

The Elegance Era
ULTRA LIVESTOCK

THURSDAY, SEPTEMBER 24, 2026 • 6 O'CLOCK IN THE EVENING • ULTRA LIVESTOCK

WELCOME

from ULTRA LIVESTOCK

On behalf of our entire family, we would like to welcome you to the Elegance Era female sale once again! We welcome all Cattlemen and women to join us for this event we are excited to host! We would like to thank all the bidders and buyers from last year's Elegance Era Female Sale and from our Bull Sale this past spring! Your support is greatly appreciated, and we look forward to hosting you on September 24th.

The Cattle industry has been in a tremendous place over the past few years and continues to build steam heading into the fall. Once again, record calf prices are being displayed, and we want to congratulate all producers on this success. Your time and perseverance are being rewarded! The Simmental breed is a special group of breeders that we've gained friends with throughout the world. We're excited to showcase our offering to all Simmental enthusiasts!

As you tour your way through this book, you will find powerful dark red bred backs backed by proven sires such as ULTRA/BARLEE Lethal Weapon, Black Gold Approval, MRL P.R. MAN, etc. They're carrying services to our high-selling bull this past spring - ULTRA SIDESHOW 93N who sold to KT Ranches for \$100,000!

The black bred backs are one of our most exciting groups we've assembled in some time. Once again, ULTRA/BARLEE Lethal Weapon is a sire that rang the bell in production, and we've brought forth his top daughters, who will gather a lot of attention! We dove into the semen tank and brought a brood cow in the making from the Great SVS Dynasty. Rounded out by the OG himself, W/C Loaded Up, producing those fancy Baldies! These black bred backs are complemented by being AI bred to the \$75,000 Homo Black, Homo Polled ULTRA TOKYO ROSE!

In our Fullblood division, we held nothing back, bringing forward our entire group of Fullblood females from 2025. A true testament to what our Fullblood herd is all about. Bred up early to three high-quality calf-heat bulls in the industry: Black Gold General Manager, Kuntz NorthStar, and Double Bar D Krush 38M! A true sale feature is the pick of the 2026 born Fleck heifer calves! This pick includes females from strong-producing cows to Embryo Transfer calves, sired by the great Anchor D Viper, SBV Modano, Double Bar D Malone, Double Bar D Krush 38M, and Kuntz NorthStar!

Frozen Genetics are an exciting group we've assembled to offer. BROOKING EMMY 3093 was purchased through FNL and has quickly become a front pasture cow here with a large group of embryo calves on the ground, a heifer calf that will go through the ring at FNL this fall and a unique set of bull calves to feature in our 2027 bull sale! C-D SAMMIE 3345 is another young cow with a huge future here! Our red division is being taken over by OAKVIEW LILAC 61L! A stunning dark cherry red cow with a picture perfect udder purchased as the lead off female from Oakview Simmentals program and her first crack she raised our high selling bull in 2026 ULTRA SIDESHOW 93N for \$100,000.

The Simmental breed has brought us together with some incredible people that have partnered in cattle. You will see the Hay Valley Ranches prefix throughout our bull and females. Trish and Peter Putnam have been great friends of ours and are a huge asset to our program, they're amazing people that have a strong love for the Simmental breed! We know the fall time can get busy so in case you are unable to join us on sale day our good friends Scott and Rebecca of Bohrsen Marketing will join us along with their trusted team! We have the utmost confidence in their opinion so please don't hesitate to reach out to them for assistance! We'd like to welcome Roger Peters with Peterosa Exports to be joining us as well. Mark Shologan with DLMS will be broadcasting the sale where you can bid and buy with confidence from afar if required!

We can't wait to visit and host you September 24th at the Ranch west of Carstairs. As always you are welcome anytime before the sale to swing by for a tour!

The Elegance Era
ULTRA LIVESTOCK

WELCOME *from* BOHRSON MARKETING SERVICES

On behalf of Bohrson Marketing Services, it is our pleasure to welcome you to the 2nd Annual Ultra Livestock Elegance Era Female Sale. Following the success of last year's inaugural event, the Chalack family has once again opened the heart of their program and assembled an impressive offering for September 24, 2026, at their ranch near Carstairs, Alberta. For more than 35 years, Ultra Livestock has built its reputation around productive cow families, sound structure and cattle that perform in the real world. Tim, Cathy, Riley, Cassidy and Rowdy are passionate about the Simmental breed and take tremendous pride in the cattle they produce. Their program continues to earn the confidence of commercial and purebred cattlemen through females that work and bulls that consistently go on to make an impact.

This year's offering is a true representation of the depth and diversity within the Ultra program. The powerful set of red, black and Fullblood bred females combines proven cow families with exciting pedigrees and services to leading young sires, including their 2026 high-selling bull, Ultra Sideshow 93N, and the impressive Ultra Tokyo Rose. The opportunity to select from the entire group of 2026-born Fleckvieh heifer calves is a special feature, while the frozen genetics offering provides access to some of the most exciting young donor females working within the Ultra herd. Whether you are searching for your next front-pasture female, a cornerstone donor prospect or fresh genetics to advance your program, there is something in this offering worthy of serious consideration.

Beyond the quality of the cattle, the Chalack family's commitment to their customers and the hospitality they extend are what make this event so special. We are proud of our relationship with Ultra Livestock and honoured to work alongside their family once again. We encourage you to visit the ranch ahead of the sale, study this outstanding offering and join us on September 24 for a great evening of cattle, fellowship and Simmental enthusiasm. If you are unable to attend, please contact any member of the Bohrson Marketing team. We would be pleased to discuss the offering, provide our honest assessment and assist with your purchasing needs in complete confidence. We look forward to seeing you at the 2nd Annual Elegance Era Female Sale!

Best Regards,

The Bohrson Marketing Team

AI BRED MARCH 22 TO ULTRA SIDESHOW 93N (SAFE) • EXPOSED TO TC 135N APRIL 10 - JUNE 1

Wow, one that hits us hard every time we look at this group! A red Cottonball with extra style in that dark cherry red package we all desire! A maternal sister sold as a high seller in last year's sale to Jaycee Clark. 105N has all the credentials to follow in her sister's footsteps with a large foot and extra fluffy ears! The quality and predictability coming from the Cottontail lineage, out of a maternal sister to the \$140,000 Tommy Gunn, this marks one of the most impressive females we will have on offer! Adding to the pot, she's bred up to the \$100,000 outcross calving ease bull, ULTRA SIDESHOW 93N!

AI BRED MARCH 24 TO ULTRA SIDESHOW 93N (SAFE) • EXPOSED TO TC 135N APRIL 10 - JUNE 1

Here is a very strong example of great genetics stacked together to make an absolute beauty! 103N is a picture-perfect female, sired by the \$120,000 Lethal Weapon, coming out of an Approval cow. This genetic masterpiece puts it all together perfectly. Dark cherry red pigment, incredible eye appeal, and setting in an udder just as her dam has, with small teat size and near-perfect placement. We have high expectations for this female, and we believe she will follow through and not disappoint. A maternal sister sold through this sale last year to Reidlingers. Once again, another exciting ticket inside her being bred to SideShow; imagine if she sets down that dark red calving ease bull calf... the possibilities could be endless!

AI BRED MARCH 22 TO ULTRA SIDESHOW 93N (SAFE) • EXPOSED TO TC 135N APRIL 10 - JUNE 1

Now if you're in the market for an absolute powerhouse of a female - 50N is Lethal!!! She is a tank, powerful from every angle, stout-featured and packed with dimension. This female will be found easily, backed by a pedigree for longevity and one that each year will raise those big, heavy bull calves every fall! Take a close look here with a stacked pedigree: Liner 56U, Sage, TC 90N, Rancher, Sammie, to name a few. This female is one to have on the shortlist, and to add the cherry on top, we tossed in Sideshow for her first mating!

FOREVER IN OUR

BRENT STEWART

Hearts

It was just last year that Riley, Cassidy and Brent all sat around the kitchen table with a coffee in hand, discussing the possibility of a female sale for Ultra. We were so fortunate to spend lots of time with Brent last year after the loss of his beloved wife Dale. Brent always had us on his list of places to stop in and stay for a visit while on his travels to see Kelsey, Tyler, Brance & Blair. Not only did Brent heavily influence our decision to start a female sale in the first place - he is someone who's opinion really mattered to us. He would always kindly say "but what do I know" or "that's not how I would do it" with a shrug of his shoulder. But let's be honest - that was his way of saying what the hell are you thinking.

We always looked to Brent for guidance and for the occasional laugh - but more importantly the stories. Some of the stories and memories that Brent would share with us around our table will forever be something we hold onto. Brent worked for Riley's Grandpa Doug and Grandma Joanne as a young man and while unfortunately Riley never got to meet Doug before his passing in 1978, Brent was always there to tell the tales of 'Back then'. Brent always said that Riley reminded him of Doug and that is where we had the inspiration for Rowdy's middle name 'Douglas'. Needless to say Brent was a not just a friend but someone we considered family and we are still trying to wrap our heads around losing him but it didn't feel right not to recognize the impact he has had on us. We are forever grateful for his friendship and he will be greatly missed.

Baldieeee time! Top Tier female has a lot to offer - Incredible presence, stout-topped, wide-assed, and a sweeping belly. A moderate female that puts it all together and is one we sure enjoy looking at. A prime example of what these PR Man daughters can produce! Coming from a long-standing cow family here at the ranch. Bred early to the \$100,000 SideShow with potential for a red baldie baby, hang onto your hat here; this could make for a quick ROI!!!

A red baldie female to lead the pack in 2026 with Power, presence, and loads of maternal traits throughout her pedigree to back her up! Exceptional teat placement and a size that we know all approved daughters prompt. The capacity, easy doing low maintenance quality's of her grandsire MRL PR MAN! We've been a fan of this beauty from the start and are excited to see the impact she will create for her future! Bred early to our high-selling bull in 2026, SideShow, who sold to KT Ranches for \$100,000; pretty exciting ticket inside this one that could create a large ROI on the first crack at it!

If you're in the market for a large-framed female with loads of length, walk with me through this big, bald-faced PR Man daughter. Easy to find and very comparable to a pen mate TC 50N, two heifers that complement each other in this group. A female that just has that much more substance than the rest! Dark cherry red colour, large-footed, and backed by an exceptional Milestone cow. Packed pedigree with loads of maternal traits, this female checks off a lot of boxes and paired top with SideShow. Wow, I think that could be quite a cross for her first kick at the cat!

PR Man is a red bull that made an everlasting impact on our herd. We fame him for his son, the \$140,000 Tommy Gunn, but it's his daughters that have made a large impact on our herd. In production, they are high-efficiency cows, with great udders, lots of milk, and busy outproducing themselves. 145N is going to be that same type. Dark red, low-maintenance, hard-working female. Have a peek here, as these will be the last PR Man daughters we ever offer.

AI BRED APRIL 3 TO ULTRA TOKYO ROSE 17M (Safe) • EXPOSED TO TC 135N June 1

We've had this female on our mind for a while to lead off the black bred division for our 2026 sale for some time now. Absolutely, we should be keeping this female. We wanted to show the best of what Lethal Weapon did here for us. Tess is just all that: massive rib shape, eye appeal, foot quality, and excellent teat placement. Extremely docile, as every Lethal Weapon is. Her dam is a maternal sister to Spring Creek Lotto and has been incredible in production. Very attractive cow that has produced feature bulls throughout the years in our bull sales. If you're locked in and looking for a black-bred that could boost your program to the next level up. Dig into Tess 54N, we had to breed her to none other than one of the hottest calving-ease black bulls on the market, TOKYO ROSE!

We could go on and on all day about these Lethal Weapon daughters. In my opinion, they're loaded with maternal traits and the brood cow features. Tess 24N comes from the same lineage as TC 54N, backed by the great Spring Creek Tess 25T, the dam of "Lotto". A cow that made a huge impact here, now deceased; her daughters roam largely and are incredible in production. Tess 24N is an exceptional bred that looks to be building that same udder as her dam has laid down for us. There's a hot little ticket inside this black beauty as well, bred early to TOKYO ROSE!

AI BRED APRIL 20 TO ULTRA TOKYO ROSE 17M • PREGCHECKED TO MAY 26 BRED BY ULTRA/HVAL SLIDER 135N

Dottie, as we call her, is a big-time bred that has been a standout from a young age. Dottie not only has a cool baldie face but has the phenotype to back her top as well. Promotes herself with an attractive build, from her front end into a sweeping belly. This female has loads of potential. 87J, her dam, has produced some wicked cool bulls we've had come through the sale ring at bull sale time. A maternal sister to the \$140,000 Tommy Gunn adds a little more excitement to her stats! In the spring, we had a really cool Slider son get hurt and couldn't make the bull sale; we think a lot of this Slider Son, this mating could make for a neat Baldie offspring!

Here comes a Dynasty daughter that puts it all together! Large-framed, big-middled that's going to smoke out some powerful bull calves in her time. SVS Dynasty made his mark on the incredible females he produced, and 147N is among them here. We would take a whole pen full just like her. In the spring at our bull sale, Dynasty sons were a huge hit! The Cassey cow family has been a long-standing lineage here at the ranch, and I can't believe Tim is letting this one go! Our loss will be your reward here! Why not get a little more fired up and see what she cranks out for a calf from the TOKYO man himself! This one cycled a little early, so if you're looking for a Christmas gift for your wife, husband, or child.. I don't know anything more exciting than a Tokyo Rose calf!

Now for those looking for a Homo Black baldie, here we go! MS Blaze has it going on! Loaded up with eye appeal and stoutness! A pedigree that is built to last, once again out of a highly productive PR MAN daughter and sired by the blaze face master himself W/C LOADED UP! This is one cool female that will demand your attention. Absolutely, we bred her to the calving ease specialist himself - TOKYO ROSE! Imagine next January, and she sets down that baldie Tokyo calf; it will have all of Japan talking!

14 PICK *of the* FLECKVIEH HEIFER CALVES

PICK TO BE COMPLETED BY NOVEMBER 1, 2026

This lot really excites us! We've built a very strong group of females in our fullblood division and we are high in quality and at the quantity we can sustain. With that we offered pick off the cows last year, this year we are offering a pick of the 2026 born heifer calves! A very diverse group of heifers coming from proven cows, to exciting new and proven genetics through Embryo transfer. A few highlights come from matings as TC 104L x Anchor D Viper, Dream 104L was the \$50,000 pick of the herd last year to our great friends at BlackGold. There are four full sib flush mates from the maternal giant **ANCHOR D VIPER** that have been standouts from day one! Along with daughters from **WJS 748E**, **WJS 749E** and exciting enough there are two flush sisters to those two cows that have us fired up! A large sire group from **SBV MODANO**, **DOUBLE BAR D MALONE** and our walking herdsire **DOUBLE BAR D KRUSH 38M** a HOMO Polled bull that has impressed us in early production! Huge opportunity here on a great group of Homo Polled, Hetero Polled and horned heifers! We're excited to see which female is selected!

EXPOSED TO DOUBLE BAR D KRUSH 38M SAFE TO APRIL 17 BREEDING • EXPOSED TIL JUNE 1

Miss Lina is a Canon daughter backed by a wicked good uddered Double Bar D Spitfire cow!

We purchased her out of Ivan Matthews' string in the Stars of the Valley sale, and she has been a great addition! These Canon daughters speak for themselves, as we've all seen over the years, consistent in udder quality and predictability. They've topped sales throughout the country and rightfully so! Loads of length and a heavier-haired female that will be a very versatile breeding piece! Bred to the high-selling Homo Polled calving ease bull we bought two years ago from Double Bar D Farms!

AI BRED MARCH 14 TO BLACK GOLD GENERAL MANAGER (SAFE) • EXPOSED TO DOUBLE BAR D KRUSH 38M APRIL 3 - JUNE 1

We've brought possibly the strongest set of fleck breeds we feel we've had. Leading the charge is MS Quebec! A powerhouse of a Homo Polled female! Incredible pigment, style, and depth in this female. Her dam FGAF UPOLA 041F is a picture-perfect cow to us. One of our elite flush cows as well. 041F has as neat and as perfect an udder as you can have! She has been lights out on all her progeny, and we believe 95N to be her greatest accomplishment to date! If you're looking for a Homo Polled female to move your program to new heights, dial in here to MS QUEBEC 95N! Bred up early to the high-selling calving-ease bull out of the Black Golds program, General Manager!

AI BRED MARCH 17 TO KUNTZ NORTH STAR • EXPOSED TO DOUBLE BAR D KRUSH 38M APRIL 3 - JUNE 1

Erika 206N has always had a great look and been a favourite when checking pens or the pasture. Really easy on the eyes this heifer, tons of depth and length. A female that is so correct and complete. One that could head to the flush pen easily after she lays down a calf. Dark colour with good pigment, and her udder will possibly be the greatest attribute she will possess! Her lineage goes back to the great Erika 748E and has passed on her tremendous maternal traits! Dive into a front pasture cow in the making here!

AI BRED MARCH 17 TO KUNTZ NORTH STAR • EXPOSED TO DOUBLE BAR D KRUSH 38M APRIL 3 - JUNE 1

As we take a walk over here to 96N, she is a very close image to her full sister in blood to 206N! Two females that complement each other strongly! We are just as excited about these pilot females as we were about the sons! With impressive calving ease numbers and still boasting high quality - watch for these females to make their mark in early production. Once again, dark in colour and pigment, with incredible udder structure setting in place. If you're picky about udder quality, take a good look at her, as she will succeed past any exceptions!

AI BRED MARCH 23 TO KUNTZ NORTH STAR (SAFE) • EXPOSED TO DOUBLE BAR D KRUSH 38M APRIL 3 - JUNE 1

Big-time Whisper 36G daughter here! Sired by the great Dirty Harry, he adds tons of maternal traits to this horned herd bull producer in the making! Whisper 36G has been a staple donor here for us. Sired many of our high-selling fleck bulls throughout the years and females that we just love to keep duplicating. A maternal sister is working at Crossroads Farms and has made a big name for herself in a short period of time there. Producing high-quality sons that gathered a lot of attention. We feel 78N is going to follow in those footsteps and has a bright future ahead. Added value being bred to Kuntz NorthStar, expect a polled baby for a quick ROI!

AI BRED APRIL 26 TO KUNTZ NORTH STAR (SAFE) • EXPOSED TO DOUBLE BAR D KRUSH 38M APRIL 28 - JUNE 1

Homo Polled Eliza daughter sired by the breed-leading SBV Modano! What a combination we've put together here! A very exciting and fresh pedigree on 207N, a young female that continues to impress. Very attractive build with lots of depth and future in this female! We could go on for days about the genetic value and potential! Bred to North Star, this will make for an exciting Homo Polled offspring!
