The ONTARIO Simmental SOLUTION Sale

Welcome to the 9th Annual Ontario Simmental Solution Sale. It's hard to believe that we are in our 9th year. A small conversation one day with a couple friends has led us to where we are today. If you are looking for Full Fleckvieh, fullbloods or purebreds this sale has something for everyone!

Last year our comment was "This is exciting times to be in the cattle industry", this still holds true! We have always heard to invest in replacement females. If you invested a couple years ago, those females have already paid for themselves. Again, this year the weather has varied across Canada and even within each province. We are thankful to everyone that has attended the sale in person or through DLMS. Again, this year DLMS will be available for your online bidding. This year we welcome new consignors, Shady Lawn Farms, Ridge View Cattle Co. and Canadian Sires & Donors. Thank you to all the consignors for continuing to be apart of this reputable and successful sale. The consignors have really dug in deep to their replacement pen and are very proud on what they are consigning. All the animals will be pregnancy checked prior to the sale and updates will be provided prior to the sale. Videos (if available) will be added to the Ontario Simmental Solution Facebook, watch it for the updates. A huge thank you to all our sponsors for the sale, please support them back! Join us early on Saturday October 3rd to view the cattle and enjoyed a catered lunch prior to sale time.

Thanks to Darryl and Jaxon for making their way through the consignors in July to have a view of each of their consignments. Thank you to Scott Bohrson and the rest of his staff and our auctioneer Dan Skeels. A huge shout out to Donna Bohrson for putting the sale catalogue together and working along with the consignors. To the buyers, present and future, we thank you for making this a successful event and wish you much success with your purchases.

Please join us Friday night for a social time and enjoy a burger and beverage.

Make a weekend of it in Ontario and attend this sale on Saturday, then on Sunday IRCC Quality Control X Sale in Indian River and Futures One Online Sale - Edition 17 in Ennismore.

◆ ◆ Ontario Simmental Sale Group ◆ ◆

One of the staples of each fall sale run and one of the largest offerings of Full Fleck Simmental cattle happens during the Ontario SimSolution. This year marks the 9th annual gathering of some of the most sought after females we annually get to help promote and market and we can't wait to welcome you on behalf of the great group of consignors and all of us at Bohrson Marketing Services.

This year's offering of bred females represent some of the most desirable sire groups, elite cow families and industry leading services. The Fullblood female remains one of the absolute must haves to incorporate growth and pounds while not sacrificing big time maternal characteristics. These females are consistently bred to be easy fleshing, high performing cattle that carry ample look and eye appeal and as you study the 50 some lots on offer, representing 14 exciting programs, we know you will be impressed.

Make sure to book travel plans to be with us at DJ Farms on October 3rd to take in some incredible cattle, second-to-none hospitality and beautiful Ontario scenery. The combination make this weekend of Simmental sales a must attend. Reach out to the consignors to visit with them about the cattle on offer or feel free to give any of us at BMS a call to discuss the offering. We would be happy to go over the cattle and give you a free, unbiased opinion of the cattle and represent your absentee buying needs. We hope to see you in Staffa!

All we have to say is WOW and this heifer should not be leaving! Barbarella had twins sell in last year's sale, one was sold through the sale to Dwayann Simmentals and the other one privately after the sale to JT Munro (junior division). Barbarella has done an amazing job raising Nella and has been a favorite by those who have had a visit. Barbarella and Gibraltar combination this is what happens, POWER, Excellence and Perfection! Nella is a front pasture female and will expand anyone's program. Look at her extended pedigree, its just stacked. We would be interested in flush the future. Homozygous polled, sire verified and dilutor free.

Big powerful polled heifer here! Worldwide brings the classic genetics of Rogant while also adding the polled genetics of Rolling Acres Fern. Her dam was what we considered our top heifer of her year, stemming back to an excellent Maltese cow that has been one of our best purchases from Gagnons.

Malena provides the frame and power while her mating to Hefner brings calving ease which we think should make for a highly marketable potentially homo polled calf. Polled 100 % Fleckvieh.

Bred to Anchor D Hefner on March 29

Donita; parting with this one stings a bit!! She was bred to stay home but with extensive house renos the decision was made to pull her from the keeper pen! Solway Adonis on a Dovea Horst cow we imported from Iowa, you won't find this pedigree anywhere else. Factor in her perfect paint job and there is no doubt that if I spotted her in a sale catalog I would be on a plane trying to get her bought!! Smaller framed tanky kind of a heifer. Her mating to Molson could really make me regret offering her ! 100% Fleckvieh.

Bred to Smithbilt Molson on March 14.

Dam - DAH 620D

Service Sire - Smithbilt Molson

Sire - Solway Adonis

Darrell commented when he seen her in the pasture about not too many Arnolds Image heifers out there. Here is a polled one out of the same cow family as our Steinadler heifer. While she flipped the color pattern back, she carried on all the other traits. These heifers have all been so easy to work with and that sweet temperament is so special and sometimes hard to get. Again another Pharaao polled calf coming along!

Bred to Sanmar Polled Pharaao on May 3/2026.

FULLBLOOD ENTHUSIASTS TAKE NOTE. This heifer is the result of a flush I did yrs back on her dam Gibbons Brooke 16G. She exhibits the same deep red colour, long spine and disposition that will make her a valuable asset to any breeder. Her dam was a sale topper in the Feb Freeze Sale at \$39,500. To date this will be the best heifer I have raised and I really struggled putting her in the sale but Daryl was persistent. My only saving grace is I have 2 embryos remaining and will hope 1 or both of them are heifers so I can eventually keep 1 for myself. Her name says it all and "Majesty" suits her to a T as she is indeed royally bred. Inforce 3, Vitaferst and Selon E at mbirth, Bovishield gold 5L5HB prebreeding. Bred to the homozygous polled Dora Lee Equinox who I have used on cows and heifers with great results.

AI Bred to Dora Lee Equinox on Mar 4th. Due Dec 18th. No exposure.

This is a very well put together heifer. Her sire Razzmatazz is no stranger to the Simmental breed. I was fortunate to get a few doses before Dan found out it was available and snapped up the rest of it. Her Dam is an "H" model who has matured into a very nice cow with a nice udder and I who always weans heavy in the fall whether it is a heifer or a bull. Merida has a very calm disposition and should turn into a very productive cow for her new owners. Bred to the heifer maker Smithbilt Molson. Inforce 3, Vitaferst and Selon E at birth, Bovishield gold 5L5HB prebreeding

AI bred to Smithbilt Molson on Feb 4th. Due Nov 20th. No exposure.

Sire - Razzmatazz

Service Sire - Smithbilt Molson

This is another fancy well marked direct daughter of Razzmatazz and one of the most curious girls I have on the farm. If you need any help opening feed bags or handing you stuff from your pockets have a close look. Her Dam was a heifer I bought in this very same sale a few years back from Dennis and Jill. She has the absolute best udder on the farm and after 5 calves she still looks like a 2yr old. I feel this will be a very wise investment and may well be the sale sleeper. Inforce 3, Vitaferst and Selon E at birth, Bovishield gold 5L5HB prebreeding.

AI Bred to Smithbilt Molson on Mar 5th. Due Dec 19th. No exposure.

Sire - Razzmatazz

Montana is the 2nd heifer calf off my Triple T cow going back to Virginia Ranch. She was the high seller from the sale that day and I was lucky to bring her back to Ontario. She has matured into a very dark red medium stature cow with an impeccable udder-calving ease is bred into this pedigree. Montana is a stitch bigger than her mother and her sire is the well known JB Captain Call. She is very well marked, has a calm disposition and is dropping a very nice udder. Bred a little later as I missed a heat on her. Inforce 3, Vitaferst and Selon E at birth, Bovishield gold 5L5HB prebreeding.

Bred to Bar 5 S.A. Benz on May 8th. Due Feb 21st 2027. No exposure.

Shyvette is the result of an in-dam purchase I made 2 yrs back from the well known Ferme Gagnon program. I has always wanted a Raptor daughter so I had to buy her (at least that's what I told my wife). She has surpassed my expectations and is noticed by all who visit. Shyvette is the spitting image of her Dam and I'm sure will mature into an equally impressive cow with an equally impressive udder. This was my pick of the group to stay at home-my loss your gain. Bred to the easy calving heifer maker Smithbilt Molson. Inforce 3, Vitaferst and Selon E at birth, Bovishield gold 5L5HB prebreeding.

AI bred to Smithbilt Molson on Mar 14th. Due Dec 28th. No exposure.

The one thing I can say about Nora is Wow. She will be the youngest heifer I have on offer but is likely the thickest. Her Dam is from the great Blackgold/Lindgren program and Nora was the sexed female inside her. She came home, settled in nicely and this year again has a very nice Reputation heifer calf at side that will likely stay here. Nora will calve just days shy of 2 yrs old and I'm sure will mature into a front pasture female for years. Inforce 3, Vitaferst and Selon E at birth, Bovishield gold 5L5HB prebreeding.

AI bred to Smithbuilt Molson on Mar 14. Due Dec 28th. No exposure.

Dam - CLNO 38L

Neon is a special heifer that was destined to be a mainstay in the herd, but everyone says you have to sell the good ones — so here she is. I can't say enough about the cow family on the bottom side of this pedigree. Zeon 218Z was a no-miss female at Anchor D, and her daughter Edwinna 561E has gone on to do an outstanding job as a donor at FGAF. The strength of this family continues with her daughter, FGAF Edwinna 032K, who consistently raises one of my best calves year after year. Study Neon's EPD profile and the package only gets more impressive. To top it all off, she is a Raptor daughter, and we all know the kind of productive, long-lasting cows Raptor females can become.

Neon was bred to Smithbilt Molson on May 2nd completing what I believe is an exceptional and exciting package from every angle.

**POWERFUL
COMFORTABLE
AND BEST OF ALL
AFFORDABLE.**

When it comes to hay and cattle farming, there's never a moment's rest. But there can be a lot more comfort. The Kubota M6S series was built to be easier on its operator, with a fully loaded cold climate cab, more manoeuvrability in tight spaces and a more ergonomical design. It was also built with the power and performance you come to expect from Kubota and a little something you didn't expect: an affordable price tag.

Toad Hall Mai Tai is a powerful, deep-bodied Fullblood Fleckvieh with the kind of capacity, substance, and maternal presence we appreciate in a productive cow. A long-sided and easy fleshing heifer, with tremendous depth of rib and volume while maintaining a feminine, balanced profile. She carries plenty of natural thickness through her hip and hindquarter and has the overall mass and brood-cow look that is so desirable in a Fullblood female. This heifer combines the phenotype, capacity and maternal qualities the Fleckvieh breed is known for, with an exciting service that makes her one to take a serious look at on sale day.

Bred to Anchor D ADR Zinger 127M on March 23rd. Safe for a January 1 calving

We stepped out this past fall to select Dwayann Yasabella 23L as the lead-off and high-selling female from the respected Dwayann program at the SimSolution Sale. Admired for her sheer mass, tremendous volume and power, Yasabella combines an exciting outcross pedigree with the phenotype to become a cornerstone donor. Her udder is developing beautifully, while her sound structure and big, square feet further strengthen her maternal credentials. Her attractive colour pattern and bold pigment immediately draw you to this powerhouse female. Five embryos sired by WJS Texas Mickey 56N represent an exclusive opportunity. Texas Mickey commanded \$330,000 and has been kept tightly held, with these being the first embryos ever offered by this exciting sire. His progeny will be sure to arrive with the colour and pigment cattlemen demand, while elevating maternal quality in his daughters and adding power, performance and herd-bull presence to his sons. The second package features three embryos by Double Bar D Milsap 271A. With Milsap semen commanding \$3,000 per dose and remaining extremely exclusive, this mating carries exceptional genetic value. Combining two rare and sought-after sires with one of the most exciting young donors we have acquired, these embryo packages offer genetics built to make a lasting impact.

We invested in Sanmar Polled Latifah 42L as a feature female from the 2024 SimSolution Sale, and she continues to impress as she develops into production. This polled daughter of Solway Adonis brings together the shape, volume, eye appeal and structural quality we demand in a donor. Her excellent udder, presence and unique outcross pedigree make her a female capable of moving a breeding program forward. This offering provides five opportunities to access Latifah's genetic potential. Four embryos by the \$330,000 WJS Texas Mickey 56N represent an exclusive mating, with Texas Mickey kept tightly held and these among the first embryos ever offered by this popular young sire. Four embryos by Double Bar D Milsap 271A combine Latifah with a proven sire whose limited semen now commands \$3,000 per dose. Five embryos by PRL Houston 005H offer the potential to create the powerful, productive daughters for which Houston has become renowned, while his sons possess equal opportunity. The offering is completed by five embryos sired by Antonious and five by Arni, providing two outcross combinations. With her polled pedigree, maternal strength and phenotype, Latifah offers the flexibility to complement each sire and generate cattle with lasting value.

MARKETING SERVICES

RR 4 - SITE 7 - BOX 28 OLDS, AB T4H 1T8F

RETURN POSTAGE GUARANTEED
PORT DE RETOUR GARANTI

◆ *Terms & Conditions* ◆

TERMS: The terms of the sale are cash or cheque payable in Canadian funds at par immediately following the sale. The right of ownership shall not pass until after settlement is made. All settlements must be made before any livestock will be released.

CERTIFICATE OF REGISTRY: After settlement has been made the buyer will be provided with the proper registration papers, duly transferred on the record of the Canadian Simmental Association. Further transfer to the herd books of other countries shall be at the buyer's expense.

DELIVERY: Delivery will be the responsibility of the buyer and the buyer's risk.

FLECKVIEH STATUS: Full Fleckvieh will be considered as fullblood cattle tracing back to a minimum of 5 generations of German or Austrian heritage. It is recommended if further research is required to check with the Canadian Simmental Association and no assumption of Fleckvieh heritage will be guaranteed by neither consignor or the CSA.

BREEDERS GUARANTEE: Standard terms set forth by the Canadian Simmental Association, with the exception where any animal is subject to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

ACCIDENTS: Although every precaution will be taken to protect the safety and comfort of buyers, neither the sales staff, auctioneer, or consignors assume any responsibility in the matter and disclaims any liability, legal or otherwise in the event of accident or loss of property.
