WELCOME

TO CANADIAN SIRES + DONORS

The beef industry continues to offer tremendous opportunity, and there has never been a better time to leverage elite genetics to move your program forward. At Canadian Sires + Donors, our focus remains unchanged: to provide access to the very best sires in the world with genetics that deliver real-world value, consistency, and long-term return for our customers.

Building on the success of recent years, our monthly online semen sales with DLMS.ca remain the cornerstone of our program in 2026. This format was designed with efficiency and accessibility in mind by streamlining handling and distribution, offering greater flexibility, managing sires with limited inventories, and allowing us to communicate more frequently and more effectively with our customers. The monthly sale structure keeps Canadian Sires + Donors front and center, while ensuring timely access to genetics when you need them most.

While this book continues to function as an annual reference, an updated version will be released for each monthly sale throughout the year. Each sire page outlines complete pedigree and performance information, along with the specific packaging and quantities available in the upcoming sale, as well as total inventory allocated for 2026. To further enhance clarity, an availability-by-month summary is included at the back of the directory, making it easier to plan ahead for the breeding season. Our team is always available to answer questions and assist with navigating the sale format or securing your preferred sires.

When it comes to sire selection, our standards are uncompromising. Every bull added to the Canadian Sires + Donors roster is evaluated with profitability and longevity in mind. While performance data matters, the foundation of our program continues to be elite cow families that are supported by structural integrity, sound feet, proven udder quality, and consistent maternal production. The sires we stand behind have a proven track record of elevating programs and it is rewarding to now see Canadian Sires genetics firmly embedded in the pedigrees of many of today's most influential cattle. Alongside these proven mainstays, we will continue to introduce carefully selected new sires to keep the offering current and progressive.

Semen remains one of the most cost-effective investments available in the beef industry, offering unmatched potential for return. Canadian Sires + Donors has never set out to be the largest semen source but rather the most trusted name associated with elite, proven genetics worldwide. We appreciate your continued support and welcome your questions at any time. We look forward to the impact these genetics will have on your program and on the industry as a whole.

Best regards,
The Canadian Sires + Donors Team

HOW TO BID

DLMS FARM GATE TIMED AUCTION

Option 1 - Utilize the BMS industry-leading order buying services.

Contact a Bohrsen Marketing member and we will bid for you in a professional and confidential manner.

Option 2 - Bid online with www.DLMS.ca

FIRST TIME FARMGATE USERS:

- First time users will select the REGISTER button from this page. Fill out the registration form to sign up for a free user account and it allows you to select a username and password for use on all Farm Gate Timed auctions. (please note due to some of the text notification features the FarmGate Time Auction Site requires a new account separate account from your DLMS Live sale site)
- After you create your FarmGate account you will receive a txt message with a pin code to verify your account.
- On your first log in to FarmGate Timed auctions we recommend you go to your profile and confirm your notifications are set to YES. This allows the site to send you text and/or email notifications when you are out bid and if there is activity on your favourite lots.

HOW TO BID IN A TIMED AUCTION

Now that you are logged in and your account phone number / email is verified you are able to bid on an upcoming sale. Simply find the lot you are interested in bidding on. After you have found the lot there are 2 options for bidding on the lot.

- Place Next Bid – to place the next bid on the item, you see the amount in the first box, you simply click the “Place Bid” button and after you review the bid and agree to the terms and conditions your bid will be placed.
- Max Bid Amount – to place a max bid you put your max bid in the second box listed as “Max Bid” on the item, and then click the “Place Bid” button and after you review the bid and agree to the terms and conditions your bid will be placed as the next bid. With the Max Bid placed the computer will then keep you as the high bidder to the max amount you have placed. This can be a great feature if you are not able to give 100% attention to the sale close out and protect your interest so you do not miss out on any lots you want to purchase. The Max Bid amount is completely confidential from the seller during the sale process.

Example of How the Max Bid Works - If the lot has a \$2000 bid on it and you place a proxy bid of \$3500 into the system, the computer will bid \$2100 for you but if some one else bids \$2200, the computer will again bid for you, this time at \$2300. The system will look after your interest to a maximum of \$3500. If another bidder is on at \$3600, your proxy will no longer be effective and you will no longer have the winning bid on this lot without once again logging in and bidding again or moving your attention to a second lot of interest. Please note that in some cases a lot value can change very quickly if 2 max bids are placed on the same lot competing against each other.

WATCH LIST FEATURE

If you have items in multiple auctions or only a few from the same auction that you want to watch with out having to scroll through the entire list you can add the lots to your watchlist. On each lot you will see the “eye” button beside the bid button, by clicking this “watchlist” icon that item is added to your personal watchlist for easy viewing of just your favorite lots in this sale or on the entire site.

WHAT IS RACEHORSE STYLE CLOSE?

Racehorse style sale close is when the entire sale stays open in extended bidding. This type of sale allows you as the bidder to change to a different lot within the same sale if the bidding has gone in to extended bidding.

HOW WILL EXTENDED BIDDING WORK?

When we get to the close out end time the clock for close extends with any bid placed with less than 5 min on the clock. This type of extended bidding turns the end time to more of a soft time. Extended bidding allows bidders to compete in lots like a real auction and give all bidders the same time to make a decision. Always follow the clock to see how much time remains in the sale you are interested in.

BIDDING CLOSE & FOLLOW-UP

After the clock has gone to “ENDED” and no bidding has occurred for 5 min the computer will declare the sale finished. Following the close typically within 24 hours of the sale close the sale consignor will contact all winning bidders to arrange payment, transfer of pedigrees and delivery/Pick up of your lot. Or as the winning bidding you can contact the sale consignor / sale manager to confirm payment instructions.

- Please make sure that your account info is up-to-date and correct if you are the winning bidder of a lot as this is how the billing is sent to Sale manager and/or Sale consignor.

IF YOU NEED ASSISTANCE, CONTACT MARK SHOLOGAN - 780.699.5082

After the Sale

INVOICING

- DLMS will email you your invoice right after the sale has closed, check your junk mail if you don't see it right away
- If you don't receive an email here are the instructions to find it in your farmgate account online. Log into your DLMS Farmgate account, and in the top right hand corner click on “my account”, the 5th tab is invoices, and there is create a pdf button on the right side for every sale.

SEMEN RELEASE

- Once payment has been received we will process the release an email will be sent to Alta Genetics and cc'd the email address on your farmgate account so you know that the payment has been received and semen has been released to you. You will then contact Alta Genetics to organize your shipping requirements. Alta Genetics does require 24 hours to process requests for shipping and handling.
- There are no buyers fees but shipping and handling charges are the responsibility of the purchaser and handled directly between Alta Genetics and purchaser.

LAWSON'S CHLOE C815

KT Commander 4680 is an up and coming herd sire to be desired on many levels; his herd bull characteristics, massive dimension, fleshing ability, ease of movement and massive scrotal. Arguably the most exciting thing about Commander 4680 is the cow families that back him up; they are some of the most recognized cow families in the Angus breed. His dam KT Chloe 1021 is the next up and coming donor at KT Ranches and already has proven herself by producing the high selling bull in their 2024 Sale. Chloe 1021 is a direct daughter of non-other than Lawsons Chloe C815, one of the most potent breeding pieces in the world. Add in the all-time high income producing cow at Coleman Angus Ranch, the \$290,000 valued Coleman Donna 714. On the top side of the pedigree, you will find the remarkable Brooking Beauty 6051 who is an ideal Angus female with a truly impressive production record. Along with the SAV Madame Pride 0151 being a direct daughter of the SAV Madame Pride 0075 who has generated \$5.4 million in progeny sales. KT Commander 4680 has the ability to propel any program forward with his overall look and potent cow families backing him.

COLEMANN DONNA 439

COLEMAN DONNA 714

Coleman Glacier 041 has firmly established himself as one of the great breeding bulls of the modern Angus era and is a sire whose influence is now being proven not only in phenotype but in the marketplace. He possesses the unmistakable herd bull look the industry demands, combining power, presence, and structural integrity with a pedigree and performance profile that is impressive combined with a strong \$M profile. He was the featured Lot 1 bull in the 2022 Coleman Angus Spring Bull Sale, where 25% sold for \$270,000 but what truly separates Glacier, is the elite level at which his progeny are now being valued. His son Coleman Avalanche sold for a \$500,000 valuation, while additional sons have commanded prices of \$97,500, \$60,000, and \$50,000, validating Glacier's consistency and sire power. His influence extends beyond the Angus breed as well, highlighted by a SimAngus female selling at a \$145,000 valuation, proving his ability to generate elite progeny regardless of mating strategy. Glacier is backed by one of the most productive cow families in the breed. His dam, Coleman Donna 439, is a powerful, Pathfinder-designated female with exceptional dimension, structure, and maternal strength. With a pedigree this deep and a progeny record this proven, Coleman Glacier 041 stands as a cornerstone sire whose impact will be felt for generations to come.

S A V BLACKCAP MAY 4136

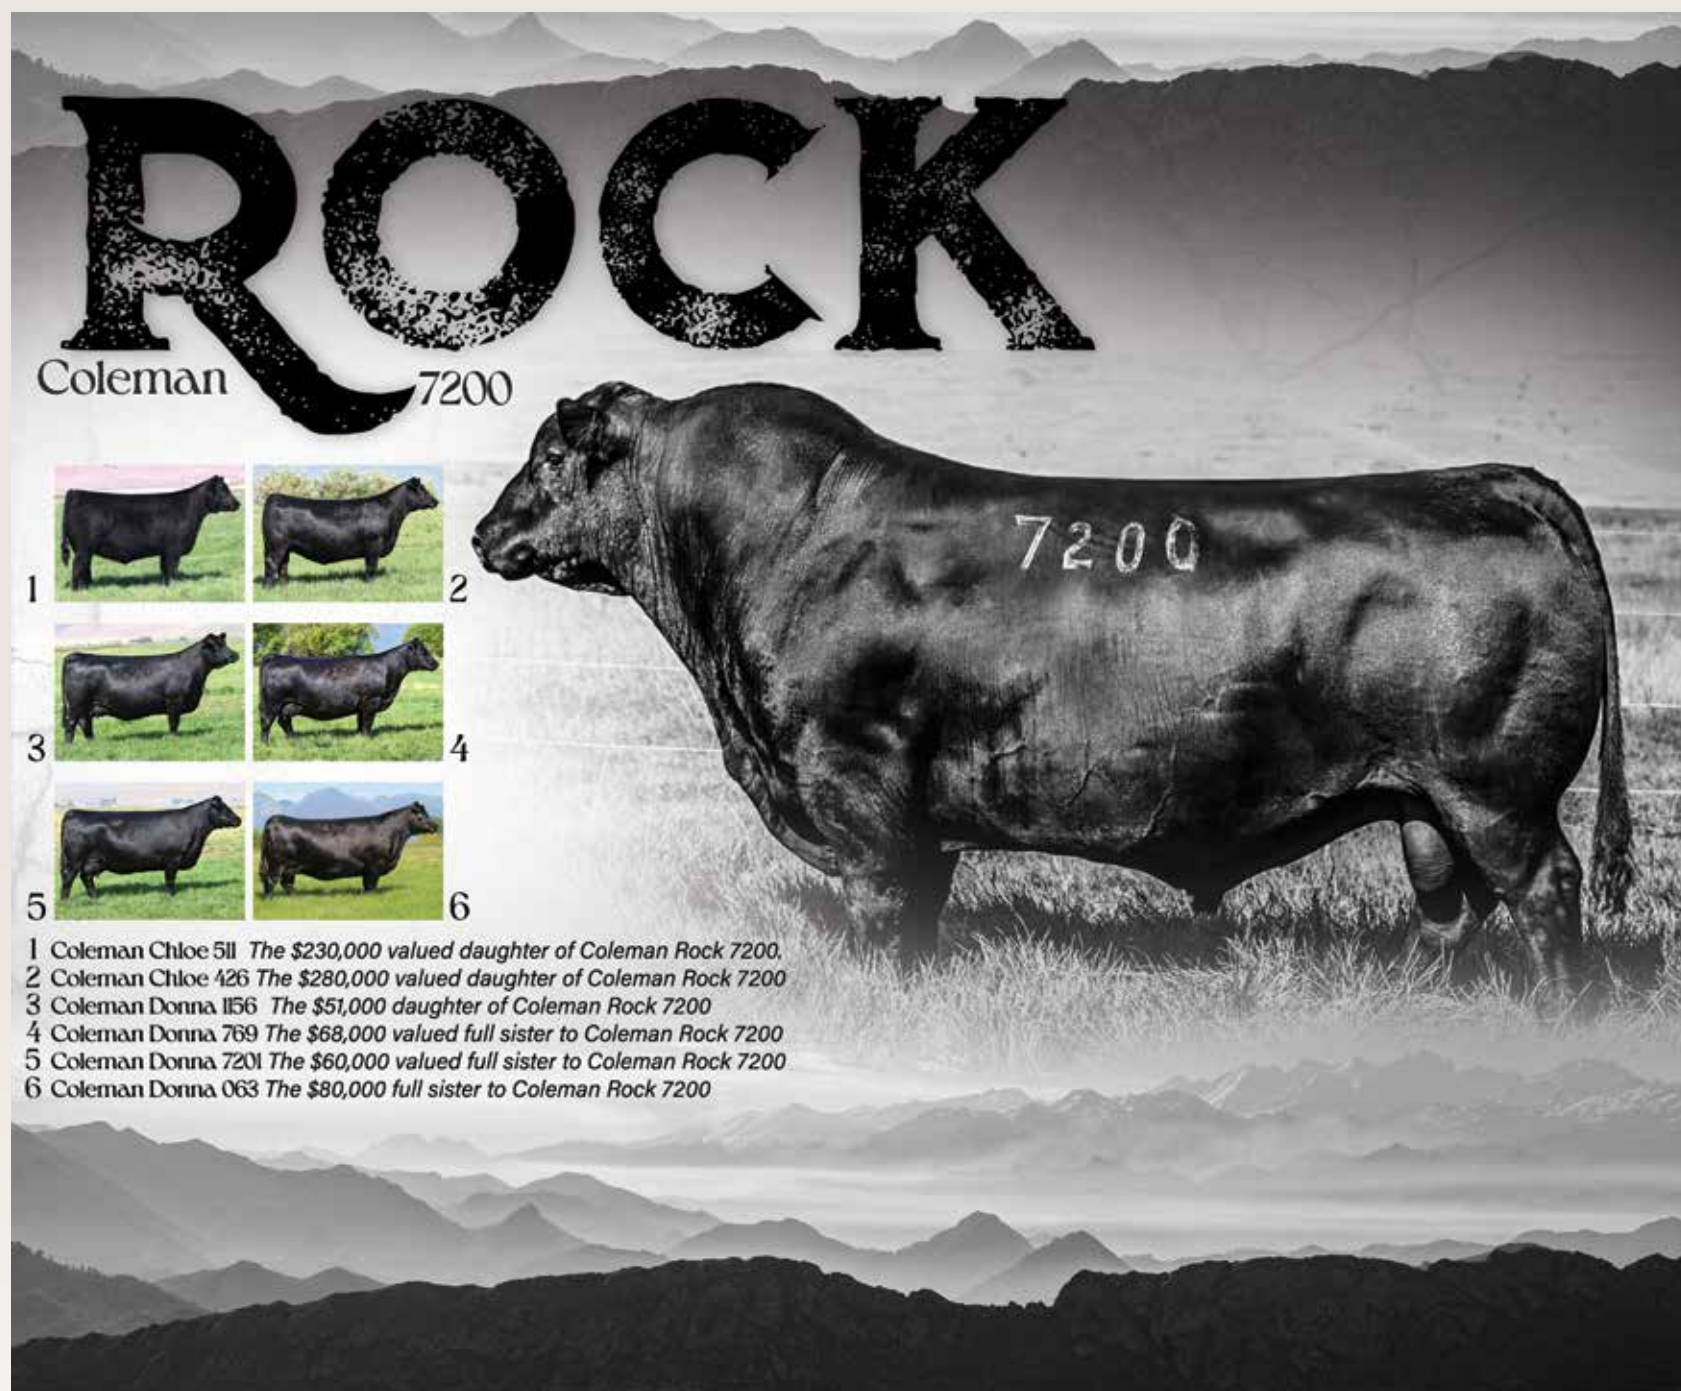

Panther 1906 was the lead off bull and high seller of the 2022 Schaff Angus Valley sale where he commanded \$350,000. Panther is built like a performance orientated bull with a balanced set of EPDs backed by a big time donor female who was a flushmate to one of the greatest sets of bulls to ever grace the SAV sale ring with the likes of President, Rainfall, Raindance and more. The overall balance of this bull in the flesh and on paper make him an exciting up and coming herd bull that we believe will have a huge impact moving forward. Panther offers so much to the breed with his added power and depth with strong feet and great structure with awesome breed character. Get on board with Panther 1906 to help elevate your program. His first calf crop in Canada has been exceptional and include the pick of the Greenwood Heifer Calves at \$62,500 that was the most winningest Angus Heifer calf on the fall show season and a daughter that highlighted the 2024 Brooking Invitational at \$75,000, Brooking Blackcap 4048.

Coleman Rock is one of the best bulls ever produced at Coleman Angus. He was the \$240,000 one-half interest for a \$480,000 valuation top-selling bull of the 2022 Your Maternal Source Sale going to Sandford Ranches of Texas and Ingram Angus of Tennessee. Rock combines a tremendous physical physique in terms of added muscle and depth of body in a powerfully high-performance package while carrying on the tradition of Coleman Angus for high SM genetics. His daughters are stout powerful females that are high ratioing females that have a beautiful look and added value with longevity. Rock has a timeless pedigree from a consistent lineage of great-producing Donna females and is the son of Pathfinder sire, OCC Juneau 807J, back to the \$3.5 million producing Coleman Donna 714, who has a progeny production record of BR 4@89, WR 4@115, YR 3@112, U%IMF 12@101 with 184 daughters in production with an average nursing ratio of 102. She is the #2 SM cow of the breed for cows that are 19 years of age or older. Coleman Donna 063, a full sister, was the featured Lot 1 female of our 2016 Your Maternal Source Sale and sold for \$80,000 to Lawson Family Farms of Virginia. Other full sisters include the \$68,000 valued Coleman Donna 769 working in the Ingram Angus program in Tennessee; Coleman Donna 756, the \$20,000 feature to Nolan Cash of Canada; the \$60,000 valued Coleman Donna 7201, a feature in the Southall Angus, LLC program in Tennessee; and the No. 1 SM cow in the breed for a Pathfinder and 15 years of age or older, Coleman Donna 040.

RUBETA FONTANA 7567

DAM COLEMAN CHARLO 0256
COLEMAN DONNA 5247
COLEMAN DONNA 194

Coleman Mendoza 271 is a featured son of Hummel South America and back to the popular Coleman Donna 5247. He was a \$70,000 sale feature through the 2023 Coleman Spring Bull Sale. His dam was the top-selling female of the 2022 Your Maternal Source Sale and sold for a \$400,000 valuation to Kelly Farms of Michigan. She is a tremendous daughter of Charlo that has generated \$695,750 on the 25 head in past Coleman sales to average \$27,830. She is a dominant producer that changes cattle with her three dimensional shape, added volume and in a very attractive package. Mendoza has as much style and overall quality as any Angus bull we have been around, while still having body and shape when you get around him. We are flushing our very best Angus and Simmental donors to him!

DAM FONTANA RUBETTE 7567-T/E
RUBETA FONTANA 6207-T/E

We are excited to bring you one of the most intriguing sires to hit North America in years. South America is the talk of the industry, from his original display at OKC to the progeny at Coleman Angus, the hype is well deserved. This is the first time his semen has been available in Canada and this is your opportunity to flush your best cows this way. South America brings a total outcross pedigree but from proven Argentina genetics that trace back to US or Scottish ancestors. As Dale Hummel says, it was a revelation to see how, over several generations of selection pressure, a once-similar genetic base can diverge onto a unique path. We are confident that Hummel South America will make a lasting impact on the Angus breed while also offering tremendous value when utilized in a diverse range of other operations and scenarios. South America brings a functional, attractive phenotype, great hair coat, and can make ELITE cattle of both sexes. Invest with confidence - South America is now in Canada.

SAV Theory 2914 is a highly recommended herdsire. He possesses a strong and masculine appearance with a straight top line, a big square hip, and impressive body dimension. In addition, he has a gentle and calm temperament, excellent foot structure, easy fleshing ability, and is an great natural breeder who covers females effortlessly. What sets him apart is his exceptional pedigree, which includes some of the most renowned cows in the Angus breed. His legendary dam, SAV Emblynette 2369, is unparalleled in terms of her contribution to phenotype, performance, and production. She has generated over 4 million in progeny sales, with many of the top-selling bulls and females in SAV production sales. Furthermore, his paternal dam, SAV Emblynette 3243, is an exemplary Angus female and one of the most impressive daughters of Density worldwide. The initial calf crop at Brooking has instilled great excitement, hinting at a promising future for SAV Theory 2914.

Next Generation was amongst the first set of sons to sell in Canada by the world record setting \$1.51 million SAV America 8018 and is backed by one of the most ideal Angus donors in the breed, Rose 1019. Next Generation was an \$85,000 high seller to Voss Angus in Iowa where he was highly regarded for his herd sire look being big featured, clean sheathed, big scrotal, wide hiped, masculine and huge centre bodied. We have come to expect sons like Next Generation from the herd bull producer, Rose 1019 as her track lists also include sons selling for \$70,000, \$54,000, \$47,500, \$45,000, \$30,000, \$25,500 and \$25,000. Next Generation has bred on exactly how we anticipated and his first set of sons were absolute standouts at the 2024 Brooking Bull Sale where they averaged over \$11,000 and as popular as those bulls were, we strongly believe his females will be as highly sought after or more. Next Generation offers mass and power, calving ease, big time maternal and a great look.

COLEMAN DONNA 386

One of the absolute hottest sires in the beef industry! Bravo is a physical and genetic masterpiece that checks all of the boxes. Physically he is tanky, powerful and well balanced; genetically he combines two of the best animals ever raised at Coleman Angus – Charlo and Donna 714. Bravo has one of the most balanced EPD profiles available, being extremely low birth with above average growth. He was a \$450,000 top seller at the 2018 Coleman sale and now his first progeny have been high sellers across a number of operations. At the historically successful U2 Ranch dispersal there was a large sample of impressive Bravo daughters and each time one sold it brought the average up. Bravo sons were fought over in the 2020 spring bull sales including the record selling U2 Shameless at \$290,000. The Donna cow family is admired across the beef industry for their body type, udder quality, maternal look, and consistency.

LFE BA CHINOOK 2183D

In the spring of 2022 there was a specific Angus bull heavily on our radar since our early January bull pen tours and it was the phenotypically outstanding Best Answer. His exciting calving ease numbers with added body mass and power made us quickly realize how valuable he is to today's industry. His early calf reports are proving us correct as his progeny are born with ease with lots of vigour and just starting growing, showing his broad top and thick hip at a young age. Best Answer was born to a gorgeous first calf Bravo female from one of the most productive cow families at the renowned Lewis Farms, the Chinooks. She is awesome uddered, sound footed and very angular. Her mating to the great SAV Final Answer, proved to be a home run and we are excited to carry one of the very best sons ever produced by the legendary 0035 and are excited to see more of his influence 23 years after his own birth! The good stock never goes out of style and we think Best Answer is poised to make create his own great legacy within the Angus breed.

SIRE U2 SHAMELESS 145G U2Q BIG ENERGY 2126K RED U-2 ROBERTA 147C				DAM RED U-2 RECON 192Y RED U-2 MISTY 350C RED U-2 MISTY 60Z						

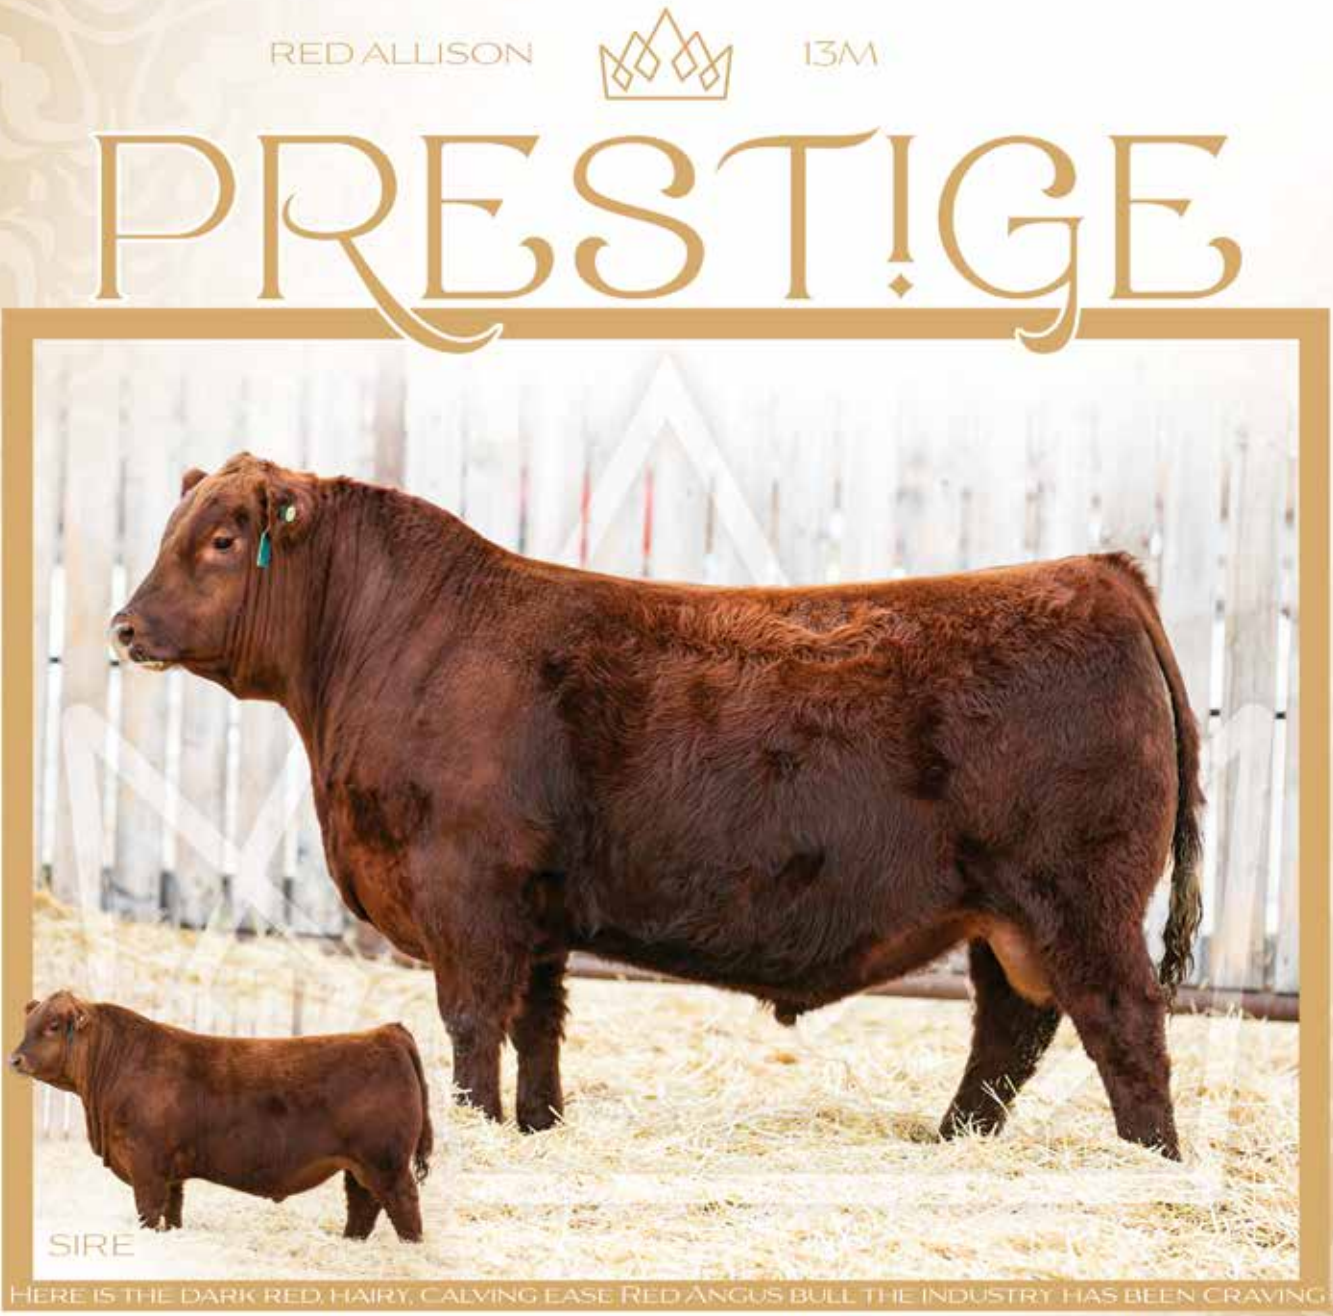

The lead-off and \$135,000 high-seller at the 2025 U2Q Bull Sale has commanded attention at every stage of his development and represents all the necessary qualities of an ideal breeding bull. He is immense in his dimension, volume and capacity while having an abundance of natural thickness and substance of bone and stands on a large foot. His birth to yearling spread is impressive with a 78lbs BW and exploding to a 1512 adj. YW to ratio 126. His EPD tabulation is a strength where he is above average in 18 of 20 traits. But what might just be the most exciting thing about Double Down 4515M are the females that are backing him up on both sides of the pedigree with the likes of Rosebud 157C, Roberta 147C and Misty 350C. His dam, 350C, simply does not miss, putting countless sons into top purebred and commercial herds as well as having over 20 daughters in production at U2Q. Double Down 4515M is one of most well-rounded Red Angus bulls we have come across and excels at the fundamentals that make great cattle!

Here is the dark red, hairy, calving ease Red Angus bull the industry has been craving. A bull that still has growth and performance with added look and presence, Prestige 114M is an ideal heifer bull with strong maternal upswing. He was a \$97,500 high seller and has been held exclusive until now, At just 68lbs at birth and grown up to over 800lbs at weaning, we think Prestige is one of the real true curve benders the breed has ever seen. We all know just how much demand there is in the industry for hairy, dark, low birth, high performing cattle and Prestige is just that. Foot quality, calving ease, performance, maternal, colour, hair, phenotype and eye appeal, that is Prestige in a nut shell.

The \$90,000 lead-off and high selling bull from the South View Ranch's 25th Annual Bull Sale. Pistol Pete 4M is full of red meat and muscle while still maintaining great eye appeal in a sound structured package. This guy is powerful and stout from any angle you view him, stands on a big square foot and is that ideal dark red color. His actual data is impressive with a great spread from birth to yearling and big scrotal. He was exhibited alongside his incredible 9-year-old dam where they were selected Reserve Champion Female at Agribition and Champion Senior Female at FarmFair. It easy to see why the Kaufmann family considers Red SVR Pistol Pete 4M the best bull to own the SVR prefix and call Ceylon home. An incredible bull backed up by an impressive cow that we think has a big future ahead of him!

HOMOZYGOUS POLLED :: 15/16 PUREBRED :: What we would consider to be Tycoon's best son to date and the big time Donor, HLTS Sammie's best effort also is the absolute powerhouse SVS Rancher 42H! Rancher was one of those special individuals that looked bang on at every stage of his life, he was Sammie's natural calf that year and was an absolute beast along side her all summer and in the spring of 2021 he was at the top of our short list of must own herd bulls. \$110,000 later, Rancher was acquired and hasn't disappointed! His first daughters were campaigned last fall where they were dominant in the show ring with a feature female claiming the Intermediate Division at Canadian Western Agribition and later selling for \$40,000 at Friday Night Lights to 7 Lazy T7! Ranchers first sons are exactly as we expected, soft made, extra frame, powerful and attractive with great colour and hair! Look to Rancher to improve foot and udder qualities and overall do-ability. Rancher had a big 2023 with many high selling progeny including the \$28,000 NGDB Flirt 516L, \$24,000 C-D Frankie 2416, \$17,000 DK Mackfrid 24K. He is poised to continue in his legendary sires footsteps as an elite breeding bull.

HOMOZYGOUS POLLED :: 15/16 PUREBRED :: The story book sire that's certainly lived up to his already large expectations is the legendary Betts 808F! After a successful campaign in his show career claiming the Presidents Classic all breeds championship and Reserve Simmental bull honours at Canadian Western Agribition in 2018 Betts went on to prove he's not just a one trick pony where his first heifer calf crop was the absolute buzz in 2020 at FNL when they averaged over \$20,000 and the many time Champion and Supreme Champions that have come out of that particular sale are overwhelming! They include the Champion Simmental female at the 100th anniversary Royal Winter Fair as well as the triple crown, 2X Supreme Champion female at Lloydminster Stockade Roundup and Farm Fair International! Every year since the Betts progeny have been some of the most sought after genetics in both commercial and purebred circles alike. Annually every spring the Betts sons are lapped up by some of the most elite commercial stockmen and many direct sons see duty in many purebred operations. The Betts bulls look like herd bulls and carry his added length, power and pounds in a soft made, hairy, attractive package and his females, now in production are arguably his best attribute as they resemble his big time dam in terms of power, femininity and near perfect udder quality! Betts has already laid a big old swath in the beef industry and we believe he has a long lasting legacy that will continue for generations.

HOMOZYGOUS POLLED :: 15/16 PUREBRED :: The buzz of 2021 was certainly Walk the Line as he had a decorated show career winning many divisions, jackpots and championships including the first ever bull calf to make the Top 5 at Alberta's Beef supreme at Farm Fair. His unmatched presence, length of body, muscular build with great feet and legs made him a bull always easy to find throughout the 2022 year at all stages of life. He is backed by one of the most popular and influential donor females in the industry today, Darlin 613D who has become a potent breeding piece no matter how she is mated. Her mating to the popular, fundamentally sound Walk This Way proved to be a big time success after WTL commanded \$280,000 and his full sister heifer calf brought \$60,000 moments later. Over the two years, WTL has matured into a soggy, rugged herd bull that is tanky and still extremely good looking with a real herd bull head and crest to him. We know with his proven and predictable pedigree, WTL will cut a huge swath not only in the Simmental industry, but the entire beef industry. Utilize Walk The Line to get yourself recognized in both the show and sale ring, or also just make big time, functional cattle that go on to be productive for years to come. No matter what your program or what your goals may be, we strongly believe WTL has all the credentials to help you do so in a huge way. His rookie calf crop in 2023 included such high sellers as the \$44,000 Black Gold Ms Sammie 169L, the \$30,000 KT Scream 3296, the \$24,000 Mader Miss 90L, the \$21,000 Mader Scandalous 76L, the \$21,000 RWS Luna 31L and multiple \$15,000 heifer calves consistently by all that have utilized him. We are also very excited to start to see his sons cross the sale ring this spring and see the positive impact they will have on the industry.

HOMOZYGOUS POLLED :: 15/16 PUREBRED :: A big time calving ease sire that we are certain will have a great influence on the industry as a true maternal sire that is heifer friendly. Water Valley cuts a silhouette hard to duplicate that is sound and correct in his lines and in motion, attractive and long fronted with a good, clean skull. His foot quality is second to none and his thick, heavy hair coat is wanted to be duplicated. His mother was a feature through the 2023 Family Matters Sale and was acquired by Canadian Donors and his maternal sister was a red baldy highlight purchased by the great Kuntz Simmental program. We believe Water Valley 2064K has a tonne to offer!

HOMOZYGOUS POLLED :: 15/16 PUREBRED :: Our hunt was over when we laid eyes on Maverick in the spring of 2021 at Brian McCarthy's. He was what we were looking for in a red calving ease bull and once we were able to view his perfect uddered Spark Plug dam, we knew we needed to incorporate Maverick into our lineup. Long bodied, smooth made while still offering body shape, dark, thick hair, great feet an awesome paper work to go along with his calving ease build. Maverick will also improve eye appeal and presence as he is always showing off and gets around and travels exceptionally well on a strong base.

HOMOZYGOUS POLLED :: 15/16 PUREBRED :: What an opportunity! The chance to acquire semen on one of the best red blaze Simmental bulls and just coming into his prime. Loyalty was the \$200,000 high seller at Lewis Farms 2022 and we are seeing his first calves this fall and they are everything that everyone hoped for. There are a number of Loyalty daughters featured in the fall female sales and we are hearing even more about the strong sets of Loyalty sons out there at the programs that invested in his semen the first spring. They are sound, well built, eye appealing cattle with shape and hair and general overall quality. Loyalty's maternal sister brought \$15,000 at Lewis Farms Leading Ladies sale in 2023 and she was a crowd favorite. Loyalty's walking rights commanded \$36,000 through New Years Resolution 2023 and we are excited about his future working at his new homes and those that invest in his semen!

DAM W/C JWC ANGEL 9005G
W/C MISS ANGEL 2870Z

HOMOZYGOUS POLLED :: HOMOZYGOUS BLACK :: 7/8 PUREBRED :: JWC Western Feel 354M represents the very best of what progressive Simmental breeding is striving to achieve with elite, time-tested cow families paired with a modern, problem-free phenotype and the depth of pedigree demanded by today's commercial and purebred producers. He is homozygous polled and homozygous black, and when Scott Bohrsen laid eyes on this bull, he immediately knew he needed to own a piece of him with the pedigree combined with a bold rib, long spine, square hip, and soundly constructed from the ground up standing on strong feet. He combines muscle and mass with flexibility and foot quality, moves freely, and carries himself with the presence of a true herd sire. Sired by the highly influential OMF Journeyman J24, Western Feel is backed by a sire group that continues to win the confidence of ranchers who value cattle that come easy, grow heavy, and hold together under real-world conditions. This mating, in particular, has proven itself as one of the most reliable and exciting combinations in recent years because on the maternal side, Western Feel is stacked with elite, proven genetics. His dam, W/C JWC Angel 9005G, is Jared Werning's top donor cow and a cornerstone female in the program. A daughter of Sure Bet, 9005G traces directly to one of the most influential cows the breed has ever known, W/C Miss Angel 2870Z a name synonymous with consistency, longevity, and high-impact production. The 9005G sons have become the most sought-after group who demand payweight, performance, and cattle that thrive beyond the sale ring. Phenotypically, Western Feel is the kind that checks every box. JWC Western Feel 354M is a forward-thinking investment as he is built on elite cow power, backed by proven performance and equipped with the look and genetic merit to leave a lasting mark on the Simmental breed.

RF CERTAINLY FLIRTIN 202Z

HOMOZYGOUS POLLED :: HOMOZYGOUS BLACK :: 15/16 PUREBRED :: An absolute powerhouse and one we feel is going to cut a big old swath in the livestock industry for years to come. The 2021 bull sale season was a truly exciting one with many big time herd bulls up for grabs but none maybe as overwhelming as RF Caliber 014G. Added size, mass and power, this soft sided, robust bull with added hair, look and presence was at the top of the short list of must own sires that spring. His progeny are showing his dimension and look and he's certainly stamping them. His daughters just sold this past fall averaging just under \$60,000 at FNL and his first crop of sons that sold in 2023 were truly exciting and included the \$240,000, undefeated WF Capital 164L, \$140,000 LFE Cabaret 847J and the \$65,000 IPU 30-06 47K. We believe Caliber is a big league bull that's going to have a huge impact and it's certainly no surprise as he is backed by one of the most dominant cow families in the world, the Flirts and his mother is none other than 404B herself. Get in on Caliber and reap the rewards as he takes you to new heights!

HOMOZYGOUS POLLED :: HOMOZYGOUS BLACK :: 3/4 SIMMENTAL :: CD Lionheart 3746 is an exciting, unique and proven yet slightly different pedigreed bull whose strong genotype, elite phenotype and growing list of credentials make him a standout individual we are truly proud to offer to the industry. Lionheart comes by his power and presence honestly being sired by the influential NGDB Structure 34D, best known as the sire of the great RF Caliber 014G. His dam, BBRS Exactly 761E, needs no introduction either; she was a dominant show female and a \$65,000 high seller before earning her spot in the donor pen at Double Bar D, where her production record continues to turn heads. When you study this combination on paper and in the flesh, it's clear that Lionheart is the kind of bull built to strengthen cow families and leave a lasting imprint. He is a bull that captures your attention immediately by offering a big, bold outline with extra length of spine, added look, and that commanding herd-bull presence that separates the good ones from the great ones. At the ground, he stands on a large, correct foot with impressive heel depth, and the way he tracks being soft, fluid, and cat-like speaks volumes about his long-term structural integrity. He combines base width, muscle, and true performance with a smooth shoulder and attractive front third, highlighted by a cocky, erect head carriage that gives him that extra punch of style. Backed by a pedigree proven and built with the kind of phenotype that translates into real-world demand, we believe Lionheart has a bright future as a special breeding piece.

HOMOZYGOUS POLLED :: HETEROZYGOUS BLACK :: 15/16 PUREBRED :: The result of stacking elite cow families on top of elite cow families with some of the most influential sires in the breed is SVS Justified 62K. He has not become what he is by accident as his planned, strategic lining of the powerful Soda Pop 410B with Rancher backed by the elite donor, Sammie is a recipe for absolute greatness. Justified is extra long spined, stout hipped and still sweeping ribbed with extra boldness to his cage. He is super wide pinned, broad topped and strong footed with a proud, erect presence. His hairy, cocky look make him an elite sire with big time potential to sire high quality bulls and females alike. His sire, Rancher has become one of the greatest Red breeding bulls the business has ever seen and his dam has been a production monster with a \$76,000 and \$40,000 daughters and the \$50,000 Bond son to name a few. Justified is apart of one of the most exciting pedigrees top and bottom in the breed and ties it all together with a flawless type and kind in a black baldy package.

HOMOZYGOUS POLLED :: HETEROZYGOUS BLACK :: 15/16 PUREBRED :: Since the summer of 2022 when we laid eyes on Boomer we knew he was a special individual we need to watch. His muscle shape, fleshing ability, depth and power was evident early on in his life and his ability to still get out, track and flex with as much base width and mass as he has is commendable. His strong skull, big crest and large testicles are some of our favourite things about him, but as every great bull should, his mother was truly a huge selling feature of us and was the icing on the cake. 850F is as massive and powerful as she is attractive and feminine. Her foot and udder quality are exactly the type we have come to expect from her cow family and the multi generations of donor females on the bottom side of Boomers pedigree, take any guess work out of the equation. We feel Boomer 262K has a tonne to offer the beef industry as he checks so many of the crucial boxes a special sire should. Boomer has the ability to elevate a program and we are excited to watch his breeding contribution for years to come.

HOMOZYGOUS POLLED :: HETEROZYGOUS BLACK :: 15/16 PUREBRED :: The black blaze Yuma son the industry was looking for was located when RF No Limits hit the scene in the spring of 2022. It was memorable to see a bull with as much natural depth of body and wide stature get out and hit his stride with so much ease with his head held high in a "look at me" package as he does. His looks truly had us fired up and when we laid eyes on his gorgeous Stepping Stone dam, it sealed the deal and we knew we needed to get him bought. His dam is everything a big time herd bull's mother should be with a perfect udder, great feet, and big time phenotype. We believe No Limits has a bright future and will be a big time black breeding bull you can count on to fix feet and udders and to help soften cattle up and not sacrifice structural integrity.

HOMOZYGOUS POLLED :: HOMOZYGOUS BLACK :: 7/8 PUREBRED :: OMF Journeyman J24 is the \$110,000 high selling bull from the 2022 Oak Meadow Farms Production Sale. He was the lead off bull in the 2022 NWSS Grand Champion Pen of Three Purebred Bulls, one of the most talked about champion pens in recent years! Possession and US semen interest in OMF Journeyman J24 was purchased by Werning Cattle Company, King Cattle Company, and Eric Handy. The sire of OMF Journeyman J24 is the popular and now deceased MR SR Mic Drop G1534, a son of the calving and performance specialist MR SR 71 Right Now E1538. OMF Journeyman J24 is a homozygous black and homozygous polled Purebred that sets the standard for skeletal quality, performance, and offers unparalleled dimension. Admired by the most critical evaluators and breeders, OMF Journeyman J24 was the talk of the yards at the National Western Stock Show. Semen was marketed in the form of breeder packages in the United States during the spring of 2022. It is safe to say that the service of OMF Journeyman J24 was utilized in several of the top Simmental breeding programs in the country on the most prolific donors and cow families in the business. OMF Journeyman J24 is out of a beautiful uddered, productive daughter of OMF L.A. Woman A25 that is by the maternal superstar Welshs Dew It Right 067T and backed by four generations of maternal excellence that was bred in the historic family owned and operated Oak Meadow Farms breeding program. He is extremely well balanced numerically to compliment his phenotype as he ranks among the elite 20% for CE, top 25% for bw, top 10% WW, top 1% YW, top 15% MWW, top 10% Doc, top 20% REA, top 1% TI and API. This program has had a closed cowherd, injecting only the most elite genetics available through their extensive AI and ET program. A huge opportunity to acquire semen from the exciting stud known as OMF Journeyman J24!

HOMOZYGOUS POLLED :: HETEROZYGOUS BLACK :: 15/16 PUREBRED :: Southside was the heifer bull we had been searching for and was a high selling, \$48,000 purchase in the spring of 2023. His rich and deep maternal side is as proven and predictable as any bull in the business. His mother is a full sib to the legendary great, RF Certainly Flirtin 202Z making his bottom side one of the most sought after cow lines in the industry. His dam herself is an ideal beef cow checking all the important boxes and is a production powerhouse herself. On the top side, Top Tier 456G has been a proven heifer bull that has been used with huge success across Canada, so when a black blaze son out of a cow as high quality at Southside came along, we knew he was one more piece to the puzzle. Southside's data and EPD's speak for themselves and to visualize him is to love him. Smooth made, extended, soft, hairy with excellent feet and scrotal. His early calf reports are extremely encouraging with 50% having blaze faces and coming sensibly sized off of heifers with tonnes of vigour.

DAM RF FAMOUS 409B

RF FAMOUS 127Y

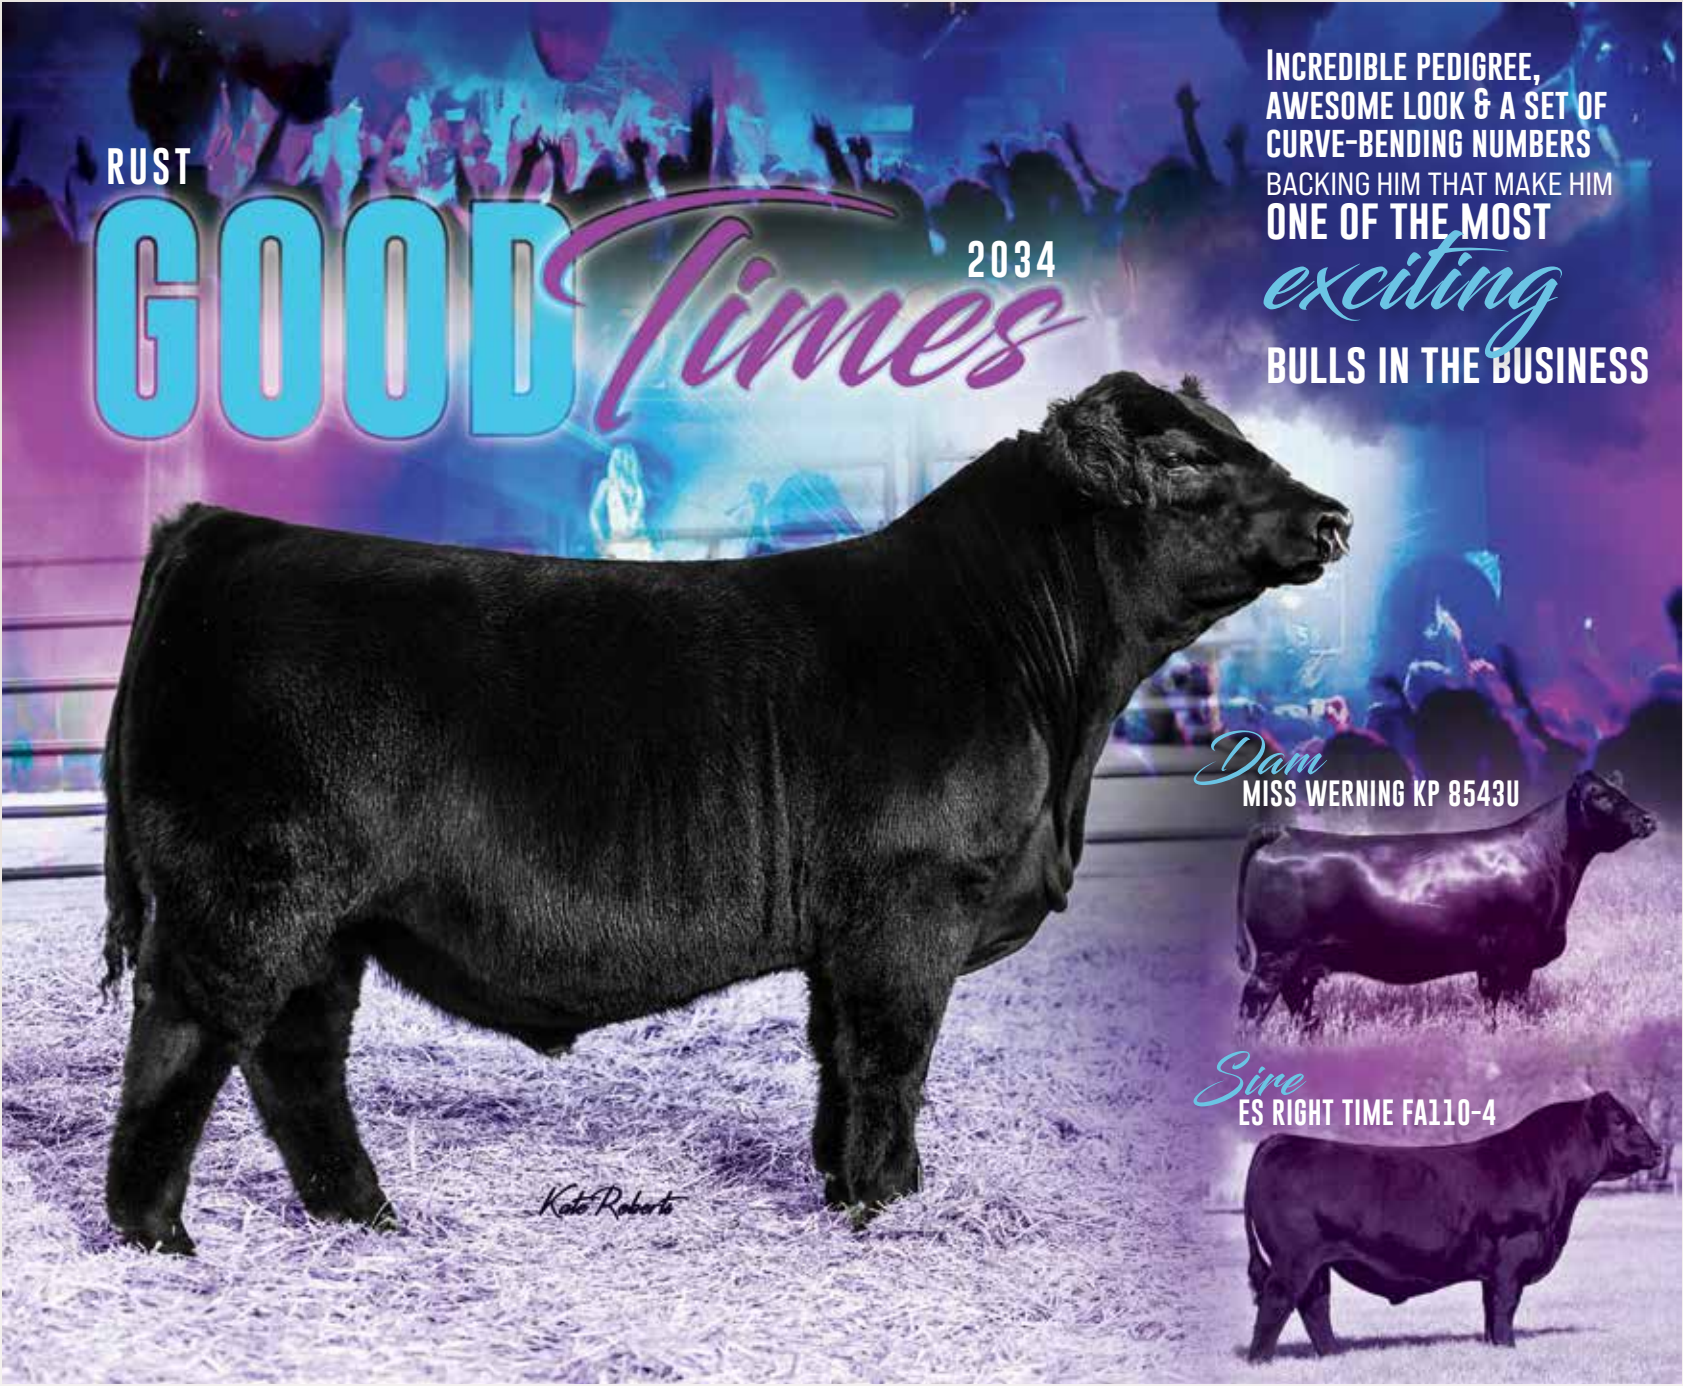

HOMOZYGOUS POLLED :: HETEROZYGOUS BLACK :: 15/16 PUREBRED :: RF Capacity 742E was the \$77,500 high seller in the 2018 Herd Master Bull Sale to Deeg Simmentals and Canadian Sires. His first progeny are downright impressive and are praised by even the most discerning cattlemen. He combines soundness, performance, and huge amount of maternal power into one package. His dam's receipts total \$103,500 on her only two sons to sell to date and she is backed by generations of beautiful uddered, highly productive, big middled females. Results from the first Capacity calves are unrivaled. A son from the Sunny Valley program, SVS Dynasty was the 2019 Grand Champion Simmental Bull at CWA, Reserve Champion over all breeds in the President's Classic, commanded \$60,000 and is an in-demand new sire. A Capacity daughter from Rancier Farms led off the 2019 FNL sale and brought \$45,000, only to be outdone by her full brother, RF Supercharged, who highlighted the spring 2020 sale season at \$130,000. Capacity's popularity has proven to enhance as the years go by, as in 2021 we seen a milking daughter bring \$110,00 (2/3 interest) and a flush of daughters sold that fall for \$57,500, \$32,500, \$25,000 and \$16,000. We feel Capacity is one of the most complete sires within the industry and can be used with confidence.

MCM MISS FARRAH FF 10F				SBV EMMA 11C						

POLLED :: FULL FLECKVIEH :: NON-DILUTOR :: SBV Modano 518L is the \$170,000 feature polled fullblood bull of the spring of 2024 that created so much interest for a wide array of reasons. Firstly, his phenotype is exceptional with dark red, strong hair coat with ideal pigmentation that attracts you to him from every angle. This awesome footed bull is extremely sound in his design and is built for longevity as his sons will be very marketable and daughters are sure to evolve into incredible cows with the udder strength and true production capabilities. Modano himself is built like an ideal horned fullblood bull but in a polled package - he is heavy muscled, long spined, big bodied, level topped, attractive headed and has a herd bull presence through his front 1/3 that is to be commended. He is a truly unique herd bull that has the pedigree to back him as well with his dams full sister bringing \$60,000 and then producing a \$70,000 daughter. His dams daughter commanded \$85,000 in FNL and is one of the very best fullblood females ever offered at auction. Modano is a special breeding piece that we are confident that will leave a long last impression on the fullblood industry.

POLLED :: 100% FULL FLECKVIEH :: NON-DILUTOR :: From the moment he hit the ground, the Dimler family knew Double Bar D Malone 39K was a bull that demanded attention and from when our CS+D Team first saw him in July of '22, we also knew he was a very special breeding bull that would have an incredible impact on this breed. Malone has been impressive at every stage of development and that is a trait we place tremendous value on when identifying sires with long-term impact. Malone stood out on grass with extra muscle shape, natural thickness and an eye-catching presence and by January of 2023, Malone had matured into a stout-hipped, big-boned, heavily muscled, smooth-polled bull with exceptional dark red color and pigment. At sale time, his reputation was firmly established and Malone topped the market as a \$100,000 high seller to MAVV Farms and Canadian Sires + Donors. Malone is backed by an elite and proven pedigree that continues to add value on both sides. His Anchor D dam has been a mainstay in the donor program and remains a front-pasture female that is admired for her udder quality, longevity, and production consistency. His sire, Motown progeny highlights include DBD Sadie 11J, the high-selling Fleckvieh female to Sunny Valley Simmental for \$29,000, and Milsap, the high-selling bull commanding \$110,000 to Virginia Ranch. Early indications suggest his daughters will be among his greatest assets, carrying forward the excellent udder quality, structure, and functionality that define his dam line. Malone has evolved into an awesome mature bull and is extremely free-moving and athletic for his mass, with the kind of structural integrity that allows him to hold condition and stay sound under real-world use. Malone continues to surprise us every time he steps on the scale, combining real-world performance with a look that is built to last. Simply put, Double Bar D Malone 39K is a rare, investment-worthy sire with the ability to elevate Fleckvieh programs for years to come.

HOMOZYGOUS POLLED :: FULL FLECK :: NON-DILUTER :: Our hunt for the next great Fullblood calving ease sire brought us to the 25th Annual KMS bull sale where North Star was the top selling, \$70,000 popular herdbull. His length of body, smooth silhouette, tidy skull and sound structure rank him as one of the truly elite Fullblood heifer bulls in recent memory. His donor dam stems from one of the most productive cow families in the entire breed, the Miss Moses line, which has put many bulls into top purebred and commercial operations. A maternal sister to North Stars dam also had a raised a \$60,000 bull the day we acquired him and the proof was certainly in the pudding that this cow family flat out works. The Moses cows are know for being easy doing, strong uddered and highly productive no matter how they are mated. North Star is very appealing with his dark colour, double goggles, hair and Homo Polled head. We feel he has so much to offer from a calving ease and maternal standpoint that he will have a huge impact on the industry moving forward. Get in on what is surely to be one of the most accomplished breeding pieces that will be available all spring.

HOMOZYGOUS POLLED :: FULL FLECK :: NON-DILUTER :: A very exciting, homo polled Fullblood that brings so much to the table! After an impressive summer show run in Manitoba and making a pile of friends at the Mantioba Ag-Ex, Chevy was taken into serious consideration to add to our sire line up. The best way we can describe him is that he resembles a horned fullblood in his loose hideness, huge hip and dense build all while remaining extremely smooth and fluen in his joints and movement. Chevy transitions from front to back so effortlessly. Stands on a strong foot with lots of heel, has a dark red, heavy hair coat, has great pigment and a strong cow behind him. His mother, Halo 4H, is a powerful brood cow that checks all the fundamental boxes. She is striking at every angle and has a really strong udder. We think Chevy has a tonne to offer the industry and being homo polled really is the cherry on top.

FSMB FLASH 13F
FSMB MISS BEAUTY 6B

POLLED 100% FULL FLECKVIEH :: NON DILUTOR :: Masterloc Kinsman 2K is an exciting, 100% full fleck herd bull prospect that checks so many crucial boxes when selecting a sire. From the ground up, from nose to tail, Kinsman is impressive from every angle. He's got a large, dark foot that is big and square, ample bone, lots of length of body, a big stout hip and big broad top. Kinsman is long spined, smooth made with an attractive skull and herd bull crest. Add his dark red colour and sharp pigmentation, and we believe Kinsman 2K is exactly the type of bull to sire extremely high quality progeny of both sexes. His imported sire, Bordeaux, has impressed us with his first two calf crops and the reports from folks that have purchased semen is very encouraging. Bordeaux is a breeding machine that sees double duty in two different operations and we feel he has passed on his muscle pattern, presence and so many other similarities to Kinsman 2K. As much as we love 2K and could go on and on about all of his positive attributes, maybe the best part about him is his beautiful, productive dam. Flash 13F was purchased through the Eastern Harvest from Boisvert Simmentals as a high seller that day and she has matured into an ideal cow. Near perfect udder, strong feet, big bodied and super productive. Every calf she has is a keeper and at the top of the respective contemporary group. She will be entering the donor pen soon and we feel she is exactly the type of cow you want behind your herd bull. We feel Kinsman has so much to offer the beef industry and confidently believe he will have a positive impact moving forward.

CLARK'S ZAP OF CREATIVIT

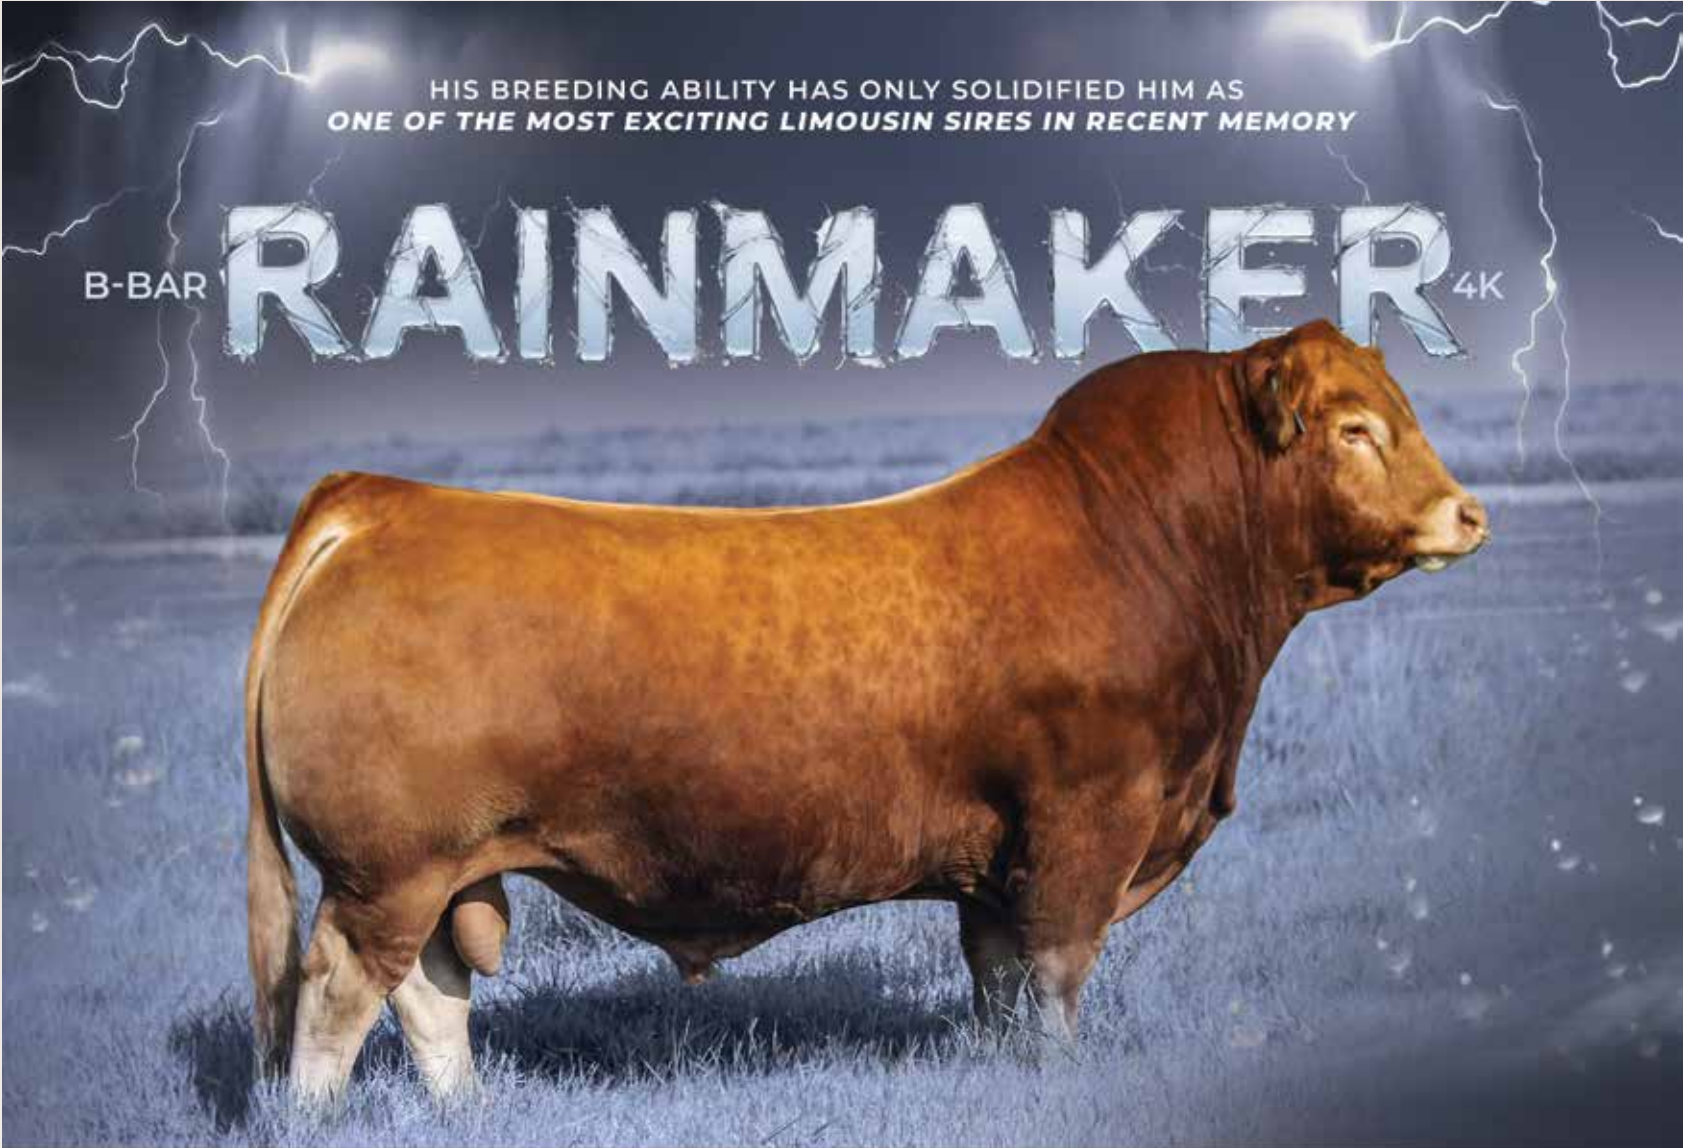

When we searched for a heifer bull this past year, Clarks Lawyer sparked our interest and checked off the boxes. Phenotypically he is a nice balance with a proud masculine front end, length of body, depth of rib and flank, and base width. He has tremendous libido and bred very efficiently along with freezing semen quickly. Lawyer has been a stand out within his large contemporaries, where he started off at just 79lbs and weaned off to ratio 106 and continue on to ratio 102 as a yearling. Numerically he excels, ranking in the top 50% or better in 13 of 16 traits; including top 15% for GEST, top 4% for CED and top 4% for BW. Over the last few years, we have heard positive reports on his sire, Wulfs Guidebook T913G, as being impressive in the flesh and a great breeding unit in the heifer pen. The Clarks Lawyer cow family are easy fleshing, heavy milking females; bred for productivity, consistency and efficiency. Lawyer is already proving to be the consistent heifer bull we were hoping for with 20 calves to date having averaged 82 lbs and a 282-day gestation. They have tremendous vigour are hairy and have a nice look to them in the early stages. Clarks Lawyer brings a lot to the table, so pull up a chair and see what he can offer your program!

B-Bar Rainmaker 4K has stood out at every stage of his development. He has the herdbull presence and great length of body all combined with stout muscling and depth of rib. He stands on a powerful, stout leg, with an ideal foot and moves with ease and flexibility. Not to mention he has a very easy going demeanour. Numerically he's impressive, ranking in the top 20% of 10 of the 11 growth and maternal traits. More importantly those projected numbers are backed by his actual data. Genetically he stacks 3 of our most noteworthy cow families Foxtrot's, Urban Girl's and Nicole's. He was the lead off and co-high selling bull in our 2022 Sale to Canadian Sires. When Scott toured in the summer and saw him the first time on pasture, he remarked that Rainmaker was one of the best Limo bulls he has ever seen at that age and he had a lasting impact on him through the fall and up to sale time in December. Their team was excited to add him to their line-up. Rainmaker was the Grand Champion Bull at Olds Fall Classic, FarmFair International, Canadian Western Agribition and topped it off as a Top 10 Finalist in the CN Beef Supreme show being only 1 of 2 yearlings to do so, the following year he was again the Champion Bull at CWA and a top 10 finalist! His breeding ability has only solidified him as one of the most exciting Limousin sires in recent memory. At the 2025 December Bull & Female sale for B Bar, his progeny were highly sought after with a \$21,000 son and a \$13,500 son. His offering show his exceptional breed character and have been highly marketable.

HOMOZYGOUS POLLED :: New Life Henry is very well rounded on all fronts; a balanced phenotype, productive cow family, proven pedigree, and tremendous EPD spread that is backed up by his actual data. When you see him in the flesh, Henry has you appreciating where the Limousin strives to go with his docile attitude, muscle and overall balance that extends to fluid movement. His dam is arguably one of his greatest strengths and has been admired by anyone that tours through the New Life herd. He commanded \$24,000 in the Fully Loaded Bull Sale and has garnered a lot of attention since then. Henry saw heavy use in both the B-Bar and Payne Livestock programs and has bred very well. Sons have been popular amongst purebred and commercial cattlemen. The daughters could very well be his strength as they will just get into production in 2025 and the early signs of udder structure and milk flow look very promising.

Note Canadian Sires + Donors will not sell more units of semen than is listed, but in the case of an injury or death of a bull, we may pull the bull’s semen out of future sales. Also there may be some minor quantity adjustment between months due to issues such as non-payment by a customer, but the total units sold for the year will not be exceeded.
