home-grown forage. We focus on using as much on-farm grown forages and commodities as possible and bring in supplemental mineral or protein supplements where needed with close attention paid to trace mineral and vitamin requirements. Buy with confidence knowing these bulls and heifers have been raised with quality and longevity in mind.
