OF THE VALLEY

Simmental Sale

1:00PM SATURDAY
OCTOBER 17 2026
METCALFE, ONTARIO
METCALFE FAIRGROUNDS

A NOTE FROM THE *Sale Co-Chairs*

Here we are again, gearing up for another great sale showcasing some of Ottawa Valley's very best! Having the opportunity to work side by side with Craig, the Bohrsen crew and along with the rest of the board has made for a great prep that has us excited! We are so glad to have all of the great consignors and look forward to seeing the buyers join us!

Paul Perras Co-chair Sale Committee.

Welcome consignors and buyers to the 2026 Stars of the Valley Sale. A year that came with different challenges than last, but provided green pastures helping this year's offering thrive! The Valley has put together a very strong group on offer. Hope to see the stands full!

Craig Matthews, Co-chair Sale Committee.

Welcome to Metcalfe and the best edition of the Stars of the Valley Sale yet! We are very excited about the offering our group of breeders has assembled. There is something for everyone in these pages and if you are thinking about jumping into the beef business there is no better place to start than right here with Simmental genetics! This sale has been a staple of the Ottawa Valley for 48 years thanks to a most dedicated bunch of long time Simmental breeders. We are proud to be the next generation to take the reins and continually seek to showcase the stars to be found in the Valley. Many thanks to the bidders and buyers of previous sales, the Bohrsen crew for promoting the cattle across Canada and to the Board for their countless hours behind the scenes. We look forward to seeing many returning buyers and new faces as well. Make sure to come early and give yourself time to evaluate this special group while enjoying some refreshments and a delicious beef brisket prepared by Junior and The Kid.

Julie Denison, OVSC President

WELCOME FROM

Bohrson Marketing

Stars of the Valley stands among the great events of the fall and is truly one of the most historic consignment sales in the business. 48 years in 2026 is an incredible milestone! It speaks volumes about the strength, commitment, and passion of the Ottawa Valley Simmental Club consignors. Year after year, these consignors bring their very best to Metcalfe, creating an offering that breeders across the country look forward to.

Stars of the Valley has built a well-earned reputation for presenting outstanding purebred and fullblood Simmental genetics and 2026 continues that development. The depth, quality, and diversity of this year's offering provide exciting opportunities for programs at every level and in every category - from calves, breds, and proven cows to frozen genetics, there are cattle here to take your program to the next level. This is the time to identify and acquire cattle that can make a difference in your program. The Canadian cattle industry continues to be driven by unprecedented enthusiasm and opportunity, and quality genetics have never been more valuable.

We strongly encourage you to join us, enjoy the hospitality of the OVSC, and spend some time with the breeders who make this sale so special. There is a tremendous blend of established Simmental families and the next generation of young cattlemen and women, all united by a passion for raising great cattle.

On behalf of the OVSC and every consignor, we invite you to join us at the Metcalfe Fairgrounds on Saturday, October 17th. Come prepared to evaluate some of the best Simmental genetics the breed has to offer and, more importantly, to find the cattle that will create the next chapter of your program. If you cannot make it to Metcalfe, our BMS team is ready to be your eyes and ears. We know the cattle, the consignors, and we would be pleased to discuss the offering, answer your questions, and help you identify the opportunities that best fit your goals. We look forward to visiting with everyone at the 48th annual Stars of the Valley.

Best regards,

The Bohrson Marketing Team

Here's a pretty cool full fleck heifer that we purchased from Gifford and Cathy McNaughton. Gifford and Kathy have been in the fullblood business longer than I've been alive so they know a thing or two about good genetics. The past three years, I've gone in and purchased a large portion of their extra age heifers and I decided this year to sell one of them. Very dark and polled this heifer can stand up with the best of them. Bred to a pretty exciting new herd sire that just sold at the Hanover sale for a mid December calf.

Exposed to to Dunmac Nylander 58N from November 1 - March 1. Vet's opinion early December calf.

Snowdame Melany is a power house sired by JNR Barbarian and produced by a magnificent Raptor cow who can weigh 1800 lbs. on her worse day. Melany has a Canon sister that sold at The Autumn Simmental Sale last year in Hanover that sold to Jason Gingrich. He flushed her twice for a whopping 60 fertilized eggs. Melany will be a tremendous brood cow, long lasting with a great udder.

Exposed to SNOW 21N from April 15 to July 15, 2026

Preg checked safe

CHAMPS BRAVO
ALLIANCE SPECIAL'S DAKOTA

Wilma Mae is a bred heifer that has a deep rich red color. This heifer will be homo polled by pedigree as both her sire and dam are homo polled. This heifer is a little more refined in her bone structure but has a very strong set of feet and legs. Wilma Mae is a nice follow up to my 2025 sale features, a pair of Canon daughters that were high sellers purchased by JRD Simmentals being from the same cow family. This heifer also has the attribute of her family as she is setting up a very nice udder. Her breeding to very popular North Star using sexed semen should be the icing on the cake.

**Bred to Kuntz North Star 15L (sexed female semen)
on April 1, 2026.**

Originally there was no plan to put any bred heifers in any sale this year, but we knew we had something special when it came to Dakota. Dakota is a maternal sister to the 2019 high seller Alliance Dakota Dream. This is big muscled, maternal made female that you can't miss. If you have ever talked to Bill Russell then you know how high he holds Seldom. A truly special combination in the making.

AI to FGAF Seldom on March 16th. Safe

ROBSON ACRES POL NATASHA

When Nancy was born she was a lively little calf that I didn't pay any attention to. About a month or so later she started to turn it on and never stopped. At weaning she was one of my best heifers and yearling my best fullblood. She is polled, dark red, deep bodied, and quiet. DOWNTOWN females (dam) are noted for tidy udders and good temperament, I think Nancy will be the same. I AI'd her to sex semen for a good early calf (should be a heifer). Vaccinated with Bovi-Shield Gold.

AI'd to Black Gold General Manager 153M on March 16th, 2026 (Sexed female semen). No exposure. Preg Tested Safe in calf.

Liberty is the product of an in-dam purchase from DJ Farms. This heifer is sired by the new polled Battle Cry son raised by Dennis and Debbie. Her dam is a homo polled Gibraltar daughter. Liberty is a heifer that combines a lot of traits that has made the Simmental breed very popular. Very eye appealing through her head and neck that carries into a very deep ribbed body. Liberty, like her dam, is homo polled and is a heifer you will really appreciate for her foot and leg structure. Sells bred to ALL 4N a Motown X 421.

15N Flower is a result of our Embryo Program. Her sire is SBV Modano. 15N is moderate but thick and wide from front to back just like her Radioactive dam, who is polled and dark red with a great udder and will calve this year to Panther. 15N Flower had a sister who sold a few years ago in the Stars Sale to Eganhome Farms for \$17,000.00 This cow family is nice to work with. They all seem to be calm.

Exposed to SNOW 21N from April 15/26 to July 15/26

SBV Modano 518L - Sire

Udder

Selling Choice

Take your pick on a rare opportunity for a female out of this cow that will be a future donor for us. We love everything about this cow, great footed, awesome uddered just like her momma that we purchased out of the Meadow Acres program, who is a donor for us now. Another full sib to these heifers is working as a herd sire at Baitley Farms. We are really happy with all of our Loyalty daughters, he is leaving awesome udders on every single one, both of these females are laying down the same udders with wide teat placement and small teats.

214N gives a really cool look being dark liver red and black nose and black feet! She is wide topped, wide based and bold sprung. Carrying a really neat service to GCC Night Owl with a heifer calf according to Ultra Sound at 65 days.

Bred to GCC Night Owl on April 21, 2026

102P also a really cool even darker red, super soft and soggy and loose made, but yet high performance being our heaviest weight per day of age heifer calf. Attention any juniors wishing to attend YCS in Brome Quebec next year we would be happy to assist!

When the daughters produce, the sons go out and work, and the next generation keeps rising to the top, you know you've found a cow family worth building around. 81N is the first Seanna 129J daughter I have ever offered for sale, and that alone makes this one pretty special. I've put a lot of faith in this cow family over the years, and they've given me every reason to keep believing in them. She is true to her momma in all the right ways — sound, attractive, well balanced and bold sprung, with that same impressive rib the Seannas are known for. She made her own mark in the show ring last year, hanging her share of banners along the way. But the real strength of this cow family goes far beyond the show ring. Seanna's two-year-old sister has come into production with a picture-perfect udder, while her full brother was named Champion Simmental Bull Calf at Expo Boeuf 2023 before being purchased right out of the stall by Ferme Jean Francois Leblond, where he is working today. Generation after generation, the Seannas continue to prove there is production behind the pretty. They're the kind that get noticed in the pasture or show ring, then go home and do the job that really matters. Seanna sells bred early to Weppers Eight Ball, and with the consistency behind her, I truly believe her best days are still ahead. Seanna's story is just beginning — and for the first time, I'm giving someone else the opportunity to write the next chapter of the Seanna story.

Bred to Weppers Eight Ball 168M on March 21.

This young heifer will calve before she is two. She has the power, width and strength to handle it! We have a full sister here that has done a great job as a two year old. Nova we don't think will have any issue following in the foot prints.

Bred to Black Gold Arrival 150L on May 17, 2026. Safe

I don't often sell open heifers but relented this time with this being a partnership between myself and Jerry Barber. Jerry and I are excited to let this homo polled, non-diluter, stylish heifer find her new forever home. Looking back into this heifer's pedigree is a pretty popular cow family going back to Dakota Dream who now walks the pastures at Dunmac Farms since being purchased with Oakview Simmentals last sale season. Look for this female to follow in her granddam's steps and buy with confidence.

Some calves just have that look — and Frankie has had it from day one. Cherry red, balanced and full of presence, she's the kind that catches your eye in the pen and keeps pulling you back for another look. She is an absolute sweetheart. Frankie's story is also pretty special to me. I purchased the embryos that produced her dam through Bohrsen Marketing's first 50K for the Future scholarship, making this cow family an important part of the growth of South Bristol Cattle Company. Her dam is exactly the kind of young female you want working in your herd, an easy-doing two-year-old who went out and raised a great first calf, all while breeding back right away. The kind that simply gets the job done. Frankie has it all, with the look, disposition and cow family behind her to make her an exciting female to offer. If you like them cherry red, easy to be around, and with the kind of look that gets noticed, be sure to find Frankie on sale day.

We are very excited and humbled to have our first ever consignment sale animal and we thought we would start it off with a bang. This heifer has elite breeding on both sides and brood cow power written all over her. Her dam has produced bulls that are working at Jo Dreen and Breezy Acres Farms. Her grandmother is still producing top quality animals for JStar and Donovandale at age 11. Whether you're looking for show ring presence or donor cow material this heifer will flat out work for you for years to come.

IRCC BAZOOKA 405B
CPP UNBELIEVEABLE BETTY

Neon Jewel is a standout November-born solid red heifer that offers a tremendous blend of pedigree, presence, and practicality. Sired by Mader Walk The Line, she carries the added eye appeal and structural quality that have made his calves so well received. What makes this female especially intriguing is the strength of her maternal pedigree. Her grand dam is sired by IRCC Bazooka, a son of the IRCC Zimmer cow at Indian River, and backed by the proven influence of SVF/NJC Built Right. Neon Jewel is smooth made, deep bodied, and moves out freely on a sound foundation. She has the kind of balanced profile that works equally well for the show ring or the replacement pen. Throughout her development she has maintained a good temperament, making her easy to work with and enjoyable to have around. This is a heifer that combines trusted cow families with a modern, functional look. Neon Jewel has the pedigree and disposition to become a dependable brood cow while still offering the style and quality and extra age that make her a fun one to own today and breed how you want for that early January calf. Selling on Choice with her half sister HGCC Pollyanna.

LOROLIN MS LOVELY

This red baldy heifer is sired by the popular Mader Walk The Line, she combines the added style, structural correctness, and brood cow potential that have made his daughters highly sought after. On the maternal side, her pedigree is backed by proven genetics going back to KOP Spartin and STF Starquest, two influential sires known for adding performance, maternal strength, and longevity to their offspring. This is the kind of pedigree built for the long haul. Pollyanna is attractive fronted, sound made, and carries the extra body and rib shape we all appreciate in a future replacement female. Just as importantly, she has an exceptionally quiet disposition (we consider her toddler broke) and is easy to handle, making her an ideal candidate for junior projects, the show ring, or any progressive breeding program. Selling on choice with her half sister HGCC Neon Jewel.

Black Gold Ava's Scream

Rosewood Farms 

TERMS & Conditions

TERMS

The terms of the sale are cash or cheque payable at par at the sale location. All settlements must be made with the clerks of the sale before any cattle are released.

CREDIT ARRANGEMENTS

The sale committee requests that potential buyers make credit arrangements with the individual seller prior to the sale.

PURCHASER'S RISK

Each animal becomes the risk of the purchaser as soon as it is sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

CERTIFICATE OF REGISTRY

The proper registration or recordation paper, as the case may be, will be duly transferred and furnished to the buyer for each animal after settlement has been made.

SHIPPING

Assistance will be given in making shipment after the sale, but the Sale Managers or seller assumes no risk. Expenses incurred are the responsibility

of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

HEALTH

All animals will have passed the required tests as determined by Agriculture Canada at the sale location. It is the buyer's responsibility to determine health requirements for importing any animals into their province or state. Sales Management assumes no responsibility for the health status of any animal in the sale.

BREEDERS GUARANTEE

Cows represented as being "pregnancy tested safe" have been examined and declared safe in calf by a licensed veterinarian and will be accompanied by a veterinarian's certificate to this effect. They are considered breeders without further guarantee. Cows and heifers represented as "bred" are not guaranteed safe in calf, but they and open heifers selling as individual lots are guaranteed as breeders. No guarantee shall apply to suckling calves. In the event a female is claimed to be a non-breeder and after having been bred regularly to a bull known to be a breeder and after having been treated by a licensed veterinarian, the matter must be reported in writing to the seller within six months of the sale date. For heifers under twelve months of age who were purchased as single lots and who fail to conceive to the service of a bull known to be a breeder, the matter must be reported to the seller before the heifer reaches eighteen months of age. The seller shall have six additional months in which to prove any such female a breeder and may use any registered bull of the breed available to him. Any female returned will be at the purchaser's risk. No guarantee is given that a pregnant female will deliver live calves, nor that

she will carry calves to full term, nor that the calf will not be mummified. The seller is not responsible for damage caused by foreign bodies after the animal has been sold. Nor for sickness not apparent at sale time.

SETTLEMENTS

Transportation charges on animals returned to the seller are for account of the purchaser. No incidental expenses such as feed, AI signing fees, interest, veterinary charges, etc. will be charged by either party when making settlement. If the seller is successful in proving the animal is a breeder, then said animal will be reclaimed by the purchaser at his expense. Should the seller fail to so prove the animal a breeder, then the buyer will be guaranteed a satisfactory replacement F.O.B. ranch or location or original or a refund of the purchase price paid F.O.B. selling point. In no event shall the seller be responsible for more than the purchase price. Should a dispute arise over the quality of a replacement animal, the Sale Management will appoint a mediator.

RIGHTS AND OBLIGATIONS

The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following the purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties concerned thereto are not covered by the terms and conditions of the sale.
