OCTOBER 30 • 2026

BELVIN ANGUS & GUESTS FEMALE SALE

Welcome to the 2026 version of our Fall Female Sale. Since we last held this event in October of 2024, the cattle market has experienced historic times. No matter what sector of the cow calf industry you are in, chances are that in the last two years, you have sold cattle for more money than ever before. It has been a long time coming and is very well deserved. Despite some temporary blips, the shortage of cattle on this continent and in many countries around the world suggest that the current market should stay strong.

Good market or bad, purebred or commercial, the strength of a cowherd is always the backbone of any operation. At bull sale time we always emphasize the importance of consistency and predictability. Our commercial customers expect that from their cowherds, and we strive to produce the same with ours. The group of heifers on offer come right from the heart of our replacement pen. These are females that are functional and low maintenance. We would expect them to be raising sale bulls right off the hop if they were to stay here. In addition to the bred heifers this year, we have added 4 select heifer calves, sired by the popular Caldwell.

The more cows we run, the less tolerance we have for dealing with problems. These are females we expect to work for us, and we are confident they will work for you. We are closing in on 50 years since Gavin and Mabel started raising Angus cattle. A lot of the females on offer go back to some of their original purchases. Cow families that have been developed for decades.

Again, this year, we would like to welcome our friends from the Bohrsen family as guest consignors. We have a close working relationship with Scott and Rebecca throughout the year, and we are happy to have them as a part of this sale.

This year we are not mailing a catalogue out, so as you are likely reading this online, if you would like more information or a hard copy, please reach out to us. The sale will be broadcast on DLMS and videos will be posted online. Feel free to contact any of the sale representatives for their opinion as well. Thank you to everyone who has supported us through past iterations of our female sale, as well as our sale in the spring. This business is full of great people, and we are proud to deal with so many of them.

Welcome to the Belvin Angus & Guests Female Sale. It is a pleasure for Bohrson Marketing Services to work alongside a program that has earned such a strong reputation for quality cattle, thoughtful breeding decisions and a commitment to its customers. Belvin continues to build on a deep maternal foundation while introducing genetics that move the program forward, and this offering provides an excellent opportunity to share in that progress. The strength of the Belvin cowherd is evident throughout this catalogue. Generations of productive females stand behind the offering, with cow families that have consistently raised influential herd sires and daughters worthy of carrying the program into the future. The emphasis on sound structure, udder quality, capacity and longevity has created cattle with lasting breeding value. These are the fundamentals that build a profitable cowherd, and they remain at the heart of the Belvin breeding philosophy.

This year's selection brings together powerful, broody bred heifers and an exciting group of heifer calves. The Brooking Roll Call daughters offer body, presence and strong maternal pedigrees, while the Shaw Caldwell females represent a particularly exciting opportunity. Caldwell has established an impressive record through his sons, and with his first daughters now proving themselves in production, there is every reason to be enthusiastic about his influence. The Woodhill Revival and Belvin Kokanee progeny add further depth, combining muscle, capacity and the unmistakable Angus character we appreciate. The service sires behind the bred females make these purchases especially appealing as buyers look ahead to their first calves. The CS+D guest offering complements the Belvin cattle with standout females and embryo opportunities backed by highly regarded cow families. Whether you are searching for a female to strengthen your herd, a young prospect to develop or embryos to access proven donors and exciting new sires, there is plenty here to study closely.

Belvin Angus has earned its reputation as a leader in customer service within the seedstock industry. They are great people to work with, consistently putting their customers first and standing behind the cattle they raise. Their commitment to building lasting relationships and helping their customers succeed is a defining strength of the program. We encourage you to join us at the beautiful Belvin sale barn to enjoy their outstanding hospitality, view the cattle and visit with the consignors about the offering and the cow families behind it. Our BMS team would welcome the opportunity to discuss the cattle, help identify those that fit your breeding goals and assist with your purchases. We look forward to seeing you at the Belvin Angus & Guests Female Sale.

Best regards,

The Bohrson Marketing Team

Woodhill Yukon L033 was the \$42,500 High Seller in the final Woodhill Farms bull sale in 2024. Sired by Woodhill Comstock, Yukon offers calving ease, growth and exceptional marbling ability. Yukon is very impressive in the flesh, with a big top and lots of rib and style, on top of being very quiet. Yukon sons will be a major sire group for our 2027 bull sale.

C Defender 5142 came from the Colyer Family in Idaho. With his +14 CED and -2.3 BW EPD ranking in the top percentiles of the breed, Defender features the ability to sire highly marketable calving ease bulls. He is also a long-bodied bull with solid feet and excellent scrotal. Defender is sired by the popular Boyd Justification, while his dam is one of the top young cows in the Colyer program, who was the lead off female in their 2024 Fall Sale for half interest.

C **HOFFMAN STONEBANK 515**
MALE #2490879 JANUARY 08 2025 IMP 51N

Hoffman Stonebank 515 was selected with Semex as one of the High Selling Bulls at the 2026 Hoffman Ranch Bull Sale. Stonebank is a double digit CED, negative BW bull who excels across the board numerically, with top end performance, carcass data and temperament. With his balanced number set, he is in the top 2% of the AAA database for their \$C index. Phenotypically, Stonebank is soft made, big middled and good footed. He is an exciting calving ease sire for us going forward.

BW	WW	YW	MK	CED	CEM	CW	MARB	REA	FT
2.8	53	91	31	-1.0	4.0	27	0.18	0.21	0.038

Brooking Roll Call 9054 is a bull with a maternally charged pedigree, featuring the Rose, Annie K and Beauty cow families from Brooking. Roll Call is also a full brother to the popular Brooking Mercury. The daughters of Roll Call are big bodied, big boned females with power and the striking look you would expect from his pedigree.

E BELVIN KOKANEE 2022

3.5	67	118	34	-3.0	0.0	51	0.53	0.69	0.039

Belvin Kokanee 2022 is a son of the popular Atlantis, whose dam is one of the premier donors in our program. Numerous brothers to Kokanee have been bull sale features, while a couple of our nicest young cows would be his flush sisters. The Kokanee sired heifers are powerful, hairy and big boned, with a classic Angus look.

F WOODHILL REVIVAL H028

-0.1	72	134	23	7.0	11.0	61	0.96	0.53	0.097

Woodhill Revival H028 was selected with Canadian Sires as the High Selling Bull in the 2020 Woodhill Farms sale at \$55,000. Now deceased, Revival was a sight to behold in the flesh, with as much length, top and shape as you can find in a bull. Revivals sons have been very marketable bulls for us, while his daughters are beautiful young cows. Revivals popularity continues to grow, with sale topping offspring across the country, including the \$250,000 Top Selling black bull in Canada this year at Peak Dot.

-2.2	73	130	43	10.0	10.0	43	0.75	0.68	0.060

Shaw Caldwell 11432 is a bull who continues to write volumes, and whose story is far from complete. Selected as the \$59,000 High Selling Bull in the 2023 Shaw Cattle Co. sale, Caldwell has since entrenched himself as one of the top calving ease bulls in the breed, and likely the greatest son of Sitz Resilient 10208. We have sold two sets of Caldwell sons, with 78 bulls averaging over \$21,000 in 2025 and 2026. The first Caldwell daughters calved this year and raised some of the feature bulls for the 2027 sale, which will sell alongside another big set of direct sons. Caldwell is one of the most impressive looking bulls you will find, and his daughters are the type of low maintenance, low unput females that build a profitable cowherd. In the fall of 2024, we sold half interest in Caldwell to Semex Beef, where he is now their lead off Angus bull. This spring, we sold walking rights on Caldwell to the world renowned Schaff Angus Valley program in North Dakota. The popularity of Caldwell will only grow from here. This sale offers the chance to buy direct daughters of Caldwell, both bred heifers and heifer calves, along with heifers carrying his valuable service.

LOT ONE

BELVIN QUEEN 338'25

Queen 338'25 is a striking female to lead off the 2026 version of our female sale. Moderate framed, big bodied, soft made and feminine, 338'25 is a phenotypic knockout. She is a maternal granddaughter of the potent and powerful 37'19, one of the preeminent cows in our program over the last decade. The dam of 338'25 was the first calf out of 37'19, the second daughter of 37'19 raised our 2025 2nd High Selling bull to CMT Angus for \$40,000. The next three calves out of 37'19 were feature sons who sold to Lucky Springs Farms, Greenwood Angus and BJ Cattle Co. The maternal backing behind 338'25 is tremendous with 37'19 crossed with Roll Call's combination of the Beauty, Rose and Annie K cow families from Brooking as well as the influence of Sitz Pride 200B, the famous dam of Stellar. The early service to Caldwell only adds to a pedigree full of maternal strength.

*J Square S
Ellen 506C*
**MATERNAL
GRAND-DAM**

Ruth 79'25 is the powerhouse female in this year's sale group, with as much rib and body mass as you can find, and performance numbers to match her phenotype. The dam of 79'25 is a proven producer, with daughters selling to Kamlah Farms and Sunrise Ranching, a son at Flying E Ranche and another top daughter raised this year. The maternal grandam of 79'25 came from J Square S Angus and was an elite female who worked her way to being a donor dam. Bred early to Caldwell, the power of 79'25 crossed with the calving ease and style of Caldwell should be a profitable mix.

MATERNAL
GRAND-SIRE

Miss Morrison 59'25 is the lead off Caldwell daughter in the sale and embodies what we like so much about the Caldwell females. She is modest framed, balanced, feminine and sound made. The first Caldwell daughters calved this year and raised some of the elite bulls we will be selling next spring. The dam of 59'25 is a very nice May City daughter, who raised another front-end heifer calf this year as a three-year-old. These Calwell daughters are the type of low input, hands off cows we like to run, and 59'25 fits that to a tee.

Exposed March 29 to June 9 to Hoffman Stonebank 515. Preg checked 120 days on August 12 (Approx. April 10 breeding date).

Erica 52'25 is another Caldwell daughter with the femininity and type that have defined the sire group. The dam of 52'25 is still going strong at 12 years of age, with a long track record of production on both sexes. 52'25 carries the exciting service of Stonebank, one of the High Sellers at the 2026 Hoffman Sale that we selected with Semex. This female should offer productivity and longevity.

Poss

7

BELVIN LADY BLOSSOM 168'25

FEMALE #2418481 JANUARY 07 2025 BA 168N

Lady Blossom 168'25 has one of the best maternal pedigrees in the sale, featuring Caldwell crossed with a direct Velasquez daughter. The dam of 168'25 has a long list of past sale bulls, while her maternal grandam had thirteen natural calves. Our plan was to not sell anything bred to Ledoux, but somehow this one slipped past us when we sorted sale heifers. The Ledoux x Caldwell cross has produced some of the standouts for the 2027 bull sale, with the mating clicking so well that we hope to have close to 50 calves next spring that are Ledoux's out of Caldwell daughters. The potential return on the first calf alone is substantial, before you factor in the longevity of the cows behind 168'25.

*Belvin
Georgina 14'14*
**MATERNAL
GRAND-DAM**

Georgina 127'25 is as angular as can be, and might be the most feminine, refined heifer in the whole sale. Revival continues to gain popularity nationwide as a bull who offers calving ease with performance and style, daughters like this reinforce his value. The dam and grandam of 127'25 are two of the show stopping cows we have, with 14'14 being one of our top donors, and 26'22 being well on her way to that status. This is the only female in the sale carrying service to Delta, an outcross pedigreed calving ease sire we selected from Vollmer Angus this spring, who is very impressive in his type.

Bred May 17 to VAR Delta 5142 (safe). Exposed March 29 to April 30 to Hoffman Stonebank 515, May 1 to June 9 to VAR Delta 5142.

LOT 9

Bred March 31 to Shaw Caldwell 11432 (safe).
Exposed April 13 to May 22 to C Defender 4142, May 24 to June 9 to Hoffman Stonebank 515.

Another heifer that's typical of the Revival type, Erica 103'25 offers a bit more power, with some of the best performance numbers in the sale. There are a lot of bulls in the pedigree of 103'25 who are noted cow makers, with the likes of Confidence Plus, Reno and Syndicate, as well as the influence of the famous Isabel Y69 cow. The service to Caldwell should complement 103'25 very well.

LOT 10

Bred April 17 to C Defender 5142 (safe). Exposed April 13 to May 22 to C Defender 4142, May 24 to June 9 to Hoffman Stonebank 515.

Lady Blossom 282'25 is a high-performance Everest daughter, and another female that has a productive Velasquez dam in her pedigree. Two maternal sisters of 282'25 are at the top of their respective age groups, while another maternal sister was sold to Mexico. Everest sons have been well accepted over the years for being long bodied, powerfully made bulls.

Queen 204'25 is an eye catching Kokanee daughter who traces back to the same cow family as the lead off female in this sale. The Queen cow family is populated with powerful cows. Her sire, Kokanee, is an Atlantis son who sired high performing cattle that are nice headed with extra bone, mass and hair, and this heifer is no exception. 204'25 is very striking in her phenotype and a heifer that is hard to miss in the pen.

Lady Blossom 65'25 is another big bodied Kokanee daughter. Kokanee is a full sibling to the dam of the lot 8 female in this sale. His dam is one of the premier cows in our operation and the biggest reason we kept him to use ourselves. The mother of 65'25 is an impressive Syndicate dam. The pedigree of 65'25 is backed by some of the premier cow families in the breed, Blackcap May, Elbanna, Georgina, Blackbird, Echo and Lady Blossom.

Belvin Lady Blossom 14'09
**MATERNAL
GRAND-DAM**

Lady Blossom 222'25 is probably the most attractive of the Kokanee daughters in the sale. A bit more moderate and feminine, 222'25 has always been a phenotypic favorite. The dam of 222'25 is a Maverick daughter, who is a maternal sister to Panic Switch, one of the most successful sires we have raised. Maternal siblings to 222'25 have sold to Flying E Rancho and Harvie Crest Cattle Co., while another brother is waiting for the 2027 bull sale. The early service to Caldwell should make this an exciting lot.

LOT 15

Bred April 8 to C Defender 5142 (safe). Exposed April 13 to May 22 to C Defender 4142, May 24 to June 9 to Hoffman Stonebank 515.

Pride 160'25 is the final Kokanee daughter in the catalogue, and another power heifer. The dam of 160'25 was purchased from Duralta Farms in our 2021 Female Sale, and she has been an exceptional producer. Sons of 38H have sold to Barrington Ranch and Klaudt Ranches, and a maternal grandson was a 2026 feature bull to Hummock Springs Ranch, while an Eternity 739L son will be a 2027 sale standout.

LOT 16

Bred April 16 to C Defender 5142 (safe). Exposed April 13 to May 22 to C Defender 4142, May 24 to June 9 to Hoffman Stonebank 515.

Lady Di 147'25 is the another Roll Call daughter, in what is a very impressive sire group. Perhaps the best part of 147'25 is her maternal grandam, a CAA Elite Dam who we were flushing this year. 89'15 consistently churns out top end bulls, with three sons selling to East & West Ranching Co. Ltd., one to Ken Illniki and one to Double F Farms. With 89'15 as the maternal grandam and Beauty 333 as the paternal grandam, the production value of 147'25 should be top end.

The final Roll Call daughter in the catalog, Lady Blossom 249'25 is stamped with the eye appeal and type of her sire group. The back side of her pedigree features four bulls with exceptional influence in the breed, with Bank Note, Harvester, 1682 and Pioneer. 249'25 is another female that should feature some longevity.

LOT 18

Bred June 4 to Hoffman Stonebank 515 (safe). Exposed Mar 29 to June 9 to Hoffman Stonebank 515.

Missie 13'25 has one of the most exciting pedigrees in the sale, being a Caldwell daughter out of a beautiful May City cow. The maternal grandam of 13'25, Miss Legacy 0190, is one of the most prolific producers we have ever had, with 41 registered offspring and untold influence on our herd. The mating of May City and 0190 produced five daughters: one of which is in Mexico, one at Everblack Angus and three, including the dam of 13'25, are top young cows in our program. The maternal excellence in 13'25 is second to none.

Bred April 1 to Shaw Caldwell 11432 (safe). Exposed April 13 to May 22 to C Defender 4142, May 24 to June 9 to Hoffman Stonebank 515.

Lady Di 247'25 is the lone Lawman daughter in the sale. Lawman sons have been popular bulls for their performance, structural quality and strong number profile, including excellent carcass data. The Lawman daughters are beautiful uddered, maternal females, which isn't always easy to find with a carcass-oriented pedigree such as his. The mother of 247'25 is another good Velasquez dam, and a maternal sister to 247'25 may be the best "J" female on the ranch. With her cow power and the early breeding to Caldwell, 247'25 is the type who can make a quick turn around on her initial investment.

LOT 22

Exposed Mar 29 to May 1 to Hoffman Stonebank 515, May 2 to May 22 to C Defender 5142, May 24 to June 9 to Hoffman Stonebank 515. Preg Checked 70 days on August 12 (Approx. June 1 breeding date).

Missie 248'25 is a nice made Limit Up daughter. A full brother was a 2025 Bull Sale feature to Double F Farms. The dam of 248'25 came from the Mark Daines Dispersal Sale — we bought two cows that day and should have bought more, as their production value has been excellent. A maternal sister to 248'25 by Eternity 739L is one of the really nice 2026 born heifers.

LOT 25

Bred March 28 to Shaw Caldwell 11432 (safe).
Exposed April 13 to May 22 to C Defender 4142, May
24 to June 9 to Hoffman Stonebank 515.

Georgina 178'25 is a Trademark daughter
out of a beautiful young Revival cow, who
comes from one of the top branches of the
Georgina family tree. A maternal sister
to the dam of 178'25 is an exceptional
heifer calf in the 2026 group. The
mating to Caldwell will result in a calf
with breed leading calving ease.

LOT 26

Bred June 6 to Hoffman Stonebank 515. Exposed
April 13 to May 22 to C Defender 4142, May 24 to
June 9 to Hoffman Stonebank 515.

Georgina 334'25 is a powerful Limit
Up daughter, who has breed leading
performance numbers and is very quiet
and easy to be around. A maternal
brother to 334'25 was a sale feature to
East & West Ranching Co Ltd. in 2025,
while other maternal brothers sold
to Lawrence Ranch and 2L Ranch. As
well, a maternal sister to 334'25 sold to
our good friends at Lakeroad Angus.

*Belvin
Queen 18'23*
DAM

Coul Queen 101'26 is the lead-off heifer calf and the lone consignment from our good friend James Arnott of Scotland. James selected the dam of 101'26 in our 2024 female sale as one of the sale features, and she has matured into an awesome young cow. Her first calf was a top end bull to Mt. Sentinel Ranch this spring, while this sweetheart Caldwell daughter is her second effort. James flushed 18'23 to Caldwell to send embryos back to Scotland, and given the way this heifer calf looks, that was a wise decision. Soft made, feminine, and stout, 101'26 is an impressive heifer.

**BROTHER
TO DAM**

Erica 24'26 is a powerful heifer calf who has the mass and growth to match up with her breed leading performance numbers. On top of her performance, she is also angular and attractive. A heifers first calf, the maternal grandam of 24'26 had a Caldwell son that was one of the 2026 Bull Sale highlights to Steinrich Ranch in Northern Alberta. This feature heifer calf would be a $\frac{3}{4}$ sibling to that bull.

(At right) Twin Springs JH Rose 25M DAM

(At right) Lady Blossom 87'26 and dam JANUARY 2026

LOT 29

Rose 94'26 is the first calf out of a heifer we selected at the 2024 Angus Collection Sale from Twin Springs. The dam of 94'26 is sired by the popular Glacier, and out of a female that was a past "Pick of the Heifer Calves" from the potent and renowned Bar E-L program. 94'26 is fancy and features a maternally packed pedigree with Caldwell, Glacier and Legacy stacked up close.

LOT 30

Lady Blossom 87'26 is another powerful Caldwell x Kokanee crossed heifer, making her a ¾ sibling to the lot 28 heifer. She traces back to a long line of high performing females, who consistently raise bulls with extra size and power. 87'26 matches this power in a feminine package.

BA

We are proud to bring one of our best to the Belvin Sale. CSD Bride 4906 is a full sister to the \$57,500 feature in our Mother Lode Sale last fall that sold to ZWT, and she offers the pedigree, presence and service to be a feature in her own right. Her \$100,000 dam has produced a flush that sold for \$75,000 US, along with numerous high sellers, including the \$140,000 top seller at the Brooking Bull Sale this spring to Arrowsmith and TK Angus. Next Generation has made a mark in the industry, and 4906 shows why. She is stout featured, big hipped and soft made, with plenty of power in a feminine package. She is safe to Coleman Rolex 5172, the calving ease bull Jax purchased for Chapman Cattle Co & Canadian Sires + Donors. Rolex is a special bull that we will build around in the future because of his quality, smooth shoulder, attractive head, double digit calving ease and negative birth weight EPD.

B&B Blkbd Progress 0049

Four sires here offer exciting directions from the proven \$100,000 Bride 28C. Coleman Avalanche 487 is a bull of the future that brings a maternal pedigree line bred to Donna 714, with five sexed female embryos offered. SAV Gravity 4118 adds Schaff Angus Valley muscle, volume and performance and will be some of the very first offered. While Hummel South America introduces an outcross Argentine pedigree that we feel is one of the great breeding bulls out there. Koupals B&B Inevitable 509 is one of the most exciting bulls to sell this spring and here is a big time opportunity. Whether your priority is building females, adding power or introducing fresh genetics, there is a mating here worth studying. Located at TransOva, Iowa. If purchased by a Canadian, Canadian Sires + Donors will import them to Alta Genetics or Bow Valley Genetics FOC.

Study the pedigree of CD Annie K 4013, and it is hard to find a stronger collection of maternal influences. Double bred to EA Rose 918, she brings together the Emblynette, Annie K, Madame Pride, Blackcap May and Abigale families, with Renovation, Resource, Bank Note and Bismarck, the sires represented adding further depth. Her dam, KCH Annie K 13H, is a full sister to the renowned Brooking Firebrand 6068, a bull cattlemen continue to return to for his breeding strength, and we have recently flushed cows to him again. 4013 has the look to match that pedigree. She is an impressive young female with the kind of quality we believe will make her a productive cow for years to come. She carries the service of Coleman Rolex 5172, a standout of his calf crop that combines volume, structure and an exceptional phenotype with calving ease and a top 1% \$M ranking.

This mating brings together two animals we admire for their phenotype and maternal backing. The \$270,000 TW 4002 adds the power, rib and presence that made him a standout at Brooking, along with the influence of the Countess cow family. Annie K 13H is a full sister to Brooking Firebrand, who appears on TW's dam side, making this a close concentration of genetics we believe in. We are excited to see the quality and breeding potential this combination can produce. We truly feel after seeing TW's first calf crop hit the ground and how impressive they are, that 13H is the ideal cross for a grand slam mating.

frozen genetics

CANADIAN SIRES & DONORS

Donna 5037 comes from a young cow we think highly of. Riley and Gracie showed her dam, 3037, at numerous spring shows, where she often won her class and competed in division and won many. She has since matured into a beautiful cow with a perfect udder, an extended front end and a striking profile. After seeing her first calf in 5037, we expect to bring 3037 into our flush program in the near future. This April-born heifer has the maternal build and pedigree to follow in her dam's footsteps. Her lineage traces to Coleman Donna 714, the \$3.5 million producing Angus matriarch, with Bismarck stacked on 333 and South America, Foundation and 714 on the bottom side. She is safe to KT Sugar Lake 5454, a calving ease sire we are excited to use. Sugar Lake is a full sib to the the \$95,000 bull Rusylvia sold to Hamilton Farms and he combines double digit calving ease and a -1.0 birth weight EPD with the maternal influence of Glacier, Natural Law and his dam, the beautiful and productive PM Tibbie 216'15.

DAM AND GREAT GRAND-DAM

Erica 5008 offers an exciting blend of proven cow families and fresh genetics. Abigale, Beauty, Socialite and Erica are the four granddams behind her, complemented by the influence of Bismarck, Harvester, Range Boss, Charlo and Natural Law only adds confidence to incrusting in this pedigree. That lineage includes the legendary \$740,000 Erica 74A. Just as appealing is 5008's own build as she carries the strength and quality of her beautiful dam, a feature donor in our Mother Lode Sale last December who sold to MacDonell Farms for \$35,000. She is safe to the \$220,000 exclusive sire Greenwood Revenue 175M. His first calves have impressed us so much that we are using him more heavily now than when we bought him. We believe this mating, which also adds the influence of Envious Blackbird 58, gives 5008 an exciting start to her production career. Consigned with Armohr Farms.

DAM AND GRAND-DAM

Lady Charm 5020 is one of our favourites in the offering. Some cattle seem to look right from every angle, and she is one of them. She is beautifully headed and smooth through her front end, with natural rib shape, a level top and a square hip. Her teat placement gives us added confidence in the cow she will become. She strongly resembles her dam, DV Lady Charm 20L, an outstanding female phenotypically and one our crew hopes to show as an aged cow in the years ahead as she is so ideal in her build. With that maternal foundation and a build we find hard to fault, 5020 has a great deal going for her. She is safe to Greenwood Revenue 175M, whose first calf crop has exceeded the high expectations we had when we bought him. We are excited to see what this mating produces and truly feel the ROI potential here is as high as any in our offering.

DAM AND GRAND-DAM

Blackcap May, Madame Pride and Emblynette appear throughout the pedigree of CSD Emblynette 5423, bringing together some of the most influential cow families in the Schaff Angus Valley program. She is line bred to the famous 2369, a female admired for both her phenotype and production. 5423 has an angular, maternal look and the presence we like to see in a young female. Her pedigree is backed by performance, with top of the breed weaning and yearling weight figures alongside strong claw, angle, teat, udder and docility numbers. We see the pieces of a beautiful and productive cow coming together in this heifer. She is safe to KT Sugar Lake 5454, a young sire whose calving ease and maternal pedigree have us eager to see his calves arrive.

Beauty 912G has earned her place at the top of our donor program with her awesome feet, great udder, impressive phenotype and overall completeness backed by a first class pedigree. She is a direct daughter of TLA Beauty 6R, one of the most influential females to come from Brooking, and is sired by Brooking Bank Note 4040. She has the kind of presence that makes you stop for a second look: big bodied and deep ribbed, with a strong foot, a beautiful udder and an attractive, feminine front end. More importantly, she has begun putting that quality into her progeny. We have chosen sires that offer different strengths alongside 912G. Sitz Eternity 739L brings performance and power. Coleman Program 593, the 2026 Coleman sale feature, adds an exceptional combination of phenotype, mass and structure. RF Lit Up 357 is a mating we know well with 912G; his length, muscle and unmistakable presence make it one we are pleased to offer. Blair's External Law 266F adds the influence of the renowned Erica 74A family along with the dimension that has made him such a recognizable sire. Koupal's B&B Inevitable 509 was the talk of the 2026 sale season and here is an exclusive opportunity to get his first genetics. With a donor of 912G's quality behind them, these matings give breeders several compelling paths to a future herd sire or foundation female. Lots A, B, and E are located at Bow Valley Genetics, Alta. Lots C & D are located at Davis Rairdan, Alta.

Coleman Beauty 048 gives breeders a direct connection to the remarkable TLA Beauty 5R. Sired by Coleman Navigator 614, she is a full sister to the \$40,000 Coleman Beauty 058 and a maternal sister to the \$100,000 Soo Line Motive 9016. The influence of 5R has been felt through generations of cattle admired for their maternal function and look, and 048 carries that quality forward. She is elegant through her front end, deep ribbed and powerful, with the udder and structure we want behind an embryo offering. Her daughters are developing into the fertile, productive kind we expect from this family. Each sire gives buyers a different way to build on 048. Brooking Emerald 9179 has proven his ability to produce cattle that command attention in both the show ring and the sale ring. BC Robust 0807 brings added mass and volume, a natural complement to 048's maternal look. Blair's External Law 266F, a son of the great Erica 74A, adds another influential cow family along with performance and dimension. Coleman Platinum 2622 blends the Donna and Chloe families and brings power, length and maternal appeal to the final mating. We believe 048 has the quality to make each of these combinations count, whether the goal is a front-pasture female or a herd bull with a pedigree breeders will recognize. All lots located at Davis-Rairdan, Alta.
