OCTOBER 17, 2026

Noon	Cattle on Display
5pm	Smoked Brisket Dinner by Four Hawgs BBQ
7pm	Sale close out on DLMS

Live Entertainment to follow by Matthew Holtby

welcome

It is once again a pleasure to welcome you to The Social, proudly hosted by the Allen family of Windy Gables Limousin and the Homer family of Pinch Hill Limousin. As we head into another round, it is easy to see why this event has quickly become one that people look forward to each fall. The Social is built around great cattle, great hospitality and, most importantly, great people.

We have had the privilege of knowing the Allen and Homer families for decades, long before The Social ever came to be. Through countless cattle shows, sales, trips across the country and more than a few memorable nights at the Royal, there have been a lot of laughs and even better memories along the way. That is what makes being involved with this event so enjoyable for our team. These are families who genuinely love the Limousin breed, love the cattle business and understand that some of the greatest rewards in this industry are the friendships made along the way.

When it comes to their breeding programs, both Windy Gables and Pinch Hill have never been afraid to travel, invest and search for genetics that can move their programs forward. This year's offering is another testament to that commitment. They have dug deep into proven cow families while incorporating fresh and exciting genetics, assembling an impressive group of bred females, open females and frozen genetics. Throughout the catalogue you will find cattle backed by proven maternal lines, breed-leading sires and genetics that have already generated success at the national level.

What we appreciate most is that Nathan, Bryce, Chad, Brandon, Paul and their families understand that The Social should be exactly that: social. The cattle may bring everyone together, but the friendships, hospitality and memories are what make people want to come back. This year promises another tremendous atmosphere with cattle on display, a smoked brisket supper and live entertainment following the sale. Come early, study the offering, enjoy the hospitality and stay late. We have a feeling there may even be another round or two along the way.

On behalf of all of us at Bohrsen Marketing Services, we are extremely proud to work alongside the Windy Gables and Pinch Hill families and invite you to join us at The Social. If you are unable to attend, please do not hesitate to contact any member of the BMS team or either consigning family. We would be pleased to discuss the offering and represent your needs in a professional and confidential manner.

We look forward to seeing everyone October 17. Come for the cattle, stay for The Social, and let's have another round!

Best regards, The Bohrsen Marketing Team

welcome

When the first round was served, we asked for another. After the second round goes down so smoothly, you must have a third!

Welcome once again to "Another Round" of The Social Limousin Female Sale.

The beef industry is still rocking right along, despite some political uncertainty, with cow and cow prices maintaining a level we haven't seen in decades.

Beef consumers are taking a harder look at their spending power at the grocery store when it comes to a sustainable and beneficial source of protein with a lot of consumers going to the source of the beef production, the farmers and ranchers, to source their protein requirements. This all boils down to a bright road ahead in the beef industry.

Politics and spending power is one thing, however, fellowship shared among livestock producers, no matter what colour, type or breed of cow we prefer, is a constant and a necessity for us all to keep moving forward.

Together Pinch Hill and Windy Gables feel we are creating an avenue of fellowship for breeders and consumers alike with The Social to come together, all the while admiring some great cattle in the process.

Both Pinch Hill Limousin and Windy Gables Limousin are excited and honoured to have you join us in person or online to our 3rd installment of The Social. With this event, both operations have gone deep into their respective herds to bring you some of our top genetics from our strongest cow families that graze our pastures.

Bred heifers, heifer calf prospects, a tried-and-true herd matron along with some of the most interesting frozen genetics available is what we are bringing to the table once again.

We are confident that there is something in the sale that will fill the needs of any operation and with a heartfelt thank you to our past supporters of The Social, we are opening the doors on October 17th and look forward to a great time with great people and some great cattle once again.

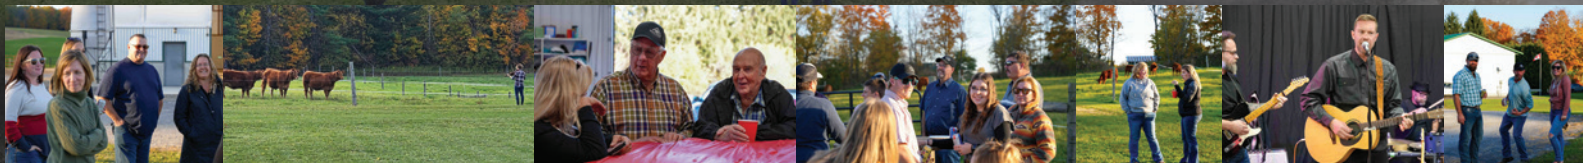

The food will be hot, the beverages cold, the music on beat while the cattle presented will speak for themselves.

See you on the 17th.

Cheers,

The Allen and Homer Families

pouring another round...

We are kicking off the 3rd Round of The Social with quite an elite and impressive choice lot that represents not only the WGL program, but the Limousin Breed altogether. WGL Notorious Gal 12N is a good as we have seen the Hardrock females come. She is thick made, very nice sided, deep bodied and powerful with a pretty homo polled head.

This well-balanced female sets the bar a little higher with a set of EPD's you would have to travel a long way to find any better.

Bred Safe to our former Herd Sire and calving ease specialist HLC DBCC Flatliner 05F, the mating will be one that combines so serious maternal strength, vigor and overall appeal!

The Dam of both Lot 1 and 1A is nothing but a solid producing cow that just keeps doing the right things year after year and she has earned her place at the top of the WGL Cow Herd.

PINCH HILL NATALIE 108Y

This is the type of female we love to produce and show off but dread to part with, she is a favorite on herd tours. We are proud to say that we have our prefix on the top and bottom side of this pretty dark red female. Langston is a Dollar Bill son that we have walked the last couple of years, and his females are our type, sound, deep bodied, easy fleshing and have a presence about them. Natalie's paternal sister was just named Reserve Champion at the CJLA Impact show. Carrying a service to Adjourned only adds value to this package, we used Adjourned heavily this spring and are excited for 2027.

WGL Nutmeg 917N is the first offspring of our former Herd Sire ROMN Lock Down 110L to sell.

This natural fall born female is from a dam that we have high praise for at the farm, WGL Evalina 17E as she consistently produces calves that possess performance and style and WGL Nutmeg is no exception. She is a big topped female with excellent structure, depth and capacity.

A maternal sister was a high seller purchased by Greenwood Limousin for half interest in the inaugural Social Sale and has laid down and produced a pretty interesting bull calf on her first go.

Docility is one major attribute that ROMN Lockdown has added to the genetic offering of his offspring and 17N carries that gentle nature with her.

This October female sells open with opportunity to have her bred pretty much anyway you would like.

At calving time she will have some extra age to become the solid producing female we know she will be!

Full Sister to Donor

Greenwood Rooster 84L - Sire of Embryos

We purchased the Mae West female in the fall of 2025 and when we first saw her cataloged, it was one we knew we needed to invest in to go forward with the WGL herd.

This young female has impressed us not only with her confirmation, but with udder quality and maternal ability raising a heck of a Joker heifer calf, WGL Patsy Cline 5P, in her first stint in the maternity pen. We knew we needed more made just like her her so to the donor pen she went and it was the right move! Getting embryos from a first calf heifer can be a gamble but the gamble paid off with 30 Grade 1 embryos in her first flush to the ever popular Greenwood Rooster 84L. Resulting mating should be a soggy made, deep bodied dark red calves with huge EPD's that embody all the great things about this breed.

Xuberance was a female that started a shift in our herd, she was a complete brood cow and donor. Her daughters and granddaughters have continued to excel over the years and always add value to the next generations. Flatliner has worked very well on this maternal line and these embryos are worth a look. Xuberance was the 2011 Reserve National Champion Female, with granddaughters being Reserve National Champion in 2015 and National Champion in 2022 with a great granddaughter winning 2022 Reserve National Champion and 2024 Reserve Champion Female at Agribition. This mating can set the foundation for a cow family.

Greenwood Ally 715J - September 2026

Son of Greenwood Ally 715J to
WGL 915M - Son of Greenwood Ally 715J Owned
by Reuben Martin, Chatsworth, ON

We have kept a little hush hush on this Bentley daughter we purchased from Greenwood Limousin as a bred heifer mainly because we wanted her all to ourselves. As we have watched her blossom into a productive and eye appealing female, we thought it was time to share her with the world. This is a very phenotypically correct female cow that has such a presence in the pastures at WGL. Big middled, long with perfect amount of femininity and power, the mating with Richmond Hector 178H should work out to be a home run for the show ring and front pasture type of cattle. We are retaining her 2026 heifer calf by Australian Outcross sire Oakwood Cutright to insulate the start of a legacy at WGL and look forward to great things down the road from our own "Ally"

GREENWOOD PLD ALLY 702A

The Greenwood Ally 702A cow is regarded as one of the best females ever produced in the Greenwood program. Her genetics have been sought after far and wide, and we were lucky enough to obtain an Ally of our own as a bred heifer out of the Western Select sale a few years back as an investment into the future of WGL. This investment has worked out pretty darn good. Ally 715J has a tremendous udder and perfect set of teats at calving time.

Joining 715J and Hard Rock was a no brainer, and the resulting offspring will embody some of the highest ranking EPD's on the market.

We, along with Pinch Hill, have been so pleased with our decision to bring Hard Rock to Canada. Impressive, big nutted and big hipped bulls and fertile, no miss females have been the claim to fame so far. An opportunity for a genetic package like this is truly worth your time and investment.

ONLINE BIDDING

HOW TO PARTICIPATE IN THE DLMS FARM GATE TIMED AUCTION WITH EXTENDED BIDDING:

1. Visit dlms.ca and follow the link to the DLMS Farm Gate timed auction site www.farmgatetimedauctions.ca, click the LOGIN/REGISTRATION button. First time users will select the REGISTER button from this page. Fill out the registration form to signup for a free user account and it allows you to select a username and password for use on all Farm Gate Timed auctions. This program will send you text and email messages whenever there is activity on your favorite lots, or someone challenges your proxy bid and this is why you will be asked for both your current email and cell phone number. If you are a past participant in the Farm Gate Timed auctions simply enter your username and password to continue. This takes you to a list of both current and upcoming Farm Gate Auctions.
2. You can choose your favourite lots in this sale at this time and the program will allow you to open either all sale lots or just your favorite lots on your screen. Any time there is active bidding on a lot you have identified on your favorite list you will get a text and/or an email noting this activity.
3. The program allows you to place a proxy bid on any sale lot. This in fact protects your interest in any lot of interest for you to a specified dollar value you set, when you may not be able to give 100% attention to the sale. If the lot has a \$2000 bid on it and you place a proxy bid of \$3500 into the system, the computer will bid \$2100 for you but if some one else bids \$2200, the computer will again bid for you, this time at \$2300. The system will look after your interest to a maximum of \$3500. If another bidder is on at \$3600, your proxy will no longer be effective and you will no longer have the winning bid on this lot without once again logging in and

bidding again or moving your attention to a second lot of interest.

4. At closing time of the sale the entire sale will extend bidding if a bid is placed on any lot in the sale. Any bid received after close time will extend the sale by the time listed on each sale. In most cases the time gets shorter the longer in to extended bidding the sale is. When no bidding occurs for the extended time the computer will declare the sale finished.
5. Following the sale the Consignor or Sale Manager will invoice all buyers in the sale, please contact the seller with questions or to arrange delivery, pick up or shipping of your purchases.

For more info and assistance with bidding contact any of the sale contacts listed on the DLMS Website; DLMS Farm Gate Timed Auctions ~ Mark Shologan Ph: 780-699-5082

FAQ:

WHAT IS RACEHORSE STYLE SALE CLOSE? Racehorse style sale close is when the entire sale stays open in extended bidding. This type of sale allows you as the bidder to change to a different lot within the same sale if the bidding has gone in to extended bidding.

HOW WILL EXTENDED BIDDING WORK? When we get to the close out end time the clock for close extends with any bid placed with less than 5 min on the clock. This type of extended bidding turns the end time to more of a soft time. Extended bidding allows bidders to compete in lots like a real auction and give all bidders the same time to make a decision. Always follow the clock to see how much time remains in the sale you are interested in.

An aerial photograph of a farm event. In the center, a group of people is gathered around a wooden table. To the right, a large wooden spool sits on the grass. In the foreground, a wooden table and two wooden chairs with red cushions are visible. In the background, several cows are grazing in a field. The sun is setting on the right side of the image, creating a warm glow.
