COMPLETE SPECKLE PARK HERD DISPERSAL
at the BOHRSON SALES
FACILITY *near* DIDSBURY, AB

2026

After an unforgettable decade dedicated to the Speckle Park breed, we have made the difficult decision to offer our entire herd in a complete dispersal sale.

Throughout the years, KFC Farms has acquired and developed some of the industry's top breeding stock, earning numerous Premier Breeder and Premier Exhibitor awards, along with multiple championship titles on the show road. More importantly, this journey has introduced us to remarkable people and created friendships within the Speckle Park community that we will value for years to come.

We would also like to extend our gratitude to all of our current and past employees. Your hard work, dedication, and commitment have been an integral part of KFC Farms' success. Whether caring for the cattle, preparing for shows and sales, or tackling the countless daily tasks around the farm, your efforts have never gone unnoticed. Thank you for your loyalty, pride, and the many contributions you've made over the years. We truly could not have done it without you.

The success of KFC Farms has been driven by Ashley Anderson's passion for breeding quality cattle and her commitment to continual improvement. By combining proven cow families with industry-leading genetics, she has developed a uniform, highly functional herd that we are proud to offer in its entirety.

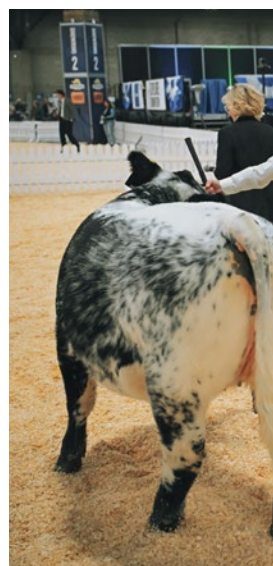

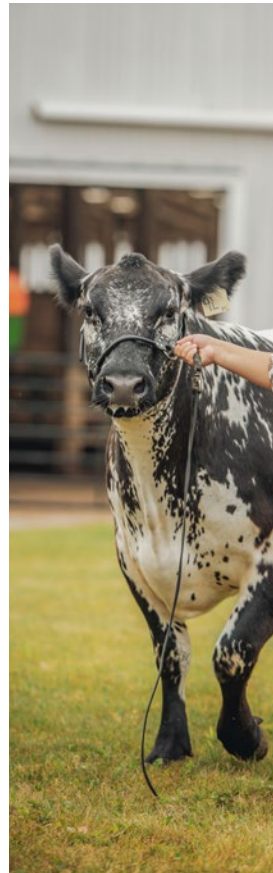

While this chapter is coming to a close, we take great pride in knowing these genetics will continue to influence Speckle Park herds across North America for years to come.

On September 12, you'll have the opportunity to purchase some of the finest Speckle Park genetics available in North America.

Whether you're searching for elite donor females, proven cow families, herd bulls, or exciting genetic opportunities, we invite you to join us on sale day for what promises to be a memorable event.

Thank you for your interest in our program and our cattle. We are truly grateful for the support, encouragement, and friendships we've enjoyed over the years, and we look forward to welcoming you on sale day.

followed by a steak supper and refreshments

6:00 PM ♦ KFC Online Frozen Genetics offering closes
on DLMS Farmgate Timed Auctions (horse-race close)

We are proud of these cattle and know their biggest contribution is yet to come!

It is a true pleasure to welcome you to our Complete Herd Dispersal Sale. Making the decision to disperse a herd built over a decade of hard work was not easy. However, we find immense comfort in knowing that these cattle are entering the industry at an all-time high.

The Canadian cattle market is experiencing momentum driven by record low inventories and high demand. High-quality genetics are proving to be profitable, with Alberta fed cattle prices consistently breaking records. Producers are aggressively competing for proven females to rebuild their herds.

Every animal catalogued today represents the core of our breeding program—built strictly for longevity, structural soundness, and maternal excellence. We have done the heavy lifting, allowing you to buy directly from a decade of production during one of the most profitable stretches in Canadian ranching history. These females had to be productive or they did not get to stay.

Thank you for your interest, your support, and your friendship over the years. The cattle may be going to other operations, but the friendship and relationships we have made through them will last a lifetime. Raising these cattle has created a lifestyle for us that we cannot ever replicate. We are confident they will bring the same predictability and profit to your operations as they have to ours.

Sincerely,

Ashley Anderson ♦ Manager, KFC Farms

WELCOME

It is with tremendous respect and sincere appreciation that we welcome you to the KFC Farms Complete Speckle Park Dispersal. KFC Farms has long stood among the true leaders of the Speckle Park breed, not only in Canada, but around the world. Through a steadfast commitment to quality, they have assembled a cowherd recognized for its genetic strength, maternal value, performance and unmistakable breed character. Just as importantly, KFC genetics have proven themselves where it matters, producing cattle that excel for their new owners and making a positive impact on the breed.

The accomplishments represented throughout this catalogue speak for themselves. KFC cattle and their progeny have earned championships at Canadian Western Agribition, Farmfair International along with their genetics winning shows worldwide. From division champions and national-calibre females to influential herd sires and productive foundation cows, the KFC prefix has become synonymous with quality. These achievements are no accident; they are the result of years of careful breeding decisions, disciplined selection and an uncompromising pursuit of excellence.

Ken Friesen is truly one of the sharpest and most intelligent people in the livestock business. His understanding of agriculture extends far beyond the show ring or sale barn. Raised in a farming family, with decades of involvement in the purebred business, commercial cattle production and other agricultural and business ventures, Ken has an exceptional ability to evaluate an operation from every angle. He understands cattle, people and business, and he approaches each with remarkable foresight and integrity. We have the utmost respect for Ken and have always held him in the highest regard as

an elite stockman and agriculturalist. Even with all he has accomplished, his genuine character and passion for cattle remain among the qualities we admire most

Ken wisely included Ashley as part of the team and she has been an integral part of the success of KFC Farms. Her passion for breeding and exhibiting great cattle, her dedication to the details and the commitment she has shown alongside Ken are to be commended. Together, Ken and Ashley have been a formidable team. Their shared vision and relentless work ethic have built an exceptional cowherd and made KFC Farms a dominant presence within the Speckle Park breed.

A complete dispersal of this magnitude is a rare and significant event. Everything sells, with nothing held back. The heart of the KFC program are on offer with the proven donors, productive cow families, exciting young females, show-ring champions, herd sires and the next generation of KFC genetics, they will all be offered. This is an extraordinary opportunity to acquire genetics from a program that has influenced the breed and earned respect throughout the industry. On behalf of Bohrsen Marketing Services, we thank Ken and Ashley for entrusting us with this important event. It is an honour to work with people and cattle of this calibre. We encourage you to study the offering, visit the herd and take advantage of this historic opportunity.

We look forward to welcoming you to the Bohrsen Sales Facility just east of the KFC Farm in Didsbury on Saturday, September 12, 2026, for the KFC Farms Complete Speckle Park Dispersal.

Best regards,

The Bohrsen marketing team

CATALOG design by **top stock**

ONLINE BIDDING

Online bidding will be available with
www.dlms.ca. Buyers are encouraged to
register for a buyer number prior to sale day.

CATTLE TOURS

Cattle are available for viewing at the farm prior
to the sale. Please contact Ashley Anderson
to arrange a tour. The sale offering will be
available for viewing at the Bohrsen Sales
Facility starting on Friday, Sept. 11 at noon.

TERMS

All cattle sell in their entirety. Terms of the sale are cash unless other arrangements are made with KFC Farms before the sale. Every animal will be sold to the highest bidder, with the auctioneer settling any disputes. All cattle become the buyer's property as soon as sold and will be cared for until delivery at the buyer's risk. Neither KFC Farms nor any person connected with the sale assumes any liability, legal or otherwise.

PAYMENT

All purchases have to be paid in full by Sept. 30, 2026. No animal will be transferred until full payment has been made. Please contact Ken or Ashley with any questions.

ANNOUNCEMENTS

Announcements from the auction block take precedence over information printed in the catalogue. A supplement sheet will be available at the sale.

CATALOGUE ERRORS

Every effort has been made to ensure the accuracy of this catalogue. Any errors, omissions, corrections, or changes will be announced from the auction block or noted on the sale-day supplement sheet.

VOLUME DISCOUNTS

To be announced from the auction block.

JUNIOR INCENTIVES

KFC Farms is pleased to support the next generation of cattle producers. A special junior incentive will be available on select heifer calves purchased by junior exhibitors. Details will be announced from the auction block on sale day.

GUARANTEE

All pregnant females will be pregnancy checked on Sept. 2, 2026. Young females sell open without further guarantee. Bull calves sold over \$6,000 will have a guarantee. There is no guarantee on embryos or semen.

DELIVERY

All cattle must be picked up by Sept. 30, 2026. We will assist with trucking arrangements as needed.

HERD HEALTH

All females are vaccinated with a pre-breeding vaccine: Express FP5 and Bovilis Vision 8 with SPUR. All calves have been vaccinated twice with Pyramid FP5 + Presponse and Fermion 7 with Somnugen. Calves will be weaned following the sale.

Herd Health Veterinarian Dr. Curt Luzi
Riverstone Vet Clinic, 403.507.4412

FOR U.S.A. BUYERS

The exchange rate will be announced from the block. Every effort will be made to assist buyers in meeting current export requirements. Required export testing and health certificates will be completed for animals being exported, with associated costs to be borne by the buyer unless otherwise announced. Delivery arrangements to central points or border crossings will be coordinated with the buyer following the sale. We will do our best to assist in finding transport.

INSURANCE

We strongly recommend that buyers insure their purchases. An insurance representative will be available on sale day to assist buyers with coverage. Insurance is the responsibility of the buyer and should be arranged immediately following the purchase of any lot.

FROZEN GENETICS TIMED AUCTION

Frozen genetics will be offered through Farmgate Timed Auction at farmgatetimedauctions.ca. The sale will open Saturday, Sept. 12 at 8:00 a.m. and close at 6:00 p.m. after the live sale, with a racehorse-style close.

EMBRYO AND SEMEN STORAGE

Embryos are all stored at
Davis-Rairdan International 403.946.4551
1118 TWP 294, Crossfield, Alberta

Semen is all stored at
Alta Genetics 403.226.0666
263090 RR 11, Rocky View County, AB

Semen and Embryos will be transferred within a week of payment. All shipping costs are at the expense of the buyer.

This cow we attained from the Agribition sale back in 2018. She has been a powerhouse of a producer raising many bulls that we have sold in our sale. Sons have won both the President's Classic and been division champions at Agribition. Her calves have average ratios of 113 in both weaning and yearling weights. She does not show a bit of age and is still sound footed and good uddered. 43E was flushed last summer and averaged 10 embryos per flush. She has not produced very many daughters so we AI'd her last year to sexed Codiak Uncle Freddy. If you're looking for a foundation cow, I would not overlook 43E or her heifer calf. Bred to Notta 305E Prime Time 312H (pasture exposed) on April 30.

33J is an Excalibur daughter that we have shown in the past. She was a division champion as a heifer calf. She was shown as a two year old with a heifer calf at side at Agribition and was reserve in her division. Her daughter that year sold to Kris and Karla Victor at PEI. She is a tidy uddered young cow from the Cashmere cow family that has been very successful here. We have quite a few females that stem from the original 1C cow. Bred to Notta 305E Prime Time 312H (pasture exposed) on June 7.

37L is a female that has a fairly successful show career. She is a big framed Gladiator daughter that is ample uddered and heavy milking. The Gladiator daughters have been very maternal and productive individuals, she is not an exception. She was the Reserve Champion female at Canadian Western Agribition in 2024. Her Lawman heifer calf this year is really flashy and is an impressive show prospect. The pair has already gone to one show this summer and placed first in their division. Bred to Notta 305E Prime Time 312H (pasture exposed) on April 30.

205L is a maternal sister to Gladiator, a bull we successfully showed back in 2021. Gladiator females have been exceptional and I believe it stems back to the 1B cow family. We have a handful of direct 1B daughters in our sale and they are all solid producing cows. She is raising a really nice calving ease bull out of RH Major 405M. The Major calves all came very easy with no issues. This bull has calving ease on both sides of his pedigree with Guardian on the bottom side. He will be a heifer friendly bull. Bred to Colgan's Lawman 08L (pasture exposed) on April 13.

PURA VIDA FRANCESCA 2T

68H came in dam from Steele’s in Ontario. She is an attractive made female that is smooth shouldered and big middled. She raised a heifer calf we sold in 2022 to Sue and Andy Carter in Nova Scotia. That heifer went on to show competitively at the Toronto Royal and other local shows there. 68H also has a bred heifer in the sale. Bred to Colgan’s Lawman 08L on June 8.

48K goes back to a female Ken bought from Poplar Meadows Angus in BC. Tanya had a couple registered Speckle Park cows that ended up here in central Alberta when we started building our herd. 7W was a foundation female that we successfully flushed and marketed embryos from. 48K's second daughter was sold to Mirena Farms and the Webster girls have enjoyed showing her at junior shows in the lower mainland BC. Her first calf resides in Bozeman, Montana with Greg Lucht. Bred to KFC Gladiator 1G on Apr 10.

145K's dam Pura Vida Conchita 67C is a cornerstone female at Highmark Speckle Park in Saskatoon. 67C has 14 progeny registered and—seeing her on our tours this summer—is still very youthful! 145K has a 2 year old female in our sale as well as having raised a \$15,000 bull last year who sold to Kootenay Meadows Ranch. That calf was the President's Classic Champion last year at Agribition as well as the Intermediate Calf Champion at both Farmfair International and Agribition. Her Lawman bull this year was easily making his way to the top of the bull pen before he injured his shoulder this spring. She is an exciting young donor prospect with a bright future. Bred to Notta 305E Prime Time 312H on May 10.

It has been a pleasure working with the great crew at KFC Farms over the years! The KFC program has had a positive impact on the Speckle Park breed, and Bullseye Feeds would like to congratulate them on their success over the years. We wish KFC Farms all the best on their future endeavours!

Throughout the entire year, the KFC cowherd utilizes an organic mineral package to ensure proper immune function and overall health of the mother cows, ensuring their offspring potential is maximized. The mineral type changes seasonally, but an organic mineral package is always included.

The nutrition and development of the entire cowherd is continually being monitored and evaluated to meet environmental and seasonal changes and enhance the animal's overall health. The creep feed the calves consume is specifically designed to promote lean muscle growth and frame development; it is important that the calves do not consume a high-energy creep feed, so the formula is designed to have adequate to higher protein, moderate energy levels, and quality fiber sources. The creep feed offered includes a vitamin and organic micro mineral package to maximize calf health during critical early developmental stages.

If you have any questions about the nutrition of the cowherd, please feel free to contact me. Best of luck to the KFC Farms crew with their dispersal of the Speckle Park herd and their next chapter.

Recognizing your hard work and success

Here's to a great sale day

Thanks for having us along for the ride, Ken Friesen and KFC Farms. It's been a pleasure to work with you. Best wishes for a successful sale.

Wherever business takes you

MNP.ca

Lawman is a bull we acquired as a yearling from Colgans Cattle Co. We admired him for his foot structure and scrotal size as well the amount of muscle shape and softness he presented. As he has matured he has gained so much muscle and mass and has a tremendous amount of presence. He is a structurally correct individual while still maintaining a sound foot. His progeny has been similar in structure and style and I think the females will be very attractive and productive. Lawman won Grand Champion Bull at Agribition in 2025.

Justice is a bull we purchased from River Hill a few years ago. He is a big framed individual that has passed that down to his progeny. On over 25 recorded calves, they ratio 103 on weaning and 101 on yearling weights. He is a bull that will add performance and improve foot structure on his calves. [Australian semen rights are owned by Premier Cattle Co.](#)

SELLS AS LOT 95

Progeny TOP – JUSTICE DAUGHTER
BOTTOM – JUSTICE SON AND MANY TIMES CHAMPION

Memphis is a home raised bull that we appreciate a lot of things about. He is a soft middled, stout made individual with presence and style. He was Reserve Champion Bull at Agribition last fall and has already impressed us with the few calves he has sired this spring. His mother 14J sold to Greenwood Speckle Park this winter. We showed a maternal brother this fall. The 91G cow family is one of my favourites that we have here on the farm. This bull is backed by a ton of maternal cow power and should leave some really nice replacement females for anyones program.

| CALAMASUE 22Y

We purchased 132M from Greenwood Speckle Park this spring. He is an aggressive breeder we used to cover all our heifers. His dam is an exceptional uddered Coal Train daughter. He is sound footed and smooth made. This is a bull with a lot of future.
