WELCOME

BLACK BREDS MATTER 2026 EDITION

It is with great pride that we introduce this year's lineup, consisting of a feature flush lot, 33 "Black" bred heifers, 8 halterbroke elite open heifer calves, and 3 embryo lots! We have selected some of our best genetics to offer you, and are excited to showcase them! The flush lot is a rarity, sharing one of our top black donors to the sire of your choice, or utilizing some of our top AI sires, the bred heifers were selected as our top black females and mated to new exciting calving ease bulls, and the heifer calves are the cream of the crop, adding in some of the top calves out of various highlighted sires! We feel we have a wide range of variety when it comes to genetic opportunities and physical phenotypes, and there should be something for everybody in terms of type and kind and budget. Like last year, the decision to retain all the red bred heifers had to be made, to increase our red herd, and get our red/black split back to 50/50. Therefore, we have offered up some heifers from the black herd, that would never sell otherwise!

The use of heavy AI and embryo work throughout our program has allowed us to elevate our cowherd based around top donors and genetics that excel in production, foot and udder quality, and easy fleshing ability. We are constantly utilizing new blood in the herd to incorporate in another great cow family, however, we are firm believers in consistency and proven genetics, that we continue to utilize based on live proof through offspring. These females are all included in a total herd health program, and have all been ultrasounded to provide you with the most accurate breeding information we can offer. You will note that these females have all been polled and coat tested, and that info can all be found in their individual lots.

We are a family based operation, and the same people you talk about the cattle with, are the same people that are with them around the clock, and do the day to day activities with them. We know these cattle well, and would be happy to tour you through the offering or cowherd at any time that works for you! The kids have worked hard to halter break the open calves, and have them at the stage where they are very eligible show candidates if desired, or just great front pasture females. We stand behind our product, and although we work hard to gain your business, we will work even harder to keep it!

The cattle market continues to be at the forefront of the agriculture sector, and with the high demand for Canadian beef, we see some consistency in high markets for calves, breds, fats and culls! At these prices, it is easy to cull harder within the herd, and replace with the newer and fresher genetics that will excel in years to come! As we roll into fall, reports are good across the prairie provinces that feed is abundant and the rain continues to be spread around, somewhat evenly! Red meat is at an all time high demand, and we feel today is the best time to invest in genetics that will push your program further ahead!

We hope we can host you on the ranch, Thursday, October 15th, for a 5pm sale! Cattle are available to view anytime, and will be penned closer to the sale barn the morning of the 14th. We will have food and beverages all day on the 14th/15th, so please drop in when it is convenient for you! If you are unable to attend, please talk to us ahead of time, call one of our staff from Bohrson Marketing, or log in online on sale day with DLMS. The catalogue and videos can be found on our webpage, facebook feed, and on the DLMS website.

On this night we celebrate the Ladies of our operation, please make sure to bring the Ladies of yours!

Sincerely, *Ryley*

THE PEOPLE OF MADER RANCHES

RYLEY & JILL
STELLA & HAWKIN MADER

maderranches@gmail.com

Ryley's Cell: 403.807.8140 Jill's Cell: 403.990.9187
Stella's Cell: 403.994.7755 Hawkin's Cell: 403.994.2750

Ryley has been a part of the family operation from a young child and was joined by Jill in 2007. The kids are extremely important in daily tasks. We look forward to many years in the cattle industry.

RANDY & RONDA MADER

rrmader13@gmail.com

Randy's Cell: 403.660.1123

Randy & Ronda started Mader Ranches in 1974. They have worked hard in the cattle industry for 50 years and see all aspects of the operation from day-to-day, management & mentorship.

LANE WATT

Lane has just joined us this summer. He will manage the feed wagon, and assist with the daily cattle tasks and we are looking forward to all he has to offer our operation

SELLING 1 FLUSH OR TWO SPLIT FLUSHES. BUYERS CHOICE. GUARUNTEEING 6 EMBRYOS

-A rare opportunity, where we are going to share the genetics off of one of our very top, elite breeding pieces, Violet 84M

-A female with an unparalleled body design, structure, and elegance we strive for, backed by the $280,000 Walk The Line, and the $184,000 valued Violet 49H

-Her udder suspension is flawless, her mass and rib shape are unmatched, and her overall balance and skeleton structure are exactly why she is at the forefront

-She was super competitive as a bred heifer last fall, declaring the yearling heifer championship at Agribition, and this year rolling in to be the Supreme Purebred female at Synergy/Calgary Stampede, champion purebred female at Alberta YCS, and champion Purebred female at Canadian All Breeds in Bashaw

-We plan to campaign this pair throughout the fall, and have a pile of confidence in this young female pushing our program forward

-She is due to calve mid February, and we are open to discuss IVF or conventional options to flush her from there

AI BRED TO WEPPLERS EIGHT BALL 168M ON MARCH 27TH. PREG CHECKED SAFE TO AI

-An elegant, powerhouse, type of female to lead off the offering. Feminine, nice skulled, then explodes into loads of mass, rib shape, dimension and angularity
-The Violet cow family has made their way to the top of production, show records, and sale records for us
-This one is special, as she resembles the same great udder attachment, leg set, flexibility, and docility that the two generations before her offer
-This matron is destined to be in someone's donor program, and we feel her future is endless
-We have not offered many females from the Violet cow family, so take this opportunity to be apart of the excitement
-A full brother was a feature in the spring sale going for $34,000 to Ag Land, and many sale heifers are bred that way

AI BRED TO WEPPLERS EIGHT BALL 168M ON MARCH 18TH. PREG CHECKED SAFE TO AI

-So similar in type and kind as her sister beside her, maybe a touch more sleak through her front third,and has that beautiful Violet head and ear set
-She would be a tick more moderate in her stature than her sister, but offers the exact same barrel, spring of rib, depth of flank, and udder quality
-For any of you following along in our program, the maternal sister, lot 1, has caused quite a stir in the show ring this past year declaring Supreme Champion female at Summer synergy/Calgary Stampede, Champion Purebred female at YCS, and Champion Purebred female at Canadian National All Breeds
-A rare opportunity to acquire some of our best genetics, combined with the $140,000 Tommy Gun sire who is breeding very true in superior quality
-Their dam was the lead off in Ladies Night a few years back selling to KCH for $92,000 for half interest and the mating to Eight Ball will be very lucrative

EXPOSED TO MADER KISS THIS 93K MAY 6TH - JUNE 14TH. PREG CHECKED SAFE TO MAY 14TH BREEDING.

-A brood cow in the making, backed by one of my personal favorite cows in the herd, Opal 31C, with many top bulls and replacements this cow has produced for us in the last 10 years of production, but she is a no miss cow. Much like her dam, and grandam, Opal 652S, she offers added muscle, a great udder suspension, a big foot and nice leg set

-On the top side is Folsom Prison, the $52,000 bull that sold to Canadian Sires and W Sunrise, who injects the great Walk the Line and Violet lineage in this pedigree

-Look for her to be a herdbull producer who milks heavy and brings in the big ones, this is a hard one to part with

AI BRED TO WEPPLERS EIGHT BALL 168M ON MARCH 18TH. PREG CHECKED SAFE TO AI

-Here is a big strong broody made female that expresses added mass, width over top, barrel, and foot size. The Mary cow family produces pounds and power, and that's what this girl is, and she will be a secret weapon for her new owner in production. Great families like Darlin, Violet, Scream, and Mary make up her genotype, and make her very valuable

-The dam just weaned off a Walk the Line bull calf at over 900lbs. She is bred early to Wepplers Eight Ball, the baldy bull with added calving ease, and punch in his progeny

EXPOSED TO MADER EVEREST 128N ON APRIL 7TH - JUNE 14TH. PREG CHECKED SAFE TO MAY 20TH BREEDING.

-A Kiss This female, a maternal brother to Folsom Prison, and backed by the great Violet 49H female who brought $92,000 to KCH

-The dam to this girl is real easy on the eyes, great udder suspension and teat size, easy fleshing, and productive and the grandam at 10 years old has been very influential, and always brings in the big ones at weaning

-We really appreciate the femininity, the spring of rib, the soundness, and overall balance and eye appeal she offers

EXPOSED TO MADER EVEREST 128N APRIL 7TH - MAY 21. PREG CHECKED SAFE TO AN APRIL 23 BREEDING

-A lead off 3/4 blood female sired by the $100,000 Night Shift sire
-Night Shift progeny continue to raise the bar around here, adding extra pin spread, more lower muscle, and great skeleton structures
-Her Renovation dam out produces herself year after year, as last years bred heifer was a sale feature demanding $17,000 to Deeg Simmentals, and this years bull weaned off over 900lbs
-This is a personal favorite lot with her tremendous structural correctness, her balance, depth of rib, and great udder attachment
-She is bred early to a top son out of Mader The Rookie, a bull that walked here this spring

AI BRED TO MADER MR CHOW 32N ON MARCH 19TH. PREG CHECKED SAFE TO THE AI.

-A Night Shift combined with a Heavy Hitter female, a genetic combo that adds power and performance, this girl screams maternal, added frame and length, powerful, and our loss is your gain
-On the bottom side of her pedigree you will note the Cat House 35D female, a cow that hits it out of the park no matter what we mate her too, and one of my favorite cows on the whole farm
-She is bred to the $50,000 Folsom Prison son that lead off our bull sale to Stacy Bell, Mr Chow, expect a cool blaze face calf out of this one

AI BRED TO MADER THE RECRUIT 103M ON APRIL 2ND. PREG CHECKED SAFE TO THE AI

-Another Good Times female out of a first calver, who happens to be a full sister to Mader Walk This Way. This heifer is elegant fronted, broad topped, sound in her movement
-Her dam patterns so much like the Ironsugar cow, with a great udder attachment, and structurally very correct
-Bred early to the $34,000 Recruit bull that was purchased by Ag Land this spring

EXPOSED TO MADER EVEREST 128N ON APRIL 7TH - MAY 21. PREG CHECKED SAFE TO AN APRIL 21ST BREEDING.
-A full sibling to the lot 16 heifer, and one that you really admire the beautiful skull and fluffy ears she has
-She carries a lot of natural thickness and rib shape through that middle third, and really carries herself well in a real balanced package
-These Good Times cattle offer the calving ease and a great look, and Betts injects that added stifle muscle and power
-Bred to the Everest sire, a Rookie son that should offer great calving ease and a nice look to his progeny

DAM: MADER SON OF ANARCHY 144H / MADER SUGAR 49L / MADER SUGAR 724H

-An exciting opportunity here, being the first daughter to sell off the many time champion, Mader Sugar 49L
-A cow that dominated the percentage show ring the past two years, declaring many champion titles, and a female who has matured into a great uddered, big footed, brood donor
-Her first calf that was shown beside her last year, was our lead off bull selling this spring for $50,000 to Stacy Bell
-Here is a calf that is attractive through that head and neck, carries loads of body capacity and rib shape, is angular out of her hip, and super sound when put in motion
-Show prospect or brood cow, she has the tools to dominate at either

DAM: MADER SIERRA 109K
RF SHAKEDOWN 074H
MADER PROMISELAND 19B

AI BRED TO MADER THE RECRUIT 103N ON MARCH 19TH. PREG CHECKED SAFE TO THE AI
-A super docile, high performance, long spined female. She is backed by a real nice looking RF Shakedown second calver who milks heavy
-On the bottom side of this pedigree is the old Sierra 524S donor, a cow responsible for producing more top bulls throughout the years then any other
-This girly will work hard for her new owner, and mated to the Tommy Gun cross Violet 49H son, will combine real nice with her frame, as he is moderate and thick
-The Rookie progeny are heavy at weaning and tend to be very quiet

EXPOSED TO MADER KISS THIS 93K ON MAY 7TH - JUNE 14TH. PREG CHECKED SAFE TO A MAY 10TH BREEDING

-Another high performance female with added stretch and frame. A 1/2 blood, sired by a real nice Shakedown son, and out of hard milking HF Kodiak dam

-Look for her to be a big weaning weight producer, and have extra longevity

-Bred to early to Kiss This, the son of Violet 49H who has proven to calf easy, and produce well

AI BRED TO MADER THE RECRUIT 103N ON MARCH 19TH. PREG CHECKED SAFE TO THE AI.

-The only Mandate female on offer this year, but one that comes with added look and balance, dropping a great udder structure

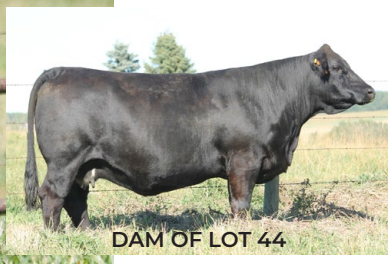

-The dam to this female would be among one of our top producing Opal daughters, and we expect this daughter will do the same

-This girl stays to the back of the group, and doesnt love one on one attention, but get her calved out and I think she will settle right into the herd

-She will lay down to calve, and do nothing but make you money

EXPOSED TO MADER KISS THIS 93K ON MAY 6 - JUNE 14. PREG CHECK SAFE TO A MAY 7TH BREEDING

-This heifer is moderate in stature, is bold through her rib, big topped, and setting up a real nice bag. A Walk the Line daughter out of one of our favorite Cobra cows, the grandam of lot 39
-We have retained numerous daughters in the herd, and they are real good uddered like their dam, and excel in milk production
-I would bet money that this one could make her new owner as fast of a return as any other, based on her dams history

EXPOSED TO MADER KISS THIS 93K ON MAY 6 - JUNE 14. PREG CHECK SAFE TO A MAY 27TH BREEDING

-Another big strong Walk The Line heifer coming out of a highly productive Black Joker cow. A bigger framed heifer, with added length of spine, and a ton of natural thickness and volume
-Her dam has been responsible of raising numerous high dollar bulls, and we have three daughters milking in the herd
-Bred early March to the calving ease Kiss This sire, will work great for someone not wanting to calve in the cold

In 2026 we purchased him for $63,000 from Horner Cattle Co. with Tyler Amundson. This bull combines an elite level of softness with an outstanding hair coat, while offering a big top, stout hip, wide base, and the structural integrity to perform for the long haul. Backed by an elite pedigree, he is out of Rose 1016J, the Canadian National Champion and Ag Ex Supreme Champion, providing further assurance that power, performance, and consistency run deep in his genetics. We needed this new pedigree on the black side and are very excited to see what his future looks like.

We kept a half interest in one of these full brothers out of the $120,000 Tommy Gun sire and none other then the $45,000 Darlin 613D herself. Partnering with Sjogren Farms is always great! We have been back in fourth on those siblings since they were a month old and they still pattern very similar in type and kind. We picked Shawshank for his added length, a dark red color, structurally very sound with a dark hoof, balanced and eye appealing, with added thickness and muscle expression. We wanted another darlin' son to influence our herd further but also the combination of Tommy Gunn to add that softness, color and easy fleshing ability.

We purchased Red Line With Sawley Ranches for $44,000 this spring from Horner Cattle Co. He is the real deal! You can't help but be totally impressed with the frame score, large foot, stretch and extension 5048N possesses. He is still incredibly well balanced, complete and possesses and awesome skull with dark red features and incredibly docile with a large scrotal. His dam 50K, from a phenotypic standpoint, she is as complete as they come. Her udder quality is truly exceptional—regardless of breed, it would be difficult to design one more ideal. She stands on an outstanding foot and combines structural correctness with angularity and strong maternal character. We are excited for the influence of 50K and Redline in our herd
