Welcome

Same Integrity, Same Focus **NEW VENUE**

Destiny Simmentals

We want to begin by expressing our sincere GRATITUDE to everyone who has purchased cattle or placed bids in our past sales; your continued support means the world to us. We also want to thank our dedicated crew, who work long hours to keep everything running smoothly and ensure these cattle are presented at their absolute best for your evaluation.

With that said, Destiny is thrilled to be part of now 17 editions of the Futures One sale. This year's lineup features 5 exceptional calves (including 2 choice lots) and 3 premium bred heifers. Destiny Simmentals is committed to the success of each female and would like to reserve the right to (2) flushes at our own expense on any female sold in Futures One. We truly believe this is the strongest group we have ever put forward, offering an incredible balance of outstanding phenotype and proven genetics. We encourage you to take a close look at these cattle and study their pedigrees. This offering introduces unique genetic combinations that provide a stellar opportunity to build a powerful, rising cow family. These females are built on a foundation of consistency and longevity—practical, functional cattle that will compete hard in the show ring and mature into high-impact, front-pasture cows. For your convenience, all cattle are tie-broke, and calves have already proven themselves with a successful show career!

We invite you to dive deep into this set, as it is a lineup we are incredibly proud to offer.

Jetstream Livestock

With this 17th Edition of our sale, the Jetstream offering is a complimentary group of heifer prospects and foundation bred heifers with strong genetics and solid phenotype. We strive each year to bring front end females to Futures with the anticipation that each lot carries a high ROI potential. All our lots are halter broke and very socialable with that almost "in your pocket" personality. Thank you for your consideration of genetics by Jetstream this year and years previous. Appreciated!

The event itself is a twist to years previous but the commitment by ourselves and the entire Futures group remains steadfast – a quality offering of cattle by genuine folks that are passionate about the Simmental breed. Please reach out to ourselves, any of the consignors or a member of the team at Bohrsen marketing with any inquiries. We welcome your visit in Ennismore at Cedar Creek Simmentals for Futures One Edition 17.

Cedar Creek Simmentals

We appreciate the friendships that we have made with the Futures One group as well as the bidders and buyers that support our programs each year. Hosting the sale group makes things even more special for us and we would like to thank all of our family and friends who have helped prepare for the weekend. Straight up...the three heifers that we have on offer are the right kind and the best we have this year. Once again the heifers are halter broke and we stand firmly behind the cattle. Come and check out Ennismore, great people and cattle.

Time View Farms

It is exciting times for us here at Time View Farms as we continue to grow our program and our involvement with the Futures One Sale. We are grateful for the opportunity to be a part of this great group and to showcase cattle that represent what we are working towards here at our farm. For edition 17 we are excited to offer two females we believe will work well in any herd and illustrate our program and showcase what we are trying to achieve. This year our heifer calf offering is very stylish and muscle packed young female. Our bred heifer offering is a big middled, bold made female who gives opportunity to add some Hannibal genetics to your herd. We are passionate about our Simmental breed and what we offer here at Time View and we invite you to please reach out to Alex or Tim for any further discussions on how these females could fit into your operation.

Keystone Livestock

Once again this year we are humbled to be a part of the Futures' One Family. For nearly two decades this sale has proven to be a valuable stop on the fall schedule and this year will be no different. What is surely to be an exciting weekend of seedstock sales, we are confident our offering will provide predictable and proven genetics that are backed by great families. Whether you're looking for production females or competitive projects, the bases are covered in this group. We look forward to the social setting and welcome everyone to evaluate the offering in person, or we'd enjoy visiting with you to help find the right package to add to your program. The rebuild is coming, now is not the time to fall behind. Invest in your future at FuturesOne!

CATALOG INFORMATION

Catalog production was done by Bohrsen Marketing Services and can be viewed online at www.bohrson.com

EPDs are current and up-to-date as of publication date.

Information in this document is believed to be accurate, but any updates prior to the end of sale, will take precedence. Pedigrees in this document have been supplied by the Breed Association and all other information has been supplied by the seller.

FARM GATE BIDDING

Please refer to inside back cover for bidding details.

It is our pleasure, on behalf of the sales management team at **Bohrson Marketing Services**, to welcome you to another outstanding edition of the Futures One Sale. Over the years, Futures One has established itself as a highly anticipated event for cattlemen and women looking for quality females and genetics from progressive programs, and this 17th edition certainly carries that tradition forward.

The consignors have once again risen to the occasion, assembling an impressive set of cattle that will be of interest to breeders across the country. **Destiny Simmentals, Cedar Creek Simmentals, Keystone Livestock, Time View Farms and Jetstream Livestock** have each brought their own unique influence and breeding philosophies to this offering. The result is a diverse and exciting group of cattle backed by proven cow families, leading genetics and programs focused on producing cattle that are built to last.

As you study this catalogue, you will find opportunities to add powerful females, productive cow families and exciting genetic packages to your program. Whether your focus is on building a cow herd, adding the next generation of donor females or securing genetics to move your program forward, there is plenty to evaluate throughout this offering.

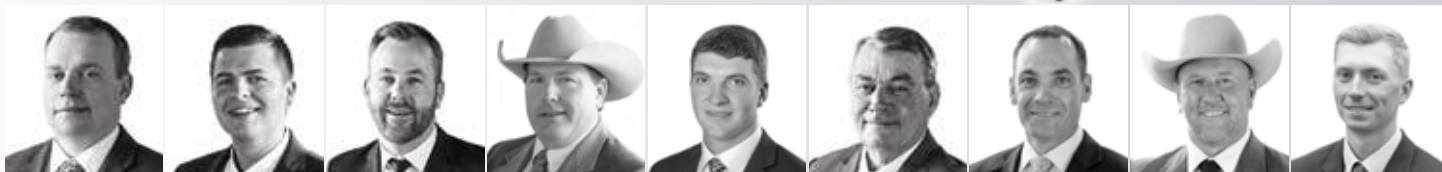

We have tremendous respect for the commitment these breeders put into their programs and the confidence it takes to offer cattle of this calibre to the public. It is that commitment to quality, consistency and progress that continues to make Futures One a sale worth circling on the calendar each year.

The sale will be conducted **entirely online through DLMS FarmGate**, allowing buyers from across the country to participate. All sale cattle will be available for viewing at Cedar Creek near Ennismore, Ontario, and we strongly encourage prospective buyers to make the opportunity to view the offering in person prior to sale day.

We invite you to study the cattle, their pedigrees and the cow families that have built these programs. We are confident you will find individuals that can make a meaningful contribution to your operation and become important pieces of your breeding program for years to come.

Thank you to each of the consignors for their continued confidence in the Futures One Sale and in Bohrsen Marketing Services. We appreciate the opportunity to work alongside these progressive breeders and look forward to assisting buyers throughout the sale process.

A grand daughter to the great American cow JS BLACK SATIN BOOTS 9B, this one is raw power yet puts it all together so well. RTC 13P is a powerhouse with lots of size and dimension. She moves perfectly when you set her in motion. This is one that has started off with a very successful show career but more importantly will go on to be a big-time donor cow to raise tonnes of great ones. Destiny Simmentals is committed to customer satiation and we are open to having a discussion to continue showing along side new owner.

The natural calf off our donor cow CLAC BLACK SATIN 629G. This one proves even though she's a donor cow she can get down and work. RTC 21P has very nice muscle shape, when you get in behind this one, she is a big hipped wide topped type of female. Yet so elegant how her body blends. You set this one in motion she hits her track every time. Another sister that is going to have a big impact in a donor pen when she hits her prime. Destiny Simmentals is committed to customer satiation and we are open to having a discussion to continue showing along side new owner.

RTC 10P is backed by a pedigree that makes practical and functional cattle. 10P comes in the flashy momma cow package. This one hits you with a punch, you must admire this heifer for her long spine, shape of body and how she is so nicely made in her lines. You put this one out on the move and she does it so loosely and freely. 10P is bound to be a front pasture cow looking like this already and just coming off a two-year-old. Tie into this one, her story is just starting. Destiny Simmentals is committed to customer satiation and we are open to having a discussion to continue showing along side new owner.

A beauty with distinctive presence because of her deep centre body, feminine front end and alert head carriage. Dam is a Gala sale graduate and was our pick of the bred heifers on offer. With 2 maternal heifer sibs to 4P in production at Jetstream – we feel confident in the positive opportunities ahead for this heifer. We have a large group of Ultra Tokyo Rose heifer calves this year and are very satisfied in what we see so far. He seems to have stamped them “all good” and this heifer is a front runner of the group.

This heifer embodies "baldies are beautiful" and if you are a baldie lover, then you will want to add her to your calving list for 2027. Proven pedigree with both easy fleshing performance and phenotype for long term production. Pretty face out front along with good bone standing on a square foot at the ground and nice teat size and spread. A brood cow prospect with overall balance of mass and power. Nyomi is super quiet to work around. Maternal sister sold to Pouliot Sim, Quebec in 2025 Futures One.

An eye catching red baldy with all the credentials. Maternal strength as granddam was Lucas's 1st 4H project and left the herd just last year (at 15) still boasting a tidy udder and feet that had never been trimmed. Quality and stayability traits we strive for and anticipate are offered in 8N. Paternally, the SVS Justified bull has pedigree loaded with proven and influential genetics.

CDI Trustee progeny got some deserved notoriety last year for both winning banners and topping sales. An outcross pedigree that produces progeny with muscle, shape and performance. 47N will grab your attention with the baldy face and that richly thick poker straight black hair. She is long bodied, sound structured with some base width and dimension that we feel will transition her into a productive powerful cow prospect for years forward. Her dam, Dunc JuJube 4J was a Gala sale purchase as a calf and has produced heavy weight baldy steers with this being her only heifer to date. We are hoping the cow kicks out a few more heifers here at Jetstream, as we really like what this cow has done for us so far.

Topaz is a heifer we are confident will prove her merit in production. This growthy daughter of RFS Heavy Hitter H45 is a very good example of what we see the sire group consistently representing. The growth curve, extension and balance in this sire group has us excited to see them in production. When it comes to her maternal side of the pedigree it has been rock solid. The JETS/KEY GEM 31H cow has never missed and for the last 5 years has put a feature heifer in this sale. In the 15th Edition of FuturesOne, a full sister to 84N was a featured high seller that went to Heartland Acres for \$14,500 and went on to have a memorable 4H show season for them. When we evaluate this heifer we see an easy fleshing, extremely docile female with added frame, capacity, TOP 1% WW and YW and a beautiful bald face. Her mating to the eye appealing and easy calving Tokyo Rose will be very complimentary.

Bold, beautiful and just flat out impressive! From day one, JETS/KEY Precious Gem 94P has been a standout for growth, depth of body, hair and structure all in a well balanced and attractive package. We chose to use her sire RF Intensity 3142 because of the cows behind him and the sisters that we so admired when we saw them at Rancier Farms and on the show road. His influence shines through with dimension, capacity and genuine quality in this striking female. Precious Gem ties all this physical quality into a functional package with a sound structure. This summer she has been admired by others and campaigned successfully by our daughter. Together they have been a great team and captured Reserve Hfr Calf Champion at the 2026 YCSA National Classic. When we analyze the cows behind this female and combine that with her true performance and an impressive and proven pedigree, we think she is special! From every angle, Precious Gem screams cow power.

Not a shock that we are featuring a Sage in this year's offering, but she sure will provide some awe when you see her. Athena is long and smooth made and has enough substance to make a cow. Easton has had fun showing her as his 4-H project and she has not been beat in a heifer calf class yet. Maybe the best thing about Cedar Creek Sage is just how consistent she is when it comes to producing functional, quality and eye-appealing progeny year after year. We always planned on mating Sage to Tycoon, but it just took us a few years to get around to doing it and there is no surprise with the result. A couple Sage highlights include a stunner to Keystone that they have managed to a tee and an exciting Caliber daughter to Time View in last year's sale that looks great as well as many others. Get a Sage...they make you money and look good doing it. Owned with Bristolview, Maple Lea and Murray Farms.

GVR 545G was purchased as a heifer calf from the Border City sale and she has been very productive every year. She has sent progeny to Dunraven, an \$8500 dollar high seller to Twin Springs and one to the keeper pen here. 545G stamps all of her calves with her silhouette, a massive sweeping rib, thick top and big square hip all while still looking like a lady. Lea also has that attractive baldy face and clean profile that could get her some looks in the show ring. All of the parts are put in place for this one to develop into a front pasture cow that your visitors always ask about. Owned with Maple Lea and Bristolview.

Eye Kandee was locked down to stay at Cedar Creek until the decision was finalized to host Futures One at our place. We then decided that she needed to be included so that when our heifer calf crop is on display, visitors could see that we included our best three purebred heifer calves in the sale. 16P's maternal sister was a highlight for us in last year's Futures One and this Justified baby is just as good. She is super long made, strong topped and if she drops an udder like her mother it will be flawless. Currency Kandee is a trouble-free, productive cow that was a past Futures purchase from Destiny and is one of the leading black cows in our program. We sure hate to part with Eye Kandee, but the sound investment that she will become has us excited for her new owner.

Here is a January heifer we are very proud of in terms of her overall muscle and balance while still maintaining a clean, sleek, showy look. Her dam Jets 17e is one we purchased from the Jetstream program and man, she hasn't disappointed. She breeds back early every year, has a great set of feet and legs and maintains a beautiful udder at 9 years of age. Paired with the exciting RF Boomer bull we feel this heifer has lots of potential whether a junior uses her for a 4h project, or a female that will make a front pasture cow.

This bred heifer is one we are pretty excited about, she's as deep middledd as you can make them in a moderate framed package that looks to be setting down a beautiful udder. Ai bred to Toko Rose. We feel January will be very exciting when this female enters the calving barn. Her dam is a female that was part of our show string as a heifer calf, again as a bred and is now making a great cow. With Hannibal now being deceased his progeny is harder to get your hands on, here is your chance to add one to your program.

AI bred to Toko Rose on March 27 2026. Safe

Exposed to TMVF 61L from April 9th to May 15th

How to participate in the DLMS Farm Gate Timed Auction with Extended Bidding:

Saturday, OCTOBER 3 - 12 PM EST - bidding begins
Sunday, OCTOBER 4 - 5 PM EST - auction closes farmgate style

1. Visit <https://farmgatetimedauctions.ca>, click the LOGIN/REGISTRATION button. First time users will select the REGISTER button from this page. Fill out the registration form to sign up for a free user account and it allows you to select a user name and password for use on all Farm Gate Timed auctions. This program will send you text and email messages whenever there is activity on your favorite lots or someone challenges your proxy bid and this is why you will be asked for both your current email and cell phone number. If you are a past participant in the Farm Gate Timed auctions simply enter your user name and password to continue. This takes you to a list of both current and upcoming Farm Gate Auctions.
2. You can choose your favorite lots in this sale at this time and the program will allow you to open either all sale lots or just your favorite lots on your screen. Anytime there is active bidding on a lot you have identified on your favorite list you will get a text and/or an email noting this activity.
3. The program allows you to place a proxy bid on any sale lot. This in fact protects your interest in any lot of interest for you to a specified dollar value you set, when you may not be able to give 100% attention to the sale. If the lot has a \$2000 bid on it and you place a proxy bid of \$3500 into the system, the computer will bid \$2100 for you but if someone else bids \$2200, the computer will again bid for you, this time at \$2300. The system will look after your interest to a maximum of \$3500. If another bidder is on at \$3600, your proxy will no longer be effective and you will not longer have the winning bid on this lot without once again logging in and bidding again or moving your attention to a second lot of interest.
4. At closing time of the sale the entire sale will extend bidding for 5 minutes if a bid is placed on any lot in the sale. Any bid received after 7 PM MST will extend the sale by 5 minutes from the time of that bid. When no bidding occurs for 5 min the computer will declare the sale finished.
5. Within 24 hours of the sale close the Sale Manager, Bohrsen Marketing Services will contact all winning bidders to arrange payment, transfer of pedigrees and deliver/pickup of your lot.

If you require assistance with using the DLMS Farm Gate website, if you don't understand how to create a favorites list, if you can't figure out the proxy bid or you just plain want to bid via phone, please talk to any of the DLMS team or Sale Consignors.

WHAT IS RACEHORSE STYLE SALE CLOSE? Racehorse style sale close is when the entire sale stays open in extended bidding. This type of sale allows you as the bidder to change to a different lot within the same sale if the bidding has gone into extended bidding.

HOW WILL EXTENDED BIDDING WORK? When we get to the close out end time the clock for close extends with any bid placed with less than 5 min on the clock. This type of extended bidding turns the end time to more of a soft time. Extended bidding allows bidders to compete in lots like a real auction and gives all bidders the same time to make a decision. Always follow the clock to see how much time remains in the sale you are interested in.

If you require assistance with the Racehorse auction process or bidding via phone talk to any of the DLMS team or sale consignors and we can help you in purchasing the lot you are interested in.
