THE ONTARIO LIMOUSIN ASSOCIATION PRESENTS

THE EASTERN SHOWCASE

ON OFFER ELITE LIMOUSIN GENETICS

FRIDAY DECEMBER 4TH
5-7 PM CATTLE VIEWING & SOCIAL

SATURDAY DECEMBER 5TH
10 AM CATTLE VIEWING
12 PM LUNCH BY OLA & JONES FEED MILL
1 PM SALE

WELCOME

Welcome to the Ontario Limousin Associations 6th annual Eastern Showcase sale.

This year's consignors have dug deep into their breeding programs to bring the best of the best to town. The cattle represented in this year's sale are a testament to the strength of the Limousin breed in Ontario. We continue to have strong outings at our provincial show in Markham and big numbers turning out for the Royal Agricultural Winter Fair with the competition getting fierce!

Commercially the Limousin breed demands respect in the sale ring with buyers seeking out Limousin genetics for their feedlots. This reflects in the reports of strong demand for Limousin Bulls.

Our Breed has a strong footing in the Cattle Industry thanks in large part to the work of members of the Ontario Limousin Association and the breeders in this sale.

I would like to thank the staff at Bohrsos for once again helping put this sale together and to the Sales Committee Emily Gibson-MacTavish, Rob Weppeler, Joe Young and Brent Black. Emily in particular is the driving force in this sale and we all owe her a debt of gratitude.

The Industry is in great shape, purebred sales are HOT!!! Maple Hills auction is the place to be December 5th 2026. Bid with confidence!!!

BEN BELANGER, OLA PRESIDENT

There is something special about a group of dedicated breeders coming together with a common goal of promoting their cattle, supporting one another and advancing the breed they are so passionate about. The Eastern Showcase is a tremendous example of exactly that, and as we prepare for the sixth edition of this outstanding event, we believe the Ontario Limousin Association and the entire group of consignors deserve a great deal of recognition for what they have built.

The Limousin breed has a proud history in Eastern Canada, backed by generations of hardworking cattle families who have remained committed to producing functional, productive cattle with the muscle, maternal strength and performance that the breed is known for. The breeders represented in this year's offering have continued that tradition while embracing progressive genetics and striving to improve their programs year after year. We have tremendous respect for their dedication, their commitment to the breed and, perhaps most importantly, their willingness to offer cattle from the very heart of their programs.

As you study the pages of this catalogue, you will find an exciting selection of bred heifers, open females and genetic opportunities that represent the depth and diversity of the Limousin breed. From powerful, maternally driven females with proven cow families behind them to stylish, eye-appealing prospects with tremendous futures, there is something here for every type of breeder. We particularly appreciate the effort these consignors have made to bring forward quality rather than simply quantity. Many of these females represent the very genetics these breeders are building their own herds around, and that speaks volumes about their commitment to the success of this sale and its customers.

One aspect of the Eastern Showcase that we especially admire is the involvement of young breeders and junior exhibitors. Throughout this catalogue, you will find females that have been successfully campaigned by juniors, along with cattle from families who are investing their time and energy into the next generation. That enthusiasm is encouraging to see and is incredibly important to the future of the Limousin breed. We commend everyone involved for fostering that passion and helping create opportunities for young cattle enthusiasts.

On behalf of Bohrsos Marketing Services, we are honoured to once again work alongside the Ontario Limousin Association and this tremendous group of breeders. We value the friendships we have developed throughout Eastern Canada and appreciate the trust these families place in our team. Jaxon and Martin particularly enjoy working with this group of breeders and have developed some great friendships along the way. They genuinely look forward to being part of the Eastern Showcase each year, visiting with the consignors and helping promote the cattle to their fullest potential. Both will be on hand again this year, ready to represent the offering, visit with prospective buyers and do everything they can to help make the sixth edition another successful event. We encourage you to visit with the consignors, study the offering and make plans to join us at Maplehill Auctions in Hanover, Ontario, on Saturday, December 5. We look forward to a great weekend of cattle, fellowship and celebrating the Limousin breed.

If we can be of any assistance with your selections or purchases, please do not hesitate to contact anyone on the Bohrsos Marketing team. We would be happy to visit about the offering and help you invest in genetics that can make a positive impact on your program for years to come.

HILLSIDE FARM

Bred to B-Bar Bentley on June 18 (Safe). No Exposure.

1 A well bred female with a deep pedigree and plenty of potential to make her mark in the breeding pen. Sired by Romn Made to Order, who left a huge imprint over the last twenty years especially in the Yorga, Anchor B and Top Meadow herds. She is out of a cow that we bought from Koyle's at this sale in 2021 who was sired by Electric Impact. This heifer has a bright future ahead of her and was bred on June 18, 2026 to calve on March 28, 2027 to the calving ease specialist, B-Bar Bentley.

AI Bred to Royal Jester on March 28 (Safe). No exposure.

2 Every year when Jaxon selects we hold nothing back and 159N is a perfect example as she comes right from the top of our bred heifer pen. Notebooks dam is a favourite young red female backed by our cornerstone donor Ella, this cow family does not miss. 159 is big framed, big bodied and should lay down a great udder, we love the dark red colour and hair quality. We think enough of this march born bred to drag her around this fall. Bred way along to the dark red Royal Jester.

GRANDAM AFTER HOURS ELLA

POSTHAVEN LIMOUSIN

Observed bred to Posthaven Next Energy on May 3 (Safe). Due February 13, 2027.

3

Melanie was the top of our BLCC K544 Hiawatha heifers – a sire who made his mark on our herd with progeny that were always in high demand, and hard to keep around. This homo polled daughter is from a powerhouse female we selected from Richmond Ranches – NEM Hermine. Consistent, dependable producing cow family – Melanie will follow in those footsteps for certain. She carries the first service of the year from Posthaven Next Energy, our Greenwood Rooster 84L son, who is turning heads in the show ring in 2026, and whose first calf crop looks to be exciting and will result in a quick ROI on this female.

4

This one is hard to part with. Natalia has been Adam's 4H project – dragged to every show we ever attended over the last 24 months. Her highlight to date was being named Reserve Grand Champion Beef Female at the Meaford Fall Fair 4H Invitational Show. Trained as a calf, she is the first daughter of Anchor B Kesha, a Gold Rush daughter we selected from the Family Matters sale a few years back. Homo polled, puppy dog quiet – from the top of our cow herd. There is no other way to say it, this is from the top of our 2026 bred heifer pen. In addition, she carries the service of Posthaven Next Energy, our Greenwood Rooster 84L son, who has been mapping out his own show career in 2026 – a very exciting mating due March 2027.

DAM ANCHOR B KESHA 12K

SERVICE SIRE POSTHAVEN NEXT ENERGY

NEW LIFE LIMOUSIN

5 Another powerful yet maternal daughter of the past Royal Champion Bouncer and granddaughter of another Royal champion Bianca to add the style to the package. The extra age that she has only adds to the strength of this female. With an early service to our new and genetically fresh calving ease sire NASH we expect to have an early ROI for the new owner of this brood matron in the making.

Observed bred to Excels Nash 9N on April 21 (Safe). Exposed to Excels Nash 9N from March 29 - May 22.

8 As you line up the lineage of this solid heifer you can see where she inherited the look and performance from. All the way back to the Urban Girl and then packed with the breed leading sires both top and bottom give confidence to genetic makeup. You may have noticed that we talk a lot of the maternal strength of these females and rightfully so, as it is the base in which to build from and the cornerstone of every successful program. We rely heavily on the cow base of our program for the success that we have had. With the service to Nash expect the furtherance of this lineage to succeed.

Observed bred to Excels Nash 9N on April 28 (Safe). Exposed to Excels Nash 9N from March 29 - May 22. SIRE RPY PAYNES BOUNCER 63K MATERNAL SISTER

BENVILLE FARMS

Exposed to Amaglen National AJH 23N starting May 1, 2026. Preg checked safe on August 22, 2026 for estimated late March calving.

DAM BENNVILLE GEN ESRA

9 This stout-made, traditional style heifer comes from a deep dam line in our herd, going back several generations, and including her maternal grand-dam Super Elite Dam Bennville Chloe 4C. Her mom is a herd favourite and always raises an eye-catching calf, and this heifer looks ready to follow in her footsteps. Also boasting a solid EPD profile top to bottom, with all numbers at or above breed average, this gal has got all the goods to be a standout in the herd herself.

10 The dam of this heifer really caught Jaxon's eye last year at selection time. While we couldn't part with her dam, we thought it would be a fair compromise to offer up her first heifer, and this heifer does her mom proud. She is an easy-doing female, that's for sure, with impressive depth, length and muscling on a moderate size frame.

DARLING FARM

Observed bred to Darling No Fly Zone 4N on April 21 (Safe). Exposed to same from April 12 - May 31.

11 Here is your opportunity to get your hands on one of our favourite home-grown females to date! Honestly, it's a miracle that this female is even consigned to a sale. When looking through our heifer pen this spring, 39N was not even considered for a sale female, as we had no intention of selling her. However, we wanted to add some major depth to this special event and knew that she would be the perfect choice! Darling No Doubt 39N is a deep-sided, long bodied, sweetheart who has been nothing but fun to watch develop throughout the season. Don't let her bring horned lead you to miss out on this exciting opportunity. Our loss is definitely your gain!

YOUNG LIMO FARMS

AI bred to AHL GW Living The Dream on March 23 (Safe). No Exposure.

17 A big, deep dark red bred heifer that brings it all together in one pretty package. Warhorse stamps his daughter's with a great amount of thickness, rib and length. She moves well and is dropping a nice udder just like her dam who came to us from the New Frontier Limousin Dispersal years ago. Bred early to Living The Dream which is sure to make for an interesting pedigree.

SERVICE SIRE LIVING THE DREAM

ZIMMERMAN CATTLE CO

Exposed to Bee Zee Polled Neptune from April 12 - May 31 (Safe). Vet's opinion due early February.

18

Zimmerman Nicole is a well made daughter of Wulfs Kactus and of a Amaglen Contractor daughter from smart limousin she is a wide made easy doing female. She is bred to the high selling bull at Bee Zee Acres 2026 bull sale which should make a quick ROI.

AFTER HOURS LIMOUSINS

AI Bred to Royal Jester on March 28 (Safe). No exposure.

20 Every now and then we dig back into the tank and use our past herdsire Adrenaline, a calving ease bull whose females still remain some of our very best uddered females we've ever raised. Nifty is no different, backed by a division champion at the Royal we purchased from Rail Line. 149N is long bodied, elegant and maternal in her look and was shown successfully this summer as a 4h project. A really attractive female I think could raise some show heifers once in production.

MATERNAL SISTER

NEW LIFE LIMOUSIN AND VENTURE LIVESTOCK

Observed bred to Excels Nash 9N on April 12 (Safe). Exposed to Excels Nash 9N from March 29 - May 22.

22 Our sole black entry for the sale is this daughter of our past calving sire Clark's Knightrider. Genetically he stems back to the Stetson bull who has left a trail of success throughout North America. He was a solid producer of well-built and good performing progeny for us with calving ease and style in them. On the dam side of the pedigree, it is stacked with Horton, Tank, Zodiac blended into the immortal Foxtrot family from Boon. And this female was herself a past champion at the Royal where she topped the sale and became our donor pen anchor. Built in value and mated to Nash should continue the excellence.

ZIMMERMAN CATTLE CO

41 Zimmerman PAYTON is a smooth made fine bodied daughter of B Bar Vle affirmed and is a et daughter off one of our favourite most consistent cows. Her Dam is an easy keeping cow from Payne livestock who has been a back bone in our herd. Payton is one to watch.

SIRE B-BAR / VLE AFFIRMED 9L

MATERNAL SISTER

YOUNG LIMO FARMS

42 This Warhorse heifer calf is sure to turn heads on sale day as she has all year. She is long, thick and super fancy. She won the 100k JACKPOT SHOW at THE CJLA IMPACT in Walkerton. The next day she won CHAMPION HEIFER CALF. Her dam is a big hard working cow that puts it all in to her calves and this heifer is sure to do the same. We think this girl has a very special future ahead of her.

43 A mating stacked with influential Limousin genetics and exciting potential! Greenwood Grand Entry 704G ET combines the proven bloodlines of Border Agent and Greenwood PLD Zoom Bloom, while New Life Hope 34H ET brings together RPY Dillinger, the influential HSF Zena cow family, and Ivy's Bianca. A heifer from this very mating showcases exceptional depth of body, tremendous rib shape, and a powerful, balanced design. An exciting opportunity to invest in genetics with the potential to produce elite breeding females, competitive show prospects, and future herd sires!

FULL SISTER TO EMBRYOS

Package of 3 embryos 1 - 90 day guarantee. Package of 5 embryos with 2 - 90 day if implanted by a certified technician. Embryos stored at Eastgen buyer is responsible for shipping and handling.

AFTER HOURS LIMOUSINS

Package of 1 embryos with 1 - 90 day guarantee if implanted by a certified technician.

SIRE OF EMBRYOS GREENWOOD ROOSTER

44

Last year we purchased the right to flush Loyal Line London from the Black family and man did she ever deliver in one OPU. A different twist on pedigree so it was a no brainer to do her to sexed Rooster. For the number guys, this mating will rank among the best in the breed across the board.

LOYAL LINE LIMOUSIN

IVF Flush will be done with Boviteq and ProVistro. Guaranteed 5 freezable embryos and all embryos from flush will go to the buyer.

45

Don't pass up this opportunity. Fat Bottom Girl has been a standout since birth. We are offering the opportunity to flush one of the best cows that we have ever produced. FBG has muscle, thickness, guts and moves like cattle should. If you study this cow's production record you will see she produces top quality heifers along with bulls. FBG's dam DVFC Nina was the lead off lot of the Deer Valley Farm Limousin Dispersal. FBG's sire AHCC Westwind has produced many champions over the years. You select the bull you want to mate with this fine genetic tank of a cow. She was flushed as a yearling and produced 52 oocytes with 17 freezable embryos. She calved in September and will be ready to flush in January. You could have embryos ready early 2027. You are going to spend a lot of time and gas looking for a better LIMOUSIN cow.
