DELIVERY

The Consignors agree to that any cattle requiring shipping East, West or South will be trucked to Knills Livestock International Trucking Paris, at no charge to the purchaser. WE will also help make arrangements for other cattle requiring delivery.

TERMS & CONDITIONS

Cattle will sell under the standard terms and conditions put forward by BMS and the respective breed associations. These are available upon request.

For all Miller Livestock females the seller reserves the right to 2 successful flushes or 6 or more embryos at the sellers expense and buyers convenience.

WELCOME *from* BOHRSON MARKETING SERVICES

It is a sincere pleasure to welcome everyone to the 4th Annual Koyle/Stewart/Miller Online Sale. This is an event that means a little more to me personally, as my relationship with these three families goes back nearly 25 years to my time living in Ontario. Long before Bohrsen Marketing Services began, I knew and respected the people behind these programs, and that makes it especially rewarding to work alongside them today.

The Koyle family has always held a very special place in my life. Dwight and Cathy were like parent figures to me during my years in Ontario, and they are people I have always had an incredible amount of respect for. That same respect carries into their cattle program. The Koyle crew has never been afraid to offer their best, and once again they have dug deep into the heart of their cow herd. Their offering is stacked with pedigrees tracing to some of the great cow families in the Angus breed, including Proven Queen, Rosebud, Rose, Beauty, Blackbird and Firefox. These are cow families they have built around and believed in for generations, and that depth is evident throughout their offering.

I have always looked up to the Stewart family and the impressive cow herd they have assembled. For many decades, they've built a Simmental program that is extremely impressive and competitive in the showing and go out and produce in the real world. This year's offering brings another exciting chapter with the first progeny from WBC All In 26M. They selected All In for his performance, structure, depth, natural thickness and herd bull presence, and judging by this first calf crop, he is breeding true to those qualities. This is the first opportunity to purchase his progeny, and there is an impressive group

represented throughout the Stewart offering.

The Miller family brings another tremendous set, and anyone who knows this family knows the level of livestock knowledge behind their program. In my opinion, they are among the very best multi-species livestock judges in this country and the Miller name is known for their sheer ability to breed elite livestock. Their open Angus females are deep in quality, combining phenotype with productive cow families and proven genetics, while their club calf division is exactly what we have come to expect from Miller Livestock. Simply put, the steers will blow your hair back. The success of cattle sold through this sale speaks for itself, with past offerings going on to win at major junior and 4-H events across the country.

What makes this sale so enjoyable is that although these three programs are different in their breeding philosophies and areas of focus, they share the same fundamentals: good cattle, strong cow families, sound livestock judgment and families who have dedicated their lives to agriculture. I encourage you to study this offering closely and, whenever possible, make the trip to Koyle Farms to see the cattle for yourself. More importantly, take the opportunity to visit with the Koyle, Stewart and Miller families. They are people I have been fortunate to call friends for nearly two and a half decades, and it is an honour for our team to represent them and their cattle.

WBC ALL IN 26M

We are extremely excited to offer the first calf crop from WBC All In 26M in this year's annual sale. This is a sire we had high expectations for when we selected him, and his first calves have certainly delivered. WBC All In 26M (CA-PTG1469327) was born in 2024, with a 98 lb birth weight and an impressive 956 lb adjusted weaning weight. Sired by WF High Stakes 58J, he was consigned by Westbrook and selected by us at the Blairs Ag Bull Sale. We purchased All In because of the combination of performance, structure and genuine herd bull presence he displayed. We felt he had the ability to add the kind of cattle we strive to produce—cattle with depth of rib, natural thickness, strong eye appeal and that soft, soggy look that makes them attractive from every angle.

Now, seeing his first calves on the ground, we are thrilled with what he is doing. His progeny have the dimension, depth and substance we hoped to see, while maintaining an attractive, functional phenotype. They are the kind of calves that catch your eye in the pen and continue to impress when you study them from the ground up. We are proud to offer these calves exclusively through this year's annual sale. This is the first opportunity to purchase progeny from WBC All In 26M, and we believe this offering represents a very exciting beginning to what we expect will be a highly successful career as a herd sire.

We bought him with confidence. We are calving him with excitement. And we are offering his first progeny with even more confidence.

Warm regards,
KSM Cattle Sale

MILLER KEVIN 1K KOYLE ROSEBUD 2011

NORTH PERTH BARBARA 300 RIVER POINT ROSEBUD 315Z

Lot 30 is a grand daughter of 2011 and her dam is by Marvel and 2011. In production 2011 has had a major influence in our herd. This daughter by Miller Kevin 1K puts a lot of Canada's top cow families together. Kevins's dam North Perth Barbara 300, produced the 2019 Canadian Angus Female of the Year, North Perth Barbara 507 for Merit Cattle Company. The Kevin's come easy and bright and develop into moderate, nicely balanced with excellent quality shape, with excellent temperament. **Exposed to Brooking Rust Glacier 16N from Apr. 15 to July 1. GRANDSIRE 001

and her Angus Phenotype.

Exposed to Brooking Rust Glacier 16N from Apr. 15 to July 1. (Safe)

HOW TO BID | WWW.DLMS.CA | FARMGATE TIMED AUCTIONS

HOW TO PARTICIPATE IN A FARMGATE TIMED AUCTION

After you are at the FarmGate Timed auction site click the LOGIN/REGISTRATION button.

FIRST TIME FARMGATE USERS: First time users will select the REGISTER button from this page. Fill out the registration form to sign up for a free user account and it allows you to select a username and password for use on all Farm Gate Timed auctions. (please note due to some of the text notification features the FarmGate Time Auction Site requires a new account separate account from your DLMS Live sale site)

- After you create your FarmGate account you will receive a txt message with a pin code to verify your account.

- On your first log in to FarmGate Timed auctions we recommend you go to your profile and confirm your notifications are set to YES. This allows the site to send you text and/or email notifications when you are out bid and if there is activity on your favorite lots.

RETURNING FARMGATE USERS: If you have used Farm Gate Timed auctions in the past simply enter your user name and password to continue. After you have logged in you are able to browse the timed auctions on DLMS FarmGate Timed Auctions.

HOW TO BID IN A TIMED AUCTION: Now that you are logged in and your account phone number / email is verified you are able to bid on an upcoming sale. Simply find the lot you are interested in bidding on. After you have found the lot there are 2 options for bidding on the lot.

PLACE NEXT BID - to place the next bid on the item, you see the amount in the first box, you simply click the "Place Bid" button and after you review the bid and agree to the terms and conditions your bid will be placed.

MAX BID AMOUNT - to place a max bid you put your max bid in the second box listed as "Max Bid" on the item, and then click the "Place Bid" button and after you review the bid and agree to the terms and conditions your bid will be placed as the next bid. With the Max Bid placed the computer will then keep you as the high bidder to the max amount you have placed. This can be a great feature if you are not able to give 100% attention to the sale close out and protect your interest so you do not miss out on any lots you want to purchase. The Max Bid amount is completely confidential from the seller during the sale process.

EXAMPLE OF HOW THE MAX BID WORKS - If the lot has a \$2000 bid on it and you place a proxy bid of \$3500 into the system, the computer will bid \$2100 for you

but if some one else bids \$2200, the computer will again bid for you, this time at \$2300. The system will look after your interest to a maximum of \$3500. If another bidder is on at \$3600, your proxy will no longer be effective and you will no longer have the winning bid on this lot without once again logging in and bidding again or moving your attention to a second lot of interest. Please note that in some cases a lot value can change very quickly if 2 max bids are placed on the same lot competing against each other.

WATCH LIST FEATURE: If you have items in multiple auctions or only a few from the same auction that you want to watch with out having to scroll through the entire list you can add the lots to your watchlist. On each lot you will see the "eye" button beside the bid button, by clicking this "watchlist" icon that item is added to your personal watchlist for easy viewing of just your favorite lots in this sale or on the entire site.

SALE ENDING / CLOSEOUT: Most FarmGate Timed Auction sales close racehorse style with extended bidding.

WHAT IS RACEHORSE STYLE CLOSE? Racehorse style sale close is when the entire sale stays open in extended bidding. This type of sale allows you as the bidder to change to a different lot within the same sale if the bidding has gone in to extended bidding.

HOW WILL EXTENDED BIDDING WORKS? When we get to the close out end time the clock for close extends with any bid placed with less than 5 min on the clock. This type of extended bidding turns the end time to more of a soft time. Extended bidding allows bidders to compete in lots like a real auction and give all bidders the same time to make a decision. Always follow the clock to see how much time remains in the sale you are interested in.

BIDDING CLOSE & FOLLOW-UP: After the clock has gone to "ENDED" and no bidding has occurred for 5 min the computer will declare the sale finished. Following the close typically within 24 hours of the sale close the sale consignor will contact all winning bidders to arrange payment, transfer of pedigrees and delivery/Pick up of your lot. Or as the winning bidding you can contact the sale consignor / sale manager to confirm payment instructions.

- Please make sure that your account info is up-to-date and correct if you are the winning bidder of a lot as this is how the billing is sent to Sale manager and/or Sale consignor.
